ITT CONSOLIDATED HOURLY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1

DESCRIPTION OF THE PLAN

The following description of the ITT Consolidated Hourly Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan sponsored by ITT Industries Holdings Inc (the "Plan Sponsor"). The Plan was originally established to provide for the payment of benefits to eligible participants. The Plan consists of multiple legacy plans. The Plan is closed to new participants and benefits have stopped accruing. The Benefits Administration Committee, as appointed by the Board of Directors of ITT, controls and manages the operation and administration of the Plan. The Northern Trust Company (the "Trustee") serves as the trustee of the Plan, and together with the investment managers, manages the Plan's investments held in the Investment Master Trust of ITT (the "ITT Master Trust"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits

Participants are eligible for monthly benefit payments upon attainment of early retirement criteria (dependent on provisions of each legacy plan but generally no earlier than age 55) or upon attainment of normal retirement age (generally age 62 or age 65 depending on the legacy plan). Early retirement benefits are computed in a manner similar to normal retirement benefits except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date. The amount of the accrued benefit is determined by multiplying the benefit rate, which depends upon the period of credited service, by the total number of years of credited service. Certain groups have limited the amount of credited service to be included in the benefit accrual. All terminated participants are 100% vested.

Plan Transfer

Effective December 31, 2019, the ITT Industrial Process Pension Plan for Bargaining Unit Employees (the "merged Plan") was merged into the Plan. Assets totaling \$141,976,560 transferred into the Plan on December 31, 2019 and participants of the merged Plan began receiving benefit payments from the Plan effective January 1, 2020. Accumulated plan benefits (unaudited) totaling \$103,968,435 as of December 31, 2019 were merged into the Plan. Participants of the merged Plan were not impacted by this merger.

Death and Disability Benefits

A married employee who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations as outlined in the Plan document.

No employee has been eligible to qualify for a disability benefit under this Plan since January 1, 2000.

Administrative Expenses

Administrative expenses of the Plan are paid by the ITT Master Trust on behalf of the Plan, as provided in the Plan document and the ITT Master Trust agreement. The Plan Sponsor currently provides accounting and certain other administrative services to the Plan and ITT Master Trust at no charge. Plan administration is provided by WillisTowersWatson and those costs are paid by the Plan.

Management fees and operating expenses charged to the Plan for the investments in the collective trust (CT) funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Plan Sponsor and participant contributions are not permitted by the Plan. Funding requirements under Internal Revenue Service (IRS) rules are a major consideration in making contributions to the Plan Sponsor's postretirement plans. With respect to this Plan, the Plan Sponsor intends to contribute annually not less than the minimum required by applicable law and regulations. While the Plan Sponsor has significant discretion in making voluntary contributions, ERISA, as amended by the Pension Protection Act of 2006 and further amended by the Worker, Retiree, and Employer Recovery Act of 2008, and applicable Internal Revenue Code (IRC) regulations, mandate minimum funding thresholds. Failure to satisfy the minimum funding thresholds could result in restrictions on the Plan Sponsor's ability to amend the Plan or make benefit payments. No mandatory contributions to the Plan were required during 2019 and 2018 but a discretionary contribution was made in 2019 totaling \$9,000,000. The Plan Sponsor will continue to monitor the funded status and minimum funding requirements.

Plan Termination

The Plan Sponsor has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan participates in the ITT Master Trust which invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that values realized at the time of sale could materially differ from amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject

to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the ITT Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the ITT Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions, for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits were calculated as of December 31, 2018, the latest valuation date. This disclosure below is based solely on the funding valuation. The actuarial present value of accumulated plan benefits as of December 31, 2018, is as follows:

	2018
Vested benefits:	
Participant and/or beneficiaries currently receiving benefits	\$ 89,351,595
Terminated vested participants	21,142,777
Active participants	15,549,696
Total vested benefits	126,044,068
Nonvested benefits	250,918
Total actuarial present value of accumulated plan benefits	\$ 126,294,986

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2018, are as follows:

Actuarial present value of accumulated plan benefits - December 31, 2017	\$ 130,220,456
Increase (decrease) during the year attributable to:	
Benefits accumulated and other Plan experience	541,355
Benefits paid	(10,261,686)
Interest	7,440,317
Assumption changes	(1,645,456)
Actuarial present value of accumulated plan benefits - December 31, 2018	\$ 126,294,986

The actuarial cost method used to measure the present value of accumulated plan benefits is the Unit Credit Method. The significant actuarial assumptions used in the December 31, 2018 valuations were:

