NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following brief description of the Prism Plastics, Inc. 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document or the Summary Plan Description for a complete description of the Plan's provisions.

General: The Plan was a defined contribution plan established for the benefit of the employees of Prism Plastics, Inc. (Company), the Plan Sponsor. The Plan was intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2019, the Plan merged with and transferred rights to the assets of the Plan to the Marmon Employees' Retirement Plan, which is sponsored by Marmon Holdings, Inc. (Parent Company).

Eligibility: Employees who had reached 18 years of age and had completed 60 days of service were eligible to participate in the Plan. Entry into the Plan was granted the first day of each month with or next following the data eligibility requirements were satisfied. In addition, employees were eligible for an employer non-elective profit sharing contribution if he/she had completed 1,000 hours of service during the Plan year and was employed at year end. The Company did not declare a profit sharing contribution for the year ended December 31, 2019.

Contributions: Eligible employees could contribute pre-tax annual compensation as defined in the Plan document up to the maximum amount allowed by the Internal Revenue Code. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Company was required to make a safe harbor matching contribution equal to 100% of the employee's elective deferral contribution that did not exceed 3% of compensation plus 50% of the salary deferrals between 3% and 5% of compensation. In addition, the Company could make non-elective profit sharing contributions. There were no non-elective profit sharing contributions made in 2019. Participants could roll over amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions were subject to certain limitations.

Participant accounts: Each participant account was (a) credited with the participant's contributions, (b) credited with the Company's contributions, (c) credited (reduced) with an allocation of investment income (loss) and appreciation (depreciation) in the fair value of investments, (d) reduced by the participant's withdrawals, and (e) reduced by administrative expenses. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Allocations to individual participant accounts were based upon unit values at specified valuation dates.

Notes receivable from participants: A participant could borrow from his or her account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her vested account balance. Loan terms could not exceed five years. However, if the loan was for the purchase of a principal residence, the Plan Administrator could permit a repayment term of longer than five years. Loans were collateralized by 50% of the nonforfeitable amount of the borrowing participant's account balance under the Plan. The interest rate for these loans was fixed for the life of the loan. The interest rate was based on the prime interest rate at the time of the loan. Interest rates on outstanding loans at the time of merger ranged from 3.25% to 5.50%. Principal and interest were paid through payroll deductions. Participants could not have more than one outstanding loan at a time.

Payment of benefits: Upon termination of service due to death, disability, retirement, or other reason, a participant could elect to receive a lump-sum distribution of his or her vested account balance. The Plan Sponsor could initiate an involuntary distribution for those terminated participants whose Plan balance was less than \$1,000 as soon as administratively feasible following termination of employment. In addition, hardship distributions were allowed by the Plan.

PRISM PLASTICS, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Vesting: Participants were immediately vested in their contributions, rollover contributions, and Company safe harbor match as defined by the Plan document plus actual earnings thereon. Vesting in the employer non-elective profit sharing contribution portion of their accounts plus actual earnings thereon was based on years on continuous service. A participant was 100 percent vested after six years of credited service, as defined in the Plan document.

Forfeited accounts: Forfeiture of non-vested employer non-elective profit sharing contributions arising from employee terminations and withdrawals could be used in the following order: for the restoration of participants' forfeitures, to offset administrative expenses, to reduce the employer non-elective contribution, or added to the employer's contribution, as provided by the Plan document. Forfeited non-vested accounts as of December 31, 2019 and 2018, were \$0 and \$20,200, respectively. In 2019, the Plan used \$995 of forfeiture to offset administrative expenses and \$19,891 to reduce the employer safe harbor matching contributions.

Investment options: Participants were permitted to direct the investment of their account balances into a variety of investment choices as more fully described in the Plan's literature. Participants could change their allocation on the first day of each Plan quarter.

Note 2. Significant Accounting Policies

The accounting policies followed by the Plan and the method of applying those policies which materially affected the determination of net assets available for benefits and changes in net assets available for benefits are as follows:

Basis of accounting: The financial statements of the Plan were prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment valuation and income recognition: Investments were stated at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for discussion on fair value measurements.

Purchases and sales of investments were recorded on a trade date basis. Dividend income from mutual funds was recorded on the ex-dividend date and interest income was recorded on the accrual basis. Net appreciation (depreciation) included the Plan's gains and (losses) on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document.

Payments of benefits: Benefits were recorded when paid.

Administrative expenses: The Plan's administrative expenses were paid by either the Plan or the Plan Sponsor as provided by the Plan document.

Use of estimates: The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets available for Plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could have differed from those estimates.

Subsequent events: The Plan has evaluated subsequent events through September 21, 2020, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note 3. Investments Certified by Capital Bank and Trust Company

The following is a summary of the investment information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements that were prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that the information provided to the Plan Administrator by the Trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any procedures with respect to the information which appears throughout the financial statements related to the following investments as of December 31:

	2019	2018
Investments at fair value:		
Mutual funds	\$ -	\$ 9,751,965

The Trustee also certified to the completeness and accuracy of \$1,801,806 of net appreciation in fair value of investments, \$439,604 of dividends earned on investments, \$1,803 of other income, and \$6,371 of interest related to the notes receivable from participants for the year ended December 31, 2019. Notes receivable from participants that were certified as of December 31, 2019 and 2018, amounted to \$0 and \$150,887.

Note 4. Investments and Fair Value Measurements

Authoritative guidance regarding *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements), and the lowest priority to unobservable inputs (Level III measurements). The three levels of fair value hierarchy under the authoritative guidance are described below:

- Level I Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level II Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the assets or liabilities;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.
- Level III Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

PRISM PLASTICS, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Following is a description of the valuation methodology used for assets measured at fair value:

Mutual funds: Share Prices/Net Asset Values (NAVs) reported on the Plan Summary Reports for NAV mutual funds are generally obtained from a file feed from the National Securities Clearing Corporation, and/or directly from the fund house, or a secondary pricing source, such as Interactive Data Corporation (IDC).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 (there were no assets to report for the Plan as of December 31, 2019):

	Assets at Fair Value as of December 31, 2018			
	Total	Level I	Level II	Level III
Mutual funds	\$ 9,751,965	\$ 9,751,965	\$ -	\$ -

Note 5. Related Party Transactions

Certain Plan investments were mutual funds managed by American Funds, a related party of Capital Bank and Trust Company. Capital Bank and Trust Company was the Trustee as defined by the Plan, and, therefore, these transactions qualified as party-in-interest transactions.

Fees paid by the Plan for administrative services amounted to \$5,897 for the year ended December 31, 2019. Certain administrative functions were performed by officers or employees of the Company. No such officers or employees received compensation from the Plan. Certain other administrative expenses were paid directly by the Company for which it was not reimbursed.

Note 6. Plan Termination

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants would have become 100 percent vested in their entire account (Note 9).

Note 7. Tax Status

The Internal Revenue Service (IRS) had determined and informed the Sponsor of the prototype plan by a letter dated January 27, 2015, that the Plan was qualified and the trust established under the Plan was tax exempt, under the appropriate sections of the IRC. The Plan was amended since receiving the determination letter; however, the Plan Administrator believed that the Plan was designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the appropriate taxing authority. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, tax returns for years ended December 31, 2016, and thereafter remain subject to examination by the appropriate taxing authorities.

NOTES TO FINANCIAL STATEMENTS

Note 8. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it was at least reasonably possible that changes in the values of investment securities would have occurred and that such changes could have materially affected participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 9. Plan Transfers

Funds transferred out of the Plan reflect amounts transferred to the Marmon Employees' Retirement Plan related to the merger, effective December 31, 2019 (Note 1).
