De Nora 401(k) Savings Plan

Notes to Financial Statements

1. Plan Description

The following description of the De Nora 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all salaried and hourly employees of De Nora Tech, LLC (the Company). Employees are eligible to participate in the Plan provided they have worked for the Company for a period of 30 days. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Subject to limitations contained in the Plan and under the Internal Revenue Code (IRC), participants may contribute up to 50% (in whole percentages) of their pretax earnings (earnings, as defined).

The Plan also includes a qualified automatic contribution arrangement (QACA). Under the QACA a participant's minimum deferral election is equal to the higher of: (a) 3% of Plan compensation (compensation, as defined) up to 8% of compensation (based on years of participation), or (b) their present elective deferral percentage plus 1%. All QACA deferrals are subject to the maximum elective deferral limit under the Plan of 10% of compensation.

The Company contributes an amount equal to 100% of participants' contributions up to 3% their compensation and 50% of participants' contributions between 3% and 6% of their compensation. Company contributions are allocated across investment funds available proportionally as elected by the participants. The Company, at its discretion, can make an additional contribution to the Plan for all employees that completed at least 1,000 hours during an eligible year of service and were employed as of the last day of the respective Plan year. The additional contribution for the years ended December 31, 2019 and 2018 was \$925,902 and \$784,400, respectively.

Effective January 1, 2018, the Plan was amended to permit participants to make Roth 401(k) contributions to the Plan. Further, this amendment permits participants who are otherwise permitted to make in-service withdrawals of their vested benefit to transfer amounts from various pre-tax contribution accounts to their Roth elective deferral account.

Participant Accounts

Each participant's account is credited with the participant's and Company contributions, as well as an allocation of Plan earnings and losses. Allocation of the earnings and losses is based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Additionally, participants elect to maintain their accounts in a combination of investment funds. Separate accounting for each of the participants' funds is maintained pursuant to the participant's designated election.

De Nora 401(k) Savings Plan

Notes to Financial Statements

Vesting

A participant always has a nonforfeitable interest in that portion of Plan assets attributable to his or her contributions. The Company's contributions vest upon an employee completing two years of service, commencing with the employee's original hire date. However, upon the participant's attainment, while employed by the Company, of normal retirement age (age 65), retirement, death, or total and permanent disability, a participant shall be fully vested in Company contributions. The Company's discretionary additional contributions vest upon an employee completing three years of service, commencing with the employee's original hire date.

Notes Receivable from Participants

Participants are eligible to take out loans (after one year of participation in the Plan) against vested amounts accumulated in the Plan on their behalf. The Plan limits the loan amount to a maximum of \$50,000 minus the difference, if any, between the participant's highest loan balance during the previous one-year period preceding the date the new loan is to be made and the participant's outstanding loan balance the day before receiving the new loan; or, fifty percent of the participant's vested account balance, whichever is less. Participants can only have one loan outstanding under the Plan at any time. The loans are repayable over one to five years, unless used to acquire a principal residence, and bear interest at the prime rate plus one percent as of the loan date. Interest rates ranged from 4.25% to 9.25% on loans outstanding at December 31, 2019 and 2018.

Forfeitures

Forfeited non-vested accounts totaled \$0 and \$1,526 at December 31, 2019 and 2018, respectively. These accounts are used for payment of Plan expenses or to reduce future Company contributions to the Plan. For the years ended December 31, 2019 and 2018, Company contributions and administrative expenses were reduced by \$54,049 and \$70,581, respectively, from forfeited non-vested accounts.

Distributions

Vested benefits are payable upon the participant's attainment of age 59-1/2, five years of service with the Company (as defined), separation from service with the Company, death, or total and permanent disability. With respect to distributions, if the vested balance is greater than \$1,000 and less than \$5,000, and the participant does not make an election to either receive or to roll over the distribution, the distribution must be rolled over to an IRA. If the vested balance is \$1,000 or less, the form of distribution remains as a single lump-sum payment.

Effective January 1, 2018, the Plan was amended to permit a participant to withdraw a portion of his or her vested account balance in specialized circumstances of immediate and heavy financial need (hardship distribution). These withdrawals may be subject to a 10% penalty. A participant who receives a hardship distribution shall be prohibited from making elective deferrals for six months after receipt of the distribution. Effective January 1, 2020, the 6-month suspension of elective deferral contributions was no longer applicable to conform to the provisions of the Bipartisan Budget Act of 2018.

De Nora 401(k) Savings Plan

Notes to Financial Statements

Administration

The Plan is administered by the Investment Savings Committee (Committee). Members of the Committee are appointed by the Chief Operating Officer and approved by the Company's Board of Directors. The Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee, receives and holds Plan assets and makes distributions to participants in accordance with the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements and supplemental schedules have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value with the exception of the guaranteed investment contract, which is stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the contract value of the guaranteed investment contract, and the Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains or losses and the unrealized appreciation or depreciation on those investments.

Investment transactions are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivables from participants are reclassified as distributions based upon the terms of the Plan document.

