1. DESCRIPTION OF THE PLAN

The following description of the Pentair, Inc. Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit, single employer pension plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Pentair, Inc. (the "Company") is a subsidiary of Pentair plc and is the Plan Sponsor as well as the Plan administrator. The officers of the Company appoint the members of the Investment Committee of the Plan and the Pentair, Inc. Master Trust (the "Master Trust"). This committee has delegated certain investment authority to investment managers under contractual arrangements, consisting primarily of latitude in the selection of underlying investments within approved asset categories.

In November 2017, the Company's Board of Directors authorized the termination of the plan, effective December 31, 2017. In accordance with generally accepted accounting principles in the United States ("GAAP"), the Plan follows the liquidation basis of accounting to present the financial statements in liquidation as of December 31, 2019 and 2018 and for the year ended December 31, 2019, and for all periods subsequent to the termination date until the liquidation is complete. Participants were notified of the termination and participants whose benefits were not in pay status by July 1, 2018 had been given the opportunity to elect a lump-sum (or monthly annuity) payment during a special election window. Lump-sum payments of $171,870,251 were made during the special election window in 2018.

In June 2019, we completed the process of terminating the Plan through the purchase of annuities for the remaining participants. Net benefits paid to the insurance carrier for annuities was $170,291,886.

Funding Policy — Contributions to provide benefits under the Plan are made solely by the Company. The Company's general funding policy is to contribute the minimum required by ERISA. However, the Company occasionally makes contributions greater than the minimum, but not exceeding the maximum deductible for federal income tax purposes, when the Company's cash flow permits. Additionally, it is the responsibility of the Company to provide funding sufficient to cover the termination liability resulting from the Plan termination and liquidation. The Plan has met the minimum funding requirements of ERISA for 2019 and 2018.

Curtailment — In December 2007, the Company closed the Plan to new participants effective January 1, 2008.

Separate Benefit Formulas — The Plan has separate ongoing benefit formulas. While each benefit formula (and related rules) is described in a separate document, all Plan assets are available to pay benefits under any of the formulas. The Company and its participating subsidiaries determine which benefit formula covers eligible employee groups.

For each benefit formula, no employee may become a participant who is a member of a collective bargaining unit for which retirement benefits have been the subject of good faith bargaining, who is a nonresident alien and receives no U.S.-sourced income from the Company or its participating subsidiaries, or who is eligible to participate in any other qualified defined benefit pension plan maintained by the Company or its subsidiaries.

Traditional Defined Benefit Formula:

Participation and Vesting — Generally, regular nonbargaining employees of the Company and its participating subsidiaries to whom this formula has been extended are eligible to become participants in the Plan following completion of a year of eligible service and attainment of age 21. A year of vesting service is credited upon the completion of 1,000 hours in a calendar year and after the attainment of age 18. Vesting is based on a seven-year-graded scale, being fully vested after seven years.

A participant is fully vested in his or her accrued benefit under the Plan, regardless of the years of vesting service completed, in the event of termination of employment on or after normal retirement age (age 65). In addition, all participants became vested in their Plan benefits upon the termination of the Plan, to the extent such benefits were funded.

Plan Benefits — The normal retirement benefit (i.e., the benefit payable at age 65, expressed as a straight-life annuity) under the Plan is 1% of a participant's final average annual compensation up to the social security covered compensation base, plus 1.5% of a participant's final average annual compensation in excess of such base, multiplied times the participant's years of benefit service (capped at 35 years).

Participants who have attained age 55 and completed 10 or more years of benefit service are eligible to receive an early retirement benefit equal to the normal retirement benefit multiplied by the applicable early retirement reduction factor. For each month in which the early retirement date precedes the normal retirement date, the early retirement reduction factor is 1/6 of 1% per month for the first 36 months, 4/10 of 1% per month for the next 36 months, and 1/2 of 1% per month for the next 48 months.

The surviving spouse of a vested participant who has died prior to retirement is entitled to a pre-retirement death benefit, provided the surviving spouse and deceased participant were married for at least one year as of the date of death.

Pension Equity Formula:

Participation and Vesting — Generally, regular non-bargaining employees of participating subsidiaries to whom this formula has been extended are eligible to become a participant in the Plan following completion of a year of eligibility service and attainment of age 18.

The pension equity plan has a three-year cliff vesting schedule for those that leave prior to reaching age 65, with no benefit if less than three years of service. A participant is fully vested in his or her accrued benefit under the Plan, regardless of the years of vesting service completed, in the event of termination of employment on or after normal retirement age (usually age 65). In addition, all participants became vested in their Plan benefits upon the termination of the Plan, to the extent such benefits were funded.

