Note 1 - Plan Description

The following description of Coilcraft Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Coilcraft, Inc. (the "Company") who are citizens or residents of the United States of America, have completed six months of service, and are age 21 or older. Participation in the Plan may begin on the first day of each calendar quarter after satisfying the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee salary 401(k) contributions on a pretax or after-tax basis subject to maximum limitations established by the Internal Revenue Code (IRC). Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Eligible employees who do not elect otherwise are automatically enrolled in the Plan with a deferral contribution rate of 5 percent. Employees who do not elect otherwise will have their deferral contribution rate increased by 1 percent on each January 1. The participant's deferral contribution rate will not be increased to an amount that exceeds 10 percent of the participant's compensation. No increase shall occur if the participant affirmatively elects at any time not to be subject to the 1 percent increase provision of the Plan.

The Plan provides for safe harbor employer matching contributions equal to 100 percent of the first 3 percent of each participant's deferral contribution and 50 percent of the participant's contributions to the extent that such contributions exceed 3 percent but do not exceed 5 percent of eligible compensation.

The Company may make annual discretionary profit-sharing contributions. All eligible employees receive the discretionary profit-sharing contribution unless they terminate employment during the year before age 55 for a reason other than disability retirement. The employer discretionary contribution is limited to an amount equal to the maximum amount deductible by the Company for the purpose of federal income taxes. The discretionary profit-sharing contribution is allocated to eligible participants in proportion to their compensation for the plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable

Participants may borrow from their accounts to a maximum equal to the lesser of $50,000, reduced by the highest outstanding loan balance in the year preceding the date of the loan, or 50 percent of their account balances. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.50 percent, which are commensurate with local prevailing rates determined quarterly by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions. Loans generally must be repaid within 5 years, unless the loan is used to purchase a principal residence, in which case the loan must be repaid within 15 years.

Note 1 - Plan Description (Continued)

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account, partial payments, or installment payments. However, participants may elect to defer commencement of distributions until April of the calendar year after they attain the age of 70½. Until such time as the funds are distributed, the participant is entitled to receive a pro rata share of fund earnings. Benefits may also be paid directly to an eligible retirement plan as an eligible rollover distribution. In-service distributions are allowed once a participant attains the age of 55 or 59½, based upon certain provisions of the Plan.

Participants may request that all or a portion of their accounts be distributed in the case of financial hardship, as defined in the plan agreement. The Company must approve any such hardship withdrawals.

Vesting

Participants are immediately 100 percent vested in employee salary contributions, employer matching contributions, rollover contributions, pension accounts transferred into the Plan from Coilcraft Pension Plan, and any income or loss thereon. Participants are also fully vested if their employment with the Company terminates after age 55 or because of death or disability. Vesting in the Company's discretionary profit-sharing contribution portion of their accounts plus actual earnings thereon is based on years of service. Participants vest in discretionary profit-sharing contributions made by the Company 20 percent after two years of service, an additional 20 percent after the third year of service, and another 20 percent per year thereafter until they become fully vested after six years of service.

Forfeitures

If a participant is not fully vested in any portion of the Company's discretionary profit-sharing contribution on his or her termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to participants based on the participant's compensation, as defined. Forfeitures attributable to employer matching contributions shall be used to reduce future company contributions. At December 31, 2019 and 2018, forfeited account balances totaled $38,098 and $56,796, respectively. During 2019, $128,935 in forfeited balances was allocated to participants.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Vanguard Fiduciary Trust Company or its affiliates. Vanguard Fiduciary Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net realized and unrealized losses on investments include gains and losses on investments bought and sold, as well as held, during the year. See Note 4 for further discussion of fair value measurements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan agreement.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 11, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Vanguard Fiduciary Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Note 4 - Fair Value Measurements (Continued)

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Common Collective Trust Funds

The Vanguard Retirement Savings Trust is a common collective trust fund and is valued at net asset value (NAV) per unit, as determined by the administrator of the trust. Such NAV is based on the value of the underlying assets and liabilities of the trust. This investment has no redemption restrictions or unfunded commitment.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2019

Note 5 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has received a determination letter from the IRS.
