Report of Independent Auditors

To the Administrator of
Henry Crown and Company Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Henry Crown and Company Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2018 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2019 and 2018 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental schedules of Assets (Held at End of Year) as of December 31, 2019 and of Reportable Transactions for the year ended December 31, 2019 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2019 and 2018

1. Description of the Plan

The following description provides general information on the provisions of the Henry Crown and Company Pension Plan (the “Plan”), a multiple-employer plan, sponsored by Henry Crown and Company S LLC, (the “Company”). Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was adopted effective January 1, 1985, and was last amended and restated effective January 1, 2012, to comply with law changes.

The Plan is a noncontributory, defined benefit plan currently covering salaried employees of the Company and Longview Asset Management, LLC (each as “Employer”).

The Plan also provides benefits to participants of the Company’s discontinued or sold operations:

- Petroleum and marine operations
- CHF Industries, Inc. and its Aberdeen, Cameo and Joanna Divisions
- American Envelope Company and its various divisions
- Woodard, LLC

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The Northern Trust Company is the trustee of the Plan.

Participation

Generally, employees are eligible to participate after attaining age 21 and completing 12 consecutive months of service.

Funding Policy

The Employers make annual contributions based on the funding recommendations of the Plan’s actuary to meet the minimum funding requirements under ERISA. The Plan is in compliance with applicable ERISA funding requirements for 2019 and 2018.

Principal Benefit Provisions

Salaried Employees

The monthly retirement benefit payable on a participant’s normal retirement date for all eligible participants of businesses currently participating in the Plan is one-twelfth (1/12) of the sum of the following amounts determined for each year of credited service:

Plan Years 1985 Through 1988		Plan Years After 1988
(a)	(b)	(c)
1.5%	2.5%	1.5%

- a. Percentage of the participant’s compensation (as defined) that is not in excess of the Social Security taxable wage base for the year, plus

Description of the Plan - Continued

- b. Percentage of the participant's compensation (as defined) that is in excess of the Social Security taxable wage base for the year
- c. Percentage of the participant's compensation (as defined) for the year

Hourly Employees

The monthly retirement benefit payable on a participant's normal retirement date is one-twelfth (1/12) of the benefit level times the years of credited service earned in the following periods:

<u>Period</u>	<u>Benefit Level</u>
1987-1999	\$ 120
2000	144
2001	168
After 2001	180

Vesting

Participants become fully vested upon the completion of five years of service.

Retirement Benefit Options

The Plan provides for normal retirement benefits to begin on the first day of the month on or after the participant's 65th birthday, with various options for early retirement or late retirement, death or long-term disability. The Plan's normal form of benefit for a single participant is a Straight Life Annuity, and for a married participant a 50% Joint and Survivor Annuity, which provides a lifetime benefit payable to the participant and, upon death, 50% of such benefit payable to the participant's surviving spouse.

Participants may also elect one of the following options:

Straight Life Annuity - Under this option, benefits are paid only during the life of the participant.

Five- or Ten-Year Certain Life Annuity - Under this option, benefits are paid in the form of a lifetime benefit; however, if the participant dies before 60 or 120 monthly payments have been made, depending on the term elected, payments will continue to a beneficiary until a total of 60 or 120 payments have been made.

Contingent Annuity - This option is similar to the Joint and Survivor Annuity described above. However, the individual named as the contingent annuitant can be an individual other than the participant's spouse. The benefits payable to the contingent annuitant can be 100%, 75% or 50% of the benefits earned by the participant, depending upon the election made by the participant.

Lump Sum - Participants who were employed by the discontinued CHF Industries, Inc. - Aberdeen Division may elect a lump-sum distribution of their accrued benefits earned prior to January 1, 1985.

Selection of one of these options by a married participant is contingent upon spousal consent.

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2019 and 2018

Description of the Plan - Continued

If a participant terminates their employment with the Company before completing the required years of vesting service, they do not receive Plan benefits. Participants who terminate with vested accumulated Plan benefits that are less than \$5,000 receive their accumulated benefits as a lump-sum distribution.

The Plan was amended effective October 1, 2019, to direct the Trustee to purchase a group annuity contract for a certain group of participants. In October 2019, the Company entered into an agreement with Pacific Life Insurance Company to purchase a group annuity contract for approximately 1,100 retirees and beneficiaries who satisfied certain conditions and were receiving a monthly benefit from the Plan. There was no change to the pension benefits for any Plan participants as a result of this transaction. The purchase of the group annuity was funded directly by Plan assets of approximately \$19,300,000.

