FISHER AUTO PARTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - PLAN DESCRIPTION

The following description of the Fisher Auto Parts (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of Plan provisions.

General

The Plan is a defined contribution plan covering all employees of the Company on the first day of the month following sixty (60) days of service, and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On July 1, 2016, the assets of the K.O.I. Employees Retirement Plan were merged into the Fisher Auto Parts 401(k) Plan. As a result of this merger, the Plan document for the Fisher Auto Parts 401(k) Plan was amended and restated as of July 1, 2016.

Contributions

Each year, participants may defer up to 100 percent of pretax annual compensation, as defined in the Plan. Participant deferrals are subject to a maximum of \$19,000 for 2019, as defined in Internal Revenue Code Section 402(g). If participants have attained the age of 50, they may make additional catch-up contributions as allowed under Internal Revenue Code 401(k). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its discretion, match elective deferral contributions from employees each year. For the years ended December 31, 2019 and 2018, the Company contributed 100 percent of the first 2 percent of base compensation that a participant contributed to the Plan, not exceeding \$1,000 for both years. Employer contributions totaled \$779,107 and \$746,560 for the years ended December 31, 2019 and 2018, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

FISHER AUTO PARTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - PLAN DESCRIPTION (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion of the participant's account plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

On July 1, 2016, assets of the K.O.I. Employees Retirement Plan were merged into the Fisher Auto Parts 401(k) Plan. The Plan at Fisher Auto Parts, Inc. does not allow participant loans. However, with this merger, the Plan has been modified to allow rollovers of existing participant loans. Principal and interest are paid ratably through monthly payroll deductions on these loans until they are paid in full. As of December 31, 2019, these notes receivable were paid in full.

Payment of Benefits

Upon attainment of age 59 1/2, termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest, or annual installments over a term certain not extending beyond normal life expectancy.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$53,167 and \$37,133, respectively. Forfeited accounts are first used to pay Plan expenses and then to meet the employer's contribution obligations to the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

The Company has evaluated subsequent events through October 6, 2020, the date which the financial statements were available to be issued.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and contributed to deterioration and instability in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in

FISHER AUTO PARTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

an orderly transaction between market participants at the measurement date. See NOTE 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Loans are secured by the balance in the participant's account, so collectibility is reasonably assured.

Excess Contributions

Contributions received from participants for 2019 and 2018 are net of payments of \$113,159 and \$70,548, respectively, made in February 2020 and March 2019 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are also included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2019 and 2018, respectively.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the annual maintenance of participant accounts, the payment of benefits and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets of liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels

FISHER AUTO PARTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS (continued)

of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

FISHER AUTO PARTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS (continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net assets value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair value. The Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level with the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	<u>December 31, 2019</u>
	<u>Level 1</u>
Assets at fair value:	
Mutual funds	\$ 58,311,117
	<u>December 31, 2018</u>
	<u>Level 1</u>
Assets at fair value:	
Mutual funds	\$ 46,642,342

Transfers between Levels

For years ended December 31, 2019 and 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

FISHER AUTO PARTS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 5 - GUARANTEED INVESTMENT CONTRACT WITH PRUDENTIAL
RETIREMENT INSURANCE & ANNUITY COMPANY

In 2012 until October 3, 2019, the Plan had entered into a guaranteed investment contract with Prudential Retirement Insurance & Annuity Company. Prudential maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Prudential, represented contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at contract value within reasonable timeframes. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract value is also often referred to as "Book Value". The contract is effected directly between the Plan Sponsor (or their Trustee) and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. Given these provisions, Prudential considered this contract to be fully benefit-responsive.

NOTE 5 - GUARANTEED INVESTMENT CONTRACT WITH PRUDENTIAL
RETIREMENT INSURANCE & ANNUITY COMPANY (continued)

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at October 3, 2019 and December 31, 2018 was \$0 and \$4,501,586, respectively. The crediting interest rate was based on a formula agreed upon with the issuer, but it was not to be less than 1.35%. Such interest rates were reviewed on a semi-annual basis for resetting.

There were not any events that would limit the ability of the Plan to transact at contract value paid either immediately or, depending upon the rate environment and cash flow levels, over time.

There were not any events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

NOTE 6 - GUARANTEED INVESTMENT CONTRACT WITH NEW YORK LIFE
INSURANCE COMPANY

On October 4, 2019, the Plan entered into a guaranteed investment contract with New York Life Insurance Company. New York Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by New York Life, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

For the year ended December 31, 2019, certain Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee and Fidelity Investments is the record-keeper, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the year ended December 31, 2018, certain Plan investments were managed by Prudential Investment Management, Inc. NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 9 - INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated April 29, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the United States Department of Labor. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