Plan Benefits — Participants earn a percentage of final average pay for each year of service. The percentage varies by age, from 2.5% to 12%. At termination, participants can waive the annuity form of payment and elect a lump sum.

A death benefit is paid in an annuity or lump sum to the participant's surviving spouse or in lump sum to the designated beneficiary.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions, including the estimated termination liability, that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Plan funds are invested in the Master Trust held by The Bank of New York Mellon (the "Trustee") and unallocated insurance contracts held in custody of Aetna Insurance Company.

Investments in the Master Trust are presented at estimated fair value. The fair value of investments was determined under liquidation basis of accounting as of December 31, 2018. If available, quoted market prices are used to value investments. Quoted prices are based on the last reported sale price on the last business day of the year. In instances wherein quoted market prices are not available, securities and other alternative investments are stated at estimated fair value as determined by the custodian of those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation in the fair value of investments, which is included within *Net investment income from Pentair, Inc. Master Trust* on the Statement of Changes in Net Assets Available for Benefits, includes gains and losses in investments sold during the year as well as appreciation and depreciation of the investments held at year end. Assets remaining in the plan subsequent to its liquidation, were not held in the Master Trust.

Unallocated insurance contracts are included in the financial statements at fair value, which approximates contract value. At December 31, 2018 (in Liquidation), the contracts had a fair value of $447,598. There were no unallocated insurance contracts at December 31, 2019 (in Liquidation). Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Termination and other administrative expenses, such as actuarial and auditing fees, and charges and expenses incurred in connection with the acquisition or disposition of the Plan's assets, such as custodial fees, legal fees, investment management fees and brokerage commissions, are paid by the Plan.

The financial statements also reflect accounting guidance related to fair value measurements which establishes a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements.

For the year ended December 31, 2019, subsequent events were evaluated through September 17, 2020, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2019 (in Liquidation) and 2018 (in Liquidation), and for the year ended December 31, 2019 (in Liquidation), included in the Plan's financial statements, that was prepared by or derived from information prepared by the Trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that the following investment information is complete and accurate.

	2019	2018
Statements of net assets available for benefits:		
Plan interest in Pentair, Inc. Master Trust	$ 606,655	$ 153,278,504
Unallocated insurance contracts (at fair value)	—	447,598

	2019
Statement of changes in net assets available for benefits:	
Net investment income from Pentair, Inc. Master Trust	$ 13,557,733

All investment balances included in Notes 4 and 7 are certified by the Trustee, with the exception of the fair value leveling of the Master Trust's investments.

4. MASTER TRUST

Pentair plc has established the Master Trust with the Trustee for two pension plans - the Plan and the Pentair Pump Group, Inc. Bargaining Unit Employee Pension Plan. The purpose of this combination is to pool investment transactions and achieve uniform rates of return on comparable funds under all plans. The plans have deposited funds in the Master Trust. Prior to the termination of the Plan, the plans under the Master Trust owned an undivided interest in net assets of the Master Trust based on their equity in the Master Trust. In June 2019, upon termination of the Plan, the plans under the Master Trust were de-unitized and investments were allocated to the plans based on specified ownership.

At December 31, 2019, the allocation of trust funds and investment income (loss) among the participating pension plans in the Master Trust was determined based on specified ownership of the underlying assets in the Master Trust. At December 31, 2018 the allocation of funds was determined on a unit value basis, as determined by the Trustee. The allocation of trust funds at December 31, 2019 and 2018, were as follows:

	2019	2018	
	Amount	Amount	Percentage Ownership
Pentair, Inc. Pension Plan [1]	$ 606,655	$ 153,278,504	89.3%

Net assets of the Pentair, Inc. Master Trust	$ 22,344,635	$ 171,568,078	100.0%

[1] In November 2017, the Company's Board of Directors authorized the termination of the plan, effective December 31, 2017. In June 2019, the Plan completed its termination.

Net appreciation in fair value of investments	15,408,848

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the employees' contributions, compensation and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated Plan benefits is recognized during the year in which such amendment was adopted.

