Notes to Financial Statements

1. Plan Description

The following description of the Grubbs Infiniti, Ltd. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Grubbs Infiniti, LTD. and participating employers (the "Company"). Employees of the Company are eligible to participate in the Plan after completing six months of service. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Company. The Plan’s trustees are appointed by the Company. The duties of the trustees are to oversee the operations of the Plan and to provide for prudent investment of Plan assets. Accordingly, the trustees have been granted discretionary authority concerning investment and management activities. The Plan’s Custodian, Fidelity Management Trust Company (the “Custodian”) is responsible for the custody and management of the Plan’s assets.

Contributions

Each year, participants may contribute compensation as defined in the plan document, subject to certain Internal Revenue Code (“IRC”) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan or elect to participate at a different rate. Automatically enrolled participants have their deferral rate initially set at 3.00% of eligible compensation.

The Plan also provides that the Company makes nondiscretionary matching contributions in an amount equal to 50.00% of a participant’s deferral contribution subject to a maximum of 3.00% of the eligible participant’s compensation (a max of ½ of 3.00% of total compensation), each payroll period. The only eligibility requirement for the matching contributions is the employee made deferral contributions during the Plan year.

The Company may decide each contribution period whether to make a discretionary non-elective employer contribution on behalf of eligible participants. For each plan year the employer may decide in the ratio that each eligible participant's compensation bears to the total compensation paid to all eligible participants for the contribution period. Eligible employees are those employed by the employer, or a related employer, on the final day of the plan year. To date there have been no discretionary contributions and the Company has no intent to use this provision, at this time.

Participant accounts

Each participant is credited with the participant’s contributions, Company contributions (if any), and an allocation of Plan earnings or losses, and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and is charged with an allocation of administrative expenses (if any). Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. A participant is vested in all employer contributions in 20 percent increments beginning in year two and is 100 percent vested after six years of service.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds and a common collective as investment options for participants.

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of (1) 50.00% of the present value of the vested account balance, or (2) $50,000, reduced by the excess (if any) of the highest outstanding loan balance of plan loans in the prior 12-month period ending on the day before the loan is made over the outstanding balance of plan loans on the date the loan is made. A participant may have only one loan outstanding at any time. The repayment terms of loans may not exceed five years, except for loans used to acquire the participant's principal residence, in which case the loan term may not exceed 10 years. The loans bear interest ranging from 4.25% to 7.50% at December 31, 2019 and are repaid ratably through payroll deductions.

Payment of benefits

On termination, retirement, or prior to retirement in the case of death, disability or substantiated hardship, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants with an account balance less than $5,000 will be automatically rolled over into an IRA or other plan. Participants with an account balance greater than $5,000 may elect to remain in the Plan until age 70 ½ or to receive their vested balance in one lump-sum after the close of the Plan year in which the participant attains the normal retirement age of 65. Participants may also elect a premature distribution or roll over their balance into a qualified plan at any time. All benefits will be paid in lump sum.

Forfeitures

At December 31, 2019 and 2018, forfeited non-vested accounts totaled $89,620 and $51,598, respectively. These accounts will be used to reduce future Company matching contributions or to pay plan expenses. During 2019, $4,572 in forfeitures were used reduce Company matching contributions and forfeitures were not used to pay plan expenses.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded upon distribution.

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Expenses that are paid by the Company are excluded from these financial statements. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through September 22, 2020, the date the financial statements were available to be issued. See Note 9.

3. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2019 and 2018. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds
Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Common Collective Trust Funds
These funds are valued at the NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets accounted for at fair value on a recurring basis as of December 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 4,089,671**	**$ -**	**$ -**	**$ 4,089,671**
Investments measured at NAV [(a)]				**89,621**
Investments				**$ 4,179,292**

	Assets at Fair Value as of December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 3,083,767	$ -	$ -	$ 3,083,767
Investments measured at NAV [(a)]				51,598
Investments				$ 3,135,365

[(a)] *In accordance with GAAP, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.*

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31, 2019	**Fair Value at December 31, 2018**	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Common collective trust funds:					
Stable value collective trust fund [(a)]	**$ 89,621**	$ 51,598	None	Daily	12 months

[(a)] *These investments file U.S. Form 5500 as direct filing entities. Accordingly, the investment strategies are not disclosed herein.*

The Plan recognizes transfers between the levels as of the actual date of the event or change in circumstances that caused the transfer. There were no gross transfers between the levels for the year ended December 31, 2019.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Investment Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian.

	2019	2018
Investments	**$ 4,179,292**	$ 3,135,365
Notes receivable from participants	**$ 114,358**	$ 92,811
Net appreciation in value of investments	**$ 565,329**	
Interest and dividends	**$ 171,897**	
Interest income on notes receivable from participants	**$ 5,590**	

5. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the “IRS”) stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code (the "IRC"). The Plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014, that the volume submitter document was designed in accordance with applicable sections of the IRC. During the plan year, the Plan had certain operational or administrative issues occur. The Company has taken corrective action in accordance with the acceptable correction methods of the Employee Plans Compliance Resolution System (“EPCRS”). The Company believes the Plan has maintained its tax-exempt status.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

7. Exempt Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Investments is an entity related to the custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan to Fidelity Institution Operations Company, Inc., for administrative services amounted to $14,942 for the year ended December 31, 2019.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

9. Subsequent Events

Subsequent to the date of the statement of net assets available for benefits, the World Health Organization declared the outbreak of COVID-19, a novel strain of Coronavirus, a pandemic. This contagious disease outbreak has continued to spread across the globe and is impacting worldwide economic activity and financial markets. The financial statements do not reflect any adjustments as a result of the subsequent increase in economic uncertainty.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management evaluated the impact of the CARES Act on the Plan and approved (i) adding COVID-19-related distributions of up to $100,000 for eligible participants, (ii) increasing the limit on Plan loans for eligible participants to the maximum amount permitted under the CARES Act, (iii) suspending payments on Plan loans otherwise due in 2020 for eligible participants, and (iv) suspending required minimum distributions for 2020. The CARES Act allowed these changes to be effective and operationalized immediately, prior to amending the Plan document.

