Independent Auditor's Report

To the Audit and Risk Management Committee
Xavier University Defined Contribution Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Xavier University Defined Contribution Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2019 and 2018 and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) and TIAA, as agent for TIAA, FSB, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that TIAA-CREF and TIAA, FSB hold certain of the Plan's investment assets and execute certain investment transactions. The plan administrator has obtained certifications from TIAA-CREF and TIAA, as agent for TIAA, FSB, as of December 31, 2019 and 2018 and for the year ended December 31, 2019 that the information provided to the plan administrator is complete and accurate.

As described in Note 3, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's (DOL) Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amounts of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan has not maintained sufficient accounting records and supporting documents relating to these annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As explained in Note 7, the financial statements include investments valued at approximately $79 million at December 31, 2019 and $76 million at December 31, 2018 whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by TIAA-CREF. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedule of assets held at end of year as of December 31, 2019 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the supplemental schedule.

Note 1 - Plan Description

The following description of Xavier University Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Xavier University (the "University"). The Plan, in existence since January 1, 1974, as amended, is effective on January 1, 2009. The audit and risk management committee of the board of trustees of the University controls and manages the operation and administration of the Plan. Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) currently serve as record-keeper and custodian of the Plan's assets, as well as agent for TIAA, FSB (Trust Company), a custodian of the Plan, or its affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible employees are required to contribute 5 or 2 percent of their pretax compensation (excluding bonuses, overtime, and faculty summer teaching compensation) to the Plan. For eligible employees, the University contributes an amount equal to a specified percentage of a participant's compensation based on the participant's years of services, as follows: 8.5 percent for 0 to 5 years of service, 9 percent for more than 5 years and up to 10 years of service, 9.5 percent for more than 10 up to 20 years of service, and 10 percent for 20 or more years of service.

Effective January 1, 2018, certain participants may contribute up to a prescribed amount of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code (IRC) limitations. Participants attaining at least age 50 during the plan year are eligible to contribute additional catch-up contributions to the Plan. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the University's contributions, and an allocation of plan earnings and charged with withdrawals and an allocation of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in all contributions plus actual earnings thereon.

Benefit Payments

Upon termination of service due to severance of employment, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account or annual installments over a period elected by the participant not exceeding his or her life expectancy. Upon termination of service due to retirement or disability, a participant's account balance will be paid in the form of an annuity, unless an optional form of benefit is selected. Optional forms of benefit include either a lump-sum amount equal to the value of the participant's account or annual installments over a period elected by the participant not exceeding the participant's life expectancy. If the participant's benefit does not exceed $5,000, such benefit may be paid in the form of a lump sum as soon as administratively practical after the time of his or her termination.

Note 1 - Plan Description (Continued)

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment option have limits on the ability of the participant to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA), Group Retirement Annuity (GRA), and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments. Withdrawals from the GRA contracts are available within 120 days after termination of employment subject to 2.5 percent surrender charge; otherwise, they must be paid over 10 annual installments. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by TIAA-CREF and TIAA, FSB or their affiliates. TIAA-CREF is a service provider of the Plan, and TIAA, FSB is a custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

The University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA, or amend the Plan at any time. The University has not expressed any intent to discontinue or terminate the Plan.

Plan Loans

The Plan contains provisions allowing participants to take out loans against their account balances if certain conditions are met. An amount equivalent to 110 percent of the loan amount is reserved or held in collateral from the participant’s TIAA Traditional Annuity account to cover the outstanding loan amount for the period of time the loan is outstanding. Interest rates on loans and subsequent interest rate changes depend on how the participant's retirement balance is invested. Principal and interest are paid by the participants directly to TIAA-CREF. When TIAA-CREF receives the loan repayment, the amount is deposited back into the Plan. The amounts of these outstanding loans were $254,766 and $306,648 as of December 31, 2019 and 2018, respectively. These loans are not included as assets in the accompanying financial statements. At December 31, 2019 and 2018, $82,668 and $61,356, respectively, of the plan loan balances was in default.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value except as noted below.

Investments in registered investment companies are valued at net asset value per share (NAV) of the funds (or its equivalent), which is based on the fair value of the funds' underlying net assets. There are no redemption restrictions or unfunded commitments on these investments. The pooled separate account (TIAA Real Estate X1) is valued at net asset value per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets, which consist primarily of rental property subject to long-term leases and have been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with risks involved. There are no redemption restrictions or unfunded commitments on this investment.