Administrative Expenses and Investment Management Fees

Expenses of administration such as legal, accounting, actuary, investment management fees, recordkeeping and trustee fees, are paid from the assets of the Plan.

Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions of ERISA. In the event the Plan terminates, the assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits for all participants or beneficiaries whose retirement benefits have been or could have been payable three years prior to termination of the Plan.
- b. Benefits guaranteed by and up to the insurance limitations of the Pension Benefit Guaranty Corporation ("PBGC").
- c. Benefits that are vested but not guaranteed by the termination insurance provisions of ERISA.

If the Plan terminates, a portion of the benefits under the Plan is insured by the PBGC (a U.S. Government agency). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2019 and 2018

Summary of Significant Accounting Policies - Continued

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

Events or transactions occurring after the period end through September 28, 2020, the date that the financial statements were available to be issued, have been evaluated in the preparation of the financial statements.

Valuation of Investments and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation), which includes gains and losses on investments bought and sold, as well as held during the year, is recorded in the accompanying Statements of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which includes additions, modifications and eliminations to existing disclosure requirements for fair value measurement. The prospective application of this guidance is effective for annual periods beginning in 2020. Plan management does not believe the adoption of this guidance will have a material effect on the Plan's financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2019 and 2018

Actuarial Present Value of Accumulated Plan Benefits - Continued

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Mercer, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuations as of January 1 are as follows:

	2019	2018
Discount rate per ASC 960	7.50% per annum	7.50% per annum
Mortality	Mercer Modified RP 2014 employee/retiree tables and Mercer Modified MMP 2018 projection scale.	Mercer Modified RP 2014 employee/retiree tables and Mercer Modified MP 2014 projection scale.
Retirement age	All participants are assumed to retire between the ages of 55 and 68, with varying rates of retirement to reflect current practices.	All participants are assumed to retire between the ages of 55 and 68, with varying rates of retirement to reflect current practices.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2019. Had the valuations been performed as of December 31, 2018 there would be no material difference. The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

4. Investments

The Plan's investments are managed by the Company's investment managers together with The Northern Trust Company, in its role as trustee of the Plan. The following table presents investments in common and collective trusts for which fair value is measured using the net asset value ("NAV") per share practical expedient.

December 31, 2019		Fair Value	Redemption Frequency	Redemption Notice Period
Northern Trust STIF	(a)	\$ 5,694,143	Daily	None

5. Fair Value

The Plan follows guidance defined in Accounting Standards Codification, *Fair Value Measurement (Topic 820)*, which provides a framework for measuring fair value under GAAP. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Quoted market prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued at fair value using the following methodologies:

- **Common stocks and preferred stocks:** valued at the closing price of individual shares at year-end as traded in an active market.

- **Common and collective trusts:** valued at the year-end NAV of the underlying investments comprising the common and collective trusts. The Plan holds investments in the Northern Trust STIF and Silchester. The Northern Trust STIF investment reflects high-grade money market instruments with short maturities. The Silchester investment reflects equity securities traded on international exchanges in developed markets.

- **Corporate bonds:** valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the bond is valued using matrix pricing or models from reputable pricing vendors.

- **Limited partnerships:** The limited partnership is publicly traded and the value is based on quoted market prices.

- **Swap agreements:** Swaps are marked-to-market daily using pricing vendor quotations, counterparty or clearinghouse prices or model prices, and the change in value, if any, is recorded as unrealized appreciation (depreciation).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different

Fair Value - Continued

methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's investment assets measured at fair value as of December 31, 2019:

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Common stocks	\$ 87,731,958	\$ -	\$ -	\$ 87,731,958

Total investment assets	\$ 88,306,714	\$ 691,515	\$ -	\$ 120,700,754

(a) Assets measured at NAV as a practical expedient are excluded from the fair value hierarchy.

For comparative purposes, the following table presents the Plan's investment assets measured at fair value as of December 31, 2018:

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total

Total investment assets	\$ 89,083,716	\$ 537,807	\$ -	\$ 118,068,970

(a) Assets measured at NAV as a practical expedient are excluded from the fair value hierarchy.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan does not hold any investments requiring Level 3 measurements and there have not been any transfers of assets between the levels from 2018 to 2019.

