NEW VISION CO-OP 401(K) SALARY SAVINGS AND PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2019 and August 31, 2019

A. Description of the Plan

The following description of the New Vision Co-op ("The Company") 401(k) Salary Savings and Profit Sharing Plan ("The Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering certain employees of the Company who have completed six months of service. On-call employees and seasonal employees are not eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan. The trustees determine the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

2. Change in Plan Year

Effective December 15, 2019, the Plan adopted an amendment to change its fiscal year-end from August 31 to December 31.

3. Contributions

Each year, participants may contribute up to 100% of pretax compensation, as defined in the Plan, beginning six months after their hire date. The aggregate sums of contributions from compensation are subject to an annual limit. The Company will contribute a matching contribution equal to 100% of the salary reduction deferral elected on the first 3% of compensation. Each year, the Company may make a discretionary profit sharing contribution to active participants who have at least 500 hours of service. Participants may elect their deferrals to a traditional (pretax) account or to a Roth (after tax) account.

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on the total of an Employee's countable Periods of Service without regard to Hours of Service. A participant is 100% vested after 5 years of credited service.

6. Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any combination of the investment alternatives offered by the Plan. Participants may change their investment options daily.

7. Loans to Participants

Participants may borrow from their fund accounts at a maximum equal to the lesser of $50,000 or 50% of the Participant's Vested Account. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the Loan Administrator. Interest rates range from 5.25% to 7.5% and have maturity dates through 2025. Principal and interest is paid ratably through bi-weekly payroll deductions.

8. **Administrative Expenses**

The Plan's expenses are paid either by the Plan or the Plan Sponsor, as provided by the Plan document and in accordance with a service agreement with the Principal Financial Group. Expenses paid directly by the Plan Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. Principal Financial Group receives revenue from mutual fund service providers for services Principal provides to the funds. This revenue is used to offset certain amounts owed to Principal for its administrative services to the Plan.

9. **Payment of Benefits**

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or as an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant may withdraw all or part of their benefits derived from their contributions on account of hardship as defined by the Plan and the applicable IRS regulations. Under these rules, the participant must exhaust the possibilities of all other distributions and loans available under the Plan and meet certain other requirements. Upon receiving a hardship withdrawal, the participants elective contributions are suspended for six months.

10. **Forfeited Accounts**

At December 31, 2019 and August 31, 2019, forfeited non-vested accounts were $29,040 and $24,162, respectively. Forfeitures of non-vested employer contributions are first allocated to pay plan expenses with any remaining used to offset employer contributions. During the four months ended December 31, 2019 and year ended August 31, 2019, forfeitures allocated were $0 and $14,666, respectively.

B. **Summary of Accounting Policies**

Recently Issued Accounting Pronouncements

In July 2019, the AICPA Auditing Standards Board issued Statement on Auditing Standards No. 136, Forming an Opinion and Reporting on Financial Statements of Employee Benefit Plans Subject to ERISA. SAS No. 136 prescribes certain new performance requirements for ERISA plan financial statement audits and changes the form and content of the related auditor's report to improve audit quality and enhance the communicative value and transparency of the auditor's report. SAS 136 also contains additional performance and new reporting requirements for ERISA Section 103(a)(3)(C) audits (previously referred to as "limited scope" audits). SAS No. 136 will be effective for audits of ERISA plan financial statements for periods ending on or after December 15, 2021. Early adoption of this standard is allowed. Management is currently evaluating the potential impact that the adoption of this new auditing guidance will have on its financial statements.

In July 2018, the FASB issued ASU 2018-09, Codification Improvements. ASU 2018-09 includes, among other improvements, amendments to Plan Accounting - Defined Contribution Pension Plans - Investments Other (Subtopic 962-325). The amendment to Subtopic 962-325 removes the stable value common collective trust fund from the illustrative example in paragraph 962-325-55-17 to avoid the interpretation that such an investment would never have a readily determinable fair value and, therefore, would always use the net asset value per share practical expedient. Rather, the plan should evaluate whether a readily determinable fair value exists to determine whether those investments may qualify for the practical expedient to measure at net asset value in accordance with Topic 820. The update is effective for plan years ending on or after December 15, 2020. Management is currently evaluating the potential impact that the adoption of this new auditing guidance will have on its financial statements

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The value of each account is based on the market value of the securities in the account. Net earnings on investments include realized and unrealized gains and losses and interest and dividends recorded on an accrual basis. The Plan's investment contract (guaranteed interest accounts) are not fully benefit-responsive and are stated at fair value as determined by the custodian of the Plan's assets.

Notes Receivable – Participant Loans
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions.

Payment of Benefits
Benefits are recorded when paid.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications
Certain reclassifications to the August 31, 2019 financial statements may have been made to conform to the December 31, 2019 presentation.

