The Investment Committee
Laboratory Corporation of America Holdings Cash Balance Retirement Plan
Burlington, North Carolina

We were engaged to audit the accompanying financial statements of the Laboratory Corporation of America Holdings Cash Balance Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, as listed in the accompanying table of contents, as of or for the year ended December 31, 2019, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1: DESCRIPTION OF PLAN

The following description of the Laboratory Corporation of America Holdings (the “Company” or “Plan Sponsor”) Cash Balance Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan was formed on January 1, 1995. The Plan is a cash balance defined benefit pension plan which provides certain retirement and death benefits on a noncontributory basis to all non-union employees of the Company who have completed at least one year of service, are 21 years of age or older, and are not a nonresident alien. Wells Fargo Bank, N.A. serves as the Plan’s trustee (the “Trustee”). In July 2019, Principal Financial Group (“Principal”) acquired the Wells Fargo & Company Institutional Retirement & Trust business. Principal is still working to integrate the businesses. As of and for the years ended December 31, 2019 and 2018, the Plan investments were certified by Wells Fargo Bank, N.A. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Company’s Investment Committee (the “Committee”). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investments and monitors investment performance.

Participation in the Plan was closed to new entrants as of December 31, 2009, and participants in the Plan have not accrued any additional benefits after that date.

Payment of Benefits

Non-union employees with three or more years of service are entitled to monthly pension benefits beginning at the normal retirement age of 65 and based on the balance of the participant’s account. The Plan allows for early retirement at ages 55 to 64 for participants with ten or more years of service.

Participants may elect to receive their pension benefits in various forms as provided in the plan document. If participants leave the Company before rendering three years of service, they forfeit the right to receive their accumulated Plan benefits.

NOTE 1: DESCRIPTION OF PLAN (concluded)

Death Benefits

If a participant who has a vested retirement pension dies before his or her pension commencement date, a death benefit will be paid to his or her surviving spouse in accordance with the Plan's provisions.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Benefit payments to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of January 1, 2019, and changes therein. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Laboratory Corporation of America Retirement Plan Master Trust (“Master Trust”) was created under the terms of a trust agreement between the Trustee and National Health Laboratories, Inc. During 1995, the assets of the Roche Biomedical Laboratories Retirement Plan were transferred to the National Health Laboratories, Inc. Master Trust pursuant to a merger between Roche Biomedical Laboratories, Inc. and National Health Laboratories, Inc. The Plan and the Master Trust were renamed the Laboratory Corporation of America Holdings Cash Balance Retirement Plan and the Laboratory Corporation of America Retirement Plan Master Trust. The assets of the Master Trust are wholly owned by the Plan. Under this current trust agreement, the Trustee manages trust funds on behalf of the Plan. The Trustee and other investment managers have discretionary authority over investment transactions of the Master Trust assigned to their specific management. The Plan is currently the only plan in the Master Trust, thus single plan reporting requirements apply.

Administrative Expenses

The Plan’s expenses are paid either by the Plan or the Company, as provided in the plan document. Expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements. Trustee’s fees, consulting fees, investment manager fees, and Pension Benefit Guaranty Corporation (“PBGC”) fees paid by the Plan are included in administrative expenses in these financial statements. Certain investment related expenses are included in net appreciation or depreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Risks and Uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit rates. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the Plan’s financial statements and supplemental schedules.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by Willis Towers Watson, an independent consulting actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used as of January 1, 2019, are summarized as follows:

Discount rate on obligations - 6.5%

Rate of return - 6.5%

Mortality table - Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under Section 1.430(h)(3)-1 using Scale MP-2017) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under Section 1.430(h)(3)-1 using Scale MP-2017).

Retirement age - A probability of retirement assumption was used as follows: 5% for ages 55 - 58, 7% for ages 59-61, 12% for ages 62-64, 20% for ages 65-69, 25% for ages 70 -74, and 100% for age 75 and over.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(Dollars in Thousands)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

As of January 1, 2019, the accumulated plan benefits were as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 65,266
Other participants	<u>183,183</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 248,449</u>

Changes in accumulated plan benefits for the year ending January 1, 2019, are summarized as follows:

Actuarial present value of accumulated plan benefits as of beginning of year	<u>\$ 256,313</u>
Changes during the year attributable to:	
Actuarial losses	3,921
Decrease in the discount period	15,777
Actual benefits paid	(27,179)
Change in actuarial assumptions	<u>(383)</u>
Net decrease	<u>(7,864)</u>
Actuarial present value of accumulated plan benefits as of end of year	<u>\$ 248,449</u>

The change in actuarial assumptions of \$383 for the year ending January 1, 2019, is a result of a change in the mortality projection scale used to calculate the funding target and target normal cost from Scale MP-2016 to Scale MP-2017 and a change in the mortality projection scale for Accounting Standards Codification Topic 960, *Plan Accounting - Defined Benefit Pension Plans* from Scale MP-2017 to Scale MP-2018.

