NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of Dunn Tire LLC Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution retirement plan sponsored by Dunn Tire LLC (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator and Trustees are responsible for oversight of the Plan, determine the appropriateness of the Plan's investment offerings, and monitor investment performance.

Eligibility:

Employees of the Company are eligible to participate in the Plan on January 1 or July 1 following their date of hire and once they have attained the age of 21 and have completed six months of service. Employees of the Company are eligible to receive employer matching contributions after meeting the criteria above.

Contributions:

Participants may contribute up to 100% of pre-tax eligible compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make voluntary Roth contributions to the Plan up to 100% of their eligible compensation. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested pre-tax in a designated balanced fund until changed by the participant. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company makes matching contributions equal to 25% of participant contributions, up to a maximum of 4% of that participant's annual compensation, as defined by the Plan.

Contributions are subject to certain limitations of the Internal Revenue Code (the Code). Participants direct the investment of their contributions into various investment options offered by the Plan.

Note 1. Plan Description (Continued)

Participant accounts:

Each participant's account is credited with the participant's contributions, Company matching contributions, an allocation of Plan earnings, reduced for benefits paid, and charged directly for loan origination, benefit processing, and other administrative fees paid by the Plan, if applicable. Allocations of Plan earnings are based on the investments held by the participant. The benefit to which a participant is entitled is limited to that which can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Company contributions become 50% vested after one year of credited service, as defined, and 100% vested after two years of credited service.

Forfeitures:

At December 31, 2019 and 2018, there were no unallocated forfeited nonvested accounts. Forfeitures of nonvested Company contributions are used to pay administrative expenses of the Plan or to reduce the Company's contributions. Forfeitures of $568 and $2,015 were used to reduce Company contributions in 2019 and 2018, respectively.

Payment of benefits:

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of services for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Distributions are also permitted in the event of financial hardship, as defined by the Plan, and for participants who have attained age 59½.

Notes receivable from participants:

Participants may borrow from their account a minimum of $500 per loan up to a maximum loan equal to the lesser of $50,000 or 50% of their vested account balance. A participant may not have more than three loans outstanding at any given time. The loans are secured by the vested balance in the participant's account and bear interest at a rate determined by the Plan Administrator. Loans must be repaid in level payments on at least a quarterly basis, over a maximum term of five years. The terms may be extended for the purchase of a participant's primary residence. Principal and interest are paid ratably through payroll deductions.

Note 1. Plan Description (Continued)

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Plan pays for fees related to the origination of notes receivable from participants and benefit processing fees which are charged directly to the participant's account. The Plan also pays for certain recordkeeping fees. Investment expenses related to fund management are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements have been prepared using the accrual basis of accounting.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan document.

Benefits:

Benefits are recorded when paid.

Excess contribution payable:

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan did not record a liability for excess contributions related to the years ended December 31, 2019 or 2018, nor distribute any amounts related to excess contributions in 2019 or 2018.

Note 2. Significant Accounting Policies (Continued)

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through October 1, 2020, which is the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following table presents assets of the Plan that have been certified as complete and accurate by John Hancock Life Insurance Company of New York (John Hancock), the custodian of the Plan, at December 31, 2019 and 2018:

	2019	2018
Investments at fair value:		
Pooled separate accounts	**$ 7,680,628**	$ 6,111,567
Guaranteed interest account	**26,835**	-
	7,707,463	6,111,567
Notes receivable from participants	**425,787**	363,714
	$ 8,133,250	$ 6,475,281

John Hancock has also certified to the completeness and accuracy of net appreciation (depreciation) in fair value of investments of $1,374,169 and $(578,087) and interest income on notes receivable from participants of $22,727 and $19,057 for the years ended December 31, 2019 and 2018, respectively.

Note 4. Fair Value Measurements

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority level to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Pooled Separate Accounts: Valued at the net asset value (NAV) of units of the pooled separate account. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are comprised primarily of shares of registered investment companies held through sub-accounts of a separate account of an insurance company. The Plan has concluded that the NAV, as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company, can be used as a practical expedient to estimate fair value. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future. Were the Plan to initiate a full redemption of the underlying investments, the investment advisor has reserved the right to temporarily delay withdrawal from the pooled separate accounts to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4. Fair Value Measurements (Continued)

Guaranteed Interest Account: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5).

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2019 and 2018. The classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Guaranteed interest account	**$ -**	**$ -**	**$ 26,835**	**$ 26,835**
Pooled Separate Accounts measured at NAV [(a)]				**7,680,628**
				$ 7,707,463

	2018			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts measured at NAV [(a)]	$ -	$ -	$ -	$ 6,111,567

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018:

Investments	**Fair Value at December 31, 2019**	Fair Value at December 31, 2018	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	**$ 7,680,628**	$ 6,111,567	Daily	***

*** John Hancock's short-term trading policy permits a maximum of two exchanges per calendar month. After the exchange limit, participants may move 100% of their account to a money market fund where it must remain for thirty days. Trading can resume once the thirty days has expired. Also, additional restrictions may be imposed if it is determined that any exchange activity may disrupt or be potentially disruptive to an investment option, even though in compliance with their policy.

There were no unfunded commitments related to the pooled separate accounts at December 31, 2019 or 2018.

Note 4. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2019:

Balance, beginning of year	$	-
Interest credited		32
Purchases		27,063
Net depreciation in fair value		(260)
	$	26,835

Note 5. Guaranteed Interest Account

The Plan's investment in the guaranteed interest account is maintained in a general account with John Hancock. It guarantees the return of principal plus compound interest earned over a defined term of 3, 5, or 10 years, provided all contributions remain in the account until the end of the guarantee period. Interest rates are established on the first day of each calendar month and apply to all regular ongoing contributions made into the account that month.

The Plan's ability to receive amounts due in accordance with the contract is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by CCH Incorporated DBA ftwilliam.com. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status dated March 31, 2014. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code.

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2016.

Note 8. Party-In-Interest Transactions

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan allows participants to take loans from their accounts in the Plan. Certain notes receivable from participants and income thereon qualify as party-in-interest transactions.

Plan investments consist of units of pooled separate accounts managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, transactions with John Hancock qualify as party-in-interest transactions. Fees paid by the Plan to John Hancock amounted to $34,490 and $30,762 for the years ended December 31, 2019 and 2018, respectively, which was not covered by revenue sharing. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In March 2020, the President of the United States of America declared a national state of emergency related to the health pandemic from the COVID-19 virus (Coronavirus Pandemic). As a result of the Coronavirus Pandemic, the governments of many countries, states and cities have taken actions to mitigate the spread of the virus, such as imposing restrictions on travel, business operations and social gatherings. The Coronavirus Pandemic has severely restricted the level of economic activity. As a result of the economic impact from the Coronavirus Pandemic, investment security values have declined significantly at times during 2020. These economic and market conditions may continue to adversely affect the Plan, participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Risks and Uncertainties (Continued)

On March 27, 2020, the U.S. Congress passed the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act). The CARES Act provides temporary relief for retirement plan sponsors and their participants with respect to distributions and participant loans. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the plan document.

The Plan Administrator has adopted certain provisions of the CARES Act. The Company intends to formally amend the Plans before the end of the applicable remedial amendment period to reflect such provisions. The related financial impact cannot be reasonably estimated at this time.