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2019 and 2018

6. Swap Agreements

Swap agreements are privately negotiated contracts to exchange investment cash flows at a future date based on the underlying value of the assets. Swap agreements involve elements of credit, market, and documentation risk. Swap agreements are traded Over The Counter (“OTC”). For OTC swap agreements, the Plan could be exposed to risk if the counterparties are unable to meet the terms of the contracts. This risk is mitigated by the posting of collateral by the counterparty and monitored against the contract terms.

An Equity Swap allows the Plan to invest in a market without owning or taking physical custody of securities in circumstances in which direct investment may be restricted or is otherwise disadvantageous. Investment managers may enter into Equity Swaps to gain/reduce exposure on the referenced asset. An Equity Swap allows the parties to the swap agreement to exchange the dividend income and other components of return on the equity investment for another payment stream.

The swap agreements are not designated as hedging instruments. Net return paid or received under the swap agreements is included in net appreciation/depreciation of investments on the Statements of Changes in Net Assets Available for Benefits and Changes in Net Assets.

At December 31, 2018, the Plan had the following open swaps categorized by primary underlying risk:

	Swap Agreements				
	Number of Contracts	Counterparty	Term	Notional Amount	Unrealized Depreciation / Variation Margin
Equity Price:					
The Blackstone Group LP BX					
Total Return Swap	5	Morgan Stanley	13 months	\$ 1,889,841	\$ (114,488)

The value on the 2018 Statement of Net Assets Available for Benefits represents the daily change in valuation of the unsettled swap agreements and is recorded as a receivable or payable for variation margin. The derivative activities during 2018 year are reflective of the year end notional amounts.

As of December 31, 2019 and 2018, respectively, a cash balance of \$0 and \$1,078,499 was pledged to cover margin requirements for unsettled swap agreements and is included in the Statement of Net Assets Available for Benefits as cash collateral held at broker for swap agreements.

7. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the financial statements, notes to the financial statements and supplemental schedules of assets is complete and accurate:

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2019 and 2018

Information Certified by the Trustee – Continued

- Investments (except for third party information related to Silchester amounting to \$26,088,382 and \$22,253,444 as of December 31, 2019 and 2018, respectively) and investment income receivable as shown in the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018.
- Cash collateral held at broker for swap agreements as shown in the Statement of Net Assets Available for Benefits as of December 31, 2018.
- Interest income, investment income, dividend income, net appreciation/(depreciation) in fair value of investments and investment management fees (except for third party information related to Silchester amounting to \$3,754,938 and (\$3,802,681) for the years ended December 31, 2019 and 2018, respectively), as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2019 and 2018.
- Schedule I: Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2019 (except for third party information related to Silchester).
- Schedule II: Schedule H, Line 4j - Schedule of Reportable Transactions, for the year ended December 31, 2019.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

8. Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company in a letter dated February 12, 2014, that the Plan as amended and restated effective January 1, 2012, is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC").

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements as of December 31, 2019 and 2018. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2016.

9. Risks and Uncertainties

The determination of contributions to the Plan and the actuarial present value of accumulated plan benefits are based on certain assumptions pertaining to interest rates, inflation rates and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2019 and 2018

Risk and Uncertainties - Continued

The Plan also invests in securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

10. Related-Party Transactions

Certain Plan investments are managed by The Northern Trust Company. The Northern Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

11. Subsequent Events

In December 2019, an outbreak of novel strain of coronavirus (COVID-19) emerged globally. Global financial markets have experienced and may continue to experience significant volatility resulting from the spread of COVID-19. The extent of the impact of COVID-19 on the Plan's net assets available for benefits, contributions and benefit obligations will depend on future developments, including the duration and continued spread of the outbreak.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Assumptions for January 1, 2019 Funding Valuation**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	Nonstabilized
• First 5 years	3.74%	2.55%
• Next 15 years	5.35%	3.93%
• Over 20 years	6.11%	4.49%
Mortality sponsor elections		
• Healthy and disabled participants	PPA separate generational annuitant and nonannuitant mortality tables

	Under 26	10.00%
	26 – 40	7.50%
	41 – 50	5.00%
	51 and Over	3.50%
• Flat-dollar benefit increases	N/A	
• Social Security wage base	N/A	
• Inflation	2.20% per year	
• Expenses	\$584,000 added to current year normal cost	

Rationale for Economic Assumptions

- Discount rate – The discount rate is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.
- Salary increases – The salary scale assumption is based on an experience study covering the period from January 1, 2013 to January 1, 2018, adjusted to reflect management's expectations for wage changes in the future.
- Expenses – Assumed plan-paid expenses for the upcoming year are based on prior year experience, adjusted (if material for the purpose) for expected changes in the upcoming year, rounded to the nearest \$1,000.