NOTE 3: FUNDING POLICY

The Company's policy is to fund at least the actuarially computed minimum funding requirements of ERISA each year. The Plan met the minimum funding requirements for 2019 and 2018.

NOTE 4: PLAN TERMINATION

Although the Company has not expressed intent to terminate the Plan, it reserves that right as provided in the plan document. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or the amount that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by PBGC up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit projections is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 5: INFORMATION PREPARED AND CERTIFIED TO BY TRUSTEE

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments and cash held as of December 31, 2019 and 2018, net appreciation or depreciation in fair value of investments, and interest and dividends for 2019 and 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

NOTE 6: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 6: FAIR VALUE MEASUREMENTS (concluded)

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2019 and 2018.

Money market fund and mutual funds - Valued at the daily closing price as reported by the funds. The mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The money market fund and mutual funds are required to publish their daily net asset value and to transact at that price. These funds held by the Plan are deemed to be actively traded.

Collective trust funds - Valued based on the underlying unit value as provided by the Trustee. Valuation of the funds' units is published daily and is the basis for current transactions. Unit values are determined by dividing the value of each fund's net assets by the total number of units outstanding on the valuation date. Transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust funds, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that security liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

2019				
Investments at Fair Value				
	Level 1	Level 2	Level 3	Total
Collective trust funds	\$ -	\$ 192,342	\$ -	\$ 192,342
Mutual funds	65,375	-	-	65,375
Money market fund	4,313	-	-	4,313
Total investments at fair value	\$ 69,688	\$ 192,342	\$ -	\$ 262,030

2018				
Investments at Fair Value				
	Level 1	Level 2	Level 3	Total
Collective trust funds	\$ -	\$ 175,891	\$ -	\$ 175,891
Mutual funds	63,322	-	-	63,322
Money market fund	7,751	-	-	7,751
Total investments at fair value	\$ 71,073	\$ 175,891	\$ -	\$ 246,964

NOTE 7: RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of collective trust funds managed by the Trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation or depreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. During 2019, the Plan made direct payments to the Trustee of \$70, PBGC of \$3,318, and consulting fees of \$1,793, which were not covered by revenue sharing. During 2018, the Plan made direct payments to the Trustee of \$80, PBGC of \$2,855, investment manager fees of \$95, and consulting fees of \$867, which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

NOTE 8: INCOME TAX STATUS

The Plan obtained its latest determination letter on November 20, 2012, in which the Internal Revenue Service stated that the Plan and its underlying trust qualify, in form, under the applicable provisions of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities.

NOTE 9: SUBSEQUENT EVENTS

As a result of the spread of coronavirus ("COVID-19"), economic uncertainties have arisen, which have resulted in significant volatility in the investment markets. The impact on the markets could materially affect the amounts reported in the financial statements. The potential impact and duration of COVID-19 is difficult to assess or predict, and will depend on future developments that are highly uncertain. Plan management is unable to estimate the full impact on the Plan's financial statements at this time.

The Company has evaluated subsequent events through September 23, 2020, the date these financial statements were available for issuance.

SCHEDULE SB ATTACHMENTS

Form of payment	All active participants are assumed to elect a lump sum distribution upon termination or retirement. Upon disability, current active participants are assumed to elect a lump sum distribution at age 65. Terminated vested participants are assumed to elect an annuity beginning at age 65.
Percent married	70% of eligible participants. Used to value pre-retirement surviving spouse benefits.
Spouse age	Wife three years younger than husband.
Cash flow timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement and beginning of year decrements are assumed for the valuation.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2018 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Laboratory Corporation of America and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Employee data was supplied by the plan sponsor on regular payroll feeds. Data on persons receiving benefits was supplied on a listing from the plan trustee. Data on other participants (terminated vested) is kept by Willis Towers Watson and updated each year to reflect new terminations provided by the plan sponsor or terminated vested participants who have recently commenced payment. Information on assets, contributions, and plan provisions was supplied by the plan sponsor.

Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using a fixed 4.00% rate.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution," so that the interest rates assumed are effectively the same as described above for the discount rate.
Administrative "and investment" expenses	Plan-related expenses are estimated by determining the actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430.
Termination	Termination rates were based on an experience study conducted in 2014. The study reviewed termination rates between January 1, 2009 and January 1, 2014. Annual consideration will be given to whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2017. Annual consideration has been given to whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement for deferred benefits	Deferred vested participants who did not elect the lump sum form of payment at termination are assumed to begin benefits at age 65 (or current age if later). Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

SCHEDULE SB ATTACHMENTS

Form of payment

The percentage of terminating/retiring active participants assumed to take lump sums is based on observed experience. Of the hundreds of active participants who separate from service each year, only a small handful choose the annuity payment form. In each of the past three years, less than 5 percent have chosen the annuity payment form.

Marital Assumptions

- Percent married The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
- Spouse age The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018 as required by IRC §430.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from Scale MP-2016 to Scale MP-2017, as required by IRC §430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Form of payment	All active participants are assumed to elect a lump sum distribution upon termination or retirement. Upon disability, current active participants are assumed to elect a lump sum distribution at age 65. Terminated vested participants are assumed to elect an annuity beginning at age 65.
Percent married	70% of eligible participants. Used to value pre-retirement surviving spouse benefits.
Spouse age	Wife three years younger than husband.
Cash flow timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement and beginning of year decrements are assumed for the valuation.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2018 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Laboratory Corporation of America and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Employee data was supplied by the plan sponsor on regular payroll feeds. Data on persons receiving benefits was supplied on a listing from the plan trustee. Data on other participants (terminated vested) is kept by Willis Towers Watson and updated each year to reflect new terminations provided by the plan sponsor or terminated vested participants who have recently commenced payment. Information on assets, contributions, and plan provisions was supplied by the plan sponsor.

Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using a fixed 4.00% rate.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution," so that the interest rates assumed are effectively the same as described above for the discount rate.
Administrative "and investment" expenses	Plan-related expenses are estimated by determining the actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430.
Termination	Termination rates were based on an experience study conducted in 2014. The study reviewed termination rates between January 1, 2009 and January 1, 2014. Annual consideration will be given to whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2017. Annual consideration has been given to whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement for deferred benefits	Deferred vested participants who did not elect the lump sum form of payment at termination are assumed to begin benefits at age 65 (or current age if later). Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

Form of payment

The percentage of terminating/retiring active participants assumed to take lump sums is based on observed experience. Of the hundreds of active participants who separate from service each year, only a small handful choose the annuity payment form. In each of the past three years, less than 5 percent have chosen the annuity payment form.

Marital Assumptions

■ Percent married

The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.

■ Spouse age

The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018 as required by IRC §430.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from Scale MP-2016 to Scale MP-2017, as required by IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective January 1, 1992, restated effective January 1, 2016 and subsequently amended by Amendment Number 1 (adopted November 2018) which provided for the automatic payments of small Cash Balance accounts (less than or equal to \$5,000) for commencement dates on and after December 1, 2018.

Definitions

Plan year	The twelve-month period ending December 31.
Covered employees	<p>All employees are eligible to participate under the plan on the Entry Date coincident with or next following the later of attaining age 21 and first anniversary of hire. For employees hired prior to January 1, 1995, Entry Date means the first day of the month. For employees hired on or after January 1, 1995, Entry Date means the first day of each January and July. "Employee" means any person on the payroll whose wages are subject to withholding for the purposes of federal income tax.</p> <p>Note: If an employee meets the age requirement, but fails to complete 1,000 hours during the first year, participation will begin on the January 1 following the plan year in which 1,000 hours are completed.</p> <p>Participation in the plan was closed to new entrants as of December 31, 2009, and participants in the plan will not accrue any additional benefits after that date.</p>
Credited service	The number of years and completed months of service from date of participation to date of termination, adjusted for certain periods of unpaid absence. Credited service stops accruing as of December 31, 2009.
Vesting service	Total service from date of hire to date of termination, less any absence in excess of 12 months that is excluded from credited service, using elapsed time.

