INDEPENDENT AUDITORS' REPORT

Plan Administrator and Participants of
The Goodyear Tire & Rubber Company
Salaried Pension Plan
Akron, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Goodyear Tire & Rubber Company Salaried Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Custodian as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Trust Assets

The Goodyear Tire & Rubber Company Salaried Pension Plan (the "Plan"), participates in a master trust where Wingfoot Corporation is the Trustee and The Northern Trust Company (the "Custodian") has been appointed as the Custodian for the master trust. Individual Master Trust Investment Accounts ("MTIA") within the master trust hold investments for pension plans sponsored by The Goodyear Tire & Rubber Company (the "Company" or "Goodyear") and Divested Litchfield Park Properties, Inc. See discussion of significant accounting policies related to the master trust in Note 7.

Annuitized Benefits

Net assets available for benefits and accumulated plan benefits exclude the value of Plan benefits which were fully annuitized as of June 30, 1988.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits include benefits expected to be paid to:

- a) Retired or terminated employees or their beneficiaries.
- b) Beneficiaries of employees who died while in active service.
- c) Present employees and their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by Willis Towers Watson, consulting actuaries, using actuarial assumptions to reflect the time value of money and the probability that a benefit payment will be made between the valuation date and the expected payment date.

The significant actuarial assumptions used in the valuation of accumulated plan benefits as of December 31, 2019 and 2018 were:

- a) Life Expectancy - The mortality basis is derived from the mortality experience of the Goodyear Salaried non-disabled population for the period 2007-2011, adjusted to reflect the MP-2019 scale (December 31, 2019) and MP-2014 scale (December 31, 2018).
- b) Retirement Age - Scale ranging from 3% of all eligible employees at ages 50 to 54 to 100% at age 70.
- c) Withdrawal - Scale ranging from 6.0% for male employees (9.1% for female employees) at age 25 to 0.4% for male and female employees at age 55.
- d) Discount Rate - Obligations of the Plan are assumed to be settled at a rate of 4.25% (December 31, 2019) and 5.25% (December 31, 2018).

Contributions and Funding

In 2013, the Company made contributions to fully fund the Plan as determined by the accounting basis used for the Company's financial statements.

THE GOODYEAR TIRE & RUBBER COMPANY
SALARIED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

During the 2019 Plan year, no Company contributions were required as determined by the minimum funding requirements specified in the Employee Retirement Income Security Act of 1974 ("ERISA"). Company contributions are recognized as they accrue.

Expenses

All expenses incurred in the asset custody and management of the Plan are charged to and paid by the master trust. Other administrative expenses of the Plan are paid by the Company.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investments in partnership interests within the master trust are not traded on an active market; therefore, the values of these investments as of any particular date are not necessarily indicative of amounts that may ultimately be realized as a result of future sales or other dispositions. The estimated values may differ significantly from the values that would have been used had an active market for the securities existed.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through September 25, 2020, the date the financial statements were available to be issued. There were no subsequent events which required recognition or disclosure in the financial statements.

NOTE 2 - GENERAL DESCRIPTION AND OPERATION OF THE PLAN

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is subject to the provisions of ERISA.

Participation and Benefits

The Plan is a defined benefit plan covering salaried employees of the Company hired prior to January 1, 2005 who are not covered by collective bargaining agreements and who are not participants in other defined benefit plans sponsored by the Company or a related company. Effective December 31, 2008, the Plan was frozen and participants do not earn any additional service or compensation that counts towards their base pension benefits through that date. The Plan provides for pension and death benefits calculated under formulas principally based on age, service and highest five year average of annual earnings of the 10 years ending December 31, 2008 covered under the Plan.

From April 1, 1998 until December 31, 2008, employees were eligible for an additional benefit by contributing at a rate of 2.0% of earnings above the breakpoint and 1.0% of earnings below the breakpoint. The breakpoint represented 50% of the Social Security Wage Base, which the Federal government adjusted annually.

Participants, who retire on or after January 1, 1997, may elect to receive their plan benefits in a single lump-sum, if elected within 90 days of first receiving written communication explaining the optional forms of payment for the pension benefit, or in various forms of an immediate or deferred annuity, as permitted by government regulations.

Normal retirement age is 65; however a retirement benefit is available to employees who have not attained age 65 but have completed at least five years of service.

Vesting

Effective December 31, 2007, normal retirement benefits are 100% vested in the Plan for all active participants.