Demographic assumptions		
• Withdrawal	See table of sample rates.	
• Retirement age	Attained age	Percentage
	55-64	8%
	65	35%
	66-69	20%
	70	100%

• Future deaths	0%	100%
• Current vested deferred	0%	100%
Unpredictable contingent event assumptions	Not applicable	
Valuation Pay	Valuation pay for 2019 is equal to [(a) + (b) + (c)] multiplied by the salary scale: (a) 2018 base compensation; (b) actual client and holiday bonuses during 2018; and (c) an assumed incentive bonus equal to an individual's target incentive percentage multiplied by their base compensation for 2018.	

Table of sample rates

Attained age	Percentage withdrawal	
	Less than or equal to 3 years of service (select)	Greater than 3 years of service (ultimate)
20	17.00%	9.90%
25	17.00%	9.90%
30	17.00%	8.20%
35	17.00%	6.40%
40	17.00%	5.00%

50	17.00%	3.00%
55	17.00%	2.30%
60	17.00%	2.30%

Rationale for demographic assumptions

- Mortality – Prescribed assumption and based on plan sponsor's PPA election.
- Withdrawal – The withdrawal rates are based on an experience study covering the period from January 1, 2013 to January 1, 2018.
- Retirement age – The retirement rates are based on an experience study covering the period from January 1, 2013 to January 1, 2018.
- Benefit commencement age – The benefit commencement age is based on an experience study undertaken in 2010. An experience study in 2018 found that the benefit commencement age experience was in line with expectations so the commencement age was not changed.
- The percent married, spouse age difference, and form payment assumptions were also reviewed during the experience study in 2018 and it was found that experience was in line with expectations so the assumptions were not changed.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

The plan's valuation date is the beginning of the plan year.

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions****A. Salaried employees – see section B for plan provisions for hourly employees**

Effective date and plan year	Original plan: January 1, 1985 Plan year: The calendar year
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None.

Definitions

• Covered employees	The plan covers the salaried employees of the participating Employing Units.
• Participation	Employees begin participation on the January 1 or July 1 following the completion of one year of service and the attainment of age 21. Employees who satisfied these requirements on January 1, 1985 participated as of that date. Employees eligible to participate on January 1, 1985 who had at least 25 years of service as of that date could irrevocably elect not to participate by filing such an election with the Plan Administrator on or before March 1, 1985. Aurora Venture became an Employing Unit of the plan during 1988, and employees satisfying the eligibility requirements on January 1, 1986 receive benefit accruals starting on that date. The Salisbury North Carolina plant of Woodard became an Employing Unit of the plan during 1997.
• Year of participation with an employing unit	A year of participation with an Employing Unit is a plan year during which the employee has at least 1,000 hours of service (870 hours of service for the Joanna division). Appropriate adjustments are made if a Company becomes an Employing Unit during the plan year. The current Employing Units and the date they became Employing Units for benefit accrual purposes, are as follows:

Employing Units	Effective Date
CC Industries, Inc.	1/1/85
Henry Crown and Company	1/1/85
Woodard	1/1/85
Aurora Venture	1/1/85
Woodard Salisbury	1/1/99

• Pensionable earnings	Earnings for actual hours worked while an active participant (including bonuses) plus elective, pre tax contributions to a 401(k) plan and short term disability payments.
• Hours of service	An employee who renders 500 or fewer hours of service with a member of the Affiliated Group in a calendar year will have a "break in service." If he renders more than 500 but less than 1,000 hours of service in a year, he will not have a break in service, but the year will not count for eligibility or vesting purposes. If he renders 1,000 or more hours of service in a year, such year will be credited for eligibility and vesting purposes. Service while receiving long term disability payments will be considered as service for vesting purposes.
• Employee contributions	None.