Final average compensation

The monthly average of the 5 consecutive calendar years' compensation out of the last 10 years that gives the highest average. For benefits accrued prior to July 1, 1995 under the Roche Biomedical Laboratories Retirement Plan (the "RBL Plan"), and for participants grandfathered under that plan formula, the monthly average is based on the highest 60 months out of the last 120 months that gives the highest average. No compensation shall be taken into account under the plan for any period after December 31, 2009.

Plan compensation

Compensation includes base pay plus any compensation deferred under a Section 125 or Section 401(k) plan, including shift differentials. Compensation is limited to \$200,000 (indexed beginning in 2002) as required.

 - II. 1.2% of the greater of Earnings and Final Average Earnings multiplied by service earned from December 31, 1974 through June 30, 1983.
 - III. The RBL plan benefit based upon service measured from June 30, 1983 such that the sum of service considered under (i), (ii) and (iii) does not exceed 25 years.

In the CBL Plan, Basic Earnings Rate is defined as the highest five consecutive year average earnings rates for the participant at the date of determination, where earnings rate is defined as the participant's base salary rate on a preceding December 1st.

The foregoing CBL Pension Plan benefit was frozen effective December 31, 1988.

Former Participants in the RCL Plan

For benefits accrued prior to July 1, 1995 and for all grandfathered participants, (age 50 and 15 Years of Service as of June 30, 1995), former participants in the RCL Plan as of December 31, 1983 who elected to continue making contributions after December 31, 1983 and whose retirement date is on or before June 30, 1992 will receive a benefit (the "RCL Plan Formula") computed as follows:

- For a participant with less than 15 years of Continuous Service, the benefit is 2% of earnings less \$18 for each year of Continuous Service.
- For a participant with at least 15 years of Continuous Service, the benefit is 2.4% of Final Average Earnings less \$57.60 times years of Continuous Service not in excess of 25 years.

Former participants in the RCL Plan as of December 31, 1983 who elected to make no contributions after December 31, 1983 or former participants in the RCL Plan as of December 31, 1983 who elected to continue making contributions after December 31, 1983 and whose retirement date is on or after July 1, 1992 will receive a benefit computed as follows:

Normal retirement (continued)

- For Continuous Service prior to the date contributions were discontinued, the amount determined under (a) or (b) above (the RCL Plan Formula). In determining whether (a) or (b) is used, all years of Continuous Service as of the participant's retirement date shall be taken into account.
- For Continuous Service after the date contributions were discontinued but prior to the completion of 25 years of Continuous Service, the RBL Plan benefit.

Former Participants in the Medlabs Plan

For benefits accrued prior to July 1, 1995 and for all grandfathered participants, (age 50 and 15 Years of Service as of June 30, 1995), former participants in the Medlabs Plan as of February 28, 1989 will receive the Medlabs Plan accrued benefit based on service and earnings to June 30, 1988 under that Plan plus the RBL plan benefit based on continuous service from July 1, 1988.

Cash Balance Formula

For all non-grandfathered participants, subsequent to December 31, 1994 for former NHL Plan participants and June 30, 1995 for former RBL Plan participants, a cash balance plan benefit based on Pay-based Credit as follows:

Pay-based Credit:

Credited Service	Pay-based Credit
0-1.99 years	2.25%
2-4.99 years	2.50%
5-9.99 years	3.00%
10-14.99 years	4.00%
15-19.99 years	5.00%
20-33.99 years	6.00%
34+ years	0.00%

Interest Credit: 4.00%.

The monthly benefit is developed by projecting the cash balance as of the end of the year of determination to Normal Retirement Date based on the interest credit rate in effect at determination, then converting to a monthly benefit using actuarial equivalence based on the applicable mortality table and the applicable interest rate defined in the IRC Section 417(e) for the year of determination.

Late retirement

If retirement occurs after the normal retirement date, the late retirement income will be the greater of:

- a. the benefit calculated using credited service and compensation as of the late retirement date; and
- b. the benefit accrued as of the normal retirement date, actuarially increased to the late retirement date.

Accrued benefit

The participant's accrued benefit at any given date is determined under the normal retirement formula(s) shown above, but is based on current credited service, final average monthly compensation, and social security benefit (subject to the plan freeze on 12/31/2009).

Former Participants in the RBL Plan

The pre-7/1/95 accrued benefit and grandfathered accrued benefit is computed in the same manner as the Normal Retirement Benefit except that Credited Service is projected to Normal Retirement Date (and then limited to 25 years). The resulting benefit is then multiplied by Credited Service at Termination divided by Credited Service projected to Normal Retirement Date.

