(1) Description of Plan

The following description of AVI-SPL 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan that covers substantially all employees of AVI-SPL, Inc. and its wholly owned subsidiaries including Audio Visual Innovations, Inc., Signal Perfection Limited, AVI Rental Services Division, LLC, AV Marketplace, Inc., Anderson Audio Visual, VideoLink LLC, Interactive Solutions, Inc. and Digital Video Networks, (collectively the Company or Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2016, the Plan was formally amended to exclude certain employees covered by a collective bargaining agreement from participation in the Plan.

As a result of the Bipartisan Budget Act of 2018 and effective January 1, 2019, the requirement to exhaust loan distributions prior to receiving a hardship distribution was removed from the Plan. Additionally, participants are no longer suspended from making contributions to the Plan or from receiving Company matching contributions as a result of a hardship withdrawal.

(b) Contributions

An employee is eligible to participate in the Plan after the employee reaches 18 years of age and has completed one month of service. Employees are eligible to participate in the matching contribution portion of the Plan after completion of one year of service, as defined.

Each year, participants may elect to contribute up to 60% of their pre-tax annual compensation, as defined by the Plan, not to exceed $19,000 in 2019. As allowed by the IRS, the limit on catch-up elective deferrals for participants age 50 and over was an additional $6,000 for the 2019 plan year.

The Company may make matching contributions, at its discretion, equal to the declared percentage of participant deferrals for the period. The Company's discretionary match formula for 2019 was 18.5% of employee deferrals up to a maximum of 6% of eligible compensation, as defined. For the year ended December 31, 2019, the Company elected to contribute approximately $1,222,000 towards the employer match. Of this amount, approximately $70,000 was paid using forfeited account balances that were reflected in the net assets available for benefits at December 31, 2019. Additional amounts may be contributed at the option of the Company. There were no additional contributions made during 2019.

The Plan accepts rollovers and direct transfers from other tax-qualified plans.

(1) Description of Plan - Continued

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution, if any, an allocation of the Company's additional discretionary contribution, if any, and Plan earnings. Each participant's account is charged with an allocation of Plan losses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their salary deferrals, voluntary rollovers, and the actual allocated earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings for all participants occurs under the following schedule:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(e) Investment Options

The Plan permits participants to direct the investment of their elective deferrals and Company contributions into various investments offered by the Plan.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.50% as of December 31, 2019. Loan terms range from one to five years unless the loan is for the purchase of a primary residence. Principal and interest are paid through payroll deductions.

(g) Payment of Benefits

Upon termination, retirement, attainment of age 59 ½, death, disability or financial hardship, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options. A participant may elect to rollover the vested portion of their account to another qualified Plan. A participant may also elect to receive a single lump sum payment subject to withholding for income taxes, or receive installment payments.

(1) Description of Plan - Continued

(h) Forfeitures

All forfeitures of Plan assets will be used to offset future employer matching contributions. There were approximately $70,000 of forfeited non-vested accounts used to offset employer matching contributions for the year ended December 31, 2019. The remaining non-vested accounts available to offset future employer matching contributions are approximately $65,000 and $64,000 at December 31, 2019 and 2018, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts in the statements of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded at the ex-dividend date. The net realized and unrealized appreciation in fair value of investments includes both realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at the end of the year.

The Fidelity Advisor Stable Value Fund ("Fund") is a common/collective trust stable value fund. The Fund invests principally in assets (fixed-income security or bond funds any may include derivative instruments such as futures contracts and swap agreements), enters into wrap contracts issued by third parties, and invests in cash equivalents represented by shares in money market funds. The Fund is valued by Fidelity Management Trust Company ("Fidelity") based on the unit value of the funds. This common/collective trust has underlying investments in investment contracts which are valued at estimated fair value of the underlying investments and then adjusted to contract value.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Interest income related to the notes receivable from participants has been separately presented as interest income - notes receivable from participants.

(2) Summary of Significant Accounting Policies - Continued

(e) Administrative Expense

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation in fair value of investments. For the year ended December 31, 2019, the Company paid approximately $70,000 to their Advisor and $16,000 to their recordkeeper.

