INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
Cornwell Quality Tools Company
Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Cornwell Quality Tools Company Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Cornwell Quality Tools Company Employee Stock Ownership Plan as of December 31, 2019 and 2018, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 2, the financial statements include investments valued at approximately \$41,002,000 (96% of net assets) at December 31, 2019 and approximately \$32,785,000 (96% of net assets) at December 31, 2018, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by independent consultants. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

EMPLOYEE STOCK OWNERSHIP PLAN**

NOTES TO FINANCIAL STATEMENTS

December 31, 2019 and 2018

1. DESCRIPTION OF PLAN

General

Cornwell Quality Tools Company (the Company) established the Cornwell Quality Tools Company Employee Stock Ownership Plan (the Plan) effective January 1, 1998. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an administrative committee comprised of individuals appointed by the Company's Board of Directors. Mills, Potoczak & Company serves as the Plan's trustee. The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Company contributed common shares of stock to the Plan which is held in a trust established under the Plan. Employees are not permitted to make contributions.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after working at least 1,000 hours during a calendar year and are at least 21 years of age. Participants who do not have at least 1,000 hours of service during such calendar year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year. Allocations are made to eligible participants in the ratio that each participant's eligible compensation for the Plan year bears to the total eligible compensation paid to all participants during the Plan year.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock and cash contributions and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. All common shares of stock held by the Plan are allocated to participant accounts and there were no unallocated assets or liabilities as of December 31, 2019 and 2018.

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Vesting

A participant's account becomes fully vested and non-forfeitable after six years of service has been credited to the participant in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Amount</u>
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

Upon termination of service, death, disability, retirement or other reasons, participants with a vested interest in their account of \$100,000 or less will receive a lump-sum distribution. Participants with a vested interest in their account of more than \$100,000 can receive their distribution in annual installments over a period not to exceed five years at the discretion of the Company.

The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

Forfeitures

Forfeited non-vested accounts totaled \$132,020 in 2019 and \$141,764 in 2018. Forfeitures are allocated to eligible participants in the same ratio as Company contributions. There were no unallocated forfeitures as of December 31, 2019 and 2018.

Voting Rights

With respect to matters (subject to Ohio law or the Company's Articles of Incorporation or Code of Regulations) which must be voted upon by plan participants, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradeable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account.

Diversification is offered to each eligible participant over a five-year period. In each of the first five years, a participant may diversify up to 25% of the balance in their stock account, less any amounts previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify can receive a cash distribution or roll over amounts into another qualified account.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

CORNWELL QUALITY TOOLS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, independent appraiser and trustee.

The investment in the Company common shares is valued as of December 31, 2019 and 2018 at \$41,002,000 and \$32,785,000 (\$19,760 and \$15,800 per share), respectively, based upon an appraisal performed by an independent valuation firm, and approved by the Plan's management. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash

The Plan maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. The Plan has not experienced any losses in such accounts. The plan administrator believes that the Plan is not exposed to any significant credit risk on its cash.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standards Update (ASU) 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurements*. This standard is intended to improve the effectiveness of disclosures in the notes to the financial statements and modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurements*. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. The Company is currently evaluating the impact of this ASU.

Payment of Benefits

Benefits are recorded when paid.

**CORNWELL QUALITY TOOLS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN**

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Dividends

When declared, dividends paid by the Company on shares allocated to a participant's account are accrued and distributed quarterly to the participants unless a participant elects to reinvest his or her dividends. The election to reinvest some or all dividends paid with respect to the Company common stock is available to participants as soon as they become eligible under the Plan and may be changed 30 days prior to the beginning of a calendar quarter. Participants are fully vested in all reinvested dividends.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, non-recognized subsequent events).

The Plan has evaluated subsequent events through August 28, 2020, which was the date that these financial statements were available for issuance, and determined that there were no significant non-recognized subsequent events through that date, except as disclosed in Note 10.

3. ADMINISTRATION OF TRUST ASSETS

The Plan's assets, which consist principally of Cornwell Quality Tools Company common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash or stock received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company who make up the Administrative Committee. No such officer or employee receives compensation from the Plan or trust. Administrative expenses for the trustee's fees are paid as determined by the Company's Board of Directors and are not included in the Plan's financial statements.

CORNWELL QUALITY TOOLS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

4. EMPLOYER CONTRIBUTIONS

The Company is obligated to make contributions in cash or stock to the Plan as determined by the Company's Board of Directors. Company contributions during any Plan year may not exceed 25% of the aggregate compensation of all participants during the Plan year unless a portion of the Company's contributions is applied to repay a portion of an acquisition loan.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets,
- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability,
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Investment in employer stock: Valued at the fair market value of shares held by the Plan at year end as determined by an independent appraiser. In approaching the value a variety of factors are taken into consideration, including:

- a. The nature and history of the business, its current position, and its outlook,
- b. The general and relevant economic conditions prevailing at the time of the appraisal; and
- c. The current conditions and outlook in the market in which the subject company competes.

The approach to determining fair value of the common stock involved the following:

- a. Determine estimated fair value of shares of common stock using the Guideline Public Traded Company Method. Comparative valuation analysis is a technique that determines a value based on a direct comparison of the subject company to publicly traded companies where pricing and other financial data are available.
- b. Apply a Marketability Discount to the results. Applying a discount to reflect the lack of marketability.

Plan management accumulates the data as requested by the Trustee and its independent financial advisor from the audited financial statements of the Company. The Trustee's independent advisor prepares a preliminary report which the Trustee reviews in detail, discusses and approves. The results of this process are documented by the Trustee.

These policies and procedures are reassessed annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third party information.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	<u>2019</u> <u>Level 3</u>	<u>2018</u> <u>Level 3</u>
Investment in employer stock at fair value	\$ 41,002,000	\$ 32,785,000

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	<u>Investment in Employer</u> <u>Common Stock</u>	
	<u>2018</u>	<u>2018</u>
Balance, beginning of year	\$ 32,785,000	\$ 28,801,000
Unrealized gains	<u>8,217,000</u>	<u>3,984,000</u>
Balance, end of year	<u>\$ 41,002,000</u>	<u>\$ 32,785,000</u>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

Changes in Fair Value Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2019 and 2018, there were no such transfers.

6. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, statements of changes in net assets available for benefits and participants' individual account balances. As of December 31, 2019 and 2018, approximately 96% of the Plan's net assets available for benefits were invested in shares of the Company common stock.

NOTES TO FINANCIAL STATEMENTS (Continued)

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will become 100% vested and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (IRC).

8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated July 21, 2017, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which include principally 2,075 shares of the Company's common stock, are held by the trustees of the Plan. Transactions involving the funds administered by the Company are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 4089(b) of the ERISA regulations. Employees of the Company provide administrative services to the Plan for which no fees are charged.

10. SUBSEQUENT EVENTS

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment market. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time. Plan management is carefully monitoring the situation and evaluating its options related to the Plan. No adjustments have been made to these financial statements as a result of the uncertainty
