WIB COMMUNITY BANK RETIREMENT PROGRAM

Notes to Financial Statements

December 31, 2019 and 2018

NOTE 1 - DESCRIPTION OF THE PLAN

The provisions of the WIB Community Bank Retirement Program (the Plan) were effective November 1, 2016. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

WIB Community Bank Retirement Program Board of Directors (Board) adopted the Plan to allow its member banks to adopt this profit sharing and retirement savings plan. Effective November 1, 2016, Bank of the Pacific (09L) adopted the Plan, effective December 15, 2016, and effective January 1, 2017, Community 1st Bank (10L) adopted the Plan.

Effective March 30, 2019, 10L elected to spin-off its assets from the Plan into a new plan. Effective December 30, 2019, 09L elected to spin-off its assets from the Plan into a new Plan. Effective December 31, 2019, the Board elected to terminate the Plan (see Note 7).

General

The Plan was a defined contribution plan and covered substantially all employees of the adopting member banks, except for union employees and non-resident aliens. Eligibility provisions varied by adopting employer. Employees became eligible for participation after three months of service and certain adopting employers require the attainment of age 21. Additionally, certain adopting employers required employees to complete one year of service or be employed on the last day of the Plan year to receive discretionary employer matching or profit sharing contributions. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board was responsible for oversight of the Plan, determined the appropriateness of the Plan's investment offerings, and monitored investment performance.

Contributions

Certain adopting employers provided for automatic enrollment of participants at a salary reduction rate of 3% with a step-up rate of 1% or 2% annually, up to a maximum of 9% or 10%. Participants were allowed to elect to contribute up to 100% of their pre-tax or Roth after-tax compensation, within statutory limits, as defined in each adopting employer's adoption agreement, and stop or change deferrals at any time. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were also allowed contribute amounts representing distributions from other qualified plans. Participant contributions were paid to the Plan after each pay period.

Certain participating employers provided for safe-harbor contributions equal to 3% of eligible compensation, which were paid to the plan after each pay period. At the discretion of certain participating employers, discretionary matching contributions were authorized each year. For 2019 and 2018, discretionary matching contributions were 100% of a participant's deferrals up to 5% of eligible and 100% of a participant's deferrals up to 4% of eligible compensation, respectively. Discretionary matching contributions were paid to the Plan each pay period. 2019 matching contributions were approximately \$700,000, of which approximately \$668,000 was paid in 2019, \$29,000 of forfeitures were used, and approximately \$3,000 was paid to a successor plan. 2018 matching contributions of approximately \$2,000 were paid in 2019.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Contributions (continued)

At the discretion of certain participating employers, profit sharing contributions were allowed to be authorized each year and were paid to the Plan in either the current or following year. No participating employers elected to make discretionary profit sharing contributions for 2019.

Participant Accounts

Individual participant accounts were maintained by Pentegra Services, Inc. (Pentegra Services), the Plan Administrator and record keeper. Each account was credited or charged with the participant's contribution, the employer's contributions, if any, and allocations of investment income and losses on the individual account balances. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Loan and distribution fees were deducted from the respective participants' accounts. Allocations were based on participant compensation, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investment Options

Participants directed employee and employer contributions among various mutual funds and one guaranteed investment contract which were held by Reliance Trust Company (RTC).

Vesting

Participants were immediately vested in their own contributions and employer safe harbor matching contributions, plus actual earnings thereon. Vesting in discretionary employer contributions plus actual earnings thereon was based on years of credited service, as defined in the Plan document, with 20% vesting after one year and 100% vesting after five years of service is based on years of credited service. Upon normal retirement (65), death or disability, participants became fully vested in all benefits.

Notes Receivable from Participants

Participants borrowed from their account a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance. Terms of the notes receivable would not exceed five years, except for the purchase of a primary residence. The notes receivable were secured by the balance in the participant's account and bore interest at the prime rate plus 1% at the time of issuance. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

Benefits were to be distributed upon retirement, death, disability, or other termination of employment. Benefits equal to the value of the participant's vested account were paid in a lump-sum or installments. Under certain hardship circumstances or attainment of age 59 ½, participants were allowed to request a lump-sum distribution of their vested pre-tax or after-tax deferral account balances prior to retirement.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Forfeited Accounts

Upon termination, participants' non-vested account balances were forfeited. Forfeitures were allowed to be used to pay administrative expenses, reduce employer contributions, or be reallocated to participants as additional contributions. Forfeited non-vested accounts totaled approximately \$0 and \$23,000 at December 31, 2019 and 2018, respectively. During 2019, forfeitures of approximately \$53,000 were used to offset employer contributions, including approximately \$24,000 that were used to fund corrective employer contributions.