Former Participants in the CBL Pension Plan

The deferred vested benefit for former participants in the CBL Pension Plan as of June 30, 1983 is the sum of the CBL Plan accrued benefit as of June 30, 1983 and the RBL Plan deferred vested benefit based on Continuous Service measured from July 1, 1983. The CBL Plan accrued benefit is subject to the reduction (if any) for early commencement that would have applied under the CBL Plan and the vesting percent under the CBL Plan, recognizing Service under this Plan as though it were under the CBL Plan.

Benefits may commence after the attainment of age 50.

The foregoing CBL Pension Plan benefit was frozen effective December 31, 1988.

Accrued benefit (continued)

Former Participants in the RCL Plan

The portion of the accrued benefit attributable to Continuous Service prior to the earlier of the discontinuance of contributions or July 1, 1992 will be determined as follows:

- A participant who would have completed less than 15 years of Continuous Service of his Continuous Service had continued to his Normal Retirement Date will use part (a) of the RCL Plan Formula.
- A participant who would have completed 15 or more years of Continuous Service if his Continuous Service had continued to his Normal Retirement Date will use part (b) of the RCL Plan Formula.

Former Participants in the Medlabs Plan

The deferred vested benefit for former participants in the Medlabs Plan as of February 28, 1989 is the sum of the Medlabs Plan accrued benefit as of June 30, 1988 and the RBL Plan deferred vested benefit based on Continuous Service from July 1, 1988. The Medlabs Plan accrued benefit is subject to the reduction (if any) for early commencement that would have applied under the Medlabs Plan.

Early retirement benefit

Accrued monthly benefit as of early retirement date reduced ½% for each month benefits begin before age 65.

For former RBL Plan participants, grandfathered benefits and benefits accrued prior to July 1, 1995 are reduced 1/180th for each of the first sixty months benefits begin before Normal Retirement Date and 1/360th for each of the next sixty months.

For participants in the RCL Plan as of December 31, 1983, the portion of the Early Retirement Benefit attributable to Continuous Service prior to the earlier of the discontinuance of contributions or July 1, 1992 will be determined as follows:

- A participant with 15 or more year of Continuous Service at Early Retirement Date will use part (b) of the RCL Plan Formula.
- A participant with less than 15 years of Continuous Service at Early Retirement Date but who would have completed 15 or more years if his Continuous Service had continued to his Normal Retirement Date will use part (b) of the RCL Plan Formula.
- A participant with less than 15 years of Continuous Service at Early Retirement Date and who would have completed less than 15 years if his Continuous Service had continues to his Normal Retirement Date will use part (a) of the RCL Plan Formula.

Disability benefit

For pre-1995 accrued benefits and Grandfather formula: The accrued benefit is as of the date of disability. The amount of accrued benefit is reduced for each month benefits begin before age 65 as follows: ½% for each such month after age 55 and actuarially for each such month before age 55.

For former RBL Plan participants, grandfathered benefits and benefits accrued prior to July 1, 1995 are reduced in the same manner as for the Early Retirement Benefit described above.

Cash Balance Pension Plan Benefit: Distribution of 100% of the cash balance.

Vested benefits upon termination of service

The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at normal retirement date. Optionally, the participant may elect to receive an actuarially reduced benefit commencing prior to normal retirement date. For benefits earned under the Cash Balance Pension Plan formula, the participant may elect a distribution of their vested cash balance account.

Death benefits for participants in active service

The participant's spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the qualified joint and 50% contingent option. For benefits earned under the Cash Balance Pension Plan formula, an immediate distribution of 50% of the account may be requested by the spouse. No benefits are payable in the event of death of an unmarried participant.

Death benefits for former participants in the RCL Plan

A former participant in the RCL Plan as of December 31, 1983 will receive a death benefit calculated only upon that portion of his retirement benefit attributable to the RBL plan benefit.

Additionally, a participant who has completed the eligibility requirements for early retirement may elect, at any time before benefit commencement, a pre-retirement death benefit for only the portion of his retirement benefit attributable to Continuous Service prior to the earlier of the discontinuance of contributions or July 1, 1992. On the death of a participant who elected this option, his spouse will receive a monthly benefit equal to 50% of the RCL Plan Formula portion of the benefits the participant would have received had he retired on the day before his death. The RCL Plan Formula portion of the benefit that participant receives at actual retirement will be reduced by .5% for each year that the election is in effect to cover the cost of this option.