Termination Provisions

The Company anticipates and believes that the Plan will continue without interruption but reserves the right to discontinue the Plan. As stated in the Plan, in the event that such discontinuance results in the termination of the Plan:

- a) The Plan's interest in the master trust shall serve to discharge any liability presently incurred and the net assets shall be applied for the exclusive benefit of the participants and beneficiaries of the Plan, provided that after satisfaction of all liabilities, residual assets of the Plan are distributable to the Company, or to other plans within the master trust.

- b) To the extent unfunded vested benefits exist, benefits up to specified limitations are insured by the Pension Benefit Guaranty Corporation.

NOTE 3 - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated June 5, 2017 that the Plan is qualified and the trust established for the Plan is exempt from Federal Income Tax under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Company and Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 4 - FINANCIAL DATA CERTIFIED BY THE NORTHERN TRUST COMPANY

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all investment information applicable to the master trust and at the Plan level is certified complete and accurate or derived from information certified complete and accurate by the Custodian, with the exception of partnership interests within the master trust as of December 31, 2019 and 2018. As of December 31, 2019 and 2018, the fair value of these investments within the master trust was \$275,758,416 and \$251,188,804, respectively, with related net appreciation of \$37,308,850 for the year ended December 31, 2019.

NOTE 6 - PARTY-IN-INTEREST

Certain Plan investments are managed by Northern Trust Asset Management, an affiliate of the Custodian and, therefore, these transactions are party-in-interest transactions. Fees are paid by the master trust for asset custody and management to parties-in-interest. These fees are pursuant to arrangements exempted from the prohibited transaction rules.

NOTE 7 - MASTER TRUST

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of the Plan's interest in the master trust is based on the beginning of the year value in the master trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. The fair value of investments held by the master trust is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Investment income (loss) and administrative expenses relating to the master trust are allocated to the Plan based on the Plan's divided interest in the master trust.

The master trust utilizes a tiered allocation structure, whereby the master trust assets are grouped into MTIA's, for which the plans have divided interest ownership. The target allocation for each plan which participates in the master trust is 94% in duration-matched fixed income securities and 6% in alternatives.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the master trust's gains and losses on investments bought and sold as well as held during the year.

Partnership Interests

At December 31, 2019 and 2018, the master trust had investments of \$275,758,416 and \$251,188,804, respectively, in partnership interests. These partnership interests include \$244,943,208 and \$208,836,093, respectively, which are invested in venture, buyout and special situation private equity funds, and private credit funds including opportunistic and global strategies, which cannot be redeemed and are liquidated over the stated life of the fund. At December 31, 2019 and 2018, the master trust had \$71,000,000 and \$124,000,000, respectively, in unfunded commitments related to these investments. Additionally, the partnership interests consist of \$30,815,208 and \$42,352,711, respectively, at December 31, 2019 and 2018, in an enhanced equity investment partnership which can generally be redeemed on a quarterly basis with one month notice.

Financial Instruments

Certain investment managers retained by the master trust are authorized to use derivative financial instruments within specific guidelines established by the Company. Interest rate, foreign exchange and credit contracts are held to manage the risk inherent in certain investments.

The Company has established a control environment which includes policies and procedures for risk assessment and the approval, reporting, and monitoring of derivative financial instruments. The counterparties to the derivative financial instrument contracts are substantial and credit worthy multinational commercial banks or other financial institutions. Neither the risks of counterparty non-performance nor the economic consequence of counterparty non-performance associated with these contracts are considered by the Company to be significant. In addition, the master trust does not anticipate any material adverse effect on its financial position resulting from its involvement in these instruments. The notional amounts generally exceed the cash requirements relating to the financial instruments. The Plan's share of the net fair value of derivative financial instruments is included in the Plan's interest in master trust in the statements of net assets available for benefits. The Plan's share of the income and realized and unrealized gains and losses resulting from derivative financial instruments is included in net investment gain from the Plan's interest in master trust in the statement of changes in net assets available for benefits.

The net fair value of derivative financial instruments was \$2,086,000 and \$(166,000) respectively, at December 31, 2019 and 2018. The net appreciation in the fair value of derivative financial instruments was \$29,975,000 for the year ended December 31, 2019.

