ACME INDUSTRIES, INC. EMPLOYEE 401(k) INCENTIVE PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

1. PLAN DESCRIPTION

The following description of Acme Industries, Inc. Employee 401(k) Incentive Plan (the "Plan"), provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, maintained for the benefit of all eligible employees of Acme Industries, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). In 2019, the Plan is operating under the provisions of the "Fidelity Basic Plan Document No. 17" which was adopted on January 1, 2017 and is an amendment to the original plan document established on October 15, 1990.

Trustee – Fidelity Management Trust Company was the Plan's trustee for the years ended December 31, 2019 and 2018.

Eligibility - Employees become eligible on the first day of the month following their employment start date. Employees are automatically enrolled unless they opt out of the Plan.

Contributions - Each participant may defer a specified percent of pretax compensation, subject to certain Internal Revenue Code ("IRC") limits. The Company may make discretionary matching contributions. For the year ended December 31, 2019, the Company had a discretionary match of 50% of the employee's first 5% of employee deferrals. Total employer contributions for the year ended December 31, 2019 were $227,931.

Participant Accounts - Each participant's account is credited with the participant's contributions, the employer matching contribution, if any, and plan investment income (loss). Allocations are based on participant compensation or account balances, as defined.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. A participant's vested portion of the Company matching, plus actual earnings thereon occurs at a rate of 20 percent per year of service. Participants are fully vested after five years of service, or upon normal retirement (age 65), death, permanent disability or termination of the Plan.

Forfeited Accounts - In the event termination of employment before full vesting has occurred, the non-vested portion of the employer contribution shall first be used to pay plan expenses. Any remaining forfeitures are reallocated to participants in a manner similar to matching contributions in the plan year in which such forfeitures occur. Forfeitures totaled $18,787 and $8,400 as of December 31, 2019, and 2018, respectively.

Participant Loans - Participants may borrow from their 401(k) account balance a minimum of $1,000, up to a maximum equal to the lesser of one-half of the vested account balance, or $50,000 reduced by the highest outstanding loan balance during the prior 12-month period. All loans are secured by the balance in the participant's account and bear interest at a rate in line with other lending institutions. Loans are to be repaid over a five-year period or within a reasonable time commensurate with the repayment period permitted by commercial lenders if loans are for the purchase of a principal residence. Principal and interest are repaid bi-monthly through payroll deductions.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are maintained on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments, except the managed income portfolio, are stated at fair value. Mutual funds are at quoted market prices.

The managed income portfolio is fully benefit responsive and is valued at contract value. See note 7 for discussion of contract value determination.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant Loans - Participant loans are stated at their unpaid principal balance plus any accrued but unpaid interest.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses - Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Company.

Payment of Benefits - Benefits are recorded when paid.

2. TAX STATUS

The Fidelity Basic Plan Document No. 17 received a determination letter from the Internal Revenue Service dated March 31, 2014, stating that the plan is qualified under Section

401(a) of the Internal Revenue Code (the "Code") and is, therefore, not subject to tax under present income tax laws. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and is, therefore, a qualified plan and tax exempt as of the financial statement date.

Generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or DOL. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax returns filed are currently open to examination by the IRS, generally for three years after being filed.

3. RELATED PARTY TRANSACTIONS

The Plan allows loans to participants. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Various plan investments in 2019 and 2018 are shares of target date funds and stable value funds that are managed by Fidelity, which is the current trustee as defined by the Plan.

Certain plan expenses are paid by the Company.

4. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

5. INFORMATION CERTIFIED BY THE TRUSTEES

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data

included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and participant loans, as shown in the statement of net assets available for benefits as of December 31, 2019 and 2018.

- Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

- Schedule H, line 4i - Schedule of assets (held at end of year) - December 31, 2019.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. FAIR VALUE MEASUREMENTS

The Plan follows generally accepted accounting principles related to fair value measurement. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

These principles also establish a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial Instruments' categorization within the fair value hierarchy is based upon the lowest of input that is significant to the fair value measurement. There are three levels of inputs that may be used to measure fair value:

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following summarizes the classification of Investments by classification and method of valuation:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,558,583	$ -	$ -	$ 7,558,583

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 5,670,345	$ -	$ -	$ 5,670,345

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. For the year ended December 31, 2019, there were no transfers in or out of Level 1, Level 2 or Level 3.

The Plan's valuation methodology used to measure the fair values of mutual funds were derived from quoted market prices as all of these instruments have active markets.

7. FIXED INCOME OPTION

The Fidelity Managed Income Portfolio fund is a fully benefit responsive fund. The contracts purchased by the fund permit the fund to account for the fixed income securities at book value. The average yield earned by the Plan is the yield earned, or the interest credited, to the fund. The underlying assets consist primarily of benefit responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds.

The interest crediting rate is determined periodically and is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and purchases and redemptions by unit holders. There are certain restrictive transfers to competing funds.

The average market yield earned by the fund, which is also the actual interest credited to participants in the fund, for the years ending December 31, 2019 and 2018 was 1.92% and 1.57%, respectively.

The fund is reported at contract value as it meets the fully benefit-responsive investment contract criteria. Contract value is calculated as contributions, plus earnings, less withdrawals and administrative expenses. Participant transactions are executed at contract value less surrender charges, if applicable, which is the relevant measure for fully benefit-responsive investment contracts. Although the existence of certain conditions or transactions outside the normal operations of the fund could limit the Plan's ability to transact at contract value, management has determined that as of December 31, 2019 and 2018, these conditions or transactions are not considered probable.

8. PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in their accounts

9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events occurring through September 17, 2020, the date that the financial statements were available to be issued for events requiring recording or disclosure in the Plan's financial statements.

On March 10, 2020, the World Health Organization declared the Coronavirus (COVID-19) outbreak a pandemic, and on March 13, 2020, the President of the United States declared the COVID-19 pandemic a national emergency, invoking powers under the Stafford Act, the legislation that directs federal emergency disaster response.

The outbreak has negatively affected the stock market and investor sentiment and has resulted in significant market volatility. The Plan expects this matter to have a financial impact on its investment portfolio value; however, the magnitude, timing, and duration of any such potential financial impacts cannot be reasonably estimated at this time.

The following is a reconciliation of the net assets available for plan benefits per financial statements and Form 5500 at December 31:
