L3 Communication Systems-West Retirement Plan II

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of L3 Communication Systems-West Retirement Plan II (the "Plan"), which comprise the statement of net assets available for pension benefits as of December 31, 2019, and the related statement of changes in net assets available for pension benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by Bank of New York Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2019, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements. Accordingly, we do not express an opinion on the 2019 financial statements referred to in the first paragraph.

Other Matter – 2018 Financial Statements

The financial statements of the plan as of December 31, 2018 and for the year then ended, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform any auditing procedures with respect to the information certified by the trustee. Their report, dated October 10, 2019, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements, and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations – 2019 Financial Statements

The form and content of the information included in the 2019 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to the Financial Statements

December 31, 2019 and 2018

(In thousands)

Note 1 - Description of Plan

On December 31, 2016, following the merger of L-3 Communications Holdings, Inc. ("L-3 Holdings") with and into L-3 Communications Corporation, L-3 Communications Corporation changed its name to L3 Technologies, Inc. (the "Company") and the L-3 Communication Systems-West Retirement Plan II became the L3 Communication Systems-West Retirement Plan II (the "Plan"). On June 29, 2019, L3 Technologies, Inc. ("L3") completed its merger with Harris Corporation ("Harris") to create L3Harris Technologies, Inc. ("L3Harris"). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective May 1, 1997. The Plan is a non-contributory defined benefit plan covering employees hired after May 1, 1997 at the L-3 Communication Systems-West division of the Company, and employees of the Wideband Operations of Lockheed Martin Corporation, the former employer, as of April 30, 1997, who were not eligible to participate in the Plan and became an employee of the Company on May 1, 1997. Participation in the Plan commenced for employees on January 1st or June 1st following completion of one year of service and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Company transferred the Engineering & Technical Services ("E&TS") business segment from Communication Systems West ("CSW") to the National Security Solutions ("NSS") business segment, formerly known as Stratis. As a result, the definition of eligible employee was changed to include employees of E&TS who were participants while employed by CSW prior to the business transfer and who were employed by NSS.

Effective October 31, 2005, the Plan was frozen to new participants. As such, any employees hired on or after October 31, 2005 are not eligible to participate in the Plan. Employees hired prior to that date were eligible to participate in the Plan upon satisfying the applicable Plan provisions. Effective January 1, 2016, employees who earn in excess of \$180 in the plan year prior to the year under consideration cease to accrue future benefits.

If a plan participant is transferred to any business unit within the Company at any time after the effective date of the Plan, any service and compensation earned by the participant of the Plan from the date of transfer until the date of the participant's termination of employment with the Company will be treated as though earned by the participant at the business unit of the Plan.

The Company entered into a definitive agreement to sell its NSS business to CACI International, Inc. on December 7, 2015. The transaction was completed on February 1, 2016. There was no impact to the Plan as a result of the sale of NSS as all benefit accruals ceased, effective January 1, 2014, for service performed after December 31, 2013 for employees of E&TS who were participants of the Plan while employed by CSW.

Note 1 - Description of Plan (Continued)

The Plan was amended to allow for lump sum payments in December 2017 to certain terminated vested participants whose total lump sum benefits were less than \$100. In the fourth quarter of 2017, the Benefit Plan Committee approved a change to the pension plan benefit formula as of January 1, 2019. This amendment reduced the percentage multiplier for participants employed on or after January 1, 2019 to .75% of earnings.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Interest in Master Trust

Investment assets of the Plan were maintained in the L-3 Communications Corporation Master Trust (the "Master Trust"), administered by Bank of New York Mellon ("BNY"), as trustee through December 31, 2019. Effective December 31, 2019, the Plan's funds were transferred to the L3Harris Pension Master Trust, managed by Northern Trust, as trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the "Participating Plans"). The fair value of the Plan's undivided interest in the Master Trust is determined based on the beginning of year value of the Plan's undivided interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. See Note 4 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned, and determines realized gains and losses on sales of securities based on the average cost method.

Note 2 - Summary of Significant Accounting Policies (Continued)

Net Investment Income (Loss) from Master Trust

The net investment income or loss from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes net gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment income or loss is allocated to the Participating Plans based upon the relationship of each plan's respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Payment of Benefits

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan, except to the extent paid by the Company. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees are allocated to the Participating Plans based upon the relationship of each plan's respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the statements of net assets available for pension benefits and the statements of changes in net assets available for pension benefits.

Note 3 - Interest in Master Trust

The fair value of the assets and liabilities of the Master Trust at December 31, 2019 and 2018 is presented in the table below. As described in Note 2, effective December 31, 2019, the Plan's funds were transferred to the L3Harris Pension Master Trust. The Plan's funds were held in the L-3 Communications Corporation Master Trust on December 31, 2018.