In June 2019, we completed the process of terminating the Plan through the purchase of annuities for the remaining participants. As such, there were no accumulated plan benefits as of December 31, 2019. The significant assumptions underlying the actuarial computations as of December 31, 2018, was as follows:

Investment return	4.19% compounded annually for funding purposes, and the present value of accumulated plan benefits
Discount rate	Range of 3.97% to 4.26% for annuity payments
Mortality	MRP 2007 Generational Mortality Table with no collar projected with scale MMP-2016
Retirement age	Earlier of 62 with 10 years of service or age 65 for active; age 62 for vested and disabled employees
Actuarial method	Unit credit

The actuarial present value of accumulated plan benefits as of December 31, 2018, was as follows:

Vested benefits:	
Participants and/or beneficiaries currently receiving benefits	$ 106,377,251
Other participants	69,507,508
Total actuarial present value of accumulated plan benefits	$ 175,884,759

As described in Note 1, in November 2017, the Board of Directors authorized the termination of the Plan effective December 31, 2017. As such, the actuarial assumptions utilized to calculate the actuarial present value of accumulated plan benefits, as well as the assumptions utilized to calculate the estimated termination liability as of December 31, 2018, were based on the presumption that the Plan will not continue as a going concern. In June 2019, the process of terminating the Plan was completed through the purchase of annuities for the remaining participants. As a result of benefits paid directly to participants and the subsequent purchase of annuities, there were no accumulated plan benefits as of December 31, 2019. The change in the actuarial present value of accumulated plan benefits from December 31, 2018 to December 31, 2019, after the remaining benefits were paid to participants, the purchase of annuities, and administrative expenses, was due to a change in estimate.

6. PLAN TERMINATION PRIORITIES

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. As described in Note 1, in November 2017, the Company's Board of Directors authorized the termination of the Plan effective December 31, 2017. In June 2019, we completed the process of terminating the Plan through the purchase of annuities for the remaining participants.

In the event of the termination of the Plan, the Plan provides for the allocation of available assets to pay benefits in the following order (with proration within groups):

a. Return of employee contributions, if any, then

b. Certain benefits payable three years prior to termination, then

c. Benefits that are guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") to certain limitations prescribed by ERISA, then

d. All other uninsured, vested benefits, then

e. All other benefits accrued to date of termination, then

f. The remainder, if any, reverts to the employer in accordance with Section 4044(d) of ERISA.

Certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested

benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

7. FAIR VALUE MEASUREMENTS

The Plan estimates fair value for financial assets based on the framework established in the fair value accounting guidance. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Certain investments are measured at fair value on a recurring basis in the statements of net assets available for benefits. The following methods and assumptions were used to estimate the fair values:

Cash Equivalents — Cash equivalents consist of investments in commingled funds valued based on observable market data. Such investments were classified as Level 2.

Fixed Income — Investments in corporate bonds and government securities were valued based upon quoted market prices for similar securities and other observable market data. Investments in commingled funds were generally valued at the end of the period based upon the value of the underlying investments as determined by quoted market prices or by a pricing service. Such investments were classified as Level 2.

Other Investments — Other investments include investments in commingled funds with diversified investment strategies. Investments in commingled funds valued based on unobservable inputs due to liquidation restrictions were classified as Level 3.

Common/collective trust Investments — Valued at the net asset value (NAV) of units of a bank collective trust. The NAV as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level within the fair value hierarchy a summary of the investments of the Master Trust at fair value as of December 31, 2019 (in Liquidation):

	Level 1	Level 2	Level 3	Total

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate transfers between levels for each investment held in the Plan. For the years ended December 31, 2019 (in Liquidation) and 2018 (in Liquidation) there were no transfers between levels.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 14, 2016, that the Plan was designed in accordance with applicable regulations of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more than likely would not be sustained upon examination by the IRS. Plan management believes there are no uncertain tax positions at December 31, 2019 and 2018. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

In 2017, the Plan filed for a termination request from the IRS and received approval on April 1, 2019. In June 2019, we completed the process of terminating the Plan through the purchase of annuities for the remaining participants.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Bank of New York Mellon is the Trustee, and therefore, certain transactions qualify as party-in-interest transactions. Fees paid by the Master Trust and the Plan to The Bank of New York Mellon for investment management services was $117,159 for the year ended December 31, 2019 (in Liquidation).

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Statements of Net Assets Available for Benefits in Liquidation as of December 31, 2019 and 2018, and the Statement of Changes in Net Assets Available for Benefits in Liquidation for the year ended December 31, 2019 differ from the net assets available for benefits and the changes in net assets available for benefits per the Form 5500 due to liquidation basis of accounting adjustments required under GAAP.