Securities Lending

Two of the MTIA's in the master trust participate in The Northern Trust Company Securities Lending Program under which The Northern Trust Company as Custodian and Agent is authorized to lend securities of the master trust, as part of a pool of securities from other participating lenders, to borrowers selected by the Custodian and approved by the Trustee. Under the terms of the program, participating lenders receive cash, letters of credit, or government securities as collateral for loans of their securities, which must be equal to or greater than 102% of the market value of the borrowed securities if the collateral is denominated in the same currency, or 105% if denominated in a different currency than the borrowed securities. The amount of master trust securities on loan is capped at eight percent of lendable investments. The market value of the borrowed securities and collateral are revalued daily and the borrower is required to deliver additional collateral when

THE GOODYEAR TIRE & RUBBER COMPANY

necessary to meet the minimum requirements. Cash collateral received by the Custodian is invested in obligations issued by the U.S. Government, corporate bonds, and certain other instruments that meet The Northern Trust Company Securities Lending Program's guidelines intended to maximize current income, while maintaining the preservation of capital and maintenance of liquidity. Upon termination of the loan, the borrower is required to return loaned securities in exchange for the return of the related collateral.

The master trust realized \$221,504 of additional net gain from these activities during 2019. The Trustee does not anticipate any material adverse effect on the financial position of the master trust resulting from its involvement in The Northern Trust Company Securities Lending Program.

Fair Value Measurements

Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date.

- Level 1 – Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 – Valuation is based upon other unobservable inputs that are significant to the fair value measurement.

THE GOODYEAR TIRE & RUBBER COMPANY
SALARIED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Investments that were measured at net asset value (NAV) per share are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to total investments at fair value of the master trust. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

Cash and Short Term Securities: Cash and cash equivalents consist of U.S. and foreign currencies. Foreign currencies are reported in U.S. dollars based on currency exchange rates readily available in active markets.

Corporate and Government Bonds and Asset Backed Securities: Valued based on institutional bid evaluations using proprietary models.

Derivative Financial Instruments: Derivatives are primarily valued using independent pricing sources which utilize industry standard derivative valuation models.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total master trust net assets available for benefits. For the year ended December 31, 2019, there were no significant transfers in or out of levels 1, 2 or 3.

Investments Valued at Net Asset Value

Assets valued at NAV are as follows:

Partnership Interests: Priced based on valuations using the partnership's available financial statements coinciding with the Plan's year-end and the master trust's percent ownership, which are valued at the NAV as a practical expedient to estimate fair value, adjusted for any cash transactions which occurred between the date of these financial statements and the Plan's year end.

THE GOODYEAR TIRE & RUBBER COMPANY
SALARIED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

Common/Collective Trusts: Valued at the NAV of units held at year end, as determined by a pricing vendor or the fund family. The NAV, as provided by the trustee of each common collective trust fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by each fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. If the plan were to initiate a full redemption of any common collective trust, each investment manager reserves the right to temporarily delay withdrawal to ensure that securities liquidation will be carried out in an orderly business manner. The investments in common collective trust funds had a fair value of approximately \$385,791,000 and \$672,715,000 as of December 31, 2019 and 2018, respectively, with no unfunded commitments, daily pricing frequency, and full redemption notice periods that extend no greater than 30 days. Common/collective trusts invested in equity securities are invested to earn returns that match or exceed U.S. equity indexes. Common/collective trusts invested in debt securities are invested to earn returns that match or exceed U.S. fixed income indexes.

Mutual Funds: Valued at the NAV of shares held at year end, as determined by the pricing vendor or the fund family. The NAV, as provided by the trustee of each mutual fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by each fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. If the plan were to initiate a full redemption of any mutual fund, each investment manager reserves the right to temporarily delay withdrawal to ensure that securities liquidation will be carried out in an orderly business manner. The investments in mutual funds had a fair value of \$140,673,000 and \$90,278,000 as of December 31, 2019 and 2018, respectively, with no unfunded commitments, daily pricing frequency, and full redemption notice periods that extend no greater than 30 days. Mutual funds invested in debt securities are invested to earn returns that match or exceed U.S. fixed income indexes.

None.

Inclusion Date

The valuation date coincident with or next following the date on which the employee becomes a participant. Participation was frozen effective December 31, 2004.

Plan-related Expenses

No administrative expenses are paid from the trust. The Company has determined that investment fees will not be considered plan-related expenses, pending guidance from the IRS.

