BARTLETT AND COMPANY PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

1. DESCRIPTION OF THE PLAN

The following description of the Bartlett and Company Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. References herein to "Company" include Bartlett Grain Company, L.P.; Bartlett Milling Company, L.P.; Bartlett International, Inc.; Bartlett and Company; and its separate lines of business.

Plan Spin-off and Merger – Effective August 1, 2018, the Company entered into a business combination with The Savage Companies (Savage). Control of the Company transferred to Savage. Effective December 31, 2019, all participant-directed assets of this Plan were spun-off and merged into a similar Plan sponsored by Savage. The non-participant directed investments remain in this Plan and are in the process of being liquidated. As these investments are liquidated, proceeds will be transferred to the respective participants' accounts in the Savage Plan. After December 31, 2019, no new employees will enter the Plan.

General – The Plan is a defined contribution plan covering substantially all full-time employees of the Company, exclusive of those employees who are covered by a collective bargaining agreement and those who derive their total compensation from commissions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Fidelity Management Trust Company is the trustee, a custodian and recordkeeper of the Plan. There are no employee contributions made to this Plan.

Eligibility - Employees are eligible to participate in the Plan upon completion of one hour of service. In order for a participant to receive an employer contribution the participant must be employed on the last day of the Plan year.

Contributions – As provided in the plan agreement, the Company, or each separate line of business ("SLOB") comprising the Company may make a discretionary contribution to the Plan, out of its current or accumulated net income. All contributions by the Company shall be made in the form of cash or other property as determined by the trustees. The total annual contribution may not exceed the amount allowable as a deduction in the Company's federal income tax return.

Participants' Accounts – Each participant's account is credited on the last day of the Plan's fiscal year for the pro rata share of the participating employer's contribution. Each participant's share of the SLOB's contribution is determined by a formula, which first integrates the allocations with social security contributions and, within certain limitations, allocates the remainder by the percentage that a participant's compensation bears to the aggregate compensation of all such SLOB's participants.

Each participant's account is credited with investments' earnings, and is charged with the participant's withdrawals and distributions, and Plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Investment options include money market fund, mutual funds, common collective trust and a self-directed brokerage account. Participants may direct all contributions in any of the investment options offered by the Plan and may change their investment election at any time.

Forfeitures are allocated to participants employed on the last day of the Plan's fiscal year in the proportion that each participant's compensation bears to the total compensation for each SLOB's participants in the profit sharing account. Total forfeited assets allocated to eligible participants at December 31, 2019 were approximately \$375,000.

Plan Investments – Beginning in 2018, participants may direct their contributions and the Company contributions to a variety of mutual funds, a common and collective trust, and a money market fund.

The self-directed brokerage account is offered to all participants in the Plan. This investment option allows participants to invest in numerous types of stocks, bonds, securities and funds. There is no annual fee for the brokerage account, but there are applicable brokerage fees and commissions as determined by Fidelity and that are paid by the participants who invest in this account.

The remaining non-participant directed investments in the Plan are managed by a third-party investment advisor and reviewed by the Plan's trustee over the non-participant directed portion of the Plan. As these assets become liquid, the Plan administrator transfers the funds to the FMTC, participant-directed portion of the Plan.

Vesting – Participants are fully vested in their voluntary contributions made and allowed by the Plan prior to 1996. Vesting in the remainder of their accounts occurs in 20% increments, with 20% earned after 2 years, 40% earned after 3 years, etc. Full vesting is earned after 6 years of service. Participants are deemed fully vested upon retirement (normally at age 65), death, or permanent disability.

Payment of Benefits – Upon retirement, death, permanent disability, or termination of employment, the vested balance in the employee's accounts is paid from the assets of the Plan to the participant or participant's beneficiary in a lump sum or series of payments not to exceed the life expectancy of the participant or beneficiary.

Expenses – Substantially all of the Plan's general and administrative costs are paid by the Company. Record maintenance service costs are paid by the Plan.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of Plan termination, all participants will become fully vested in their account balances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation – The Plan's financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan utilizes various investment instruments. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded when earned. Fees charged by mutual funds, money

market funds, and common and collective trusts are deducted from income generated by those investments.

Contributions – Contributions from participating SLOBs are accrued in the period in which they become obligations of the Company by declaration of the Company's board of directors or general partner.

Benefit Payments – Benefit distributions are reported in the year paid.

Revenue Sharing – Fidelity credits a portion of the fees paid on certain investments back to the Plan, which are allocated to the Plan participants. These amounts are shown as other income.

Subsequent Events – Subsequent events have been evaluated through October 2, 2020, which is the date the financial statements were available to be issued, and there were no events that required adjustments or disclosures to the financial statements.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Mutual Funds, Common Stocks, and Money Market Funds – Valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trust – The issuer calculates a net asset value based on the market value of its underlying investments, less operating expenses, if any. They are valued daily, can be redeemed daily with no restrictions, and without prior notice. There are no unfunded commitments.

Self-Directed Brokerage Accounts – Valuations of common stocks, mutual funds, money market funds, and unit investment trusts (exchange traded funds) are valued as discussed above.

Limited Partnerships and Pooled Investment Funds – Valued at the fair value of the underlying investments held in the limited partnerships' and investment funds' portfolios, as reported in their audited financial statements.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents financial assets that are measured at fair value on a recurring basis at December 31, 2019 and 2018:

	Fair Value Measurements Using:			Fair Value

(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan. There are no unfunded commitments for any of the investments below.

a. These funds continue to be redeemed. The Plan will receive periodic proceeds from the funds until fully redeemed.

b. These funds were fully redeemed during 2019.

All limited partnerships and pooled investment funds determine net asset value as of the last business day of each month.

4. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments included self-directed brokerage accounts, and certain mutual funds managed by Fidelity Investments, who is affiliated with Fidelity Management Trust Company. Fidelity Management Trust Company was a trustee, custodian and recordkeeper of the Plan, and therefore, these transactions qualify as party-in-interest.

5. INFORMATION CERTIFIED BY THE TRUSTEE/CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee and a custodian of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments as of December 31, 2019 and 2018, and for the year ended December 31, 2019:

- Participant Directed Investments, at fair value
- Interest and dividend income on participant directed investments
- Income on self-directed brokerage accounts
- Net appreciation in fair value of participant directed investments

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

6. TAX STATUS

The Plan adopted a Volume Submitter Profit Sharing Plan on January 1, 2018 which received a favorable Opinion Letter from the Internal Revenue Service dated March 31, 2014. The Plan administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles requires Plan management to evaluate tax positions taken by the plan and recognizes a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
