For individuals under the age of 50, the elective deferral limit was \$19,000 and \$18,500 for 2019 and 2018, respectively. For individuals who have attained the age of 50, the elective deferral limit was \$25,000 and \$24,500 for 2019 and 2018, respectively. Participants may also contribute amounts representing rollover contributions from other qualified defined benefit or defined contribution plans.

The Plan was also modified effective July 1, 2017 to permit Roth contributions that are made on an after-tax basis. Rollovers of Roth balances from other qualified plans are also permitted.

At December 31, 2019, there were no employee contributions receivable. At December 31, 2018, employee contributions receivable totaled \$24,718, representing amounts deferred from employees’ paychecks that had not yet been received by the Plan as of year-end.

1. Description of the Plan, Continued

Employer Contributions

The Plan's provisions permit the Companies to make two types of employer discretionary contributions. The first is an Employer Discretionary Contribution which may be made each Plan year to eligible participants who completed at least 1,000 hours of service during the Plan year and are employed on the last day of the Plan year. The formula for the Employer Discretionary Contribution is pro-rata based on participant's compensation and is determined each year by the Companies. For the years ended December 31, 2019 and 2018, the Companies elected to make Employer Discretionary Contributions equal to 3% of each participant's eligible compensation, up to \$280,000 and \$275,000, respectively.

Based on this formula, Employer Discretionary Contributions for 2019 totaled \$401,425, which were reduced by forfeitures of \$7,424, for a net contribution of \$394,001. For the year ended December 31, 2018, Employer Discretionary Contributions totaled \$408,076, which were reduced by forfeitures of \$10,742, for a net contribution of \$397,334.

The second type of employer discretionary contribution is an Employer Discretionary Matching Contribution which may be made each Plan year to eligible participants who completed at least 1,000 hours of service during the Plan year and are employed on the last day of the Plan year. The formula for the Employer Discretionary Matching Contribution is based on salary deferral contributions and is determined each year by the Companies. For the years ended December 31, 2019 and 2018, the Companies did not make any Employer Discretionary Matching Contributions.

Participant Accounts

Each participant's account is credited with the participant's rollover contributions, the participant's elective deferral contributions and allocations of: (a) the Companies' contributions, if any, and (b) net plan earnings. Participants direct the investment of their contributions and any Company discretionary contributions to any of the Plan's fund options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

1. Description of the Plan, Continued

Vesting of Contributions

Participants are immediately 100% vested in their contributions to the Plan. Company contributions vest at the rate of 20% per year beginning with the second year of service, and become 100% vested after six years of service, as follows:

<u>Years of Service (with 1,000 hours or more)</u>	<u>Vesting Percentage</u>
0-1 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

All Company contributions and earnings thereon, become 100% vested upon a participant being employed on or after their Normal Retirement Age, or upon death or disability. Normal Retirement Age is 65, as defined in the Plan document. Participants are immediately vested in their rollover contributions plus earnings thereon.

Participant Loans

Participant loans are not permitted by the Plan.

Payment of Benefits

Upon termination of service due to retirement, death, disability or termination of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or periodic installments. Withdrawals due to "financial hardship" are also permitted.

Forfeitures

The non-vested portion of a participant's account is forfeited upon the earlier of the distribution of the entire vested portion of the participant's account, or the last day of the plan year in which the former participant incurs five consecutive 1-year breaks in service. Forfeitures are retained in the Plan and may be used to reinstate forfeited balances of re-hired employees, pay Plan administrative expenses, or reduce future employer contributions.

For the years ended December 31, 2019 and 2018, forfeitures of \$7,424 and \$10,742, respectively, were used to reduce the Employer Discretionary Contributions, and no forfeitures were used to reinstate forfeited balances of re-hired employees or to pay Plan administrative expenses. At December 31, 2019, there were no remaining unallocated forfeitures.

1. Description of the Plan, Continued

Administrative Expenses

The Plan's provisions permit fees associated with administering the Plan to be charged to individual participant accounts as an equal dollar amount, based on the number of participants in the Plan, or proportionately, based upon the value of individual participant account balances at the date of payment. For the Plan years ended December 31, 2019 and 2018, fees were charged to participant accounts using the proportionate method, based upon the value of individual participant account balances, as described above. Additionally, as stated in the previous section, forfeitures may also be used to pay Plan administrative expenses.

Although the Plan permits all administrative expenses to be charged to individual participant accounts, or to be paid from forfeitures, it has been the Companies' practice to have the Plan pay for investment advisory and management fees and a portion of the administrative costs, with the Companies paying all other fees. During 2019 and 2018, fees totaling \$31,560 and \$28,775, respectively, were paid for by the Plan participants and terminated employees. All other costs associated with the Plan, totaling \$24,142 and \$24,343 for 2019 and 2018, respectively, were paid for by the Companies.