As a minimum, a participant's beneficiary will receive a refund of the participant's employee contributions with interest.

Death benefits for retired former RBL plan participants

Post-retirement coverage is available to all retired participants who have an eligible spouse for benefits accrued prior to July 1, 1995 and for grandfathered participants under the RBL Plan formula. The benefit is 50% of the participant's pension (before and without regard to any adjustment for any alternative payment forms).

Each eligible child receives 40% of the amount payable to the spouse subject to an overall maximum for all children of 100% of the spouse's benefit. Payments to a child cease once he attains age 21.

Other Plan Provisions

Normal form of retirement income

The normal form of benefit is 10 years certain and life. For benefits accrued under the RBL Plan, either prior to July 1, 1995 or as a grandfathered employee, the normal form of benefit is a life only benefit.

Optional forms of retirement income in lieu of normal form

The plan provides optional payment forms, including the qualified Joint and Contingent benefit for married employees and lump sum distributions, on an actuarially equivalent basis. Actuarial equivalence for this purpose is based on PPA assumptions for terminations after December 31, 2007.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective January 1, 1992, restated effective January 1, 2016 and subsequently amended by Amendment Number 1 (adopted November 2018) which provided for the automatic payments of small Cash Balance accounts (less than or equal to \$5,000) for commencement dates on and after December 1, 2018.

Definitions

Plan year	The twelve-month period ending December 31.
Covered employees	<p>All employees are eligible to participate under the plan on the Entry Date coincident with or next following the later of attaining age 21 and first anniversary of hire. For employees hired prior to January 1, 1995, Entry Date means the first day of the month. For employees hired on or after January 1, 1995, Entry Date means the first day of each January and July. "Employee" means any person on the payroll whose wages are subject to withholding for the purposes of federal income tax.</p> <p>Note: If an employee meets the age requirement, but fails to complete 1,000 hours during the first year, participation will begin on the January 1 following the plan year in which 1,000 hours are completed.</p> <p>Participation in the plan was closed to new entrants as of December 31, 2009, and participants in the plan will not accrue any additional benefits after that date.</p>
Credited service	The number of years and completed months of service from date of participation to date of termination, adjusted for certain periods of unpaid absence. Credited service stops accruing as of December 31, 2009.
Vesting service	Total service from date of hire to date of termination, less any absence in excess of 12 months that is excluded from credited service, using elapsed time.

Final average compensation

The monthly average of the 5 consecutive calendar years' compensation out of the last 10 years that gives the highest average. For benefits accrued prior to July 1, 1995 under the Roche Biomedical Laboratories Retirement Plan (the "RBL Plan"), and for participants grandfathered under that plan formula, the monthly average is based on the highest 60 months out of the last 120 months that gives the highest average. No compensation shall be taken into account under the plan for any period after December 31, 2009.

Plan compensation

Compensation includes base pay plus any compensation deferred under a Section 125 or Section 401(k) plan, including shift differentials. Compensation is limited to \$200,000 (indexed beginning in 2002) as required.

For benefits accrued prior to July 1, 1995 and for all grandfathered participants, (age 50 and 15 Years of Service as of June 30, 1995), former participants in the CBL Plan as of June 30, 1983 will receive the greater of (a) or (b)

- a. The sum of:
 - I. 1% of Basic Earnings Rate as of June 30, 1983 multiplied by service as of December 31, 1975.
 - II. 1.2% of Basic Earnings Rate as of June 30, 1983 multiplied by service earned from December 31, 1975 through June 30, 1983.
 - III. The RBL plan benefit based upon service measured from June 30, 1983, not in excess of 25 years.

Normal retirement (continued)

- b. The sum of:
- I. 1% of the greater of Earnings and Final Average Earnings multiplied by service as of December 31, 1975.
 - II. 1.2% of the greater of Earnings and Final Average Earnings multiplied by service earned from December 31, 1974 through June 30, 1983.
 - III. The RBL plan benefit based upon service measured from June 30, 1983 such that the sum of service considered under (i), (ii) and (iii) does not exceed 25 years.

In the CBL Plan, Basic Earnings Rate is defined as the highest five consecutive year average earnings rates for the participant at the date of determination, where earnings rate is defined as the participant's base salary rate on a preceding December 1st.

The foregoing CBL Pension Plan benefit was frozen effective December 31, 1988.

