**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 1 – Description of the Plan

The Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC (the Plan) is a noncontributory defined benefit pension plan covering nonbargaining unit employees of Young's Market Company, LLC and its subsidiaries and affiliates (collectively, the Company) who have completed at least one year of service. The Plan is administered by the Company's Benefits Committee (Committee). The Committee has overall responsibility for the operations of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Vested participants may receive reduced benefits at age 55 or full benefits at age 65. A vested participant who discontinues employment with the Company has a deferred vested benefit available at age 65 (or at age 55 in a reduced amount). On December 31, 2002, the Plan was amended to freeze future benefit accruals and close the Plan to new participants. All participants who were active participants on December 31, 2002 are fully vested.

For participants who first became participants in the Plan on or after January 1, 1997, benefits are calculated as 1% of an employee's average compensation based on years of service not to exceed 65% of average earnings. Different formulas were used to calculate benefits relating to periods prior to January 1, 1997. Early retirement benefits are available to vested participants who have attained age 55.

The Plan is funded by periodic employer contributions, which are actuarially determined to provide necessary assets to meet benefits payable to plan participants. During 2019 and 2018, the Company made contributions of \$2,346,591 and \$1,610,148, respectively. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements.

Further details are contained in the plan handbook, which is provided to all plan members.

NOTE 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

**RETIREMENT INCOME PLAN
FOR NONBARGAINING UNIT EMPLOYEES
OF YOUNG'S MARKET COMPANY, LLC**

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees until December 31, 2002, discounted to actuarial present value. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on the employees' compensation during their last ten years of credited service through December 31, 2002.

FOR NONBARGAINING UNIT EMPLOYEES
OF YOUNG'S MARKET COMPANY, LLC**

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits (Continued)

The accumulated plan benefits for active employees are based on their average compensation during the ten years preceding December 31, 2002. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered through December 31, 2002.

Mercer (the actuary) estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of December 31, 2019, are as follows:

Mortality	RP-2014 (annuitant and non-annuitant no collar) Mortality Table, projected generationally with scale MP-2019
Discount Rate	6.50% Annual return

The foregoing actuarial assumptions are based on the presumption that the Plan will continue as a frozen plan. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits

Benefit payments are recorded when paid.

Expenses

All administrative expenses are paid by the Plan, except for audit fees and legal fees related to the contract with the plan administrator, which are paid by the Company and reimbursed by the Plan. Investment-related expenses are included in net appreciation of fair value investments.

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Reclassification

Certain reclassifications have been made to the prior years' financial statements to conform to the current year presentation. These reclassifications had no effect on the previously reported net assets available for plan benefits or changes in net assets for plan benefits.

Subsequent Events

The \$1,194,144 contribution receivable reported in the statements of net assets is the minimum funding requirement for 2019. The Company will complete a Pension Benefit Guaranty Corporation 4010 filing for the Plan.

The Plan has evaluated subsequent events through September 28, 2020, the date the financial statements were available to be issued and no events were noted which warrant adjustments to, or disclosure in, the financial statements other than as follows: in early 2020, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. Global financial markets have experienced, and may continue to experience, significant volatility resulting from the spread of COVID-19. The extent of the impact of COVID-19 on the Plan's net assets available for benefits will depend on future developments including the duration and continued spread of the outbreak.

NOTE 3 – Certified Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo Bank, N.A. (Wells Fargo), the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation in fair value of investments
- Dividends and interest income
- Schedule of assets held at end of year
- Schedule of reportable transactions

**RETIREMENT INCOME PLAN

**NOTES TO THE FINANCIAL STATEMENTS

NOTE 3 – Certified Investments (Continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE 4 – Plan Termination

Although it has not expressed any intention to do so, the Company can terminate the Plan at any time, subject to the provisions set forth in ERISA. Participants' retirement allowances under the Plan are insured to the extent required by law through the Pension Benefit Guaranty Corporation (PBGC). If the Plan were to be terminated, priorities of payment of benefits would be made in accordance with the requirements of ERISA. Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide plan participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee, while other benefits may not be provided at all.

NOTE 5 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability; and

OF YOUNG'S MARKET COMPANY, LLC**

**NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 5 – Fair Value Measurements (Continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Cash and cash equivalents: Valued at cost on a trade-date basis.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value measurements at December 31, 2019 and 2018.

	Assets at Fair Value as of December 31, 2019

NOTE 6 – Related-Party and Party-In-Interest Transactions

Certain plan investments are managed by Wells Fargo and Morgan Stanley Global Bank (Morgan Stanley). Wells Fargo is the trustee and Morgan Stanley is the investment advisor for the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the trustee and investment advisor of \$166,255, which was not covered by revenue sharing. The plan sponsor pays directly any other fees related to the Plan's operations.

NOTE 7 – Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated March 7, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTES TO THE FINANCIAL STATEMENTS

NOTE 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

RATIONALE FOR ECONOMIC ASSUMPTIONS

- **Funding Expected investment return** – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix, net of an adjustment of minus 20 basis points for expenses assumed to be paid from plan assets.
- **Expenses** – Plan expenses are based on an expectation of payments to be made from the trust in the upcoming year. Prior year's administrative expenses are reviewed. If no changes in administrative expenses are expected to occur in the upcoming year, then the current year

assumption would equal the prior year amount. If administrative expenses are expected to increase or decrease from the prior year, then the assumption is adjusted accordingly.

ACTUARIAL METHODS FOR FUNDING

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated January 1, 2015 and amended through Amendment two, are included in this valuation:

- **Most recent plan amendments included:** Amendment two, effective January 1, 2016.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large

Schedule SB, Part V — Summary of Plan Provisions

number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

- **IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
