Independent Auditor's Report

To the Plan Administrator
Axios International, Inc. Employee
Stock Ownership Plan

We have audited the accompanying financial statements of Axios International, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2019 and 2018 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2019 and 2018 and the changes in net assets for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 6, the financial statements include investments valued at $12,560,000 at December 31, 2019 and $13,050,000 at December 31, 2018, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on an independent appraisal, management projections, and guideline market data. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2019 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Plan Description

The following description of Axios International, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Effective January 1, 2011, Axios International, Inc. (the "Company") established Axios International, Inc. Employee Stock Ownership Plan. The Plan is a noncontributory, leveraged employee stock ownership plan with a cash or deferred arrangement, as described by Internal Revenue Code Section 401(a), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended. The Plan consists of two portions, a profit-sharing portion and an employee stock ownership portion. Employer securities held by the Plan are deemed to be held in the employee stock ownership portion. An employee becomes a participant in the Plan on the date of execution of the plan document, January 1, 2011. Thereafter, all employees who have attained the age of 21 and have completed at least one year of service and 1,000 hours of service are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of and for the years ended December 31, 2019 and 2018 present separately the assets and liabilities and changes therein pertaining to the following:

a. The accounts of employees with vested rights in allocated common stock (allocated)

b. Common stock not yet allocated to employees (unallocated)

Contributions

Contributions to the Plan are at the discretion of the Company's board of directors, provided that such contributions shall be sufficient to cover principal and interest on the exempt loan, if any.

Participant Accounts

Each participant's account is credited with the allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting is based on years of continuous service. Participants vest 20 percent per year and are fully vested after six years of credited service or upon normal retirement age if employed by the employer on or after such date. Normal retirement age, as outlined in the plan document, is 65 years.

Benefit Payments

Distributions are payable upon retirement, death, disability, termination of service, or diversification. Distributions are made in cash. A participant who is eligible to receive the distribution of his or her account balance may receive a lump-sum amount, unless the Plan elects to distribute the account balance in five equal installments, plus one year for each $195,000 in excess of $985,000, or fraction thereof. Account balances less than $1,000 are paid in a single lump sum upon termination. The balances payable for retired and terminated employees payable in 2020 is $267,835.

Note 1 - Plan Description (Continued)

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to participants based on the participant's compensation, as defined. Allocations of forfeitures are considered additional company contributions and are subject to the vesting provisions of company contributions.

Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC. Upon termination of the Plan, the Plan shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Diversification

Participants that have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to receive up to 25 percent of the value of the participant's account, less any prior diversification distributions for a five-year period. At the end of the five-year period after the participant becomes eligible for diversification distributions, participants are eligible to receive up to 50 percent of the value of the participant's account, less any prior diversification distributions.

Voting Company Stock

Each participant is entitled to exercise, in certain matters, voting rights attributable to the shares allocated to his or her account as long as the trustee is notified prior to the time that such rights are to be exercised.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. The common shares of Axios International, Inc. are valued at fair value, as determined by an annual independent appraisal.

See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefit Payments

Benefits are recorded when paid.

Administrative Expense

Administrative expense of approximately $130,000 and $110,000 for the years ended December 31, 2019 and 2018, respectively, was paid by the Company.

Risks and Uncertainties

The Plan invests in company common stock. This investment is exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with the investment in company common stock, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 14, 2020, which is the date the financial statements were available to be issued.

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13), which primarily removes and modifies Level 3 fair value measurement disclosures. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. Management does not expect the adoption of this ASU to have a significant impact on the Plan’s financial statements.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the IRC. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 4 - Investments in Common Stock

The Plan's investments, which consist entirely of the Company's stock held by the plan administrator at December 31, 2019 and 2018, are presented in the following table:

	2019		2018	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	652,200	347,800	597,757	402,243
Cost	$ 3,257,998	$ 642,002	$ 3,157,470	$ 742,530
Fair value	$ 8,191,630	$ 4,368,370	$ 7,800,733	$ 5,249,267

Note 5 - Note Payable - Employer

On March 30, 2012, the Plan borrowed $1,500,000 from the Company to purchase 812,353 shares from the Company. The note is payable in annual principal installments of $100,000, plus interest at 2.65 percent over a period of 15 years.

The loan is guaranteed by the Company and collateralized by the unallocated shares held in the trust established under the Plan for which the loan was used to purchase.

Minimum principal payments on this loan to maturity are as follows:

Years Ending	Amount
2020	$ 100,000
2021	100,000
2022	100,000
2023	100,000
2024	100,000
2025 and beyond	200,000
Total	$ 700,000

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan’s assets measured at fair value on a recurring basis at December 31, 2019 and 2018.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Note 6 - Fair Value Measurements (Continued)

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The company common stock is classified as Level 3 in the hierarchy and is based on the fair value determined through third-party appraisal, which utilized a combination of both market and income approaches, including the discounted cash flow method, the guideline public company method, and the guideline transaction method. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, and market comparables. The unobservable inputs for the discounted cash flow method were the weighted-average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the guideline company method and guideline transaction method was revenue growth.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2019	
	Investments (at Fair Value)	Level 3
Assets - Axios International, Inc. company stock	$ 12,560,000	$ 12,560,000

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2018	
	Investments (at Fair Value)	Level 3
Assets - Axios International, Inc. company stock	$ 13,050,000	$ 13,050,000

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2019 or 2018.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2019 and 2018 are as follows:

	Axios International, Inc. Common Stock
Balance at January 1, 2019	$ 13,050,000
Total unrealized losses	(490,000)
Balance at December 31, 2019	$ 12,560,000

Note 6 - Fair Value Measurements (Continued)

	Axios International, Inc. Common Stock
Balance at January 1, 2018	$ 11,600,000
Total unrealized gains	1,450,000
Balance at December 31, 2018	$ 13,050,000

Of the Level 3 assets still held by the Plan at December 31, 2019 and 2018, the unrealized (losses) gains for the years ended December 31, 2019 and 2018 were $(490,000) and $1,450,000, respectively, which are recognized in the statement of changes in net assets available for benefits.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for the assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

The Company has processes in place to select the appropriate valuation technique and unobservable inputs to perform Level 3 fair value measurements. These processes include obtaining an independent, third-party valuation expert and a review of the valuation report by management.
