OhioHealth Retirement Savings Plan (401(k))

Notes to Financial Statements

1. Description of the Plan

The OhioHealth Retirement Savings Plan (401(k)) (the Plan) is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Sponsor is OhioHealth Star Corporation (the Company).

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a complete description of the Plan.

Contributions

The Plan is a defined contribution plan. All eligible employees (with limited exceptions) are permitted to participate in the Plan by making deferrals immediately upon hire. Participants may contribute any portion of their salaries and wages to the Plan, subject to certain limitations as prescribed by the Internal Revenue Code (the Code). The Company makes matching contributions to the Plan equal to 50% of a participant's elective contributions for the plan year, not to exceed 2% of the participant's compensation for those participants with less than twenty years of service (not to exceed 3% for those participants with twenty or more years of service). The Plan will receive rollover contributions from other qualified plans, including Roth rollover contributions.

The Company will make a matching contribution in the amounts described above on a per pay period basis. Once employees begin contributing to the plan, they are eligible for the employer matching contribution. Participants hired before July 1, 2016, vest or own the matching contribution upon deposit. Otherwise, participants hired after on or after July 1, 2016 are eligible for employer match contributions after one hour of service and will vest in the match after three years of completing 1,000 or more hours of service in each year they are employed.

The Company will also make a "true-up" matching contribution for each participant receiving per pay matching contributions if such participant is employed by the Company or a related employer on the last day of the Plan Year, or if the participant terminates employment during the Plan Year due to the participant's retirement, death or disability. The true-up matching contribution is calculated based on the participant's contributions (elective deferrals and catch-up contributions) made to the Plan during the plan year.

After-tax Roth contributions may be contributed to the participant's account in addition to or in lieu of pre-tax contributions to meet the elective contribution amount for the year. The total participant contribution will be eligible for the Plan matching contribution.

Associates hired or rehired on or after January 1, 2012, are eligible for an Annual Retirement Contribution (ARC). The amount of the ARC is a percentage of the participant's compensation based

on the combination of the participant's age and years of service, ranging from 2% to 5% of compensation. To receive the ARC, a participant must be of age 20 ¹/₂ - years or older, have completed six months of service by January 1 of the year for which the ARC is made, be employed on the last day of the plan year for which the ARC is made and have completed 1,000 hours of service. The ARC becomes fully-vested after the participant completes three years of service in which the participant is paid for 1,000 hours of service in each year; or if the participant was hired prior to July 1, 2016, they are employed by the companies at age 65. If the participant was hired on or after July 1, 2016, the ARC becomes fully-vested after three years of service in which the participant is paid for 1,000 hours of service in each year or they are employed by the companies on their normal retirement date.

Participants can self-direct their accounts into various investment funds. The investments of all amounts in participants' accounts are participant-directed. Earnings on the investments are credited to each participant's account based on the number of shares owned by the participant. The participants are 100% vested in the amounts that are contributed by both the participants and the Company (except as described above).

Effective December 31, 2019, assets of \$24,096,248 were transferred from the Marion General Hospital, Inc. Retirement Plan and Trust, into the Plan.

Effective August 31, 2018, assets of approximately \$801,555 were transferred from the terminated plans of related entities, Specialized Anesthesiology Services, LLC 401(K) Plan and the Specialized Anesthesiology Services, LLC 401(K) Plan for Per Diem CRNAS, into the Plan.

Benefit Payments

In general, upon termination of service, the participant's account can be distributed in the form of a lump-sum payment, or can be kept in a separate account within the Plan that is held by the trustee. Under the Plan as designed, participants are not subject to federal income tax on the contributions and investment income credited to their accounts until such amounts are withdrawn pursuant to Section 401(a) of the Code. Withdrawals by participants (including participants separated from the service of the companies for any reason) which are not rolled over into another qualified plan or an individual retirement arrangement are subject to federal income tax.

If a participant is not fully vested in the ARC or matching contribution on his or her termination date, the nonvested amount in his or her Plan account is forfeited. Forfeitures are used to pay reasonable plan expenses or to reduce the companies' contributions for the plan year in which the forfeiture occurs, or any prior or future plan year, as determined by the Company, in its discretion.

Termination

Although the Company has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA and the Code. Upon termination of the Plan, the participants become 100% vested in their account balances.

Party-in-Interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or their affiliates. Fidelity is the service provider of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Participant Notes Receivable

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Terms range from one to five years or up to 20 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at 2% over prime on the first business day of the month before the loan is taken. Principal and interest are paid ratably through regular Automated Clearing House (ACH) payments. The Plan also has a financial hardship distribution option that allows participants to withdraw funds for emergency needs that qualify under the IRS rules for financial hardship withdrawals from Code Section 401(k) plans.

