OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of OhioGuidestone 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all regular full-time employees of OhioGuidestone (the Company and Plan Sponsor). On April 3, 2018, the respective Boards of Directors of OhioGuidestone and A Renewed Mind entered into a member substitution agreement (Agreement). According to the terms of the Agreement, OhioGuidestone became the sole member of A Renewed Mind effective July 1, 2018. A Renewed Mind became a participating employer in the Plan effective November 1, 2019. Prior to November 1, 2019, to be eligible to participate in the 401(k) contribution, employer matching contributions and discretionary contribution, employees were required to be age twenty-one or older and have completed one-year of service with the Company. One year of service is defined as having completed twelve months of employment with at least 1,000 hours. In addition, the employee must be employed on the last day of the Plan year in order to be eligible for the discretionary contribution. Effective November 1, 2019, the service requirement to participate in the 401(k) contribution was decreased to one month. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan document amendment and restatement: Effective November 1, 2019, concurrent with the Plan changing custodians from Voya Retirement Insurance and Annuity Company to Fidelity Management Trust Company, the Plan document was amended and restated.

Contributions: Each year, participants may contribute up to the maximum percentage of pretax annual compensation, as defined by the Plan and as allowable under the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowable under the IRC. The Plan includes an automatic salary deferral feature. Under this feature, prior to November 1, 2019, the Company automatically withheld 2% of a participant's eligible compensation unless the participant elected a different amount or elected not to contribute. Effective November 1, 2019, the auto-enrollment deferral rate was increased to 5%. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Roth contributions also became allowable effective November 1, 2019.

For the year ended December 31, 2019, the Company contributed a discretionary matching contribution equal to 50% of employee deferrals up to 1% of eligible compensation for OhioGuidestone participants. For the period November 1, 2019 through December 31, 2019, the Company contributed a matching contribution equal to 100% of the first 3% of eligible compensation, plus 50% of the next 2% of eligible compensation, contributed by A Renewed Mind participants. Additional discretionary profit sharing contributions may be made at the discretion of the Company's Board of Trustees.

Participants' accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants immediately vest in their contributions, plus actual earnings thereon. Vesting in the employer matching and discretionary contributions are based on years of service without incurring a break in service in accordance with the following schedule effective November 1, 2019:

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

<u>Years of Service</u>	<u>Vesting</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Vesting in the employer matching and discretionary contributions prior to November 1, 2019 was as follows:

<u>Years of Service</u>	<u>Vesting</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of benefits: Participants are entitled to receive a lump-sum amount equal to the value of their vested account balance upon death, disability, retirement or termination.

Forfeited accounts: Forfeitures are used to reduce employer contributions. Forfeitures of approximately \$111,000 were used to reduce employer contributions during the year ended December 31, 2019. At December 31, 2019 and 2018, there was \$18,671 and \$29,010, respectively, of forfeitures available to be used to reduce future employer contributions. Accumulated forfeitures will be applied to reduce the employer contributions in 2020.

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Note 2. Significant of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 2. Significant of Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value, except for the fully-benefit responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Because the guaranteed investment contract is fully-benefit responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits. The guaranteed investment contract is presented on the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2019, the Plan has four investments that individually exceed 10% of total Plan net assets, and collectively comprise 57% of total Plan net assets. This represents a concentration of credit risk.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan or by the Company, at the option of the Company.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: Plan management has evaluated subsequent events for potential recognition and/or disclosure through October 8, 2020, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Custodians

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that the information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2019	2018
Investments, at fair value:		
Registered investment companies	\$ 24,901,680	\$ -
Pooled separate accounts	-	17,452,585
	<u>\$ 24,901,680</u>	<u>\$ 17,452,585</u>
Investment, at contract value:		
Guaranteed investment contract	<u>\$ 238,841</u>	<u>\$ 735,899</u>
Notes receivable from participants	<u>\$ 409,886</u>	

The custodians also certified to the completeness and accuracy of the following for the year ended December 31, 2019:

