Note 1. Plan Description

The following brief description of the Westell Technologies, Inc. (the Company) and Subsidiaries 401(k) Plan (the Plan), provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan that covers all employees of the Company. Employees are eligible to participate in the Plan when they are age eighteen and older and classified as a covered employee, as defined in the Plan. Individuals that have contract status or leased employment are excluded from the Plan. Any employee who is a non-resident alien is also not eligible to participate in the Plan. Employees enter the Plan immediately once eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a percent of annual compensation, as defined in the Plan, up to limits set by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at five percent of eligible compensation. The Company may make a discretionary matching contribution determined each year by the Company. For the 2019 plan year the Company contributed fifty percent of the first four percent of base compensation that a participant contributed to the Plan. Company matching contributions are limited to $500 per participant. The Company may also make a discretionary profit-sharing contribution on behalf of the eligible participants. For 2019, there were no discretionary profit-sharing contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Investment options: Upon enrollment in the Plan, a participant may direct the contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching contributions, if any, as well as allocations of the Company's profit-sharing contributions, if any, and Plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances or compensation, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $250 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loan repayment period is not to exceed five years except for the purchase of a principal residence, in which case the repayment period is set by plan management. The loans are secured by the balance in the participant's account. The loan interest rate is set at prime rate plus one percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service, death, disability, or retirement, a participant may elect to receive an amount equal to the full or partial value of the participant's vested interest in his or her account in the form of a lump-sum distribution, descripted in the Plan agreement. In addition, in-service and hardship withdrawals are permitted in certain situations as described in the plan agreement.

Forfeited accounts: Forfeited non-vested accounts may be used to reduce future Company contributions. At December 31, 2019 and 2018, forfeited non-vested accounts totaled $0.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants prior to March 15, 2020.

Payment of benefits: Benefits are recorded when paid.

Note 3. Information Certified or Provided by Vanguard Fiduciary Trust Company

Vanguard Fiduciary Trust Company, the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related thereto. This information includes investments held and notes receivable from participants at years ended December 31, 2019 and 2018 and net appreciation/(depreciation) in fair value of investments, interest and dividends, and interest on notes receivable from participants for the year ended December 31, 2019. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore, has instructed the independent public accountant to exclude the information certified by the trustee from the scope of their audit.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts – Common/collective trusts invest in collective trust funds as well as a variety of separate accounts and mutual funds. The fair values of all these investments are used in determining the NAV, as a practical expedient, of the collective investment trusts, which are not publicly quoted. In general, the majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are generally based on publicly quoted prices, the NAV of each individual common/collective trust is not valued using publicly quoted prices. Common/collective trusts can be redeemed on a daily basis and each common/collective trust has its own investment strategy. There are no restrictions, terms or conditions under which the investments may be redeemed or sold.

Note 4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 20,775,900	$ -	$ -	$ 20,775,900
Investments measured at net asset value (a)				17,585,121
Investments at fair value				$ 38,361,021

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 15,696,935	$ -	$ -	$ 15,696,935
Investments measured at net asset value (a)				16,279,821
Investments at fair value				$ 31,976,756

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent) at December 31, 2019 and 2018.

Investment	2019	2018	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	17,585,121	16,279,821	-	Daily	None

Note 5. Related Party Transactions

Vanguard Fiduciary Trust Company is the trustee of the Plan, and therefore, transactions with Vanguard Fiduciary Trust Company qualify as party-in-interest. Fees paid by the Plan for these services amounted to $37,229 for the year ended December 31, 2019.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitter profit sharing plan sponsored by The Vanguard Group. The volume submitter profit sharing plan has received an opinion letter from the IRS, stating that the volume submitter profit sharing plan, as then designed, was in compliance with the applicable sections of the IRC. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2019 and 2018:

Excess contributions payable	18,336	-
Net assets available for benefits per the Form 5500	$ 38,548,867	$ 32,179,520

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2019 per the financial statements to the Form 5500:

	2019
Change in net assets available for benefits per the financial statements	$ 6,351,011
Net appreciation in fair value of investments	766
Other income	15,317
Participant contributions	17,571
Benefits paid directly to participants	(15,318)
Change in net assets available for benefits per the Form 5500	$ 6,369,347

Note 9. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. As a result, the Plan's investments have incurred a significant decline in fair value since December 31, 2019.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 28, 2020, the date the financial statements were available to be issued.
