Note 1. Plan Description

The following brief description of the Suncast Corporation Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Suncast Corporation (the Company), except for collectively bargained employees, who have completed three months of service. Employees may enter the plan on the first day of the fourth, seventh, and tenth months of each Plan year following or coinciding with meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 60 percent of annual compensation, as defined in the Plan, up to limits set by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contributions plans (rollover), but does not permit rollover of Roth contributions into the Plan.

At its discretion, the Company may make matching contributions to the Plan and may also make an annual discretionary profit-sharing contribution in an amount to be determined at Plan year-end. In 2019 and 2018, the Plan matched 25 percent of participant contributions up to six percent of a participant's compensation. For the year ended December 31, 2019, the Company approved a profit-sharing contribution in the amount of $596,149, of which $584,149 was paid in 2020 and $12,000 was funded through forfeitures. Both matching contributions and discretionary profit-sharing contributions are paid annually, and a participant must be employed by the Company on the last day of the plan year to be eligible for these contributions. Contributions are subject to certain limitations.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching and/or nonelective contributions, if any, and Plan earnings/losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and the Company's discretionary matching contributions, plus actual earnings thereon. Vesting in the Company's discretionary profit-sharing contributions portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Participants who terminate employment due to death or disability are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loan repayment period is not to exceed five years except for the purchase of a principal residence, in which case the repayment period is not to exceed ten years. The loans are secured by the balance in the participant's account. The loan interest rate is set by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum or installment payments as directed by the participant amount equal to the value of the participant's vested interest in his or her account. Participants may receive a distribution from the plan while actively employed upon hardship or attainment of age 59 ½ from certain accounts, as defined in the Plan.

Forfeited accounts: At December 31, 2019 and 2018, forfeited non-vested accounts totaled $9,486 and $51,076, respectively. Forfeited non-vested accounts may be used to reduce employer discretionary contributions and to pay for Plan expenses. In 2020, $12,000 was used to reduce employer matching contributions for 2019. In 2019, $52,386 was used to reduce employer matching contributions for 2018.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Note 3. Investments Certified or Provided by Fidelity Management Trust Company

Fidelity Management Trust Company (Fidelity), the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related thereto. This information includes investments held and notes receivable from participants at December 31, 2019 and 2018 and net appreciation/(depreciation) in fair value of investments, interest and dividends, and interest on notes receivable from participants for the year ended December 31, 2019. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore, has instructed the independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: The common/collective trust is a stable value fund that invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. The fair values of all these investments are used in determining the NAV, as a practical expedient, of the collective investment trust, which is not publicly quoted. Participant transactions (purchases and sales) may occur daily. In the event that the Plan initiates a full redemption of the collective trust, the Plan is required to provide notice to Fidelity and could result in the plan's investment in the fund being placed into an investment only account for up to 12 months.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 34,659,268	$ -	$ -	$ 34,659,268
Investments measured at net asset value (a)				2,005,018
				$ 36,664,286

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 31,774,820	$ -	$ -	$ 31,774,820
Investments measured at net asset value (a)				2,677,823
				$ 34,452,643

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investment	2019 Fair Value	2018 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trusts	$ 2,005,018	$ 2,677,823	$ -	Daily	Daily

Note 5. Related Party Transactions

Certain Plan investments are shares of registered investment companies managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to Fidelity amounted to $1,451 for the year ended December 31, 2019.

The Plan also paid $155 to Strategic Advisors, Inc. for investment advisory services. These transactions also qualify as party-in-interest transactions.

In addition, notes receivable from participants are also treated as party-in-interest transactions.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitter plan sponsored by Fidelity Management & Research Co., which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the volume submitter plan, as then designed, was in compliance with the applicable sections of the IRC. The Plan has been amended since the adoption date. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits, per the financial statements, to Form 5500:

	2019	2018
Net assets available for benefits per the financial statements	$ 38,542,965	$ 35,737,006
Net asset value to fair value adjustment	27,032	(28,425)
Deemed loan distributions	(80,021)	(75,637)
Net assets available for benefits per the Form 5500	$ 38,489,976	$ 35,632,944

The following is a reconciliation of the changes in net assets, per the financial statements, to Form 5500:

	2019
Change in net assets available for benefits per the financial statements	$ 2,805,959
Net asset value to fair value adjustment	55,457
Net interest offset on deemed loan distributions	(4,384)
Change in net assets available for benefits per the Form 5500	$ 2,857,032

Note 10. Subsequent Events

On May 18, 2020, the Plan was amended to change the service requirement for plan eligibility to two months of service and participants may enter the plan on the first day of the month following or coinciding with meeting the eligibility requirements.

During May 2020, the Plan Sponsor approved the 2020 discretionary match of 50 percent of participant contributions up to six percent of a participant's compensation.

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020 declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in a substantial volatility in financial markets. This has had a significant adverse impact on investment portfolios. As a result, the Plan's investments have incurred a significant decline in fair value since December 31, 2019.

Note 10. Subsequent Events (continued)

Additionally, effective March 2020, the Plan enacted the Coronavirus Aid, Relief and Economic Security Act (C.A.R.E.S), allowing Coronavirus Related Distribution, relief of Required Minimum Distributions, and additional loan provisions.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 23, 2020, the date these financial statements were available to be issued.