2. Significant Accounting Policies

Valuation of Investments

Investments are stated at fair value, except as noted below. Investments in common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which are based on the fair value of the fund's underlying assets. The fixed annuity contract is considered benefit responsive and is valued at contract value. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents deposits made to the contracts, plus earnings at guaranteed crediting rates, less withdrawals and fees. Mutual funds are valued at fair value based on quoted market prices. See Note 7 and Note 8 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different

2. Significant Accounting Policies (continued)

methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Fees for administrative services provided by Fidelity are deducted directly from each participant's plan assets. Other administrative expenses are borne by the Company including external legal and accounting services. In addition, the Company provides internal accounting and administrative services to the Plan at no charge.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 21, 2020, which is the date the financial statements were available to be issued.

3. Unaudited Information

Fidelity held the Plan's investment assets and participant notes receivable and executed related transactions as of and for the years ended December 31, 2019 and 2018. All information disclosed in the accompanying financial statements and supplemental schedule, including investments and participant notes receivable held at December 31, 2019 and 2018 and interest income, realized and unrealized gains and losses on investments, and interest from participant notes receivable for the years ended December 31, 2019 and 2018 was obtained or derived from information certified by Fidelity.

4. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service dated May 3, 2012, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation under section 501 of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator has indicated that it will take necessary steps, if any, to maintain the Plan's qualified status.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Reconciliation to Form 5500

The following is a reconciliation of net increase (decrease) in net assets available for benefits per the financial statements for the year ended December 31, 2019 and 2018.

	<u>2019</u>	<u>2018</u>
Net increase (decrease) in net assets available for benefits per the financial statements	\$26,731,099	\$(759,042)
Deemed distributions on participant notes receivable	-	14,079
Net increase (decrease) in net assets available for benefits per the Form 5500	\$26,731,099	\$(744,963)

7. Fair Value

Accounting Standards Codification (ASC) 820 clarifies the definition of fair value, establishes a framework for measuring fair value, and expands the disclosures for fair value measurements. ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for

Notes to Financial Statements (continued)

7. Fair Value (continued)

the related asset or liability. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability. The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2019 or 2018.

Disclosures concerning assets measured at fair value are as follows:

(1) - This class represents investments in actively managed common collective trust funds – retirement year with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options and futures. There were no unfunded commitments or redemption restrictions.

8. Investment Contracts

The Lincoln National Life Insurance Company

The Plan has a benefit-responsive investment contract with The Lincoln National Life Insurance Company (Lincoln). Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest will be credited daily on all contributions. The rate of interest credited each day, if compounded for 365 days, yields the effective annual interest rate in effect for the day. The guarantee that will be credited is an effective annual interest rate not less than the minimum guaranteed interest rate. Interest crediting rates are reviewed on an annual basis for resetting, but may not be less than 1.70 percent.

As described in Note 2, because the contract is benefit responsive, contract value is the relevant measure attribute for that portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Notes to Financial Statements (continued)

8. Investment Contracts (continued)

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the plan's prohibition on competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spinoffs of a subsidiary) which cause a significant withdrawal from the Plan, (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (v) premature termination of the contract. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is not probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (i) an uncured violation of the Plan's investment guidelines, (ii) a breach of material obligation under the contract, (iii) a material misrepresentation, and (iv) a material amendment to the agreement without the consent of the issuer.

Metropolitan Life Insurance Company

The Plan had a benefit-responsive investment contract with Metropolitan Life Insurance Company (MetLife) that was terminated in 2019. MetLife maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on an annual basis for resetting, but may not be less than 1.00 percent. MetLife will guarantee the interest rate for all assets in calendar year 2019 of no less than 1.50 percent and calendar year 2018 of no less than 1.50 percent.

As described in Note 2, because the contract is benefit responsive, contract value is the relevant measure attribute for that portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the plan's prohibition on

competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spinoffs of a subsidiary) which cause a significant withdrawal from the Plan, (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (v) premature termination of the contract. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is not probable of occurring. The termination of the MetLife contract during 2019 occurred at contract value, with no surrender or other charges incurred.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (i) an uncured violation of the Plan's investment guidelines, (ii) a breach of material obligation under the contract, (iii) a material misrepresentation, and (iv) a material amendment to the agreement without the consent of the issuer.