Note 2 - Summary of Significant Accounting Policies (Continued)

The TIAA Traditional Annuity is a guaranteed annuity contract issued by TIAA that invests in the general assets of TIAA. TIAA considers the following contracts to be benefit responsive: Supplemental Retirement Annuity (SRA), Group Supplemental Retirement Annuity (GSRA), and Retirement Choice Plus (RCP). TIAA considers the following contracts to be non-benefit responsive: Retirement Annuity, Group Retirement Annuity, Interest Payment (IP), and Transfer Payout Annuity. The non-benefit-responsive portion is recorded at fair value. The benefit-responsive portion is recorded at contract value. Since there are no specific securities in TIAA's general account related to these contracts, contract value approximates fair value for the non-benefit-responsive contracts. The fair value of the non-benefit-responsive contracts was determined by discounting the related cash flows based on current yields or similar instruments with comparable durations and taking into consideration the creditworthiness of the issuer. For all portions, contract value represents principal invested, plus interest earned, less any withdrawals.

All other investments are valued based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

See Note 7 for additional information.

Benefit Payments

Benefit payments to participants are recorded upon distribution. There were benefit payments requested but not paid (due to redemption restrictions) totaling $3,011,090 and $1,809,320 as of December 31, 2019 and 2018, respectively.

Administrative Expenses

Investment-related and administrative expenses are paid from the plan assets, with the plan administrator paying a portion of the fees to service providers at its discretion. Investment income in the accompanying statement of changes in net assets available for benefits is reported net of investment-related expenses.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 17, 2020, which is the date the financial statements were available to be issued.

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13), which primarily removes and modifies Level 3 fair value measurement disclosures. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. Management does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

Note 3 - Excluded Investments

Accounting principles generally accepted in the United States of America require that annuity and custodial accounts issued to current and former employees and the related income and distributions be included in the accompanying financial statements. However, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*, the Plan has excluded from investments, as reported on the accompanying statement of net assets available for benefits, certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. The investment income and distributions related to these accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amounts of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Note 4 - Unaudited Information

TIAA-CREF holds the Plan's investments, except mutual funds, and executes related transactions. TIAA, FSB holds the mutual fund investments and executes all related transactions. TIAA has the authority to certify the investment balances and related investment activity on behalf of TIAA, FSB. The investment balances and related investment income and losses included in the accompanying financial statements and the supplemental schedule of assets held at end of year are based solely on information certified by TIAA-CREF.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2019 and 2018 (see Note 3).

Note 5 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 6 - Investment Contracts

Based on the terms of the contracts, a portion of the TIAA Traditional Annuity is considered benefit responsive. The total balance in the TIAA Traditional Annuity was $90,897,473 and $86,872,444 at December 31, 2019 and 2018, respectively. The benefit-responsive portion of the TIAA Traditional Annuity totaled approximately $25,790,000 and $23,468,000 at December 31, 2019 and 2018, respectively. The contract issuers maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 6 - Investment Contracts (Continued)

Interest is credited on contract balances using a vintage approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into vintages and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest crediting rates for this product, TIAA considers any administrative expenses during the time period and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3.00 percent; however, in some recent contracts, it has been between 1.00 and 3.00 percent.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because a portion of the contract is fully benefit responsive, contract value is the relevant measurement attribute for the portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 7 - Fair Value Measurements

Accounting standards generally accepted in the United States require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs. Level 3 fair value measurements are based primarily on estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. For the group annuity contract, significant inputs include the credit rating of the issuer, discount rates, deposits made to the contracts, earnings at guaranteed crediting rates, withdrawals, and fees.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 7 - Fair Value Measurements (Continued)

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2019 and 2018 (see Note 3). The following tables present information about the included plan assets measured at fair value on a recurring basis at December 31, 2019 and 2018:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2019

(2) This class represents investments in actively managed registered investment companies that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed registered investment companies with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(4) This class represents investments in an actively managed registered investment company that invests primarily in money market funds, with the objective of providing high current income consistent with the preservation of capital and the maintenance of liquidity.

Note 7 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

The following table presents a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable (Level 3) inputs:

	Group Annuity Contract

Quantitative Information about Level 3 Fair Value Measurements

The following table summarizes the valuation methods and inputs used to determine fair value at December 31, 2019 and 2018 for assets and liabilities measured at fair value on a recurring basis using unobservable inputs (Level 3 inputs):

	Fair Value at December 31, 2019	Valuation Technique	Significant Unobservable Inputs Used	Range of Inputs
TIAA Traditional Annuity	$ 65,107,743	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA 3.00%-4.40% TPA 3.00%-4.40% IP 3.00%-4.40% GRA 3.00%-4.40%
