TMP TECHNOLOGIES, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2019 and 2018

(1) Description of Plan

The following description of TMP Technologies, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution retirement plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code (IRC), covering eligible employees of TMP Technologies, Inc. and Time Release Sciences, Inc. (collectively the Company and Plan Sponsor). The Plan is funded by employee and employer contributions. At December 31, 2019 and 2018, the assets of the Plan were maintained in investment funds held by Ascensus Trust Company (Ascensus), the trustee of the Plan. The Plan is intended to conform with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, where applicable.

(b) Eligibility

Employees of the Company are eligible to participate in the Plan upon attaining age 21 and completing one year of service, as defined in the Plan agreement.

(c) Contributions

Participants may authorize an elective deferral contribution and/or a Roth contribution up to 100% of their compensation, as defined by the Plan document, up to the maximum annual limitations per the IRC. Participants who have attained age 50 before the end of the Plan year are allowed to make an additional "catch-up" contribution. This contribution was limited to \$6,000 in 2019 and 2018. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make a discretionary matching contribution, which would be allocated in a nondiscriminatory manner based on participant elective deferrals. The Company can also make additional discretionary profit sharing contributions each year; profit sharing contributions of \$446,761 and \$407,467 were made for the years ended December 31, 2019 and 2018, respectively, and are included in employer contributions in the statements of changes in net assets available for benefits.

(d) Participant Accounts

Each participant's account is credited with (a) the participant's contributions, (b) an allocation of the Company's contributions, (c) Plan earnings, and (d) charged with an allocation of investment and administrative expenses. Allocations are based on participant earnings/losses or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

TMP TECHNOLOGIES, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements, Continued

(1) Description of Plan, Continued

(e) Vesting

Under the Plan, participants are 100% vested in their salary reduction contributions and employer matching contributions plus actual earnings thereon. Participants are 20% vested in employer profit sharing contributions after two years of service, as defined, with a 20% annual increase in each of the next four years.

(f) Notes Receivable from Participants

Participants may borrow from their individual accounts a minimum of \$1,000, up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years but may exceed five years for the purchase of a primary residence. The loans are collateralized by vested balances in the participants' accounts and bear interest at a rate of prime plus 1%. Principal and interest are paid ratably through payroll deductions.

(g) Payment of Benefits

Upon termination of service due to retirement, death or disability, a participant will receive a lump-sum distribution equal to the value of their account if the total vested account balance does not exceed \$1,000. If the total vested account balance does exceed \$1,000, the participant may elect to receive a distribution at any time or the vested account balance will be distributed following the later of the date the participant reaches normal retirement age of 65 or the date the participant terminated employment. In-service distributions of fully vested accounts are only allowed upon attaining age 50; participants must reach age 59½ to be eligible for in-service distributions on deferred accounts.

(h) Forfeited Accounts

Employer profit sharing contributions forfeited by participants are used to offset plan administrative costs, reduce employer matching and profit sharing contributions, or restore forfeitures. Accumulated forfeited nonvested accounts totaled \$8,562 and \$1,966 at December 31, 2019 and 2018, respectively, and were used to reduce the 2019 and 2018 discretionary contributions to be received in 2020 and 2019, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

TMP TECHNOLOGIES, INC. 401(k) PROFIT SHARING PLAN

(2) Summary of Significant Accounting Policies, Continued

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

(e) Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants prior to the deadline.

(f) Payment of Benefits

Benefits paid to participants are recorded when paid.

(g) Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

(h) Subsequent Events

The Plan has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

The United States is presently in the midst of a national health emergency related to the COVID-19 virus. The overall consequences of the COVID-19 on a national, regional and local level are unknown, but has the potential to result in a significant economic impact. The impact of this situation on the Plan and its future results and financial position is not presently determinable.

TMP TECHNOLOGIES, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements, Continued

(3) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

- Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds' unit values (UV) include daily asset based fees. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	<u>Assets at Fair Value as of December 31, 2019</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

(4) Financial Certification

The financial information relating to the Plan's assets at December 31, 2019, as well as investment income and investment transactions for the year then ended, has been derived from information provided by Ascensus and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent auditors.

Investments - mutual funds	\$ <u>10,950,028</u>
Notes receivable from participants	\$ <u>162,955</u>
Investment income, including interest and dividends	\$ <u>1,829,357</u>

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants shall have a 100% vested interest in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

(6) Tax Status

The Plan and related trust were established under a prototype plan that received a favorable tax determination letter dated March 31, 2014 from the Internal Revenue Service (IRS) indicating the features of the Plan, as then designed, conform with the requirements of Section 401(k) of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions and the Department of Labor; however, there are currently no audits for any tax periods in progress.

(7) Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(8) Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2019:

Net assets available for benefits per the financial statements	\$ 11,516,410