Notes to Financial Statements

1. Plan Description

The following description of the Grubbs Infiniti, Ltd. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Grubbs Infiniti, LTD. and participating employers (the "Company"). Employees of the Company are eligible to participate in the Plan after completing six months of service. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Company. The Plan’s trustees are appointed by the Company. The duties of the trustees are to oversee the operations of the Plan and to provide for prudent investment of Plan assets. Accordingly, the trustees have been granted discretionary authority concerning investment and management activities. The Plan’s Custodian, Fidelity Management Trust Company (the “Custodian”) is responsible for the custody and management of the Plan’s assets.

Contributions

Each year, participants may contribute compensation as defined in the plan document, subject to certain Internal Revenue Code (“IRC”) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan or elect to participate at a different rate. Automatically enrolled participants have their deferral rate initially set at 3.00% of eligible compensation.

The Plan also provides that the Company makes nondiscretionary matching contributions in an amount equal to 50.00% of a participant’s deferral contribution subject to a maximum of 3.00% of the eligible participant’s compensation (a max of ½ of 3.00% of total compensation), each payroll period. The only eligibility requirement for the matching contributions is the employee made deferral contributions during the Plan year.

The Company may decide each contribution period whether to make a discretionary non-elective employer contribution on behalf of eligible participants. For each plan year the employer may decide in the ratio that each eligible participant's compensation bears to the total compensation paid to all eligible participants for the contribution period. Eligible employees are those employed by the employer, or a related employer, on the final day of the plan year. To date there have been no discretionary contributions and the Company has no intent to use this provision, at this time.

Participant accounts

Each participant is credited with the participant’s contributions, Company contributions (if any), and an allocation of Plan earnings or losses, and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and is charged with an allocation of administrative expenses (if any). Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. A participant is vested in all employer contributions in 20 percent increments beginning in year two and is 100 percent vested after six years of service.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds and a common collective as investment options for participants.

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of (1) 50.00% of the present value of the vested account balance, or (2) $50,000, reduced by the excess (if any) of the highest outstanding loan balance of plan loans in the prior 12-month period ending on the day before the loan is made over the outstanding balance of plan loans on the date the loan is made. A participant may have only one loan outstanding at any time. The repayment terms of loans may not exceed five years, except for loans used to acquire the participant's principal residence, in which case the loan term may not exceed 10 years. The loans bear interest ranging from 4.25% to 7.50% at December 31, 2019 and are repaid ratably through payroll deductions.

Payment of benefits

On termination, retirement, or prior to retirement in the case of death, disability or substantiated hardship, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants with an account balance less than $5,000 will be automatically rolled over into an IRA or other plan. Participants with an account balance greater than $5,000 may elect to remain in the Plan until age 70 ½ or to receive their vested balance in one lump-sum after the close of the Plan year in which the participant attains the normal retirement age of 65. Participants may also elect a premature distribution or roll over their balance into a qualified plan at any time. All benefits will be paid in lump sum.

Forfeitures

At December 31, 2019 and 2018, forfeited non-vested accounts totaled $89,620 and $51,598, respectively. These accounts will be used to reduce future Company matching contributions or to pay plan expenses. During 2019, $4,572 in forfeitures were used reduce Company matching contributions and forfeitures were not used to pay plan expenses.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded upon distribution.

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Expenses that are paid by the Company are excluded from these financial statements. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through September 22, 2020, the date the financial statements were available to be issued. See Note 9.

3. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2019 and 2018. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds
Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Common Collective Trust Funds
These funds are valued at the NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets accounted for at fair value on a recurring basis as of December 2019 and 2018:

The Plan recognizes transfers between the levels as of the actual date of the event or change in circumstances that caused the transfer. There were no gross transfers between the levels for the year ended December 31, 2019.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Investment Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian.

Net appreciation in value of investments	**$ 565,329**	
Interest and dividends	**$ 171,897**	
Interest income on notes receivable from participants	**$ 5,590**	

5. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the “IRS”) stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code (the "IRC"). The Plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014, that the volume submitter document was designed in accordance with applicable sections of the IRC. During the plan year, the Plan had certain operational or administrative issues occur. The Company has taken corrective action in accordance with the acceptable correction methods of the Employee Plans Compliance Resolution System (“EPCRS”). The Company believes the Plan has maintained its tax-exempt status.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

7. Exempt Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Investments is an entity related to the custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan to Fidelity Institution Operations Company, Inc., for administrative services amounted to $14,942 for the year ended December 31, 2019.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

9. Subsequent Events

Subsequent to the date of the statement of net assets available for benefits, the World Health Organization declared the outbreak of COVID-19, a novel strain of Coronavirus, a pandemic. This contagious disease outbreak has continued to spread across the globe and is impacting worldwide economic activity and financial markets. The financial statements do not reflect any adjustments as a result of the subsequent increase in economic uncertainty.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management evaluated the impact of the CARES Act on the Plan and approved (i) adding COVID-19-related distributions of up to $100,000 for eligible participants, (ii) increasing the limit on Plan loans for eligible participants to the maximum amount permitted under the CARES Act, (iii) suspending payments on Plan loans otherwise due in 2020 for eligible participants, and (iv) suspending required minimum distributions for 2020. The CARES Act allowed these changes to be effective and operationalized immediately, prior to amending the Plan document.
