1. Description of the Plan

The following description of the Turrentine-Jackson-Morrow Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan established January 1, 2000, by Turrentine-Jackson-Morrow (the Company, the Plan Sponsor and Administrator) to provide retirement benefits to eligible employees. Plan Administrators, Inc. (PAi) has been contracted to manage the investments of the Plan as directed by the participants and provide recordkeeping services. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended (ERISA).

Eligibility

In May 2018, the Plan was amended to change eligibility requirements for participants prior to receiving matching contributions under the Plan. Participants are no longer required to have completed at least 1,000 hours of service during the Plan year and be employed by the Company on the last day of the Plan year prior to receiving a matching contribution.

Eligibility for participation in the Plan extends to all employees who are 21 years of age or older, excluding non-resident and unionized employees. The Plan currently does not have minimum service requirements to be considered eligible. Participants are also eligible for profit sharing contributions if they have completed at least 1,000 hours of service during the Plan year and are employed by the Company on the last day of the Plan year.

Participant Contributions

Under the terms of the Plan, eligible employees may elect to defer any amount of their annual compensation limited to a maximum annual amount specified by the IRS ($19,000 for employees under age 50 and $25,000 for employees age 50 and over in 2019). In addition, participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

Company Contributions

The Company, in its sole discretion, may make discretionary matching contributions to the Plan as determined by the Company. For the year ended December 31, 2019, the Company's discretionary matching contribution totaled $43,015. The Company, in its sole discretion, may make discretionary profit-sharing contributions to the Plan as determined by the Company. For the year ended December 31, 2019, there were no discretionary profit-sharing contributions. The Company may also make discretionary qualified non-elective contributions at the discretion of the Company. For the year ended December 31, 2019, there were no discretionary non-elective contributions.

1. Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, catch-up contributions, rollover contributions and allocations of the Company's contributions, and Plan earnings, and is reduced for any Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their rollover contributions, employee pre-tax contributions, catch-up contributions, and qualified non-elective contributions. Vesting in the Company's discretionary matching and profit sharing contributions is based upon years of vested service:

Years of Service	Percentage Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Vesting under the Plan is based upon the general method where hours of service are counted prior to receiving credit for a year of service. Participants must complete 1,000 hours of service during the Plan year in order to receive credit for a year of vesting service. Each participant also becomes fully (100%) vested on termination of service due to death, disability, or upon normal retirement age as defined by the Plan while an employee.

Forfeitures

Forfeitures may be used to reduce the Company's contributions (or reallocate as Company contributions), or to pay administrative expenses. In 2019 and 2018, forfeited nonvested accounts totaled $3,125 and $1,404 and the Company used $3,125 and $1,404 of these forfeited nonvested accounts to reduce the Company's contributions for 2019 and 2018, respectively.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as excess contributions owed to participants. As of December 31, 2019 and 2018, there were no excess contributions payable.

1. Description of the Plan (Continued)

Payments of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the Plan agreement. The Plan provides for normal retirement at the later of attainment of age 65 and 5 years of eligibility service as defined by the Plan. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, or as an in-kind distribution. As of December 31, 2019 and 2018, hardship withdrawals were not allowed under the Plan.

Administrative Expenses

All direct expenses of maintaining the Plan are to be paid or reimbursed by the company. If expenses are not paid by the company they will be charged to the trust fund and therefore paid by plan assets.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provision of ERISA. In the event of a termination, participant will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Net appreciation in fair value of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are reflected on a trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Investment Options

As of December 31, 2019, participants may self-direct employee and employer contributions into various investment options with differing risk and growth characteristics. These investment options include mutual fund choices including domestic equity, international equity, bond funds, and numerous target date retirement funds.

Payments of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

> ***Level 1 -*** unadjusted quoted prices in active markets for identical assets or liabilities. These inputs are considered to be most reliable evidence of fair value.
>
> ***Level 2 -*** quoted prices in active markets for similar assets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for the term of the instrument.
>
> ***Level 3 -*** termed *unobservable inputs,* which are utilized in situations where there is little or no market activity for the asset or liability at the measurement date. This approach typically involves a significant amount of subjective management judgment toward the pricing of the security.

The following is a description of the valuation methodologies used for financial instruments measured at fair value.

> ***Registered investment companies (mutual funds) -*** Mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. Mutual funds publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.
>
> ***Money market funds -*** Valued using fair value based on the outstanding balance.

3. Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The tables below present balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy as of December 31:

2019

Investments	Level 1	Level 2	Level 3	Total
Money market fund	$ 127,668	$ -	$ -	$ 127,668
Mutual funds	5,707,707	-	-	5,707,707
Investments at fair value	$ 5,835,375	$ -	$ -	$ 5,835,375

2018

Investments	Level 1	Level 2	Level 3	Total
Money market fund	$ 117,518	$ -	$ -	$ 117,518
Mutual funds	4,453,815	-	-	4,453,815
Investments at fair value	$ 5,835,375	$ -	$ -	$ 4,571,333

For years ended December 31, 2019 and 2018, there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

4. Related Party and Party-in-Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

5. Information Prepared and Certified by the Custodian

The Plan Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2019 and 2018. Under this provision of ERISA, certain information certified need not be subject to independent audit. Accordingly, Plan Administrators, Inc., the Custodian and the Recordkeeper, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018, and the supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2019, and the related investment activity and interest income reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

6. Reconciliation of Financial Statements to the Form 5500

7. Plan Tax Status

The Plan adopted a prototype plan document that has a favorable determination letter from the Internal Revenue Service dated March 31, 2014, that states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019, and 2018, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes the Plan is no longer subject to income tax examinations for years prior to 2016.

8. Risks and Uncertainties

The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Subsequent Events

In December 2019, a novel strain of coronavirus ("COVID-19") was reported in Wuhan, China. In March 2020, The World Health Organization designated COVID-19 a pandemic. COVID-19 is having significant effect on overall economic conditions in nearly all regions around the world. The Plan's individual investments fluctuate in response to changing market conditions, therefore the impact of the COVID-19 pandemic on investment values in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted to provide emergency assistance and health care response for individuals, families, and businesses affected by the COVID-19 pandemic. The CARES Act allowed plan sponsors to adopt certain discretionary provisions and the Company adopted the provisions related to hardship withdrawals and participant loans. The full impact of the Cares Act on the plan continues to evolve as of the date of this report. The Plan's management has evaluated subsequent events through October 8, 2020, which is the date the financial statements were available to be issued. No other event has occurred subsequent to December 31, 2019, requiring recording or disclosure in these financial statements.