Normal retirement

• Eligibility	The first day of the month coincident with or next following the employee's 65th birthday.
---------------	--

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	Amount of Monthly Life Only Pension
For service prior to January 1, 1989	
For each year of participation with an Employing Unit an employee is credited with one twelfth of the sum of (i) 1.50% of earnings not in excess of the taxable wage base for such year and (ii) 2.50% of any excess of such earnings over the taxable wage base for such year.	
For service after December 31, 1988	
For each year of participation with an Employing Unit an employee will be credited with one twelfth of 1.50% of his earnings during such year.	
Early retirement	
• Eligibility	Completion of 5 years of service and attainment of age 55.
• Benefit	An employee who retires early may elect either 1. or 2.
1. A deferred retirement income to begin at Normal Retirement Date equal to the total benefits accrued to actual retirement date, or	
2. An immediate retirement income to begin at Early Retirement Date equal to total accrued benefits, reduced by 1/2% for each month that payment commencement date precedes Normal Retirement Date.	
Late retirement	
• Eligibility	First of month coinciding with or next following separation from service after the Normal Retirement date.
• Benefit	Benefits continue to accrue until the date of actual retirement.
Deferred vested	
• Eligibility	Completion of 5 years of service or attainment of age 65.
• Benefit	Pension commencing on the Normal Retirement Date: An amount computed in the same manner as for early retirement.
Early commencement: A participant with a right to a deferred vested pension commencing on his Normal Retirement Date may elect early commencement of a pension on the first day of any month following attainment of age 55. The pension will be equal to his vested benefit, reduced by 1/2% for each month that his payment commencement date precedes his Normal Retirement Date.	
Disability	
• Eligibility	Termination of active employment on or after January 1, 2003 by a Salaried Employee who is eligible for benefits under a long term disability program established by the employer.
• Benefit	The period of time that an eligible disabled participant is receiving long term disability benefits is included in determining vesting service and for a participant who becomes disabled after January 1, 2003, in credited service.

Schedule SB, Part V — Summary of Plan Provisions

Death

- Pre-retirement surviving spouse's benefit

Eligibility

Vested and married on the date of death. This provision is applicable to vested active, transferred, and terminated participants.

Amount

The benefit payable to the spouse at the death of the participant is a lifetime annuity commencing at the time the participant would have attained age 55 had he survived (or immediately, if he is at least age 55 at the time of his death). The monthly amount so payable is equal to 50% of the monthly retirement income which the participant would have received had he separated from service on the date of his death, survived to age 55 (if then under age 55), and commenced receiving benefits under the 50% Contingent Annuity Option. The spouse may elect immediate commencement of the benefit, if deferred, or elect deferral of its commencement, if the benefit is payable immediately and has a lump sum value of \$5,000 or more. In such event the benefit payable will be the actuarial equivalent of the benefit otherwise payable.

If the spouse of a participant receiving or entitled to a benefit under this provision dies, and there are children of the participant under the age of 18, the benefit shall continue (or commence, if the spouse was not receiving a benefit on the date of her death) to each such child for a period of 5 years or, if the child was under the age of 16 on the spouse's date of death, until the attainment of age 21. Each child shall receive an equal share of the actuarial value of the benefit the spouse was receiving or entitled to receive. The benefit payable to each child shall be the actuarial equivalent of his share.

-
- Death benefits for unmarried participants with dependents

Eligibility

Vested, unmarried at the date of death, and having children under age 18 or other dependents so designated by the participant to receive this benefit on a form provided by the Plan Administrator.

Amount

Each dependent shall receive an equal share, or share designated by the participant, of the actuarial value of the benefit that would have been payable to the spouse, if there was such a spouse. For the purposes of determining the actuarial value of this benefit the spouse's age is assumed to be the same as the participant's. The benefit shall be payable to each child for a period of 5 years or, if the dependent was under the age of 16 on the participant's date of death, until the attainment of age 21. The benefit payable shall be the actuarial equivalent of each dependent's share.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Most recent plan amendments included:** The plan was restated effective January 1, 2012 and last amended on December 27, 2018.
- **Plan amendments excluded:** None.

Schedule SB, Part V — Summary of Plan Provisions**• Late retirement increases:**

- *Active participants:* Current active participants over normal retirement age are valued using their accrued benefit at the valuation date. The plan sponsor issues suspension of benefit notices to participants who work beyond normal retirement date, so actuarial increases do not apply.
- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including a late retirement actuarial increase using the plan's definition of actuarial equivalence. The age 75 late retirement actuarial increase factor is applied to deferred vested participants who are over age 75 as of the valuation date.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.

Plan provisions specific to funding**Additional benefits included or excluded****• IRC Section 436 benefit restrictions:**

- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2018 to 2019.
- Late retirement increases are included in the valuation for current deferred vested participants over normal retirement age. Previously, no increases were valued as they were deemed immaterial.
