Note 1 – Description of Plan

The following description of the Andy Gump, Inc. 401(k) Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Effective September 1, 2019, the Plan changed its Trustee from Transamerica Life Insurance Company to Reliance Trust Company.

The Plan became effective on July 1, 1997 and is a defined contribution plan covering substantially all employees of Andy Gump, Inc. (the "Company"). Employees are automatically enrolled in the Plan on the first day of the calendar month following eligibility satisfaction. Effective January 1, 2019, employees are eligible to participate after reaching age 18 and completing 90 days of employment. Prior to January 1, 2019, employees were eligible to participate after reaching age 21 and completing 90 days of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan permits employees to make pre-tax (regular and catch-up) contributions up to the maximum dollar amount allowed under the Plan subject to Internal Revenue Code Limitations. Participants may also make rollover contributions from other qualified Plans.

The Company may elect each Plan year to make discretionary matching contributions to the Plan at an amount determined by Company management. To be eligible for the discretionary matching contribution, an employee must have completed 1 year of service.

The Company may also elect each plan year to make discretionary profit-sharing contributions to the Plan. To be eligible for the discretionary profit-sharing contributions, an employee must have completed 1 year of service, attained 1,000 service hours during the Plan year, and employed on the last day of the Plan year. The Company did not make discretionary profit-sharing contributions for the 2019 Plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, Plan earnings, and administrative expenses paid by the Plan. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their voluntary contributions and rollover contributions plus accumulated earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contributions is based on years of continuous service. Participants are 20% vested after one year of service and vest an additional 20% per year of service until they are 100% vested after five years of service.

Note 1 – Description of Plan (continued)

Investment Options

Participants direct both employee deferrals and employer contributions to be invested in various investment options as made available and determined by the plan administrator, which are more fully described in the Plan literature.

Benefit Payments

A participant may withdraw the vested interest in their account only in the event of termination of employment, retirement, death, disability, financial hardship or when they reach an age of 59 1/2. On termination of employment, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or a portion of the total vested balance at the participant's discretion. If a participant makes no distribution election upon termination of employment, and the vested account balance does not exceed $5,000, the participant will receive an automatic single lump-sum payout.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000, up to a maximum of $50,000 or 50% of the vested portion of their account balance, whichever is less. Effective January 1, 2019, participants are allowed one outstanding loan at a time. Prior to January 1, 2019, participants were allowed up to two outstanding loans at a time. The notes are secured by the balance in the respective participant's account and bear interest at rates that were commensurate with local prevailing rates for similar notes at the time funds were borrowed. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited non-vested accounts included in Plan investments were $0 and $19,315, respectively. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions or to pay administrative expenses of the Plan. During 2019, the Plan utilized $32,632 of the forfeitures to reduce the Company contributions and pay plan expenses.

Subsequent Events

The Plan has considered subsequent events through September 21, 2020, the date the financial statements were available to be issued, in preparing the financial statements and notes thereto.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Note 2 – Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, including pooled separate accounts, mutual funds, common collective trusts and group annuity contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements. The Plan is subject to review by certain regulatory authorities. Management does not believe that the effect of such reviews, if any, will have a significant impact on the Plan.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Terminated and Defaulted Notes

Notes receivable from participants are terminated when a participant withdraws from the Plan. Any unpaid note balance will be reduced by the amount of the vested interest in the account balance upon distribution. Notes with any scheduled repayment that remain unpaid as of the last business day of the calendar quarter following the calendar quarter in which repayment was due, or with an outstanding principal balance existing after the last scheduled repayment date, are in default.

Investment Valuation and Income Recognition

The Plan's investments, excluding the group annuity contract, are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net increase in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 – Significant Accounting Policies (continued)

Administrative Expenses

Administrative expenses of the Plan may be paid by the Plan as provided in the Plan document. However, the Company may also pay the Plan expenses directly. Transaction charges for loan and benefit payment transactions, if any, are paid by the Plan by reducing the balances of those participants initiating the transaction.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Note 3 – Information Certified by the Trustees

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following investment information was certified by the Trustees and was not subjected to any auditing procedures performed by the independent public accountants:

a. Investments as of December 31, 2019 and 2018, as indicated on the Statements of Net Assets Available for Benefits;

b. Investment income information as indicated on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019; and

c. All investment-related information in the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019.

Note 4 – Related Party Transactions

Certain Plan investments were managed by Transamerica for the period from January 1, 2019 to August 31, 2019 and by Reliance Trust for the period from September 1, 2019 to December 31, 2019. Transamerica and Reliance Trust are the trustees and record keepers as defined in the plan, and therefore, these transactions qualify as exempt party-in-interest transactions. Total fees paid by the Plan to Transamerica and Reliance Trust during 2019, included in administrative expenses, was $26,231.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants will become 100% vested in their employer contributions.

Note 6 – Income Tax Status

The Internal Revenue Service has determined and informed the sponsor of the prototype plan adopted by the Company, by a letter dated March 31, 2014, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code. Per Revenue Procedure 2005-16, a Company adopting such a plan may rely on the prototype plan's letter if the terms of the Plan are followed in operation.

Accordingly, this reliance on the favorable opinion letter is equivalent to a favorable determination letter issued to the Company. The Plan has been amended since receiving the prototype plan's letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is being operated in compliance with the applicable requirements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing and other jurisdictions. However, there are currently no audits in progress for any prior tax periods.