Mortality

Funding liability: Mortality is assumed to occur according to a plan-specific substitute mortality table with separate male and female rates, as approved by the IRS in 2018 for valuations starting with the 2018 plan year. The substitute mortality table is constructed from standard tables, adjusted based on the mortality experience of the plan and the credibility of that experience. The base tables are the optional combined tables for males and females, adjusted to reflect a 1.095162 mortality ratio and a 0.956848 credibility factor. The mortality rates are applied to all non-disabled and disabled participants. The tables were developed based on the mortality experience of the full Goodyear Salaried Plan population for the period 2013-2016. The tables are generational, based on the IRS-prescribed projection scale for the valuation year, with a base year of 2014. The table below presents illustrative rates for the base year.

Joint Annuitant Mortality

Mortality is applied to the joint annuitant of participants who elect the Joint & Survivor Option form from the date of retirement to the current valuation date. The applicable mortality is the 2003 Goodyear Salaried Healthy Mortality Table with separate male and female rates.

Retirement

The incidence of retirement is assumed as indicated below:

Age	Percentage of Participants Expected to Retire Within One Year
50-54	3
55-58	5
59-60	10
61	15
62-64	20
65-69	50
70 & Over	100

Vested terminated participants are generally assumed to commence benefits at age 62 if service was 10 years or more, and age 65 otherwise.

Withdrawal

Separate male and female withdrawal rates are used. The following rates are illustrative:

Percentage of Participants Expected to Terminate Within One Year				
Male		Female

25	6.0	25	9.1

Disability

The incidence of disability has been accounted for in the withdrawal rates.

Compensation Increases

Not applicable.

Future Increases in Social Security

Not applicable.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Form of Payment

90% of employees born in 1964 or later and 65% of those born before 1964 are assumed to select the lump sum form of benefit, if available to them, upon separation from the Company due to retirement. All employees who separate from the Company for reasons other than retirement are assumed to elect the lump sum option. The remaining employees are assumed to elect the 5-year certain and continuous annuity form.

The annuity is valued using the valuation discount rate and valuation mortality. The lump sum is the larger of the pension balance or the value of the accrued benefit, payable at normal retirement age, under IRC §417(e) assumptions described below.

IRC 417(e) Lump Sum Assumptions

Lump Sum Assumptions for Annuitized Benefits

For those decrements at which a lump sum is assumed to be paid, it is also assumed that the Trust will be reimbursed for annuitized benefits, if any, in a lump sum. The total lump sum payable to the participant is determined without regard to reimbursement for the annuitized benefits. The lump sum reimbursement is 90% of the value calculated under the following assumptions.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible male participants and 50% of eligible female participants are assumed to be married. Male spouses are assumed to be 3 years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

At-risk assumptions

For at-risk calculations, all participants eligible to commence benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan. For each participating employee, the lump sum is compared to the present value of the five-year certain and continuous annuity and the at-risk funding target is based on the form of payment producing the higher figure.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on the date of decrement.

Funding Target

Present value of accrued benefits.

Target normal cost

Present value of benefits expected to accrue during the plan year.

Asset Method

The asset method is three-year smoothing with assumed return. Under this method, the valuation assets are equal to the average of three values (each determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 4.75%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 4.75%, and the applicable limitation for the plan year, equal to 6.29%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 5.25%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 5.25%, and the applicable limitation for the plan year, equal to 6.48%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.3. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Valuation assets also include the actuarial present value of annuitized benefits. This present value is calculated using the assumptions specified above. For calculations of funded status using at-risk liability, valuation assets include the present value of annuitized benefits under at-risk assumptions.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2019 is used to determine the maximum deductible contribution for the tax year ending December 31, 2019.

Benefits not Included in Valuation

None.

Unpredictable Contingent Events

Sources of Data and Other Information

Data Sources

Asset data were provided by the Company on July 24, 2019. Willis Towers Watson does not receive copies of trust statements. Alight, the administrator for the Company's plans, furnished participant data as of the valuation date. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations

Assumptions Rationale - Significant Economic Assumptions

Interest rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law and regulation, all of which are based on observed market data over certain periods of time.

Lump sum conversion rate

As prescribed by law and regulations, lump sums on a 417(e) basis are valued using "annuity substitution" and the discount rate basis selected by the plan sponsor. Future interest rates are determined from information inherent in current market rates.

For lump sum reimbursements by MetLife, the assumed 30-year Treasury rate is developed based on a projection of the Treasury yield curve. Future 30-year Treasury rates are determined as the coupon rates that would result in the bonds selling at par.