Distributions

Benefit distributions are recorded when paid to participants.

De Nora 401(k) Savings Plan

Notes to Financial Statements

Expenses of the Plan

Direct fees and expenses related to investment transactions are paid from the Plan. All other fees and expenses relating to the operation of the Plan and its related trust are paid by the Company.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate and market fluctuations. Due to the level of risk associated with certain investment securities, as well as the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in investment values in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2018-13, *Fair Value Measurement (Topic 820), Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 eliminates certain disclosures including the disclosure related to transfers between Level 1 and 2 investments, the valuation policies for Level 3 measurements and, for nonpublic entities, the change in the Level 3 investments' unrealized gains and losses included in earnings. This ASU also amends certain disclosures including disclosing purchases, sales, and transfers for Level 3 investments instead of the Level 3 roll-forward. ASU 2018-13 is effective for periods beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact of this ASU on the Plan's financial statements.

Evaluation of Subsequent Events

The Company has evaluated subsequent events through October 1, 2020, which is the date the financial statements were available to be issued. See Note 11.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

De Nora 401(k) Savings Plan

Notes to Financial Statements

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: The fair values of participation units in the pooled separate accounts are based upon the net asset values (NAV) of such accounts, which are provided by the trustee. The NAV is based on the underlying assets owned by the account less liabilities and then divided by the number of shares outstanding. The accounts are made up of a wide variety of underlying investments that seek to replicate the movements of an index of a specific financial market, such as the Standard & Poors (S&P) or New York Stock Exchange (NYSE). The accounts allow for daily redemptions and contributions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

De Nora 401(k) Savings Plan

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

<i>December 31, 2019</i>	Fair Value Measurements at Reporting Date Using			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 30,027,613	\$ -	\$ -	\$ 30,027,613
Assets measured at NAV (a)				37,048,699
Investments, at fair value	\$ 30,027,613	\$ -	\$ -	\$ 67,076,312

<i>December 31, 2018</i>	Fair Value Measurements at Reporting Date Using			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 23,492,809	\$ -	\$ -	\$ 23,492,809
Assets measured at NAV (a)				28,432,721
Investments, at fair value	\$ 23,492,809	\$ -	\$ -	\$ 51,925,530

(a) In accordance with ASC 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

4. Investments/Notes Receivable from Participants (Unaudited)

All investment and notes receivable from participants information disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2019 and 2018, and the net appreciation (depreciation) in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years ended December 31, 2019 and 2018, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee.

De Nora 401(k) Savings Plan

Notes to Financial Statements

5. Investment in Fully Benefit-Responsive Investment Contract

The Plan's investment in a fully benefit-responsive investment contract is valued at contract value as reported to the Plan by the trustee. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the guaranteed investment contract. The NAV practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The fund's objective is to maintain stability of principal through underlying assets which maintain an average S&P credit quality. Participant transactions (purchases and sales) may occur daily. All other withdrawals of assets may be delayed for up to twelve months at the sole discretion of the trustee.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status of the Plan

The Plan uses a prototype plan document sponsored by McDonald Hopkins, LLC. McDonald Hopkins, LLC received an opinion from the Internal Revenue Service (IRS), dated March 31, 2008, which stated that the prototype plan document satisfied the provisions of Section 401 of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and currently being operated, in compliance with the applicable requirements of the IRS and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Prohibited Transactions

During 2016 and 2015, the Company failed to timely transmit participant contributions and loan repayments to the Plan totaling \$13,493 and \$50,105, respectively. The contributions were corrected at various times from 2015 to 2019. Earnings related to these contributions were credited to participant accounts in 2019.

9. Parties-in-Interest and Related Party Transactions

Transactions that qualify as parties-in-interest consist of purchases and sales of Principal Life Insurance Company funds sponsored by an affiliate of the Plan's trustee and notes receivable from participants.

De Nora 401(k) Savings Plan

Notes to Financial Statements

During 2019 and 2018, the Plan was under contract with Principal Life Insurance Company to provide various administrative services. Fees paid by the Plan for these services for the years ended December 31, 2019 and 2018 were \$20,589 and \$18,206, respectively.

During 2019 and 2018, the Company utilized the prototype plan sponsor for plan administration and other consulting matters. The fees for these services were paid by the Company.

10. Differences Between Financial Statements and Forms 5500

<i>December 31,</i>	2019	2018

Net increase (decrease) per the Forms 5500	\$ 14,697,528	\$ (2,807,782)

11. Subsequent Events

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the COVID-19 Outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 Outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 Outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

De Nora 401(k) Savings Plan

Notes to Financial Statements

On March 27, 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to Plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000;
- Increased the available loan amount as described in Note 1 to the lesser of \$100,000 or 100% of the participant's vested account balance;
- Extended the period for loan repayments, if applicable, up to one year.

Although Plan management cannot estimate the length or gravity of the impact of the COVID-19 Outbreak at this time, if the pandemic continues, it may have an adverse effect on the Plan.
