1. Description of the Plan

The following description of the Rosewood 401(k) Plan (the "Plan") provides only general information. Participants should refer to the *Basic Plan Document and Adoption Agreement* ("Plan Document") for a more complete description of the Plan's provisions. The Plan is sponsored by The Rosewood Corporation, whose corporate offices are located in Dallas, Texas.

General

The Plan is a defined contribution 401(k) plan covering employees of Rosewood Corporate Administration, Inc. and certain of its affiliates (collectively referred to as the "Company"). The Plan is subject to the provisions of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees of the Company become eligible to participate in the Plan on the first day of employment and are enrolled within 30 days of the first day of employment. Employees must be twenty-one years of age to participate in the Plan.

Contributions

Participants may contribute any whole percentage between 1% and 50% of his or her compensation to the Plan, subject to the annual deferral limit of Section 401(k) of the Internal Revenue Code (the "Code") ($19,000 and $18,500 for 2019 and 2018, respectively, plus certain catch-up provisions for participants that have attained age 50 before the end of the Plan year). As a result of a Plan amendment in March 2019, unless a participant elects otherwise, the participant is enrolled with a deferral contribution of 6%, and after six months of employment, deferral contributions for each active participant are automatically increased annually in April by a whole percentage point until 10% is reached. Prior to the amendment, the initial enrollment percentage was 3%, and the automatic annual increase continued until a deferral rate of 6% was reached. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, self-directed brokerage investments, and a common/collective investment trust as investment options for participants.

As a result of a Plan amendment in September 2019, the Company (with the exception of one affiliate that did not adopt the amendment) began making matching contributions equal to 100% of the basic contribution of each participating employee, limited to a maximum match of 6% of each participating employee's earnings. Prior to the amendment, the Company made matching contributions equal to 50% of the basic contribution of each participating employee with up to five years of continuous service, limited to a maximum match of 3% of each participating employee's earnings. After five years of continuous service, the Company made matching contributions of 100%, limited to a maximum match of 6% of each participating employee's earnings.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's match, and allocation of (a) Plan earnings and (b) revenue credits, and charged with an allocation of investment expenses and fees, if applicable. Allocations are based on account balances, as defined in the Plan. Interest income and fees associated with participant loans are credited/charged directly to the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan – continued

Vesting

Participants vest in employer's matching contributions 20% after each year of continuous service and become fully vested after five years of continuous service. If death or disability occurs or Normal Retirement Age (age 65) is reached while employed by the Company, participants become fully vested.

Notes Receivable from Participants

Participants may request loans via the Plan's automated phone system or online. No loan to any participant shall be made to the extent that such loan, when added to the outstanding balance of all other loans to the participant, would exceed the lesser of: (a) $50,000 reduced by the excess (if any) of the highest outstanding balance of such participant's Plan loans during the one-year period ending on the day before the loan is made over the outstanding balance of the participant's Plan loans on the date the loan is made; or (b) one-half of the value of the participant's vested balance. The minimum principal amount of any loan is $1,000. Loans under the Plan must be repaid within five years. However, loans to purchase a principal residence of the borrower may be repaid within 10 years from the date of the loan. The maximum number of loans outstanding to any participant is two, subject to the rules noted above. As of December 31, 2019 and 2018, interest rates ranged from 4.25% to 6.50% and 4.25% to 6.25%, respectively.

Benefits Paid to Participants

Upon termination of service due to death, disability, retirement, or separation, a participant may elect to receive the vested account balance in a lump-sum distribution or direct rollover into another qualified plan or individual retirement account. For terminated participants with account balances less than $1,000, the Plan Administrator may distribute the entire amount in a lump sum without the participant's consent.

In the event of financial hardship, as defined in the Plan Document, a participant may elect, while still in the employment of the Company, to withdraw all or part of their vested balance. Cases of financial hardship are reviewed and approved by the Plan Administrator in accordance with the applicable provisions of ERISA. Effective January 1, 2019, the Plan's hardship withdrawal provisions were updated in connection with the Bipartisan Budget Act. Participants will no longer (1) be required to obtain a loan prior to requesting a hardship withdrawal; (2) participant deferral contributions will no longer be suspended after receipt of a hardship withdrawal; and (3) earnings on elective deferral contributions in a participant's account will be included as part of a hardship withdrawal.

A participant who has attained age 59½ may elect, while still in the employment of the Company, an In-Service Withdrawal of all or part of their vested balance for any purpose. Any active participant who is 100% vested may also elect an In-Service Withdrawal for any purpose in an amount not to exceed the balance of the employer match account.