(f) Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(g) Unit Values

Individual participant accounts for the common collective trust are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

(3) Information Certified by Trustee (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of December 31, 2019 and 2018 and for the year ended December 31, 2019:

- Total investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2019 and 2018;
- Total investment income and related investment activity for the year ended December 31, 2019, as shown in the statement of changes in net assets available for benefits;
- The Schedule of Assets (Held at End of Year), as of December 31, 2019, as shown in the supplemental schedule.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(5) Income Tax Status

The Plan has adopted a prototype plan. The prototype plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The prototype plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the prototype plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and is thus exempt from federal income taxes under the provisions of Section 401(a).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) Parties-in-Interest

The Plan investments are managed by an affiliate of Fidelity. Fidelity acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions. Additionally, notes receivable from participants are managed by Fidelity. These transactions qualify as party-in-interest transactions, however they are expressly exempt from prohibited transaction rules.

(7) Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying financial statements to the Form 5500:

	2019	2018
Net assets available for benefits per the financial statements	$ 101,727,232	78,515,873
Contributions receivable - employer	(550,125)	(474,778)
Contract value adjustment for common collective trust	39,525	(30,133)
Net assets available for benefits per Form 5500	$ 101,216,632	78,010,962

(7) Reconciliation to Form 5500 - Continued

The following is a reconciliation of net increase in net assets available for benefits per the financial statements for the year ended December 31, 2019 to net income per Form 5500:

Net increase in net assets available for benefits per the financial statements	$	23,211,359
Difference in contributions receivable - employer		(75,347)
Contract value adjustment for common collective trust		69,658
Net income per Form 5500	$	23,205,670

(8) Fair Value Measurements

FASB Accounting Standards Codification Topic 820, *Fair Value Measurement* (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

(a) Quoted prices for similar assets or liabilities in active markets;

(b) Quoted prices for identical or similar assets or liabilities in inactive markets;

(c) Inputs other than quoted prices that are observable for the asset or liability;

(d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(8) Fair Value Measurements - Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Registered Investment Companies: valued at quoted market prices in an exchange and active markets, which represent the net asset values of shares held by the Plan at year end and are classified as Level 1 investments.

Common/Collective Trust: valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

		Fair Value Measurements at Reporting Date Using		
Description	**Assets Measured at Fair Value at December 31, 2019**	**Quoted Prices in Active Markets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Registered investment companies	$ 96,798,211	96,798,211	-	-
Investments measured at NAV	2,649,011 **(a)**			
Investments, at fair value	$ 99,447,222			

		Fair Value Measurements at Reporting Date Using		
Description	**Assets Measured at Fair Value at December 31, 2018**	**Quoted Prices in Active Markets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Registered investment companies	$ 73,571,423	73,571,423	-	-
Investments measured at NAV	2,936,941 **(a)**			
Investments, at fair value	$ 76,508,364			

(a) *In accordance with Subtopic 820-10, certain investments that were measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.*

(9) Subsequent Events

The Plan's management has evaluated events and transactions for potential recognition or disclosure in the financial statements September 25, 2020, the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization (WHO) declared the coronavirus originating in Wuhan, China (the "COVID-19 outbreak") creating risks to the international community as the virus spread globally beyond its point of origin. On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, there has been heightened market risk and the Plan's investment portfolio has incurred significant volatility in fair value since December 31, 2019. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and the related impact on the Plan's liquidity cannot be determined at this time.

In December 2019, the Setting Every Community Up for Retirement Enhancement (SECURE Act) was signed into law, related to required minimum distributions and the limitation of life-time or stretch distributions to remain compliant under the applicable laws and regulations. These provisions are effective beginning January 1, 2020.

Additionally, March 27, 2020, President Trump signed into law the "Coronavirus Aid, Relief, and Economic Security (CARES) Act." The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to $100,000;
- Increased the available loan amount as described in Note 1 to the lesser of $100,000 or 100% of the participant's vested account balance;
- Extended the period for loan repayments, if applicable, up to one year.

The Plan is in the process of operationally being amended to implement certain changes permitted by the above law changes.

Effective April 7, 2020, AVI-SPL was acquired by Marlin Equity Partners ("Marlin"), and subsequently merged with Whitlock, an existing portfolio company of Marlin. Effective December 31, 2020, Whitlock's employee benefit plan will merge with AVI-SPL's plan.