The Plan's percentage interest in the Master Trust was approximately 5.94% at December 31, 2019 and 4.4% at December 31, 2018.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within its hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

L3 COMMUNICATION SYSTEMS-WEST RETIREMENT PLAN II
Notes to the Financial Statements (Continued)
December 31, 2019 and 2018
(In thousands)

Note 4 - Fair Value Measurements (Continued)

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Asset Valuation Techniques

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Domestic and international equity:

Domestic and international equity includes common and preferred stocks, domestic listed and foreign listed equity securities, unit trust equities, stapled securities, open-ended and closed-ended mutual funds, exchange-traded funds (registered investment companies), and these are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date.

REITs:

Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

Fixed income investments:

Fixed income investments include U.S. Government securities, corporate bonds and municipal obligations, which are generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield, and bids provided by brokers or dealers, or quoted prices of securities with similar characteristics.

The fair value of the Level 3 investments is determined using the discounted cash flow method. The unobservable inputs used in this valuation to determine the pricing yield for each security include the 30-year treasury base yield, ranging between 1.58% and 2.34% as of December 31, 2019, and 2.49% and 3.00% as of December 31, 2018. Additional unobservable inputs used include a broker spread, ranging between 1.65% and 2.75% as of December 31, 2019, and 2.00% and 2.85% as of December 31, 2018.

L3 COMMUNICATION SYSTEMS-WEST RETIREMENT PLAN II
Notes to the Financial Statements (Continued)
December 31, 2019 and 2018
(In thousands)

Note 4 - Fair Value Measurements (Continued)

Short-term investments:

Short-term investments are primarily comprised of short-term money market funds, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit which are valued at cost, which approximate fair value, or valued at quoted market prices of identical instruments.

Limited partnerships:

Limited partnership funds include buy-out (developing companies), mezzanine (funds providing mezzanine loans to companies), venture capital (start-up companies), distressed asset (distressed companies undergoing bankruptcies, etc.), commodities (businesses in commodity related sectors), real estate (residential, commercial, and industrial real estate), international equity and venture capital, and are typically limited partnership investment structures and/or joint ventures. Limited partnership valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. Net asset value (NAV) is used as a practical expedient to estimate fair value.

Hedge funds:

Hedge funds include equity long/short, event driven, multi-strategy and fund of funds, and are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value.

Common collective trusts:

Common collective trusts (CCTs) are valued at NAV and are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at NAV, as of the measurement date. NAV is used as a practical expedient to estimate fair value.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party. Distributions are generally received through the liquidation of the underlying assets of the funds. These partnerships (except for commodities, real estate, and international equity) are expected to be liquidated in approximately the next three to ten years.
- (b) Redemption restrictions vary, within 30 to 91 days, by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may be extended over a period of time.

Note 4 - Fair Value Measurements (Continued)

- (c) The multi-strategy hedge funds have an objective to add value from mispriced securities. These funds have entered into full redemption requests and are expected to be liquidated over the next year.
- (d) Fund of funds hedges invest in a variety of investments, mainly other hedge funds, of different styles with the goal of generating diversified returns in all types of market environments.
- (e) The partnership's objective is to preserve capital and to seek maximum, long-term, capital appreciation commensurate with reasonable risk. The partnership seeks to achieve this through long and short positions in equity or debt securities of public U.S. and non-U.S. issuers (including securities convertible into equity or debt securities), and derivative instruments.
- (f) Event driven funds are single direct funds attempting to generate returns in all types of market environments with appropriate amounts of risk.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets. For the years ended December 31, 2019 and 2018, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 5 - Funding Policy

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") that are at least equal to the minimum funding requirements under ERISA. There was no minimum funding requirement in 2018 and 2017. The Company's contributions met or exceeded the minimum funding requirements of ERISA in 2018 and 2017. Minimum contributions are calculated using the Unit Credit Actuarial Cost Method, as prescribed by law. Under this method, the liability is measured on an accrued-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. Assuming all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the minimum required contribution is generally designed to achieve the following: (1) if the plan is underfunded, funding at the minimum level would achieve 100% funding within seven years, and then contributions would equal the target normal cost, or (2) if the plan is overfunded, there will be no required contributions unless the target normal cost exceeds the overfunding.

Note 6 - Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

For service through December 31, 2018, the Plan provides an annual benefit for participants of 1% of compensation earned during each plan year up to the Integration Level plus 1.35% of the excess of compensation over the Integration Level for each year of credited service. For service after December 31, 2018, the Plan provides an annual benefit for participants of 0.75% of compensation earned during each plan year for each year of credited service. The Integration Level is 50% of the average of the last five years social security wage bases. Benefits vest 100% after five years of cumulative service and are payable at age 65.

The Plan permits early retirement for participants at ages 55 to 64 with at least five years of service. The benefit may begin at the date of early retirement, reduced by 6% for each year by which commencement of benefits precedes the normal retirement date (age 65 or age 62 for a participant with 20 or more years of service). Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement.