Administrative and investment expenses

Administrative expenses are paid directly by the plan sponsor. The expected rate of return on invested assets is net of investment-related expenses.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Mortality rates for healthy and disabled lives were developed through an analysis of plan experience. The tables have been approved as plan-specific substitute mortality tables under Treas. Reg. § 1.430(h)(3)-2. The rates reflect actual mortality experience during the period of the study. Adjustments of the rates for future periods are prescribed by law and regulations.
Termination	Termination rates were based on an experience study conducted in 1981, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates are incorporated in termination rates which were based on an experience study conducted in 1981, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2017 and the Company's expectations for future retirement patterns.
Lump sum election rate	Lump sum election rates were based on an experience study conducted in 2017 and the Company's expectations for future elections.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The interest rate assumption was updated to reflect annual changes in the rates specified by the IRS. However, the underlying PPA election of September segment rates is unchanged. The effective interest rate has changed from 5.57% to 5.41%.

The mortality projection scale used to calculate the funding target was updated from Scale MP-2016 to Scale MP-2017, as required by IRC 430.

The assumed 417(e) applicable mortality table has been updated to reflect the rates published in IRS Notice 2018-02.

The MetLife lump sum reimbursement interest rate has been determined from the December 31, 2018 Treasury curve. For simplicity this curve is modeled as a flat 3.25%, generating a MetLife lump sum rate of 4.50%. The prior year MetLife lump sum rate was 4.00%.

Change in methods since prior valuation

The decrement timing used in the valuation was changed from alternative middle of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under alternative middle of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the middle of the year, and all other events are assumed to occur on valuation date anniversaries. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2019

See Schedule SB, Part V - Statement of Actuarial Assumptions/Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed. The resulting weighted average retirement age is 63.

Schedule SB, Part V Summary of Plan Provisions

Effective Date:	The Plan is most recently restated effective January 1, 2016.
Plan Participation:	Prior to January 1, 2005, all Employees of the Company or of any domestic subsidiary of the Company which adopts the Plan. Effective January 1, 2005, plan participation is restricted to employees hired prior to January 1, 2005. The term "Employee" requires designation as a salaried employee and excludes leased employees, employees covered by a collective bargaining agreement (except Statesville, Social Circle and Asheboro), and employees covered by the Retail Pension Plan. For plan years prior to 2009, a participant could elect to make contributions to the Plan, as described in Item 12 below.
Accrual Freeze:	Effective December 31, 2008, accruals under the plan were frozen.
Vesting:	Effective December 31, 2007, all non-vested participants were fully vested in the plan.
Definitions:	
■ Continuous Service:	For the purpose of determining an amount of pension, all periods of service as an Employee rounded to the next highest 1/12 th of a year (after March 31, 1998) or to the nearest 1/12 th (prior to April 1, 1998). Periods of employment at Air Treads, Inc. prior to January 1, 1990 are excluded.
■ Break Point:	50% of the Social Security Wage Base in effect at the beginning of a Plan year.
■ Pension Point:	A percentage applied to a portion of Average Earnings.
(i) Base Point:	A Pension Point applied to Average Earnings up to the Break Point.
(ii) Additional Point Below Break Point:	A Pension Point applied to Average Earnings up to the Break Point and credited when contributions on Earnings up to the Break Point are made.
(iii) Additional Point Above Break Point:	A Pension Point applied to Average Earnings above the Break Point and credited when contributions on Earnings in excess of the Break Point are made.

- **Earnings:** Total compensation paid to an Employee for a period of Continuous Service, excluding payment under certain incentive plans, and limited in accordance with IRC Section 401(a)(17).
- **Average Earnings:** The average of an Employee's Earnings for the 5 calendar years out of the 10 years preceding the date of calculation for which the Earnings are the highest. A partial year's Earnings are annualized for Employees with fewer than 5 calendar years of Earnings.

Crediting of Pension Points: (a) Pension points are credited on a Plan Year basis according to the following table:

Attained Age During the Year	Base Points	Additional Points Below Break Point	Additional Points Above Break Point
Less than 30	2.0	1.5	3.5
30 – 34	3.0	1.5	4.5
35 – 39	4.0	1.5	5.5
40 – 44	5.0	1.5	6.5
45 – 49	7.0	1.5	9.0
50 – 54	10.0	1.5	13.0
55 and over	12.0	1.5	15.0

Credited points are prorated for partial years of Continuous Service (for benefit amount purposes) and partial years of contributions.

