Maintenance Methods, Inc. and Adopting Affiliates 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2019 and 2018

Note A - Description of Plan

The following description of the Maintenance Methods, Inc. and Adopting Affiliates 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan is a defined contribution plan covering all eligible employees of Maintenance Methods, Inc. and related adopting employers (referred to collectively as the "Company"). Employees must have attained age 18 and completed one year (1,000 hours) of service to be eligible to participate in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").
2. Contributions: Each year, participants may elect to contribute up to the maximum compensation permissible under the Internal Revenue Code ("IRC"). The Company may make matching contributions equal to a discretionary percentage to be determined by the Company on an annual basis. No matching contributions were made for the Plan year ended December 31, 2019. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. Contributions are subject to certain limitations.
3. Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and Company matching contribution, if any, as well as an allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant becomes 100% vested after five years of credited service.
5. Investment Options: Upon enrollment in the Plan, participants may direct the investment of their accounts into various investment options offered by the Plan. They may change their investment options among those investments provided at any time during the Plan year.
6. Payment of Benefits: Upon termination of service or attaining normal retirement age, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments not exceeding the participant's life expectancy. In-service withdrawals are also allowed as defined in the Plan agreement.
7. Forfeited Accounts: Forfeited account balances may be used to pay administrative expenses of the Plan or reduce employer matching contributions. Forfeited account balances totaled \$8 at December 31, 2019 and 2018. No forfeitures were used during the Plan year ended December 31, 2019.

Note B - Summary of Significant Accounting Policies

1. Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Accounting Standards Codification ("ASC") as produced by the Financial Accounting Standards Board ("FASB") is the sole source of authoritative U.S. GAAP.

Notes to Financial Statements (Continued)
December 31, 2019 and 2018

Note B - Summary of Significant Accounting Policies (Continued)

2. Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
3. Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

4. Payments of Benefits: Benefits are recorded when paid.
5. Administrative Expenses: Administrative expenses of the Plan are paid by the Company or Plan participants, as defined in the Plan agreement.
6. Investment Management Fees and Operating Expenses: Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.
7. Recent Accounting Pronouncement: In August 2018, the FASB issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements. The adoption of ASU 2018-13 is not expected to have a material impact on the financial statements.
8. Subsequent Events: Subsequent events for the Plan have been considered through the date of the Independent Auditor's Report which represents the date the financial statements were available to be issued. See Note J.

Note C - Information Certified by the Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Capital Bank and Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investment information reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018, the Schedule of Assets (Held at End of Year) at December 31, 2019, and the related investment income information reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

Note D - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 717,309	\$ -	\$ -	\$ 717,309
Investments, at fair value	<u>\$ 717,309</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 717,309</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 725,311	\$ -	\$ -	\$ 725,311
Investments, at fair value	<u>\$ 725,311</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 725,311</u>

Maintenance Methods, Inc. and Adopting Affiliates 401(k) Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2019 and 2018

Note E - Related Party Transactions

Certain administrative services are provided by the Company at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Company.

Certain Plan investments are mutual funds managed by American Funds Distributors, Inc. ("AFD"). AFD is affiliated with the trustee, Capital Bank and Trust Company, and, therefore, these transactions qualify as party-in-interest.

Note F - Income Tax Status

The Internal Revenue Service ("IRS") ruled on March 31, 2014 that the Non-Standardized Prototype Plan (the prototype of AFD, upon which the Plan is based), as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note G - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Note I - Non-exempt Transactions

During the Plan years ended December 31, 2019 and 2018, employee withholdings totaling \$21 and \$2, respectively, were not remitted to the trust within the appropriate time period by the Company. These transactions constitute prohibited transactions as defined by ERISA. The Company remitted the withholdings in 2019 and 2018, respectively, and remitted lost earnings to the Plan for all outstanding years in 2020.

Maintenance Methods, Inc. and Adopting Affiliates 401(k) Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2019 and 2018

Note J - Subsequent Events

In March 2020, the World Health Organization declared the global novel coronavirus disease 2019 ("COVID-19") outbreak a pandemic. Further, the United States Centers for Disease Control and Prevention confirmed the spread of the disease throughout the United States. The COVID-19 outbreak has triggered volatility in financial markets and a significant negative impact on the global economy. The ultimate impact to the Plan and Plan Sponsor is not known at this point as the scale and severity of the outbreak, and resulting economic impact, is still largely unknown.

On March 27, 2020, Congress passed the *Coronavirus Aid, Relief, and Economic Security Act* ("CARES Act"). The Plan was operationally amended to implement certain changes provided for under the CARES Act including temporary penalty-free distributions and delay of required minimum distributions.
