Wausau Homes Incorporated 401(k) Savings Plan

Notes to Financial Statements
December 31, 2019 and 2018

1. Description of the Plan

The following description of the Wausau Homes Incorporated 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Wausau Homes Incorporated (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The assets of the Plan are held for the exclusive benefit of the eligible employees and their beneficiaries. An eligible employee is defined as any nonunion employee who has attained the age of eighteen and has completed 90 days of service. Unless modified by the participant, the Company will automatically enroll participants in the Plan on their eligibility date (the first day of the month upon satisfying plan eligibility requirements) at a 5 percent salary deferral rate and deposit the amounts into funds selected by the Company; the Company will automatically increase the participant's deferral rate annually, so long as the effective deferral rate is less than 10 percent.

Contributions

Participants may make voluntary pre-tax and after-tax (Roth) contributions up to the maximum amount allowable under federal tax law (adjusted annually). Participants may revoke their voluntary contribution (salary deferral) election at any time. Any other modification to a salary deferral election may be made monthly. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes safe harbor matching contributions to eligible participant accounts, calculated as 100 percent of salary deferrals on the first 3 percent of each participant's eligible compensation and 50 percent of salary deferrals on the next 2 percent of each participant's eligible compensation. The Company may also make a discretionary matching contribution equal to a discretionary percentage of salary deferral contributions, as determined by the Company, on a uniform basis to all participants. There were no discretionary matching contributions for 2019. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

Contributions from employees and any Company safe harbor contributions are recorded in the period the Company makes payroll deductions from the plan participants. Any discretionary matching contributions are recorded in the period in which the employees contribute the underlying salary deferral contributions upon which the discretionary amount is calculated.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions, as well as allocations of the Plan's earnings. Participants are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant's eligible compensation, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in safe harbor, rollover and salary deferral contributions plus actual earnings thereon. Participants who leave the Plan because of death, normal retirement or disability retirement, as defined in the plan document, are considered 100 percent vested in their entire account balances. Discretionary employer matching contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
1	20 %
2	40 %
3	60 %
4	80 %
5	100 %

Forfeited Accounts

Plan forfeitures arise as a result of participants who terminate service with the Company before becoming 100 percent vested in the Company's discretionary employer matching contributions. These forfeitures can be used to reduce Company contributions or to pay administrative expenses of the Plan. As of December 31, 2019 and 2018, there was \$497 and \$0, respectively, of forfeited nonvested accounts. During the 2019 plan year, there were no forfeitures applied against Company contributions or plan administrative expenses.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at age 65. The Plan allows for the benefits to be paid to active participants who have attained age 59 1/2. The total vested portion of a participant's account balance is distributed in the form of a lump sum payment or installments. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 6.25 to 6.50 percent at December 31, 2019, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Wausau Homes Incorporated 401(k) Savings Plan

Notes to Financial Statements
December 31, 2019 and 2018

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid.

3. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2019 and 2018. Accordingly, Principal Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2019 and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The collective investment fund is valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using NAV per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

5. Amounts Owed to Participants Withdrawing From the Plan

Amounts requested but not yet distributed to participants were \$0 as of December 31, 2019 and 2018.

6. Administration of Plan Assets

The Plan's assets are administered under a contract with Principal Trust Company, the trustee of the Plan. The trustee invests funds received from contributions, investment sales, interest and dividend income and makes distribution payments to participants.

Notes to Financial Statements

7. Related Party and Party-In Interest Transactions

Certain of the Plan's investments are managed by the trustee and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2019 and 2018, the Plan had investments of \$4,602,319 and \$3,721,552, respectively, which were concentrated in five and four funds, respectively.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

10. Tax Status

The Plan is operating under a nonstandardized adoption agreement sponsored by Principal Life Insurance Company, for which the prototype plan has received an opinion letter dated July 7, 2012 from the Internal Revenue Service (IRS) as to the Plan's qualified status. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date. Participants in the Plan are not subject to income taxes on salary reduction contributions or earnings thereon until they receive distributions from the Plan.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Subsequent Events

The Plan has evaluated subsequent events through September 30, 2020, which is the date that the financial statements were available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