Administrative Expenses

The Plan's investment fund options were subject to investment management fees and certain revenue sharing fees, as disclosed in each fund's prospectus. A majority of these fees were charged directly against each fund's investment performance and, therefore, were included in net appreciation in the accompanying Statements of Changes in Net Assets Available for Benefits – Modified Cash Basis. Revenue sharing fees were collected from various mutual fund companies by the Plan's service providers and were used to offset the Plan's administrative fees. Participant loan and distribution transaction fees charged by service providers were deducted from the accounts of the respective Plan participants and were recorded as expenses by the Plan. Certain Plan administrative, trustee, advisor, and custodial expenses were allowed to be paid by the adopting employer and, therefore, were excluded from these financial statements. Any remaining unpaid Plan administrative, trustee, advisor, and custodial expenses, including the annual audit fee, were paid by either forfeitures or Plan participants and were recorded as expenses by the Plan.

Subsequent Events

The date to which events occurring after December 31, 2019, have been evaluated for possible adjustment to the financial statements or disclosure therein is October 2, 2020, which is the date on which the financial statements were available to be issued.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The following are significant accounting policies used by the Plan:

Basis of Accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). That basis differs from GAAP in that contributions are recorded when received instead of when withheld from employees or due from the employer and expenses are recognized when paid instead of when incurred.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting requires the Plan to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value, except the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - FAIR VALUE MEASUREMENTS

The modified cash basis of accounting establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan's investments at fair value consist solely of mutual funds, which are valued as of December 31, 2018 using level 1 measurement.

NOTE 4 - FULLY BENEFIT-RESPONSIVE GUARANTEED INVESTMENT CONTRACT

The Plan holds a traditional fully benefit-responsive investment contract (guaranteed investment contract) with Standard Insurance Company (Standard). The investment contract is reported at contract value. Contract value is the relevant measure for insurance contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the insurance company traditional general account investment contract was \$4,394,854 at December 31, 2018.

The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is established by the contract issuer and may not be less than zero. The crediting rate is reviewed on an annual basis for resetting. The contract permits the insurance company to terminate the agreement with 30 days advance written notice prior to the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully-benefit responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

NOTE 4 - FULLY BENEFIT-RESPONSIVE GUARANTEED INVESTMENT CONTRACT (continued)

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. Amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan)
2. Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions
3. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (i.e., divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan
4. The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974

The Plan was amended during 2019 for the transfer of assets to other plans (Notes 1 and 7). The Plan and participants were able to transact at contract value, and the contract was not terminated through the date of transfer.

NOTE 5 - INFORMATION CERTIFIED BY CUSTODIAN

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Reliance Trust Company (RTC), the custodian, has certified that the following data included in the accompanying financial statement and notes:

- 1) Fair value of mutual fund investments as of December 31, 2018.
- 2) Contract value of the guaranteed investment contract as of December 31, 2018.
- 3) Net appreciation in fair value of mutual funds, dividends, and interest on the guaranteed investment contract for the year ended December 31, 2019.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and notes.

NOTE 6 – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Pentegra Services is the Plan Administrator and named Fiduciary; therefore, transactions with Pentegra Services qualify as party-in-interest transactions. The Plan paid fees of \$131,770 to Pentegra Services during 2019 for administrative and advisory services.

NOTE 7 – TRANSFER OF ASSETS TO OTHER PLANS AND PLAN TERMINATION

Effective March 30, 2019, 10L elected to spin-off its assets from the Plan into a new plan. As a result, \$744,686 of assets were transferred from the Plan. Effective December 30, 2019, 09L elected to spin-off its assets from the Plan into a new Plan. As a result, investments of \$20,312,096 and notes receivable from participants of \$374,272 were transferred from the Plan. Effective December 31, 2019, the Board elected to terminate the Plan (see Note 1).

NOTE 8 - TAX STATUS

The Plan operates under provisions of a Pentegra Services, Inc. volume submitter profit sharing plan which received an opinion letter from the Internal Revenue Service dated March 31, 2014, which stated that the volume submitter plan and related trust, as then designed, was acceptable under the applicable sections of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has been amended since the date of the opinion letter. The Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

The modified cash basis of accounting requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan allows participants to invest in investment securities that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.
