Contributions: Each year, participants may contribute a percent of annual compensation, as defined in the Plan, up to limits set by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company contributes a percentage of the eligible participant compensation, as defined, contributed to the Plan as matching contributions at the discretion of the Company's management. In 2019, the Company contributed 25 percent of the first 6 percent of eligible compensation that participant contributed into the Plan. Additional profit sharing contributions may be contributed at the option of the Company's Board of Directors. No profit sharing contributions were made in 2019. Contributions are subject to Internal Revenue Service (IRS) limitations.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time as permitted by the trading regulations.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching contributions, if any, and allocations of the Company profit sharing contributions, if any, and Plan earnings/losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Participants who attain retirement age 65 or who terminate employment due to death or disability are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loan repayment period is not to exceed five years except for the purchase of a principal residence, in which case the repayment period is not to exceed ten years. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited accounts: At December 31, 2019 and 2018, forfeited non-vested accounts totaled $0. Forfeited non-vested accounts may be used to pay for Plan expenses. Forfeitures of contributions that are not used to pay plan expenses are to be used to reduce Company contributions. In 2019, $134 was used to reduce Company contribution.

Note 1. Plan Description (continued)

Other income: John Hancock Life Insurance Company (U.S.A.) (John Hancock), the Plan's record-keeper, receives revenue sharing payments from shares of pooled separate accounts in which Plan assets are invested. The administrative services agreement between the Plan and John Hancock provides that a portion of the revenue sharing payments received by John Hancock will be credited to the participants. For 2019, $1,212 was credited to the Plan participants under this agreement.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Note 3. Investments Certified or Provided by John Hancock Life Insurance Company (U.S.A.)

John Hancock Life Insurance Company (U.S.A.) (John Hancock), the custodian of the Plan, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedules related thereto. This information includes investments held and notes receivable from participants at December 31, 2019 and 2018 and net appreciation/(depreciation) in fair value of investments, interest and dividends, and interest on notes receivable from participants for the year ended December 31, 2019. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the custodian. The Plan Administrator, therefore, has instructed the independent public accountants to exclude the information certified by the custodian from the scope of their audit.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at the total of the net asset value (NAV) of underlying investments held by the accounts at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor.

Insurance company general account: Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. This product is not a traditional Guaranteed Investment Contract (GIC) and therefore there are not any known cash flows to be discounted.

Note 4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Insurance company general account	$ 43,642	$ -	$ -	$ 43,642
Investments measured at net asset value (a)				6,528,108
				$ 6,571,750

	2018			
	Level 1	Level 2	Level 3	Total
Insurance company general account	$ 39,089		$ -	$ 39,089
Investments measured at net asset value (a)				5,314,134
				$ 5,353,223

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on the NAV per share as of December 31, 2019 and 2018:

Investment	2019	2018	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts:	$6,528,108	$5,314,134	None	Immediate	None

Note 5. Related Party Transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed investment contracts managed by John Hancock. John Hancock is the custodian and record-keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to John Hancock amounted to $66 for the year ended December 31, 2019.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitter plan sponsored by DATAIR Employee Benefits Systems, Inc., which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the volume submitter plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. The Plan has been amended since the adoption date. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for pension benefits, per the financial statements, to Form 5500:

	2019	2018

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 11, 2020, declared it to be a pandemic. The Pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. As a result, the Plan’s investments have incurred a significant decline in fair value since December 31, 2019. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 4, 2020, the date the financial statements were available to be issued.
