1 Description of Plan

The following description of the Seaman Development 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees of Seaman Development, Inc., Seaman Corporation, Mid-Ohio Aviation and Aspen Racquet Club (together "the Company") who meet the requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective May 1, 2019, in conjunction with a change in Trustee from Prudential Bank & Trust, F.S.B. to Reliance Trust Company on behalf of JPMorgan Invest Holdings, LLC, the Plan was restated under the name "Seaman Development 401(k) Plan." Certain Plan provisions were changed on the effective date of the restatement and are described further in the Notes.

Eligibility:

All non-union employees, who are not residents of Puerto Rico, and have attained 30 days of service (2019) and 90 days of service (2018) are eligible to participate in the Plan.

Contributions:

Cash or Deferred Option [401(k)] - Participants may elect between 1% and 100% of their compensation to be contributed to the Plan by the Company. In addition, eligible participants may make catch-up contributions in accordance with Internal Revenue Service guidelines. The Plan includes automatic enrollment of 3% of participants' compensation, unless the participant makes a contrary election.

Employer Contributions - The Company makes safe-harbor contributions to each eligible participant's account by matching an amount equal to $1.00 for each $1.00 contributed by the participant, up to 3% of participant compensation and $.50 for each $1.00 of contributions over 3% up to 5%.

Rollover contributions from other Plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code, as defined in the Plan document.

Participants' Accounts:

401(k) Accounts - Each participant's account is credited with the participant's elective contributions, employer matching contributions, earnings and losses thereon.

Vesting:

Participants are fully vested with respect to their employee and employer safe-harbor contributions and income allocated to their account.

1 Description of Plan, Continued

Forfeitures:

Forfeited non-vested account balances may be used to reduce employer contributions and for Plan expenses. Forfeitures available for allocation were $8,293 (2019) and $0 (2018).

Notes Receivable from Participants:

Loans are permitted under certain circumstances and are subject to limitations. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loans are repaid over a period not to exceed five years, with exceptions for the purchase of a primary residence. Loans are valued at unpaid principal plus accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan document.

The loans are secured by the balance in the participant's account and bear interest at rates established by the Plan Administrator and interest is paid ratably through monthly payroll deductions.

Other Plan Provisions:

Normal retirement age is 65.

Payment of Benefits:

Upon termination of service, retirement, death or total and permanent disability, a participant receives a lump sum amount or annuity equal to the vested account balance. Benefits are recorded when paid.

Investment Options:

Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Recent Accounting Pronouncements:

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement (“ASU 2018-13”). The new standard removes or modifies certain existing disclosure requirements and adds additional disclosure requirements related to fair value measurement. The Plan elected to early adopt ASU 2018-13 for the year ended December 31, 2019. The effect of the adoption is an overall reduction in the disclosures related to fair value measurement.

2 Summary of Significant Accounting Policies, Continued

Valuation of Investments:

Investments (except for fully benefit-responsive contract, which is recorded at contract value) are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. The investments in pooled separate accounts are valued based on the redemption price of units owned by the Plan, which are based on the current market values of the underlying assets of pooled separate accounts. The fair value of the common collective trust is valued based on the unit value of the fund.

The guaranteed income fund is stated at contract value. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The guaranteed income fund, which is a fully benefit-responsive contract, is presented at contract value on the Statement of Net Assets Available for Benefits as the contract value approximates the fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Company.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Risks and Uncertainties:

The Plan's investment includes investments in mutual funds, a common collective trust and guaranteed income fund with varying degrees of risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

3 Tax Status

On March 31, 2014, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Therefore, the Plan Administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2019, there were no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 2, 2020, which is the date the financial statements were available to be issued.

5 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

* Quoted prices for similar assets or liabilities in active markets.

* Quoted prices for identical or similar assets or liabilities in inactive markets.

* Inputs other than quoted prices that are observable for the asset or liability.

5 Fair Value Measurements, Continued

* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds:

The fair value of the mutual funds is based on quoted market prices and are classified in the Level 1 category of the valuation hierarchy.

Common Collective Trust:

The fair value of the common collective trust ("The Standard Stable Asset II") is based on the underlying assets of the contracts which include a portfolio of securities and wrapper contracts. The value is expressed in units. The common collective trust is valued based on using NAV as the practical expedient.

Participant transactions (purchases and sales) may occur daily. The Plan is required to provide 30 days advance written notice in order to initiate a full redemption of the collective trust.

Pooled Separate Accounts:

The fair value of the pooled separate accounts is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. These fall into the Level 2 category of the valuation hierarchy.

Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment adviser reserves the right to temporarily delay from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2019	2018
Notes receivable from participants	**$ 916,747**	$ 874,291
Investments	**$ 39,209,820**	$ 33,559,306

Net unrealized/realized appreciation (depreciation)	**$ 5,145,721**	$ (2,338,243)

7 Party-in-Interest Transactions

Certain Plan investments are mutual fund accounts managed by Prudential Bank & Trust, F.S.B. and/or Reliance Trust Company on behalf of JPMorgan Invest Holdings, LLC, the Trustees, as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid for the investment management services. In addition, the Plan has arrangements with various service providers and these arrangements qualify as party-in-interest transactions.

8 Benefit-Responsive Contract

At December 31, 2018 and for the period January 1, 2019 through April 30, 2019, the Plan held a benefit-responsive insurance contract with Prudential Retirement Insurance and Annuity Company. The contract meets the fully benefit-responsive insurance contract criteria and, therefore, is reported at contract value. Contract value is the relevant measurement for fully benefit-responsive contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. The insurance company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code, (2) the establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification of the Plan or the administration of the Plan that is not consented to by the wrap issuer, (4) complete or partial termination of the Plan, (5) any change in law, regulation, or administrative ruling applicable to the Plan that could have a material adverse effect on a portfolio's cash flow, (6) merger or consolidation of the Plan with another plan, the transfer of assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor, (7) any communication given to participants by the Plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in a portfolio or to transfer assets out of a portfolio, (8) exclusion of a group of previously eligible employees from eligibility in the Plan, (9) any early retirement program, group termination, group layoff, facility closing, or similar program, and (10) any transfer of assets from a portfolio directly to a competing option. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants is probable.

9 Subsequent Events

On March 27, 2020, the “Coronavirus Aid, Relief, and Economic Security (CARES) Act” was signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented certain provisions.