(b) Transition Pension Points – Participants as of April 1, 1998 are credited with additional Pension Points based on their Continuous Service and Contributory Service as of March 31, 1998 according to the following table:

Base Points for each year of Continuous Service and Additional Points Above Break Point for Each Year of Contributory Service						
Attained Age During 1998	1 - 10		11 - 20		21 - 25	
	Base	Additional Above	Base	Additional Above	Base	Additional Above
Less than 35	0.5	0.25	1.5	0.5	0.0	0.0

Accrued Normal Retirement Benefit:

- (a) In general, a participant's accrued normal retirement benefit payable as a 5-year certain and continuous annuity equals:
- (i) total Base Points times Average Earnings below the Break Point plus
 - (ii) total Additional Points Below Break Point times Average Earnings below the Break Point plus
 - (iii) total Additional Points Above Break Point times Average Earnings in excess of the Break Point
 - (iv) with the resulting sum multiplied by a deferred annuity factor based on the participant's age as of the date of calculation.

The product of (i) and (iv) is held to a minimum of the accrued noncontributory benefit as of March 31, 1998 and the product of (iii) and (iv) is held to a minimum of the accrued contributory benefit as of March 31, 1998.

Projected Maximums: In addition, the product of (i) and (iv) is held to a maximum of projected Base Points at normal retirement age times Average Earnings below the Break Point and an annuity factor at normal retirement age. A similar maximum applies to the product of (iii) and (iv).

A special calculation is done for participants who have periods after March 31, 1998 during which they elected not to make contributions on Earnings in excess of the Break Point.

Annuity factors are based on the UP-1984 mortality table with a 3-year age setback and an interest rate of 4.75%.

(b) Transition Minimum:

Participating employees as of April 1, 1998 are eligible for a minimum benefit equal to of the accrued noncontributory and contributory benefits as of March 31, 1998 plus the accrued benefit calculated as in (a) above but based only on Pension Points accrued since March 31, 1998, excluding any additional Points credited by amendments.

For participants with 10 or more years of service as April 1, 1998, 105% of the accrued March 31, 1998 benefits are used in the Transition Minimum.

A special calculation is done for participants who have periods after March 31, 1998 during which they elected not to make contributions on Earnings in excess of the Break Point.

(c) \$50 Minimum:

Participants who have 27 years of service or are age 52 with 7 years of service as of June 1, 2001, are eligible for the \$50 minimum benefit. This benefit consists of \$44 per year of continuous service plus \$6 per year of contributory service. The result is multiplied by 12 to obtain the annual benefit.

**Benefits Upon Termination
of Employment:**

A participant with 3 or more years of Continuous Service is entitled to elect, upon termination of employment, a lump sum, an immediate annuity, or a deferred annuity, determined as follows:

- (a) Deferred Annuity – equals the accrued normal retirement benefit payable at age 65 or as early as age 55 in a reduced amount:
- (i) If the accrued benefit is based solely on Pension Points, then the reduced annuity equals the accrued benefit without the Projected Maximum, reduced by 3.9% for each year that commencement precedes age 65, with the result limited by the Projected Maximum.
 - (ii) Otherwise, the portion of the accrued benefit based on accrued benefits as of March 31, 1998 is reduced according to the terms of the Plan in effect on March 31, 1998 and the remainder (based on Pension Points) is reduced as in (i) above.
 - (iii) The \$50 minimum benefit is reduced by 4.8% per year for commencement prior to age 62. It is unreduced if the participant has 30 years of service. It is actuarially reduced from age 65 if the participant has attained neither 30 years of service nor age 55 with 10 years of service.

**Benefits Upon Termination
of Employment(continued):**

- (b) Immediate Annuity – for commencement at age 55 or older, determined in the same manner as early commencement of the Deferred Annuity in (a); for commencement before age 55, the age 55 benefit is further reduced as follows:
- (i) Portion based on Pension Points – 3.9% per year for age 55 to age 52 and actuarial for lower ages.
 - (ii) Portion based on accrued benefits as of March 31, 1998 – 4.8% per year from age 55 to age 50 and actuarial for lower ages; the non-contributory portion is unreduced if the participant has 30 years of service.
 - (iii) The \$50 minimum benefit is payable unreduced if the participant has 30 years of service. It is actuarially reduced from age 55 if the participant has not attained 30 years of service.
 - (iv) In addition, if the participant was at least age 55 with at least 30 years of Continuous Service as of March 31, 1998, then a temporary monthly annuity will be paid up to age 62 equal to \$6 times years of Continuous Service as of March 31, 1998. Otherwise, participants with annuitized temporary supplements as of June 30, 1988 will be eligible for this if they retire at age 55 or older with at least 30 years of service.