Note 7 – Group Annuity Contract with Insurance Company

The group annuity contract, included in Statements of Net Assets Available for Benefits, is a fully benefit responsive product with no specific underlying assets. The group annuity contract is secured by insurance carrier's general account. The contract value of the group annuity contract, as reported by the insurance carrier, represents contributions made and credited interest, less any withdrawals, charges or expenses. The insurance carrier is obligated to repay the principal at a specified interest rate that is guaranteed to the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer. The crediting of interest to the group annuity contract is determined prior to the first day of each month. The insurance carrier establishes an effective annual rate of interest for the group annuity contract for each month. Interest will be credited to the group annuity contract daily, based on its daily balance, at a rate of interest which is the daily equivalent of the effective annual rate of interest applicable for each month.

Additionally, the insurance carrier can establish interest rate classes, as defined, as sub-accounts of the group annuity contract established for the purpose of crediting different interest rates. In the event that an interest rate class is established, all subsequent contributions made to the group annuity contract will be allocated to such newly established interest rate class.

Note 7 – Group Annuity Contract with Insurance Company (continued)

Certain events limit the ability of the Plan to transact at contract value with the insurance carrier. Such events include the following: (1) Company influenced group termination (e.g., layoffs, sale of a division) which will be considered a partial discontinuance and will be subject to the discontinuance provisions of the group annuity contract, (2) the Plan is changed so as to significantly affect the insurance carrier's obligation under the contract, (3) the contract can no longer be treated as a pension plan contract, as determined under the provisions of the Internal Revenue Code, (4) the Plan is terminated, (5) the contract-holder fails to comply with the requirements under the contract, (6) the contract-holder, except by unintentional omission, fails to give the insurance carrier the information needed under the contract, (7) the contract-holder, except by unintentional omission, fails to furnish the insurance carrier with a copy of any amendments to the Plan or annual report records, and (8) the sum of the contract value at any time is less than a certain minimum amount, as defined. The Company does not believe that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 8 – Fair Value Measurement

Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1: These inputs into the valuation methodology consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Examples of these inputs into the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: These inputs into the valuation methodology are unobservable and significant to the fair value measurement.

Note 8 – Fair Value Measurement (continued)

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Common Collective Trust ("CCT"):* Valued at the net asset value of units of a bank collective trust. The NAV, as provided by the fund's trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

- *Group annuity contract*: Valued at contract value and is based on its beginning balance plus deposits and credit interest, less any withdrawals, charges or expenses, a measurement which approximates fair value.

- *Mutual Funds:* Valued at the net asset value ("NAV") of shares held at year end. The NAV is a quoted price in an active market.

- *Pooled separate accounts (as previously reported):* The fair value of the investments in this category has been estimated using the NAV as a practical expedient provided by the administrator of the fund. The NAV of these accounts is based on the value of underlying assets owned by the fund, minus liabilities divided by the units outstanding. The NAV is not a publicly quoted price in an active market. There are currently no redemption restrictions on these investments for participants.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at December 31, 2019 and 2018. In accordance with ASU 2015-07, the Plan's investments in pooled separate accounts and group annuity contracts during 2018 are exempted from categorization within the fair value hierarchy. Accordingly, the 2018 fair value hierarchy table was not included in these financial statements.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2019 and 2018, there were no transfers in or out of levels 1, 2 or 3.

Note 8 – Fair Value Measurement (continued)

December 31, 2019	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 1,918,862	$ -	$ -	$ 1,918,862
	1,918,862	-	-	1,918,862
Investment measured at net asset value as a practical expedient:				
Common collective trust				5,590,605
Total investments at fair value				$ 7,509,467

Note 9 – Reconciliation of Plan Financial Statements to the Form 5500

The Annual Return / Report of Employee Benefit Plan (the "Form 5500") is prepared on the modified cash basis of accounting. Accordingly, certain balances included on Schedule H (Part I and II) of the Form 5500 differ from those included in these financial statements. The ending net asset balances are reconciled as follows:

	2019	2018
Net assets as presented in these financial statements	$ 9,662,552	$ 7,908,279
Participant contributions receivable not included in Form 5500	(21,898)	(9,656)
Employer contributions receivable not included in Form 5500	(8,652)	(371,401)
Net assets as presented in Form 5500	$ 9,632,002	$ 7,527,222

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2019 to Form 5500:

Net increase in net assets per these financial statements	$ 1,754,273
Participant contributions receivable at December 31, 2019, not included in Form 5500	(21,898)
Participant contributions receivable at December 31, 2018, included in Form 5500	9,656
Employer contributions receivable at December 31, 2019, not included in Form 5500	(8,652)
Employer contributions receivable at December 31, 2018, included in Form 5500	371,401
Increase in net assets per Form 5500	$ 2,104,780

Note 10 – Subsequent Event

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 ("COVID-19") as a pandemic. The COVID-19 pandemic has led to extreme volatility in financial markets and has affected, and may continue to affect, common stock prices and other Plan assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act provides immediate and temporary relief for retirement plan sponsors and their participants with respect to employee and employer contributions, distributions, and participant loans. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the plan document. Plan management continues to evaluate the provisions.