- Mortality: Non-Wolverine and Wolverine Hourly, Wolverine Salaried and Disabled participants use Pri-2012 Total Employee and Retiree Mortality Tables (base year 2012) with Blue Collar adjustment and projected with Buck Modified 2019 Improvement Scale, except for current beneficiaries of deceased participants. For current beneficiaries of deceased participants, mortality is based on the Pri-2012 Contingent Survivor Mortality Tables with Blue Collar adjustment and projected with Buck Modified 2019 Improvement Scale. For disabled participants, mortality is based on the Pri-2012 Disabled Retiree Mortality Table (base year 2012) and projected with Buck Modified 2019 Improvement Scale. The Buck Modified improvement scale is a modified version of the MP-2019 improvement scale using a grading of 15 years to a long-term improvement rate of 0.75%.
- Retirement age: Age range from 55 - 70
- Investment return: 6.0%

The assumption change is attributable to the changes from the Buck Modified 2018 improvement scale to the Buck Modified 2019 improvement scale and the RP-2014 mortality table to the Pri-2012 mortality table. This actuarial assumption is based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements. The actuarial valuation report as of December 31, 2019 has not yet been completed.

INVESTMENTS

Unaudited Information - Certified Investments

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee of the Plan. This 2019 and 2018 information has not been audited by independent accountants.

Interest in Master Trust

The Plan's investments are held in the ITT Master Trust, EIN 38-7003271. The ITT Master Trust is comprised entirely of holdings in CTs and the combined assets of this Plan and, through December 31, 2019, another employee benefit plan sponsored by the Plan Sponsor and its subsidiaries (collectively, the "Participating Plans"). As of December 31, 2019, the Plan was the sole participant in the ITT Master Trust. The fair value of CTs is estimated based on NAV, as provided by the investment manager to the Trustee, as a proxy for fair value, and the CTs are therefore not leveled within the fair value hierarchy. The Plan's assets include an undivided interest in an investment account of the ITT Master Trust as of and for the years ended December 31, 2019 and 2018. Use of a master trust permits the commingling of Plan assets with the assets of other Participating Plans for investment and administrative purposes. Although Plan assets are commingled in the ITT Master Trust, the Trustee maintains records supporting the allocation of the net income of the ITT Master Trust to the Participating Plans. Net investment income is allocated by the Trustee to each Participating Plan based on the relationship of the interest of each Participating Plan to the total of the interests of all the Participating Plans.

The table below provides the Plan's interest in the ITT Master Trust net assets as of December 31, 2019 and 2018.

	2019	2018
Net assets of the ITT Master Trust at fair value	\$ 319,906,274	\$ 277,837,505
Plan's interest in net assets of the ITT Master Trust	\$ 319,906,274	\$ 149,287,280
Plan's interest in the ITT Master Trust as a percentage of the total	100.0%	53.7%
Investment income (loss) of the ITT Master Trust	\$ 58,315,260	\$ (16,430,508)
Plan's interest in ITT Master Trust investment income (loss)	\$ 31,279,702	\$ (9,844,916)

Domestic and fixed income - bond CTs have a redemption notice period equal to the trade date, while developed market and emerging market CTs have a redemption notice period equal to trade date plus one day, during 2019 and 2018. There are no unfunded commitments and investments can be redeemed on a daily basis.

NOTE 5

PARTY-IN-INTEREST TRANSACTIONS

A party-in-interest is someone who has a relationship prohibiting that person from engaging in certain transactions with the Plan. This usually includes trustees and actuaries.

Certain ITT Master Trust investments are shares of CTs managed by the Trustee; therefore these qualify as party-in-interest transactions. Fees paid to the Trustee for investment management fees were included as a reduction of the return earned on the investment. Other fees paid to the Trustee also qualify as party-in-interest transactions.

Certain administrative functions are performed by officers and employees of ITT Inc. (who may also be a participant in the Plan) at no cost to the Plan or ITT Master Trust.

NOTE 6

TAX STATUS

The IRS has determined and informed the Plan Sponsor by a letter dated November 8, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt.

The Company evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is no longer subject to tax examinations for years prior to 2016.

NOTE 7

SUBSEQUENT EVENTS

Plan management has evaluated events occurring after December 31, 2019 through July 24, 2020, the date the financial statements were available to be issued and has concluded that there are no events that require recognition or disclosure in the financial statements, other than the below items.

On February 19, 2020, the Plan Sponsor's Board of Directors conditionally authorized the termination of the Plan sponsor's U.S. qualified pension plan by offering lump sum distributions to certain participants and transferring the Plan's remaining benefit obligations to an insurance company through one or more group annuity contracts. Ultimate plan termination is subject to certain considerations, including regulatory review, interest rates and annuity pricing. If

the Plan sponsor proceeds with the termination of the plan, the transaction is expected to occur in the second half of 2020.