Benefits Upon Termination of Employment(continued):

- (c) Lump Sum:
- (i) In general, the lump sum equals the sum of products of Pension Points times Average Earnings, either up to or in excess of the Break Point, as appropriate.
 - (ii) The minimum total lump sum equals (1) the actuarial present value of the accrued normal retirement benefit determined under the assumptions specified in Section 417(e) of the Internal Revenue Code as in effect on the first day of the Plan Year during which the benefit commencement date occurs; or, if larger, (2) accumulated employee contributions with statutory interest.
 - (iii) The portion of (i) associated with Base Points is held to a minimum of the actuarial present value of the noncontributory accrued benefit as of March 31, 1998 using the same assumptions as found in (ii). A similar minimum applies to the lump sum associated with Additional Points Above Break Point.
 - (iv) The portion of (i) associated with Additional Points Above Break Point is held to a minimum of corresponding accumulated employee contributions with plan interest. A similar minimum applies to the lump sum associated with Additional Points Below Break Point.
 - (v) If a temporary annuity ((b)(iv) above) is payable, its actuarial present value using the UP-1984 Mortality Table and a 6% interest rate is paid.

Deferred Disability:

- (a) Eligibility:
- Termination of employment before age 65 and after 5 years of Continuous Service and while receiving benefits under the Long Term Disability Income Plan.
- (b) Termination of Employment:
- Occurs two years after last day worked. Employee is credited with Base and Additional Points Above Break Point during these two years but does not make any employee contributions.

Deferred Disability (continued):

- (c) Benefit:
- (i) Payable when disability ceases, or if earlier, the later of age 65 or 2 years after the occurrence of disability.
 - (ii) Lump Sum – calculated as of the date of termination of employment as if the Employee had then elected such a payment and actuarially increased to date of payment using 417(e) assumptions in effect at date of termination.
 - (iii) Annuity – the Accrued Normal Retirement Benefit calculated at the date of termination of employment and reduced for commencement prior to age 65 as described in 8(a) or 8(b) above.

Death Benefits:

- (a) Eligibility – 3 years of Continuous Service.
- (b) Benefit:
- (i) Annuity – an eligible surviving spouse may elect to receive an immediate annuity or an annuity deferred to any date between the participant's 55th and 65th birthdays. The annuity is based on the participant's Accrued Normal Retirement Benefit as of the date of his termination of employment and the 100% Joint and Survivor annuity form and is reduced for commencement before the participant's 65th birthday as described in Item 8(b) above.
 - (ii) Lump Sum – the amount that would have been paid to the employee as a lump sum had he terminated employment on the day before the day of his death or, if earlier, the day he terminated employment. This benefit may be elected by a surviving spouse in lieu of the annuity benefit. If there is no eligible spouse, the lump sum is paid to the employee's estate.

Actuarial Increases:

The benefit payable to an active participant is increased actuarially for each year worked that is both after age 65 and after December 31, 2008.

Employee Contributions:

(a) Required Contributions:

Participants may elect to contribute 2% of Earnings in excess of the Break Point. Those who elect to contribute above the Break Point may also elect to contribute 1% of Earnings up to the Break Point. All contributions cease effective December 31, 2008.

(b) Withdrawal of Contributions:

Upon termination of employment prior to becoming eligible for a vested pension, employee contributions, together with appropriate accumulated interest (7% for all periods after January 1, 1983) are refunded. If greater, the refunded amount is contributions with statutory interest, currently credited at 120% of the Federal mid-term rate.

(c) Return of Contributions in the Event of Death:

In the event of death prior to benefit commencement when no future benefits will be payable, employee contributions with appropriately accumulated interest to the date of death are refunded. In the event of cessation of benefits due to death after benefit commencement, the excess, if any, of employee contributions with appropriately accumulated interest to the date of benefit commencement over benefits paid are refunded.

Optional Annuity Forms of Payment:

If an employee does not elect an option or file a written revocation, benefits will be paid as a reduced Qualified Joint and Survivor Annuity if married, or on a 5-year certain and continuous basis if unmarried. Available options for other than deferred vested terminations are:

- Joint and survivor (spouse only) with 5-year certain;
- Period certain (10, 15 or 20 years certain);
- 100% contingent coverage (pop-up);
- 50% contingent coverage (pop-up); and
- 75% Qualified Optional Survivor Annuity.