(In thousands)

Note 6 - Accumulated Plan Benefits (Continued)

Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant receives benefits equal to 50% of the amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing five years of service, they forfeit the right to receive their accumulated benefits.

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2019 and 2018 were:

Mortality basis 2019 and 2018: Total Collar RP-2014 Mortality Table (adjusted back to 2006), with mortality rates increased by 10%, with this adjustment tapering linearly to 0% starting at age 85 and ending at age 95. These assumed rates are projected generationally with the 2017 SSA Intermediate - Cost Projections Scale.

Retirement 2019 and 2018: Retirement starting at 55 through 70, at varying rates, with 100% by age 70. In 2019 and 2018, the retirement assumption at age 65 was 25%.

Discount Rate 2019 and 2018: 7.75% and 8.00%, respectively.

The actuarial present value of accumulated plan benefits as of January 1, 2019 is as follows (in thousands):

Vested accumulated plan benefits:	
Retired participants and/or beneficiaries currently receiving benefits	\$ 27,251
Other participants	<u>67,076</u>
Total vested accumulated plan benefits	94,327
Nonvested accumulated plan benefits	<u>1,925</u>

Note 7 - Exempt Party-in-Interest Transactions

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by BNY Mellon, the Plan's trustee. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various related party service providers. Additionally, certain expenses of the Plan are paid for directly by the Company. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 11, 2017, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions by the Plan and has concluded that as of December 31, 2019 and 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Plan Termination

While the Company has not expressed any intent to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

Note 10 - Plan Interest in Master Trust Certified By Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2019 and 2018, and investment income (loss) for the years then ended, that is disclosed in the accompanying financial statements, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee of the Plan.

Note 11 - Plan Transfer

The L3 Communication Systems – East Retirement Income Plan's assets of \$261,591 were merged into the Plan, effective December 31, 2019. All transfers are included in the statement of changes in net assets available for pension benefits as of December 31, 2019.

Note 12 - Subsequent Events

The Plan evaluated its December 31, 2019 financial statements for subsequent events for recognition or disclosure through October 6, 2020, the date the financial statements were available to be issued.

Effective January 1, 2020, the Plan was amended to adopt changes to the Plan in connection with L3 Technologies, Inc. becoming a subsidiary of L3Harris Technologies, Inc. effective June 29, 2019 and the plan transfer in, discussed in Note 11. Effective January 1, 2020, the Plan name was changed to L3Harris Communication Systems Pension Plan.

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency (the “COVID-19 outbreak”) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. Because the values of the Plan’s individual investments have fluctuated and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan’s liquidity cannot be determined at this time.

Effective December 31, 2020, the Plan has resolved to merge into the L3Harris Salaried Pension Plan.

Actuarial Assumptions and Methodologies (Funding)

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations. Sibson Consulting's report as of December 2017 shows a recent analysis upon which these assumptions are based.

Interest:

The interest rates used for the 2019 plan year are the 24-month average corporate bond segment rates for September 2018 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2019, the stabilization corridor is 10%. Under current law, it is scheduled to remain at 10% through 2020, then increase by 5% per year until it reaches 30% for 2024. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization	3.74%	5.35%	6.11%	5.77%
Current Year, without stabilization	2.28%	3.81%	4.46%	4.21%
Prior Year, reflecting stabilization	3.92%	5.52%	6.29%	5.95%
Prior Year, without stabilization	1.75%	3.76%	4.66%	4.33%

The interest rates used to determine the PBGC variable-rate premium are the same as those used for funding, without reflecting funding stabilization.

These interest rates are based on the plan sponsor's election (an election that can currently be changed to the standard method) subject to the constraints established by law.

Actuarial Assumptions and Methodologies (Funding) *continued*

Retirement from inactive status	100% at age 65			
Description of Weighted Average Retirement Age	Age 64, determined as follows: The weighted-average retirement age is calculated as the sum of the product of each potential past or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements.			
Percent Married	70% for male participants and 55% for female participants. Spouse is assumed to be the opposite gender.			
Age Difference	Male spouses are assumed to be three years older than female spouses.			
Benefit Election	Life annuity for unmarried participants. 100% joint and survivor annuity for married participants. Based on a review of the assumed rates compared to historical experience, in light of the plan provisions and professional judgment, these assumed rates reflect a reasonable expectation for the future.			
Administrative Expenses	An expense assumption is required under the funding rules. Plan-related expenses of \$1,170,000 are expected to be paid by the plan during the year (previously, \$1,220,000). This assumption is based on recent historical data, adjusted to reflect PBGC variable-rate premium changes, advice from the plan sponsor, and estimated future experience and professional judgment.			
Asset Method	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rates of 6.48% for 2017 and 6.29% for 2018.			
Funding Method	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within seven years. Once that is achieved, or for overfunded plans, the required contribution will generally equal the target normal cost reduced by any overfunding.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