C. **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). This hierarchy consists of three broad levels:

Level 1 – Quoted prices in active markets for identical financial instruments that are accessible at the measurement date.

Level 2 – Quoted prices in active markets for similar financial instruments, quoted prices for identical or similar financial instruments in markets that are not active, and models and other valuation methodologies using inputs other than quoted prices that are observable.

Level 3 – Models and other valuation methodologies using significant inputs that are unobservable for financial instruments.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and August 31, 2019.

Pooled Separate Accounts: Valued based on the fund's daily NAV, which is considered by plan management to be the best approximation of fair value. The unit value of the fund is calculated daily. Underlying holdings are primarily valued using independent appraisals or independent pricing sources.

Guaranteed Interest Contract: Valued at the amount the plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, termination or retirement. The fair value represents contract value adjusted to reflect current market interest rates to the extent that such market rates exceed crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and August 31, 2019, in the accompanying Statements of Net Assets Available for Benefits:

		Fair Value Measurements Using		
December 31, 2019	Fair Value	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investment Contract with Insurance Company	$ 144,482	--	--	144,482
Total Assets in the Fair Value Hierarchy	144,482	--	--	144,482
Investments Measured at Net Asset Value	9,707,625			
Total	$ 9,852,107			
August 31, 2019				
Investment Contract with Insurance Company	$ 140,189	--	--	140,189
Total Assets in the Fair Value Hierarchy	140,189	--	--	140,189
Investments Measured at Net Asset Value	9,695,812			
Total	$ 9,836,001			

In accordance with FASB ASC 820-10, the pooled separate accounts are measured at fair value using the net asset value per share practical expedient and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The method used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

FASB Accounting Standards Codification 820-10, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 3 Fair Value Measurements

Guaranteed investment contracts with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of the Level 3 fair value measurements:

	Investment Contract
December 31, 2019	
Beginning Balance	$ 140,189
Realized Gains (Losses)	--
Unrealized Gains (Losses)	132
Earnings (Losses)	556
Purchases, Issuance and Settlements	3,605
Transfers In (Out) of Level 3	--

Net Asset Value (NAV) per Share

The plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of December 31, 2019 and August 31, 2019. The following tables for December 31, 2019 and August 31, 2019, set forth a summary of the Trust's investments with a reported NAV.

	Fair Value Estimated Using Net Asset Value per Share December 31, 2019				
Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled Separate Accounts	$ 9,707,625	None	Daily	None	None

	Fair Value Estimated Using Net Asset Value per Share August 31, 2019				
Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled Separate Accounts	$ 9,695,812	None	Daily	None	None

*The fair values of the investments have been estimated using the net asset value of the investment.

The pooled separate accounts are funds designed to meet the needs of a plan participant that wants an investment option suited to the participant's particular investment time horizon and risk tolerance. The funds generally invest in the other open-ended mutual funds, insurance company separate accounts, and collective trust funds that are considered appropriate based on the remaining time horizon of the particular Fund and expected risk tolerance of those investors associated with that time horizon.

D. **Guaranteed Interest Contract with Principal Life**

The Plan entered into a contract with Principal Life, which guarantees interest on money as it is deposited. The rate credited is the rate declared at the beginning of each calendar quarter and is guaranteed on all deposits made during that quarter until the end of the 12-month period following the beginning of that calendar quarter. The contract is not benefit responsive and is reported at fair value.

E. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

F. **Certification**

The Company has obtained certification from Principal Life Insurance Company that the following information is complete and accurate:

Earnings from Investments
Investment Valuations

G. **Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been restated since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

H. **Related Party Transactions**

Certain plan investments and an investment contract with Principal Life Insurance Company are managed by Principal Life Insurance Company and Delaware Charter Guaranteed and Trust Company (d/b/a Principal Trust Company) and qualify as party-in-interest transactions. The Plan also has a service agreement with Principal Financial Group, who also receives revenue from mutual funds for services they provide to the funds. Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company) is the plan custodian, and therefore, these transactions qualify as party-in-interest. These transactions are exempt from the prohibited transition rules of ERISA.

I. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

J. Plan Amendments

Effective April 1, 2018, the plan was amended to allow participants to contribute up to 100% (subject to annual limit) of pretax annual compensation or after tax annual compensation, as defined by the Plan. Prior to April 1, 2018, the limit was 15%.

K. **Subsequent Events**

The Plan has evaluated events and transactions occurring after December 31, 2019, for potential items required to be recognized or disclosed in the financial statements. In March 2020, the global coronavirus pandemic began to disrupt the United Sates economy. The length or severity of this pandemic, or the extent to which the disruption may materially impact the financial status and operations of the Plan and its sponsoring employer cannot be reasonably estimated. Subsequent events were evaluated through October 1, 2020, the date the financial statements were issued.