Plan Termination

Although they have not expressed any intent to do so, the Companies have the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of a Plan termination, all participants would become 100% vested in their employer contributions, and benefits under the Plan would be distributed based upon participant account balances accumulated on the date of termination of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of shares in mutual funds is based on published closing market prices, as quoted on a national securities exchange. Collective investment trust funds represent an undivided interest in the underlying net assets of the trust and are valued based on the fair market values of the underlying net assets of the fund. Interest-bearing cash equivalents are also recorded at fair value, which approximates cost.

Years Ended December 31, 2019 and 2018

2. Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued

Unrealized appreciation or depreciation in the current value of investments held at year end is recognized as an increase or decrease in net assets available for Plan benefits. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments to Participants

Benefit payments to participants are recorded when paid.

Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy for those assets and liabilities measured at fair value, that distinguishes between assumptions based on market data (observable inputs) and the Plan's own assumptions (unobservable inputs). The hierarchy consists of: Level 1 – quoted market prices in active markets for identical instruments; Level 2 – inputs other than Level 1 inputs that are observable; and Level 3 – unobservable inputs developed using estimates and assumptions determined by the Plan.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the Plan year ended December 31, 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and therefore are included in Level 1 of the hierarchy.

Collective investment trust fund: Valued at net asset values that are computed daily and are available on the custodian's website. Although the net asset values are not publicly quoted prices in an active market, they are available to current investors or when Plan participants access their account values and therefore are considered to have "readily determinable fair values." Because the collective investment trust fund is valued similar to mutual funds, they are included in Level 1 of the hierarchy.

Partnership interest: Valued at cost, which approximates fair value.

2. Summary of Significant Accounting Policies, Continued

Fair Value Measurements, Continued

At December 31, 2019 and 2018, the assets or liabilities of the Plan that were measured at fair value on a recurring basis are summarized as follows:

December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 11,862,828	\$ --	\$ --	\$ 11,862,828
Collective investment trust	631,415	--	--	631,415
Partnership interest	--	--	2,838	2,838

December 31, 2018

	Level 1	Level 2	Level 3	Total
Investments	\$ 9,401,336	\$ --	\$ --	\$ 9,401,336
Collective investment trust	627,816	--	--	627,816
Partnership interest	--	--	6,450	6,450

During 2019 and 2018, return of capital totaling \$2,580 and \$12,900, respectively, from the partnership interest measured at Level 3 inputs were transferred to mutual funds measured at Level 1 inputs. The transfers between Level 3 inputs and Level 1 inputs were recognized at the date the transfers actually occurred.

Certain assets and liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis, but are subject to fair value adjustments only in certain circumstances (for example, when there is evidence of impairment). The Plan had no assets or liabilities measured at fair value on a nonrecurring basis during 2019 or 2018.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and affect the amounts reported in the financial statements.

Subsequent Events

The Plan's management has evaluated subsequent events through September 30, 2020, the date as of which these financial statements were available to be issued. No material subsequent events have occurred since December 31, 2019 that required recognition or disclosure in these financial statements.

4. Plan Tax Status

Effective January 1, 2015, the Plan was fully restated to comply with the restatement requirements of the Pension Protection Act of 2006 (PPA). As the restatement was adopted under a prototype submission, there is no requirement to obtain a determination letter from the Internal Revenue Service. Rather, the Internal Revenue Service has issued an Advisory Letter stating that the form of the plan is acceptable under Section 401 of the Internal Revenue Code.

The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as restated, remains qualified and the related trust remains tax exempt.

5. Information Certified by the Custodians

With the exception of partnership interests invested in NEI Investments, LLC totaling \$2,838 and \$6,450 at December 31, 2019 and 2018, respectively, the Plan administrator has received a certification from TD Ameritrade that the following information is complete and accurate:

- Investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018.
- Net appreciation or depreciation in fair value of investments and interest and dividends reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2019 and 2018.
- Investments reflected on the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) at December 31, 2019.

6. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are managed by TD Ameritrade. Since TD Ameritrade is also the custodian for the Plan, these transactions qualify as party-in-interest transactions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities may occur and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8. Reconciliation of Financial Statements to Form 5500

Form 5500, which is filed with the Department of Labor, may have items that differ from the amounts shown on the accompanying Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. These differences, if any, are classification differences only and have no effect upon net assets available for benefits.

9. COVID-19

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) originated in Wuhan, China and has since spread to other countries, including the United States. On March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, during March 2020, the Governor of the State of Washington issued proactive emergency declarations in response to the spread of COVID-19. As a result, economic uncertainties have arisen, but the impact of COVID-19 has not had a material impact on the Plan's investments, and return thereon, through the date of these financial statements. However, if the severity of the economic disruptions increase as the duration of the COVID-19 pandemic continues, there is the potential that negative financial impact could occur and affect the Plan's investments. However, any potential impact to the Plan is unknown at this time.
