1. Description of the Plan

The following description of the Datapath, Inc. 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution 401(k) Plan established effective January 1, 2015 by Datapath, Inc. (the “Company,” “Sponsor,” or “Employer”) to provide retirement benefits to eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Eligible employees may participate in the Plan on the first day of each month after completing two months of service, as defined, with a minimum age requirement of 21 years old.

Contributions

Each year participants may contribute up to the maximum allowed by law, as defined in the Plan document, subject to Internal Revenue Code (“IRC”) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts.

The Company contributes a matching contribution of 50% of each participant’s contribution, up to a maximum of 4% of the participant’s compensation contributed to the Plan. The Company, at its discretion, may contribute additional discretionary matching contributions.

During 2019, the Company contributed approximately \$437,000 for the employer match. For 2019 the Company did not make additional discretionary matching contributions. The contributions are included in the Company contributions, net of forfeitures, in the statement of changes in net assets available for benefits. Contributions are subject to certain limitations.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds, a guaranteed investment contract (“GIC”), and a money market fund as investment options for participants.

Participant accounts

Each participant’s account is credited with the participant’s contributions and allocations of the Company’s profit sharing and discretionary matching contributions, and plan earnings (losses), and charged with benefit payments, fees for participant initiated transactions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts, plus actual earnings thereon, is based on years of service. A participant’s interest in any matching contributions made by the Company is subject to forfeiture until fully vested after four years as follows:

<u>Years</u>	<u>Vested Percentage</u>
1	25%
2	50%
3	75%
4	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance immediately preceding the date the loan is issued. The maximum term of repayment for a loan is five years, except if the loan is for purchase of a principal residence, then the term may not exceed 10 years. The loans are secured by the balance in the participant's account and bear interest at rates which are one percentage point higher than prevailing rates at the time of origination. At December 31, 2019, outstanding loans bore interest rates ranging from 3.25% to 5.50%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump-sum amount or partial withdrawal with at least a minimum amount of \$1,000. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 65.

Forfeitures

The forfeiture accounts had no balance at the end of plan year December 31, 2019, and \$6,000 as of December 31, 2018. Forfeited funds may be used to reduce future employer contributions or to pay Plan expenses. During 2019, approximately \$35,000 was used to offset employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Cost for a participant loan is \$125 per loan at origination, which are charged to the participant's account.

Datapath, Inc. 401(k) Retirement Plan
Notes to Financial Statements

Payment of benefits

Benefits are recorded upon distribution.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions are charged directly to the participant's account.

3. Fair Value Measurements

The Plan has adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2018-13, *Fair Value Measurements (Subtopic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement*. The ASU modified the fair value disclosure requirements for the Plan.

Fair value as defined under U.S. GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2019 and 2018. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	<u>\$ 9,808,514</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,808,514</u>

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 6,513,469	\$ -	\$ -	\$ 6,513,469

4. Fully Benefit Responsive Investment Contracts

The Plan has fully benefit-responsive investment contracts with Standard Insurance Company ("Standard"). The contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the contract value of the investment contract held by the Plan:

	2019	2018
Stable Asset Value Fund	\$ 281,533	\$ 196,036

The investment contracts held by the Plan are guaranteed investment contracts. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting. Actual crediting rate was 2.68% for the year ended December 31, 2019.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan document (including complete or partial plan termination or merger with another plan), (2) changes to the prohibition on competing investment options or deletion of equity wash provisions, (3) premature termination of the contracts, (4) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (5) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

5. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2019 and 2018 and for the year ended December 31, 2019 that was obtained from data prepared and certified to be complete and accurate by the Plan's Custodian:

Datapath, Inc. 401(k) Retirement Plan
Notes to Financial Statements

	<u>2019</u>	<u>2018</u>
Mutual funds	\$ 9,808,514	\$ 6,513,469
Common collective trust	281,533	196,036
Notes receivable from participants	170,265	180,922
Net appreciation in fair value of investments	1,489,564	
Interest and dividends	249,243	
Interest income on notes receivable from participants	9,971	

6. Exempt Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by the Custodian and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid to the Custodian by the Plan for administrative services were approximately \$83,000 for the year ended December 31, 2019. Plan participants are not charged any of the Plan's operational fees other than those associated with participant loans.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

8. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the prototype (or volume submitter) plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014 that the prototype (or volume submitter) plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying 2019 and 2018 financial statements to Schedule H of Form 5500 as of December 31:

	<u>2019</u>	<u>2018</u>
Net assets available for benefits per financial statements	\$ 10,421,696	\$ 7,051,881
Contribution receivables	<u>(161,384)</u>	<u>(161,384)</u>
Net assets available for benefits per Form 5500	<u>\$ 10,260,312</u>	<u>\$ 6,890,497</u>

11. Contingencies

The Plan Administrator has identified a matter relating to Plan operations in 2019. The Plan Administrator noted a failure to apply the Plan's definition of compensation to deferrals. The Plan Sponsor and the Plan Administrator will determine the total magnitude of the correction and for 2019 and the Plan Sponsor will be required to make a qualified non-elective contribution ("QNEC") It is also possible the Plan and/or the Plan Sponsor will incur penalties after a DOL audit.

12. Subsequent Events

On November 25, 2019, the Plan was amended to elect safe harbor status and change the definition of compensation for deferrals. Effective January 1, 2020, all matching contributions equal to 100% of salary deferrals that do not exceed 3% of compensation and 50% of salary deferral between 3% and 5% of compensation will be 100% vested. Additionally, the Plan amended the definition of compensation to include only regular (base) earnings and specifically exclude certain uplifts such as hazard pay and overtime.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management evaluated the impact of the CARES Act on the Plan and approved (i) adding COVID-19-related distributions of up to \$100,000 for eligible participants, (ii) increasing the limit on Plan loans for eligible participants to the maximum amount permitted under the CARES Act, (iii) suspending payments on Plan loans otherwise due in 2020 for eligible participants, and (iv) suspending required minimum distributions for 2020. The CARES Act allowed these changes to be effective and operationalized immediately, prior to amending the Plan document.

The Plan has evaluated subsequent events through October 5, 2020, the date the financial statements were available to be issued.