Spinoff Plans:

Two new plans were created in 1988 by means of spinoffs from the Salaried Pension Plan, then (prior to April 1, 1998) known as the Retirement Plan for Salaried Employees. These were:

- Retirement Plan for Certain Retired and Former Salaried Employees: Liabilities and assets were spun off effective May 31, 1988 for retired and former employees who, on April 30, 1986, were receiving benefits under the Plan and for former employees who, on April 30, 1986, were vested and entitled to receive benefits at a future date under the Plan. This plan was later terminated effective June 30, 1988; this action made necessary the annuitization of all accrued Plan benefits
- Retirement Plan for Retail Salaried Employees: Retail store employees formerly covered by the Plan were spun off effective June 30, 1988 into a separate plan. This plan is now known as the Retail Pension Plan.

Merged Plans:

- (a) The Long Mile Rubber Company Retirement Plan for Salaried Employees was merged with the Plan effective December 31, 1989. Participants involved are eligible for benefits from the Plan including their accrued benefit from the Long Mile Plan plus accruals (or update) based on participation in the Plan.
- (b) The Celeron Corporation Pension Plan was merged with the Plan effective December 31, 1999. Participants involved, all of whom were terminated or retired, are eligible for benefits from the Plan equal to their accrued benefit from the Celeron Plan.

Annuitization of Benefits:

Following the termination of a spun-off plan, the Retirement Plan for Certain Retired and Former Salaried Employees, all accrued Plan benefits as of June 30, 1988 were fully annuitized.

Under 1998 agreements, Metropolitan Life and Prudential Life will generally reimburse the Plan with a lump sum for employees electing the lump sum form of payment for their total benefits; however, the Plan will bear the cost of any difference between payment and reimbursement.

Special Payment to Certain Retirees:	Employees who retired between January 1, 1997 and March 31, 1998 will have their benefits recalculated under the terms of the Plan that became effective April 1, 1998. In particular, such participants have a one-time opportunity to elect a lump sum form of payment.
Performance Points for Certain Participants:	Participants who terminated employment between January 1, 1999 and November 30, 2000 received a service-prorated portion of 3.0 base pension points for the final year of service. Contributory participants also received a service-prorated portion of 3.0 additional points above breakpoint.
Voluntary Exit Program:	Participants who accepted an offer to retire under the Voluntary Exit Program between December 7, 2000 and May 31, 2001 were credited with up to 75.0 additional base points. Contributory participants also received up to 100.0 additional points above breakpoint.
Special Termination Benefits due to Plant Closure or Early Retirement Incentives:	Certain participants who retired under plant closures or early retirement windows in the 1980s and earlier received enhancements to their pension benefits. The portion of the monthly annuity payment that is due to such enhancements is paid directly by the Company, rather than from the Salaried Plan Trust. Effective December 31, 2009, these non-trust benefits are included in ASC 715 accounting for the Salaried Plan.
Lump Sum Restrictions:	During periods of partial lump sum restrictions under IRC Section 436, a participant may elect to: (a) defer the total benefit and receive a lump sum when restrictions no longer apply, or (b) bifurcate the benefit to be paid as half immediate lump sum and half immediate annuity. If the benefit is bifurcated, the MetLife reimbursement will be paid in annuity form.
Benefits not Valued:	Effective January 1, 2016, deferred vested participants who could not be located through a diligent search were deemed to be lost participants and were excluded from the valuation. If such a participant comes forward, the benefits will be restored.

The decrement timing used in the valuation was changed from alternative middle of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under alternative middle of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the middle of the year, and all other events are assumed to occur on valuation date anniversaries. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

Schedule SB, Line 23 Information on Use of Substitute Mortality Tables

Funding liability: Mortality is assumed to occur according to a plan-specific substitute mortality table with separate male and female rates, as approved by the IRS in 2018 for valuations starting with the 2018 plan year. The substitute mortality table is constructed from standard tables, adjusted based on the mortality experience of the plan and the credibility of that experience. The base tables are the optional combined tables for males and females, adjusted to reflect a 1.095162 mortality ratio and a 0.956848 credibility factor. The mortality rates are applied to all non-disabled and disabled participants. The tables were developed based on the mortality experience of the full Goodyear Salaried Plan population for the period 2013-2016. The tables are generational, based on the IRS-prescribed projection scale for the valuation year, with a base year of 2014. The table below presents illustrative rates for the base year.