Net appreciation in fair value of investments	<u>\$ 3,151,947</u>
Interest and dividends	<u>\$ 563,354</u>

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2019 and 2018.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interests in the pooled separate accounts are valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 24,901,680	\$ -	\$ -	\$ 24,901,680

	2018			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)				17,452,585
Investments, at fair value				\$ 17,452,585

- ^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2019, there were no transfers in or out of Levels 1, 2, or 3.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 17,452,585	None	Daily	None

Note 5. Guaranteed Investment Contract with Insurance Companies

The Plan offered a traditional investment contract with Lincoln National Life Insurance Company as of December 31, 2019 and Voya Retirement Insurance and Annuity Company, the former custodian of the Plan, as of December 31, 2018. The contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional investment contracts at December 31, 2019 and 2018 was \$238,841 and \$735,899, respectively.

The traditional investment contracts held by the Plan are guaranteed investment contracts. The contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting. The contracts do permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 5. Guaranteed Investment Contract with Insurance Companies (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuers. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contract.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investments.
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 7. Tax Status

The Plan has adopted a non-standardized form of a volume submitter profit sharing plan. The prototype plan has obtained an opinion letter from the Internal Revenue Service as to its qualified status. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 8. Party-in-Interest Transactions

Certain Plan investments are/were managed by affiliates of Fidelity Management Trust Company, the current custodian of the Plan, and Voya Retirement Insurance and Annuity Company, the former custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative services provided by the custodians, their affiliates, and other parties-in-interest amounted to \$43,683 for the year ended December 31, 2019.

Note 9. Plan Merger

In June 2019, the Plan Sponsor authorized the merger of A Renewed Mind 401(k) Plan (ARM 401(k) Plan) into the Plan effective November 1, 2019. Plan assets of the ARM 401(k) Plan in the amount of approximately \$2,450,000 were transferred into the Plan on November 1, 2019 as a result of this resolution. As such, the transferred assets have been presented as transfers in on the statement of changes in net assets available for benefits for the year ended December 31, 2019.

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has caused significant volatility within the Plan's investment portfolio. The extent to which the coronavirus impacts the performance of the Plan's investment portfolio will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and actions taken to contain the coronavirus or its impact, among others.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans, including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over age 70 ½ can be omitted for 2020.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of OhioGuidestone 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all regular full-time employees of OhioGuidestone (the Company and Plan Sponsor). On April 3, 2018, the respective Boards of Directors of OhioGuidestone and A Renewed Mind entered into a member substitution agreement (Agreement). According to the terms of the Agreement, OhioGuidestone became the sole member of A Renewed Mind effective July 1, 2018. A Renewed Mind became a participating employer in the Plan effective November 1, 2019. Prior to November 1, 2019, to be eligible to participate in the 401(k) contribution, employer matching contributions and discretionary contribution, employees were required to be age twenty-one or older and have completed one-year of service with the Company. One year of service is defined as having completed twelve months of employment with at least 1,000 hours. In addition, the employee must be employed on the last day of the Plan year in order to be eligible for the discretionary contribution. Effective November 1, 2019, the service requirement to participate in the 401(k) contribution was decreased to one month. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan document amendment and restatement: Effective November 1, 2019, concurrent with the Plan changing custodians from Voya Retirement Insurance and Annuity Company to Fidelity Management Trust Company, the Plan document was amended and restated.

Contributions: Each year, participants may contribute up to the maximum percentage of pretax annual compensation, as defined by the Plan and as allowable under the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowable under the IRC. The Plan includes an automatic salary deferral feature. Under this feature, prior to November 1, 2019, the Company automatically withheld 2% of a participant's eligible compensation unless the participant elected a different amount or elected not to contribute. Effective November 1, 2019, the auto-enrollment deferral rate was increased to 5%. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Roth contributions also became allowable effective November 1, 2019.

