HOUSTON DISTRIBUTING COMPANY, INC.
TAX ADVANTAGE RETIREMENT SAVINGS PLAN
Notes to Financial Statements

1. DESCRIPTION OF PLAN

The following description of the Houston Distributing Company, Inc. Tax Advantage Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General. The Plan is a defined contribution, contributory plan covering all full-time employees who have completed one month of service and are age 18 and older. Employer matching contributions begin when the employee has completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Employer Supplemental Contributions. Employer Supplemental Contributions may be made by Houston Distributing Company, Inc. (the Company) from its current or accumulated earnings and profits at the option of the Company's Board of Directors. The contributions are allocated to participants based on the percentage of their compensation to the total compensation paid to participants during the plan year. There were no Employer Supplemental Contributions during 2019 or 2018.

C. Contributions. Each year, participants may contribute at a rate of not more than 100 percent of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. These contributions are made through before-tax payroll deductions and are deposited into the participant's account within the funds established by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. (rollover) Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50% of the first 6% of base compensation that a participant contributes to the Plan. The matching Company contribution is invested directly in the investment options selected by the Participant. Contributions are subject to certain statutory limits.

D. Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contribution and (b) Plan earnings (losses), and charged with an allocation of any fee charged by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's accounts.

E. Vesting. Participants are vested immediately in their contributions plus actual earnings on the contributions. Vesting in the Company's contribution portion of their accounts is based on the participant's years of continuous service. A participant is one hundred (100) percent vested after five (5) years of credited service.

F. Payment of Benefits. On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of their account, or the value of their account may be distributed to them using another method as approved by the Plan's Administrative Committee. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

G. Notes Receivable from Participants. Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25 to 6.50%. Principal and interest is paid ratably through payroll deductions.

H. Forfeited Accounts. At December 31, 2019 and 2018, forfeited nonvested accounts totaled $13,280 and $30,624, respectively. These accounts will be used to pay plan expenses or reduce employer contributions. Also, in 2019 and 2018, respectively, plan expenses were reduced by $14,082 and $17,625 from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

B. Use of Estimates. The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

C. Investment Valuation and Income Recognition. Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

D. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2019 and 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

E. Benefit Payments. Benefits are recorded when paid.

F. Plan Expenses. Certain expenses incurred maintaining the Plan are assessed against Participant's accounts as they are incurred, or are attributable to, a particular Participant based on use of a particular Plan service.

G. Subsequent Events. Subsequent events have been evaluated through September 30, 2020, which is the date the financial statements were available to be issued.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred (100) percent vested in their accounts.

4. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2019	2018
Investments, at fair value:		
Mutual funds	$27,344,943	$21,571,255
Interest bearing cash	13,280	30,624
Investments measured at contract value:		
Insurance company general account	3,811,669	3,529,526
Common collective trust	436,418	479,717
Investment income (loss)	5,307,106	(1,550,271)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

December 31, 2019	Fair Value	Fair Value Measurements at the End of the Reporting Period Using: In Active Markets For Identical Assets (Level 1)
Mutual Funds	$ 27,344,943	$ 27,344,943
Interest Bearing Cash	13,280	13,280
Total Assets at Fair Value	$ 27,358,223	$ 27,358,223

December 31, 2018	Fair Value	Fair Value Measurements at the End of the Reporting Period Using: In Active Markets For Identical Assets (Level 1)
Mutual Funds	$ 21,571,255	$ 21,571,255
Interest Bearing Cash	30,624	30,624
Total Assets at Fair Value	$ 21,601,879	$ 21,601,879

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2019 and 2018, are reported in net appreciation (depreciation) in fair values of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2019, there no transfers between levels 1, 2 and 3.

7. COLLECTIVE INVESTMENT IN CONTRACTS WITH INSURANCE COMPANIES

During 2019 and 2018, the Plan was entered into benefit-responsive guaranteed investment contracts with the Union Bond & Trust Company Morley Stable Value Fund. The fund maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the Stable Value Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2019 and 2018, was $436,418 and $479,717, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero. A number of factors can influence future crediting rates, which may include but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for reinvestment, duration posture, change in credit ratings, default or bankruptcy by an asset or wrap issuer, the unexpected receipt of principal and interest payments, extraordinary withdrawals and certain wrap contract terms, including wrap fees. The gross crediting rate formula is also subject to re-negotiation by the contract issuer and /or the contract holder. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants is probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields for the years ended December 31, 2019 and 2018 are as follows:

	2019	2018
Blended Net Crediting Rate	2.47%	2.31%
Spot Yield to Maturity	2.16%	3.06%

8. GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANY

Beginning in 2014, the Plan made available investment in the Standard Insurance Company (Standard) Stable Asset Fund III. During 2017, the Plan entered into Standard Insurance Company Stable Asset Funds I and V. The funds are fully benefit-responsive. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the criteria to be considered fully benefit-responsive and therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by the future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) and uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

The contract value of the investment contracts at December 31, 2019 and 2018 was $3,811,669 and $3,529,526, respectively.

9. NOTES RECEIVABLE - PARTICIPANTS

The Plan may make loans to its participants who meet certain eligibility requirements. Among the eligibility requirements are the following:

A) Total loans to a participant may not exceed the lesser of (a) $50,000 or (b) one-half of their vested account balances.

B) The term of the loans shall not exceed five (5) years, except for mortgage loans as outlined in the Plan. Interest is charged at prevailing bank rates.

C) In the event of the termination of a participant, their principal and interest becomes due and payable and the loans will be satisfied before their vested interest is distributed.

At December 31, 2019, the Plan had loans to 100 participants with a combined principal balance of $903,163. At December 31, 2018, the Plan had loans to 126 participants with a combined principal balance of $1,065,518.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. These transactions qualify as parties-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees incurred and paid directly by the Plan for the investment management services were $25,167 and $25,000 at December 31, 2019 and 2018, respectively.