Former Participants in the RCL Plan

For benefits accrued prior to July 1, 1995 and for all grandfathered participants, (age 50 and 15 Years of Service as of June 30, 1995), former participants in the RCL Plan as of December 31, 1983 who elected to continue making contributions after December 31, 1983 and whose retirement date is on or before June 30, 1992 will receive a benefit (the "RCL Plan Formula") computed as follows:

- For a participant with less than 15 years of Continuous Service, the benefit is 2% of earnings less \$18 for each year of Continuous Service.
- For a participant with at least 15 years of Continuous Service, the benefit is 2.4% of Final Average Earnings less \$57.60 times years of Continuous Service not in excess of 25 years.

Former participants in the RCL Plan as of December 31, 1983 who elected to make no contributions after December 31, 1983 or former participants in the RCL Plan as of December 31, 1983 who elected to continue making contributions after December 31, 1983 and whose retirement date is on or after July 1, 1992 will receive a benefit computed as follows:

Normal retirement (continued)

- For Continuous Service prior to the date contributions were discontinued, the amount determined under (a) or (b) above (the RCL Plan Formula). In determining whether (a) or (b) is used, all years of Continuous Service as of the participant's retirement date shall be taken into account.
- For Continuous Service after the date contributions were discontinued but prior to the completion of 25 years of Continuous Service, the RBL Plan benefit.

Former Participants in the Medlabs Plan

For benefits accrued prior to July 1, 1995 and for all grandfathered participants, (age 50 and 15 Years of Service as of June 30, 1995), former participants in the Medlabs Plan as of February 28, 1989 will receive the Medlabs Plan accrued benefit based on service and earnings to June 30, 1988 under that Plan plus the RBL plan benefit based on continuous service from July 1, 1988.

Cash Balance Formula

For all non-grandfathered participants, subsequent to December 31, 1994 for former NHL Plan participants and June 30, 1995 for former RBL Plan participants, a cash balance plan benefit based on Pay-based Credit as follows:

Pay-based Credit:

Credited Service	Pay-based Credit
0-1.99 years	2.25%
2-4.99 years	2.50%
5-9.99 years	3.00%
10-14.99 years	4.00%
15-19.99 years	5.00%
20-33.99 years	6.00%
34+ years	0.00%

Interest Credit: 4.00%.

The monthly benefit is developed by projecting the cash balance as of the end of the year of determination to Normal Retirement Date based on the interest credit rate in effect at determination, then converting to a monthly benefit using actuarial equivalence based on the applicable mortality table and the applicable interest rate defined in the IRC Section 417(e) for the year of determination.

Late retirement

If retirement occurs after the normal retirement date, the late retirement income will be the greater of:

- a. the benefit calculated using credited service and compensation as of the late retirement date; and
- b. the benefit accrued as of the normal retirement date, actuarially increased to the late retirement date.

Accrued benefit

The participant's accrued benefit at any given date is determined under the normal retirement formula(s) shown above, but is based on current credited service, final average monthly compensation, and social security benefit (subject to the plan freeze on 12/31/2009).

Former Participants in the RBL Plan

The pre-7/1/95 accrued benefit and grandfathered accrued benefit is computed in the same manner as the Normal Retirement Benefit except that Credited Service is projected to Normal Retirement Date (and then limited to 25 years). The resulting benefit is then multiplied by Credited Service at Termination divided by Credited Service projected to Normal Retirement Date.

Former Participants in the CBL Pension Plan

The deferred vested benefit for former participants in the CBL Pension Plan as of June 30, 1983 is the sum of the CBL Plan accrued benefit as of June 30, 1983 and the RBL Plan deferred vested benefit based on Continuous Service measured from July 1, 1983. The CBL Plan accrued benefit is subject to the reduction (if any) for early commencement that would have applied under the CBL Plan and the vesting percent under the CBL Plan, recognizing Service under this Plan as though it were under the CBL Plan.

Benefits may commence after the attainment of age 50.

The foregoing CBL Pension Plan benefit was frozen effective December 31, 1988.

Accrued benefit (continued)

Former Participants in the RCL Plan

The portion of the accrued benefit attributable to Continuous Service prior to the earlier of the discontinuance of contributions or July 1, 1992 will be determined as follows:

- A participant who would have completed less than 15 years of Continuous Service of his Continuous Service had continued to his Normal Retirement Date will use part (a) of the RCL Plan Formula.
- A participant who would have completed 15 or more years of Continuous Service if his Continuous Service had continued to his Normal Retirement Date will use part (b) of the RCL Plan Formula.