For the year ended December 31, 2019, the Company contributed a discretionary matching contribution equal to 50% of employee deferrals up to 1% of eligible compensation for OhioGuidestone participants. For the period November 1, 2019 through December 31, 2019, the Company contributed a matching contribution equal to 100% of the first 3% of eligible compensation, plus 50% of the next 2% of eligible compensation, contributed by A Renewed Mind participants. Additional discretionary profit sharing contributions may be made at the discretion of the Company's Board of Trustees.

Participants' accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants immediately vest in their contributions, plus actual earnings thereon. Vesting in the employer matching and discretionary contributions are based on years of service without incurring a break in service in accordance with the following schedule effective November 1, 2019:

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

<u>Years of Service</u>	<u>Vesting</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Vesting in the employer matching and discretionary contributions prior to November 1, 2019 was as follows:

<u>Years of Service</u>	<u>Vesting</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of benefits: Participants are entitled to receive a lump-sum amount equal to the value of their vested account balance upon death, disability, retirement or termination.

Forfeited accounts: Forfeitures are used to reduce employer contributions. Forfeitures of approximately \$111,000 were used to reduce employer contributions during the year ended December 31, 2019. At December 31, 2019 and 2018, there was \$18,671 and \$29,010, respectively, of forfeitures available to be used to reduce future employer contributions. Accumulated forfeitures will be applied to reduce the employer contributions in 2020.

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Note 2. Significant of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

OhioGuidestone 401(k) Plan

Notes to Financial Statements

Note 2. Significant of Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value, except for the fully-benefit responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Because the guaranteed investment contract is fully-benefit responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits. The guaranteed investment contract is presented on the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2019, the Plan has four investments that individually exceed 10% of total Plan net assets, and collectively comprise 57% of total Plan net assets. This represents a concentration of credit risk.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan or by the Company, at the option of the Company.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: Plan management has evaluated subsequent events for potential recognition and/or disclosure through October 8, 2020, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Custodians

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that the information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2019 and 2018.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interests in the pooled separate accounts are valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 24,901,680	\$ -	\$ -	\$ 24,901,680
	2018			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)				17,452,585
Investments, at fair value				\$ 17,452,585

- ^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2019, there were no transfers in or out of Levels 1, 2, or 3.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 17,452,585	None	Daily	None

Note 5. Guaranteed Investment Contract with Insurance Companies

The Plan offered a traditional investment contract with Lincoln National Life Insurance Company as of December 31, 2019 and Voya Retirement Insurance and Annuity Company, the former custodian of the Plan, as of December 31, 2018. The contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional investment contracts at December 31, 2019 and 2018 was \$238,841 and \$735,899, respectively.

The traditional investment contracts held by the Plan are guaranteed investment contracts. The contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting. The contracts do permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Note 5. Guaranteed Investment Contract with Insurance Companies (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuers. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contract.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investments.
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 7. Tax Status

The Plan has adopted a non-standardized form of a volume submitter profit sharing plan. The prototype plan has obtained an opinion letter from the Internal Revenue Service as to its qualified status. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Party-in-Interest Transactions

Certain Plan investments are/were managed by affiliates of Fidelity Management Trust Company, the current custodian of the Plan, and Voya Retirement Insurance and Annuity Company, the former custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative services provided by the custodians, their affiliates, and other parties-in-interest amounted to \$43,683 for the year ended December 31, 2019.

Note 9. Plan Merger

In June 2019, the Plan Sponsor authorized the merger of A Renewed Mind 401(k) Plan (ARM 401(k) Plan) into the Plan effective November 1, 2019. Plan assets of the ARM 401(k) Plan in the amount of approximately \$2,450,000 were transferred into the Plan on November 1, 2019 as a result of this resolution. As such, the transferred assets have been presented as transfers in on the statement of changes in net assets available for benefits for the year ended December 31, 2019.

Note 10. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has caused significant volatility within the Plan's investment portfolio. The extent to which the coronavirus impacts the performance of the Plan's investment portfolio will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and actions taken to contain the coronavirus or its impact, among others.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans, including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over age 70 ½ can be omitted for 2020.