Forfeitures

Any amounts not eligible for withdrawal at time of termination are forfeited and are applied to reduce future Company contributions. In certain circumstances, amounts forfeited may be restored to terminated employees who are subsequently re-employed provided they repay the amount of Company contributions received at termination. At December 31, 2019 and 2018, forfeitures of $18,434 and $6,586, respectively, were available for reducing future employer contributions or to restore prior forfeitures under certain conditions. During the years ended December 31, 2019 and 2018, employer contributions were reduced by $14,109 and $41,595, respectively, from forfeited nonvested accounts.

1. Description of the Plan – continued

Plan Termination

Although the Company expects to continue the Plan indefinitely, the Plan may be terminated by the Company, and the Company may suspend or discontinue its contributions at any time, subject to the provisions of ERISA. Upon termination of the Plan, participants become 100% vested in employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan Administrator to use estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. *Net appreciation (depreciation) in fair value of investments* includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are included in *other income, net* and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan Document.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies – continued

Administrative Expenses/Revenue Credits

Substantially all administrative expenses relative to the Plan, including recordkeeping expenses, are paid by the Company and excluded from these financial statements. Plan participants pay the administrative fees associated with *notes receivable from participants*. Investment related expenses are included in *net appreciation (depreciation) in fair value of investments*.

Fidelity Management Trust Company ("FMTC"), the trustee, is compensated by the Plan's investment fund service providers for its shareholder and other services that benefit both the investment funds and the Plan. FMTC, in turn, provides credits to the Plan, which are allocated to the Plan participants and are included in *other income, net.*

3. Fair Value Measurements

FASB Accounting Standards Codification 820 *Fair Value Measurement* ("ASC 820"), provides a framework for measuring all financial assets and liabilities disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

> Level 1 – Observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.
>
> Level 2 – Observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.
>
> Level 3 – Inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3. For the years ended December 31, 2019 and 2018, there were no significant transfers between levels.

3. Fair Value Measurements – continued

Valuation Techniques

Mutual funds. These investments are public investment vehicles, which are valued using the net asset value ("NAV") provided by the investment manager of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/collective trusts. These investments are valued using the NAV provided by the trustee as a practical expedient for fair value. The NAV is based on the value of the underlying assets owned by the trust, which primarily utilizes contract value, minus its liabilities and then divided by the number of shares outstanding. Accordingly, these investments are not presented within the valuation hierarchy.

Self-directed brokerage investments. These investments are comprised of investments in common stocks, mutual funds, and money market funds (all of which are Level 1 investments).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2019 and 2018.

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

3. Fair Value Measurements – continued

4. Certified Information

The Company elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the auditing procedures were limited with respect to the investment information certified by the trustee, which included total investments as of December 31, 2019 and 2018, the total investment income (loss) for the years ended December 31, 2019 and 2018, and all information included in the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

5. Tax Status

The Plan participates in the Fidelity Volume Submitter Profit Sharing Plan with Cash or Deferred Arrangement ("CODA"), which has a favorable advisory letter from the Internal Revenue Service ("IRS") dated March 31, 2014. This advisory letter states that the form of the volume submitter plan is acceptable under Section 401 of the Code. The Company may rely on this letter with respect to the qualification of the Plan under Code Section 401(a) with certain limitations. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The variety of investment options are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

7. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

FMTC acts as trustee of the Plan. The Plan invests in shares of mutual funds managed by FMTC. The Plan also paid certain expenses related to plan operations and investment activity to various service providers. The transactions above, as well as loans made to participants, qualify as party-in-interest transactions under ERISA that are exempt from the prohibited transaction rules.

9. Subsequent Events

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus – SARS-CoV-2, the disease it causes ("COVID-19"), and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally, and recommended containment and mitigation measures worldwide, which has created a significant amount of economic uncertainty across the globe. Due to the disruption of COVID-19 on the global economy, the values of investment securities have been volatile, and the impact to the plan cannot be reasonably estimated at this time.

On March 27, 2020, President Trump signed into law the "Coronavirus Aid, Relief, and Economic Security Act" (the "CARES Act") which allowed plan sponsors to immediately adopt certain retirement plan provisions to allow qualified individuals, as defined in the CARES Act, additional access to retirement plan balances. As a result, while the Plan has not been formally amended, the Company determined it was in the best interest of the participants to allow 1) a COVID-19 distribution up to $100,000, and 2) deferral of 2020 loan repayments for a year.

The Plan's management has evaluated all subsequent events for potential recognition and disclosure through October 6, 2020, the date at which the financial statements were available to be issued, and determined there are no other reportable subsequent events.
