Note A - Description of Plan

The following description of the Charter Senior Living 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General

The Plan is a defined contribution plan for the benefit of certain (as defined in the Plan document) employees of Charter Senior Living (the "Company") that was formed on January 1, 2019 that have attained the age of 21 and have completed one year of service. The Plan is a salary reduction plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan Administrator and Plan Trustee is responsible for the oversight of the Plan, determining the appropriateness of the Plan's investment offerings, and monitoring investment performance.

Use of Estimates in Financial Statement Preparation

The preparation of financial statements in conformity with US GAAP the Plan Administrator to make estimates and assumptions that affect reported amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined by the Plan, not to exceed certain dollar limits established by the Internal Revenue Code ("IRC"). Additionally, the Plan allows contributions on an after-tax Roth basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company will make a safe harbor matching contribution equal to 100% of the first 3% of the employee's deferral compensation, plus 50% of employee's salary deferral amount in excess of 3% up to 5%. The Company may make a discretionary matching contribution equal to a uniform percentage of each tier of participant's salary deferrals. Each year, the Company will determine the amount of the discretionary percentage. The discretionary matching contribution in any Plan Year will not exceed 4% of participant's compensation. All participants will share in the matching contribution regardless of the length of service complete during the plan year. The Company made no discretionary contributions during the year ended December 31, 2019.

Note A - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's deferral contributions, rollover contributions, and allocations of (a) the Company's matching contributions, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. Participant's accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The participant's account is debited with any distributions or withdrawals made to the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants shall at all times be one hundred percent (100%) vested in salary deferrals (including Roth 401(k) deferrals and catch up contributions), rollover, and safe harbor contribution plus actual earnings thereon.

Vesting in the Company's discretionary contribution, plus earnings thereon, is based on years of continuous service as follows below.

Years of Service	Amount Vested
Less than 3	0%
3	100%

Payment of Benefits

The Plan provides that a participant's vested interest in the Plan will be distributed to the participant upon retirement, total disability or death. Employees terminating employment with the Company for other reasons are entitled to their vested interest in the Plan. Participants with elective deferral contributions in excess of $5,000 may elect to defer distribution to a future date as more fully described in the Plan document. Participants may elect to (a) receive a single lump sum amount equal to their vested account balance, or (b) have all of his or her distributions paid in the form of a direct trustee-to-trustee transfer to another eligible retirement plan designated by the participant.

Participants may also withdraw certain basic contributions thereon only in the event of a financial hardship as defined by the Plan and the IRC.

Forfeited Accounts

At December 31, 2019, unallocated forfeiture balances were $0. These accounts can be used to pay Plan administrative expenses or reduce future Company contributions. Forfeitures totaling $3,229 were used to reduce Company matching contributions during 2019.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrator determines the Plan's valuation policies utilizing information provided by the investment advisor, and the custodian. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan permits the payment of Plan expenses to be made from the Plan's assets. If expenses are paid using the Plan's assets, then the expenses will generally be allocated among the accounts of all Participants in the Plan. These expenses will be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of Participants in the Plan. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 2, 2020, the date the financial statements were available to be issued.

Note C - Certification by Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a certification from John Hancock Life Insurance Company (the "custodian") for year ended December 31, 2019 that all of the investment information provided by the custodian and included in the accompanying financial statements and supplemental schedule is complete and accurate. Information as to the investments in the accounts of John Hancock Life Insurance Company, investment income, and all investment information appearing in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) is presented in reliance solely upon that certification.

Note D - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology included:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note D - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table presents investments measured at fair value on a recurring basis at December 31, 2019:

Assets at Fair Value as of December 31, 2019

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 355,990	$ -	$ -	$ 355,990
Total investments, at fair value	$ 355,990	$ -	$ -	$ 355,990

Note E - Party-in-Interest Transactions

Certain investments are managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the custodian of the Plan and, therefore, this transaction qualifies as a party-in-interest transaction and is exempt from the prohibited transaction rules of ERISA. During the year ended December 31, 2019, the Plan made direct payments of $3,743 to the custodian. The Plan Sponsor may pay any fees related to the Plan's operations.

Note F - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their discretionary contribution accounts.

Note G - Income Tax Status

The Plan Agreement was based on a John Hancock prototype plan that was determined by the Internal Revenue Service to be in accordance with applicable sections of the IRC. Although the Plan has been amended since its adoption, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
