Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2019, that the information provided to the plan administrator by the custodian is complete and accurate.

1. DESCRIPTION OF PLAN:

The following description of the Coastal Ridge Real Estate Partners, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering substantially all full-time employees of Coastal Ridge Management and adopting affiliated companies (collectively, the Employer or Company) who are age 21 or older and who have completed six months of service may participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Participants may contribute up to 100% of their pretax annual eligible compensation, as defined by the Plan, subject to certain limits of the Internal Revenue Code (IRC). Participants may also contribute Roth elective deferrals and rollover contributions representing distributions from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company contributes a safe harbor matching contribution equal to 100% of the first 3% of employee compensation and 50% of the next 2% of employee compensation.

Participant accounts
Each participant's account is credited with the participant's contributions and Company matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of all contributions into various investment options offered by the Plan.

Vesting
Participants are vested immediately in their contributions and Company safe harbor matching contributions plus actual earnings thereon.

Notes receivable from participants
Participants may borrow from their individual accounts a minimum amount of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Notes must be repaid within five years unless the note is granted to allow the participant to purchase his or her principal residence. The notes are secured by the balance in the participant’s account and bear interest commensurate with local prevailing rates plus 1%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits
On termination of service, death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant’s vested interest in his or her account, or annuity payments, as defined by the Plan. Participants may also make a withdrawal upon reaching age 59 ½ or 70 ½, as defined by the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to certain transactions initiated by participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN:

Company management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Massachusetts Mutual Life Insurance Company (Mass Mutual), the custodian, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018, and the supplemental schedule of assets (held at end of year) as of December 31, 2019.

4. GROUP ANNUITY CONTRACT:

The Plan holds a fully benefit-responsive group annuity investment contract issued by Mass Mutual. Mass Mutual maintains the contributions in a general fixed account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Effective January 1, 2019, Plan management determined that the contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis for resetting.

The Plan may transact according to the terms defined in the contract at any time, however, certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the early termination of the contract prior to Mass Mutual's recovery of all expenses due under the contract agreement. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The group annuity contract may be terminated by the issuer with at least ninety days of advance written notice to the other party.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Effective January 1, 2019, Plan management determined that the pooled separate account values are not readily available and therefore, the use of net asset value (NAV) as a practical expedient was appropriate under the circumstances. Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2019.

Pooled separate accounts: Pooled separate accounts are held in investment contracts with the custodian and are invested according to the stated objectives of the various accounts. The principal is not guaranteed. The pooled separate accounts are valued at the net asset value (NAV), which is based on the market value of its underlying investments. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. The investment objectives of the accounts primarily include capital appreciation (depreciation) and long-term capital growth, with secondary objectives based on both current and long-term income. These objectives will be achieved primarily through diversified asset allocation strategies.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2018.

Pooled separate accounts: Valued at fair value calculated based on the observable net asset value of the underlying investments.

Fixed annuity fund: Valued at fair value based on the actuarial formula as defined under the terms of the contract.

The following table sets forth by level, within the fair value hierarchy, the Company's investments at fair value as of December 31, 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Investments at Fair Value as of December 31, 2018

		Level 1	Level 2	Level 3	Total
Assets in the fair value hierarchy:					
Pooled separate accounts	$	-	1,457,886	-	1,457,886
Fixed annuity fund		-	1,216	-	1,216
Total assets at fair value	$	-	1,459,102	-	1,459,102

Investments Measured Using the Net Asset Value per Share Practical Expedient
The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Company.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Pooled separate accounts	$ 2,256,994	n/a	Daily	None

6. PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are managed by Mass Mutual. Mass Mutual is the custodian as defined in the plan agreement and, therefore, these transactions qualify as party in interest transactions.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. TAX STATUS:

The Employer adopted a volume submitter plan which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. While the Employer has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. SUBSEQUENT EVENTS:

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus (COVID-19) has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Plan Sponsor's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the statement of net assets available for benefits is uncertain at this time.

The Plan has evaluated subsequent events through October 7, 2020, the date the financial statements were available to be issued.