Former Participants in the Medlabs Plan

The deferred vested benefit for former participants in the Medlabs Plan as of February 28, 1989 is the sum of the Medlabs Plan accrued benefit as of June 30, 1988 and the RBL Plan deferred vested benefit based on Continuous Service from July 1, 1988. The Medlabs Plan accrued benefit is subject to the reduction (if any) for early commencement that would have applied under the Medlabs Plan.

Early retirement benefit

Accrued monthly benefit as of early retirement date reduced ½% for each month benefits begin before age 65.

For former RBL Plan participants, grandfathered benefits and benefits accrued prior to July 1, 1995 are reduced 1/180th for each of the first sixty months benefits begin before Normal Retirement Date and 1/360th for each of the next sixty months.

For participants in the RCL Plan as of December 31, 1983, the portion of the Early Retirement Benefit attributable to Continuous Service prior to the earlier of the discontinuance of contributions or July 1, 1992 will be determined as follows:

- A participant with 15 or more year of Continuous Service at Early Retirement Date will use part (b) of the RCL Plan Formula.
- A participant with less than 15 years of Continuous Service at Early Retirement Date but who would have completed 15 or more years if his Continuous Service had continued to his Normal Retirement Date will use part (b) of the RCL Plan Formula.
- A participant with less than 15 years of Continuous Service at Early Retirement Date and who would have completed less than 15 years if his Continuous Service had continues to his Normal Retirement Date will use part (a) of the RCL Plan Formula.

Disability benefit

For pre-1995 accrued benefits and Grandfather formula: The accrued benefit is as of the date of disability. The amount of accrued benefit is reduced for each month benefits begin before age 65 as follows: ½% for each such month after age 55 and actuarially for each such month before age 55.

For former RBL Plan participants, grandfathered benefits and benefits accrued prior to July 1, 1995 are reduced in the same manner as for the Early Retirement Benefit described above.

Cash Balance Pension Plan Benefit: Distribution of 100% of the cash balance.

Vested benefits upon termination of service

The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at normal retirement date. Optionally, the participant may elect to receive an actuarially reduced benefit commencing prior to normal retirement date. For benefits earned under the Cash Balance Pension Plan formula, the participant may elect a distribution of their vested cash balance account.

Death benefits for participants in active service

The participant's spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the qualified joint and 50% contingent option. For benefits earned under the Cash Balance Pension Plan formula, an immediate distribution of 50% of the account may be requested by the spouse. No benefits are payable in the event of death of an unmarried participant.

Death benefits for former participants in the RCL Plan

A former participant in the RCL Plan as of December 31, 1983 will receive a death benefit calculated only upon that portion of his retirement benefit attributable to the RBL plan benefit.

Additionally, a participant who has completed the eligibility requirements for early retirement may elect, at any time before benefit commencement, a pre-retirement death benefit for only the portion of his retirement benefit attributable to Continuous Service prior to the earlier of the discontinuance of contributions or July 1, 1992. On the death of a participant who elected this option, his spouse will receive a monthly benefit equal to 50% of the RCL Plan Formula portion of the benefits the participant would have received had he retired on the day before his death. The RCL Plan Formula portion of the benefit that participant receives at actual retirement will be reduced by .5% for each year that the election is in effect to cover the cost of this option.

As a minimum, a participant's beneficiary will receive a refund of the participant's employee contributions with interest.

Death benefits for retired former RBL plan participants

Post-retirement coverage is available to all retired participants who have an eligible spouse for benefits accrued prior to July 1, 1995 and for grandfathered participants under the RBL Plan formula. The benefit is 50% of the participant's pension (before and without regard to any adjustment for any alternative payment forms).

Each eligible child receives 40% of the amount payable to the spouse subject to an overall maximum for all children of 100% of the spouse's benefit. Payments to a child cease once he attains age 21.

Other Plan Provisions

Normal form of retirement income

The normal form of benefit is 10 years certain and life. For benefits accrued under the RBL Plan, either prior to July 1, 1995 or as a grandfathered employee, the normal form of benefit is a life only benefit.

Optional forms of retirement income in lieu of normal form

The plan provides optional payment forms, including the qualified Joint and Contingent benefit for married employees and lump sum distributions, on an actuarially equivalent basis. Actuarial equivalence for this purpose is based on PPA assumptions for terminations after December 31, 2007.