In 2020, a novel strain of coronavirus, and resulting disease, COVID-19, spread to the United States. The coronavirus was declared a Public Health Emergency of International Concern by the World Health Organization on January 30, 2020. The investments of the Plan and significant estimates as disclosed in the notes, including valuation of investments (Note 2) and accumulated present value of accumulated plan benefits (Note 3), are likely to be negatively impacted by COVID-19. Plan management continues to monitor Plan assets and funded status considering the potential impact of COVID-19 and the potential for a decline in investment asset value. Plan management adopted an investment asset allocation 100% invested in fixed income and cash equivalent collective trusts effective early February 2020.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The retirement rates, withdrawal rates and frequency of optional payment form assumptions were based on an experience study performed in 2015 for Non-Wolverine. For Wolverine, these assumptions were based on the plan sponsor's anticipated experience, as well as general expectations for plan sponsors of similar size and plan design. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

Cash Balance interest crediting rate

The Cash Balance Interest Crediting Rate assumption is based on anticipated yields for 10-year Treasury Bonds.

Current and Future Years:	3.00%
Prior Year:	3.00%

Expenses

Expected plan related expenses, equal to the prior year's plan related expenses, excluding the prior year PBGC premiums and including 2% inflation plus current year PBGC premium, were added to the Target Normal Cost. This amount is equal to \$1,203,805.

Frequency of optional payment forms

Non-Wolverine

It is assumed that future retirees and terminations will elect the following forms of payment:

Payment Form	Rates
Life Annuity	70%
50% Joint & Survivor Annuity	15%
75% Joint & Survivor Annuity	10%
100% Joint & Survivor Annuity	5%

Wolverine Salaried and Wolverine Hourly

Cash balance benefits are assumed payable as a lump sum upon retirement or death and payable at age 60 upon termination. 60% of future retirements and terminations are assumed to elect a single Life Annuity and 40% are assumed to elect a Joint and Survivor 50% annuity.

Marital percentage

85% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions. The asset gain/(loss) history of the pre-merged plans was consolidated into the post-merged ITT Consolidated Hourly Pension Plan. The valuation dates for the Wolverine Hourly Pension Plan and Wolverine Salaried Pension Plan began on December 1st. As such, the gains/(losses) of the post-merged ITT Consolidated Hourly Pension with a valuation date beginning January 1st were reflected for the applicable portion of the year.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2019 Expected Return	6.00%	6.11%	6.00%
2018 Expected Return	6.00%	6.29%	6.00%
2017 Expected Return	7.00%	6.48%	6.48%

The expected rate of return is based on the plan's asset allocation and forward-looking expected rates of return by asset category provided by ITT Industries Holdings Inc. in coordination with their investment advisor.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

The Funding Target is the present value of accrued benefits based on compensation and service to date. ITT Consolidated Hourly Pension Plan

EIN/PN: 34-1990908 / 047

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The retirement rates, withdrawal rates and frequency of optional payment form assumptions were based on an experience study performed in 2015 for Non-Wolverine. For Wolverine, these assumptions were based on the plan sponsor's anticipated experience, as well as general expectations for plan sponsors of similar size and plan design. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

Cash Balance interest crediting rate

The Cash Balance Interest Crediting Rate assumption is based on anticipated yields for 10-year Treasury Bonds.

Current and Future Years:	3.00%
Prior Year:	3.00%

Expenses

Expected plan related expenses, equal to the prior year's plan related expenses, excluding the prior year PBGC premiums and including 2% inflation plus current year PBGC premium, were added to the Target Normal Cost. This amount is equal to \$1,203,805.

Frequency of optional payment forms

Non-Wolverine

It is assumed that future retirees and terminations will elect the following forms of payment:

Payment Form	Rates
Life Annuity	70%
50% Joint & Survivor Annuity	15%
75% Joint & Survivor Annuity	10%
100% Joint & Survivor Annuity	5%

Wolverine Salaried and Wolverine Hourly

Cash balance benefits are assumed payable as a lump sum upon retirement or death and payable at age 60 upon termination. 60% of future retirements and terminations are assumed to elect a single Life Annuity and 40% are assumed to elect a Joint and Survivor 50% annuity.

Marital percentage

85% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

For ages 45 or less, the rates for the first, second, and third year of employment are the above multiplied by 1.838 plus 0.0343, 1.393 plus 0.0056 and 1.240 minus 0.0046, respectively.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions. The asset gain/(loss) history of the pre-merged plans was consolidated into the post-merged ITT Consolidated Hourly Pension Plan. The valuation dates for the Wolverine Hourly Pension Plan and Wolverine Salaried Pension Plan began on December 1st. As such, the gains/(losses) of the post-merged ITT Consolidated Hourly Pension with a valuation date beginning January 1st were reflected for the applicable portion of the year.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2019 Expected Return	6.00%	6.11%	6.00%
2018 Expected Return	6.00%	6.29%	6.00%
2017 Expected Return	7.00%	6.48%	6.48%

The expected rate of return is based on the plan's asset allocation and forward-looking expected rates of return by asset category provided by ITT Industries Holdings Inc. in coordination with their investment advisor.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.
