EMPLOYEE RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2019 And 2018**

1. Description Of The Plan

The following brief description of Aerofil Technology, Inc. Employee Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, which has been adopted by Aerofil Technology, Inc. (the Company), is a defined contribution profit sharing plan, which includes a 401(k) provision. As of January 1, 2019 the Plan covers all employees who have completed two months of service and are 21 years of age. Previously the Plan covered all employees who completed 6 months of service and were 21 years of age. The Plan allows participant's entry to the Plan on the first day of the month coinciding with meeting the eligibility requirements or the next month following if achieved mid-month. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's investments were held by Matrix Trust Company as of and for the year ended December 31, 2018 and for the period beginning January 1, 2019 through March 31, 2019 and CUNA Mutual Retirement Solutions, Inc., CUNA, (formerly CPI Qualified Plan Consultants, Inc.) was the Plan's record keeper. Beginning April 1, 2019, the Plan's recordkeeper and Trustee is Ascensus through a partnership with Vanguard and Ascensus Trust Company.

Contributions

Participants may contribute a percentage of their annual compensation as defined in the Plan Document. Additionally, participants age 50 and over may make "catch-up contributions." Participants may also make rollover contributions to the Plan, provided such rollover amounts meet the criteria for transfer as established under the Internal Revenue Code (IRC or Code).

Each year, the Company can make a discretionary matching contribution. For the Plan year ended December 31, 2019, the Plan included an ADP Safe Harbor matching provision whereby the Company matches salary deferral contributions at a rate of 100% of the first 3% and 50% of the next 2% of eligible compensation. The Company may also make a discretionary matching contribution. There were no discretionary matching contributions for the Plan year ended December 31, 2019. For the Plan year ended December 31, 2018, the Company matched 30% of the first 6% of the participants' contributions.

AEROFIL TECHNOLOGY, INC.
EMPLOYEE RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

The Company may also make a discretionary profit sharing contribution. The employee does not have to make deferral contributions to receive the contribution. There were no discretionary profit sharing contributions made during 2019 or 2018.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and an allocation of Plan earnings (losses). The allocation of earnings (losses) is determined by the earnings (losses) of the participant's investment selection based on each participant's account balance, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Schedule

Participants are vested immediately in their contributions and the ADP Safe harbor match plus actual earnings (losses) thereon. Vesting in the Company's discretionary contributions is based on years of continuous service. A participant is vested ratably at 20% per year of service and is fully vested after five years of service.

Forfeitures

Forfeitures of nonvested participant balances can be used to reduce the Company discretionary matching contribution, discretionary profit sharing contribution, or ADP Safe Harbor matching contribution to the Plan. Forfeitures used to reduce the ADP Safe Harbor matching contribution amounted to \$916 for the year ended December 31, 2019. Forfeitures used to reduce the Company's discretionary matching contribution amounted to \$16,911 for the year ended December 31, 2018. As of December 31, 2019 the remaining available balance was \$7,716. There was no available balance as of December 31, 2018.

Notes Receivable From Participants

A participant may borrow from their account subject to certain limitations. The minimum amount of any note is \$1,000. In no event can the participant borrow more than \$50,000 or 50% of the participant's vested balance. Note terms are for a period up to 5 years or 10 years for the purchase of a principal residence and bear interest based on prevailing market rates. A participant may have only one note outstanding at any time. The notes are repaid through payroll withholdings including principal and interest.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into a number of investment options offered by the Plan.

AEROFIL TECHNOLOGY, INC.
EMPLOYEE RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Payment Of Benefits

Upon termination of employment, death, total disability, or attainment of normal retirement age (65), a participant (or beneficiary) may elect distribution of their account as a single lump sum.

In-Service Withdrawals

A participant may also elect to receive an in-service distribution upon attaining age 59 ½ or reach normal retirement age. Participants may also elect an in-service distribution for having incurred a financial hardship as defined by the Plan Document.

Administrative Expenses

Salaries and related benefits of employees who administer the Plan are paid by the Company. Other administrative expenses, primarily transaction fees and account fees, are paid by the Plan. Expenses incurred on the purchase or sale of investments are added to the cost or deducted from the proceeds of the respective investment.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Investment Income Recognition

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See fair value measurement discussions at Note 4.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan Document.

Return Of Excess Contributions

Distributions of \$18,109 in 2019, were made to certain active participants to return excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2018, with a corresponding reduction to participant contributions. There were no excess contributions as of December 31, 2019.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, and interest and dividend income for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustees of the Plan. This information has not been audited by the Plan's independent auditors.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes To Financial Statements (*Continued*)

Following is a description of the valuation methodologies used for assets measured at fair value:

Common Collective Trust

Valued at the Net Asset Value (NAV) of units of a bank collective trust. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidation will be carried out in an orderly business manner.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of a different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 13,490,354	\$ —	\$ —	\$ 13,490,354

Common collective trust measured at net asset value (a)				176,121
Total Assets At Fair Value				\$ 10,767,708

- a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

There have been no changes in the valuation methodologies used at December 31, 2019 or 2018.

5. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Income Tax Status

Prior to April 1, 2019 the Plan operated under a standardized prototype 401(k) profit-sharing plan and trust plan document sponsored by CUNA Mutual Retirement Solutions, Inc. (formerly CPI Qualified Plan Consultants, Inc). The prototype plan has received an opinion letter from the Internal Revenue Service (the IRS), dated March 31, 2014, stating that the form of the prototype plan was qualified under the IRC.

Effective April 1, 2019, the Plan adopted a non-standardized prototype profit-sharing plan sponsored by Ascensus LLC. The prototype plan received a favorable opinion letter dated January 1, 2018, in which the IRS stated that the Plan Document, as designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since adopting the prototype plan document. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The prototype plans and the Plan have been amended since the date of the opinion letters. However, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirement of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes To Financial Statements *(Continued)*

8. Transactions With Parties In Interest

The Plan pays consulting fees to the Trustees. In addition, certain participants have outstanding loans with the Plan. These transactions qualify as party in interest transactions allowable under ERISA.

The following is a reconciliation of net assets available for benefits per the financial statement to the Form 5500:
