NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Buffalo Pharmacies, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code (IRC). The Plan is funded by employee and employer contributions and covers substantially all employees of Buffalo Pharmacies, Inc. (the Company), except union employees and nonresident aliens, who complete six months of service and are age 21 or older. The assets of the Plan are maintained in investments held by John Hancock Life Insurance Company of New York (John Hancock), the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan, determining the appropriateness of the Plan's investment offerings, monitoring investment performance and reports to management of the Company.

Contributions: The Plan provides for participant pre-tax contributions up to 100 percent of compensation, as defined, up to the maximum annual limitation allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

The Company makes matching contributions to the account of each eligible participant in an amount equal to the sum of 100 percent of the amount of the participant's elective deferrals that do not exceed 3 percent of the participant's compensation, plus 50 percent of the amount of the participant's elective deferrals that exceed 3 percent of the participant's compensation but do not exceed 5 percent of the participant's compensation. The employer matching contribution is designed to meet the safe harbor requirements.

The Company may also make discretionary matching contributions at a percentage determined by the employer and applied uniformly to all employees, as well as discretionary profit-sharing contributions. There were no discretionary matching or profit-sharing contributions during the years ended December 31, 2019 or 2018.

Participant Accounts: Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their voluntary contributions, safe harbor contributions, and actual earnings thereon. Should the Plan be deemed top-heavy, an alternate vesting schedule will apply for those top-heavy years. Participants are 100 percent vested in discretionary employer matching contributions and discretionary profit-sharing contributions after three years of service (zero percent vested until three years of service). Rollover contributions are fully vested immediately.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum loan amount of $1,000 and a maximum amount of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years and may exceed five years for the purchase of a participant's primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of his or her vested account balance, or annual installments over various terms. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. A participant can also withdraw all or any portion of their vested account in the event of financial hardship. In-service distributions may be made upon attainment of age 59 ½ without penalty.

Forfeited Accounts: Forfeited non-vested accounts may first be used to pay Plan administrative expenses then to reduce matching contributions made by the Company. There were no forfeitures available at December 31, 2019 or 2018.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their discretionary employer matching contributions and discretionary profit-sharing contributions. Any unallocated assets of the Plan shall be allocated to participants accounts and distributed in such a manner as the Company may determine.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers, trustees and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on accrual basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Tax Status: The Plan adopted a volume submitter plan sponsored by Rimkus Marciano and Associates Inc. (Rimkus). The volume submitter plan has received an opinion letter dated March 31, 2014, that the volume submitter plan and related trust are designed in accordance with the applicable section of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

NOTE 3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820: Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled Separate Accounts: The separate accounts are stated at fair value based on the quoted market prices of the underlying mutual funds. The unit value of the separate accounts is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares. In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy.

Guaranteed interest contract: Guaranteed interest contracts are valued at fair value by the insurance company by discontinuance value which is the amount the plan participant will receive if they transfer or surrender their funds out of the guaranteed interest contracts at a market value adjustment which moves with market interest rates or a flat discontinuance charge. In determining the reasonableness of the methodology, the Plan Administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). The guaranteed interest contracts are classified as Level 3 assets.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Pooled separate accounts (a)	$ -	$ -	$ -	$ 8,148,446
Guaranteed interest account	-	-	72,919	72,919
Total assets at fair value	$ -	$ -	$ 72,919	$ 8,221,365

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Pooled separate accounts (a)	$ -	$ -	$ -	$ 6,516,211
Guaranteed interest account	-	-	22,797	22,797
Total assets at fair value	$ -	$ -	$ 22,797	$ 6,539,008

(a) In accordance with FASB ASC 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2019 and 2018.

NOTE 8. SUBSEQUENT EVENTS

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. As a result, the Plan's investments may have incurred significant volatility in fair value since December 31, 2019.

During 2020, the United States Congress passed the CARES Act and SECURE Act. The Plan is currently evaluating adoption of these provisions. The CARES Act amendment enables participants impacted by the coronavirus to take a penalty-free distribution, allows current outstanding loan payments to be delayed for up to 12 months, and increases the maximum loan limits for loans taken as a result of the virus. The SECURE Act amendment changes the required minimum distribution age from 70½ to 72. Effective January 1, 2020, the Plan has adopted the hardship portion of the SECURE Act that repeals the necessity provisions and will not suspend the participant from making elective deferrals on account of receipt of a hardship distribution. An official amendment to the Plan is expected to be signed prior to December 31, 2022 for the other provisions of the CARES Act and SECURE Act that have yet to be adopted.

Subsequent to year-end, the Plan changed service providers for third party administration of the plan from John Hancock Life Insurance Company of New York to ADP Retirement Services.

These financial statements have not been updated for subsequent events occurring after September 23, 2020, which is the date these financial statements were available to be issued.
