Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Tarkett Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by U.S. Bank National Association, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2019 and 2018, and for the years then ended, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2019 are required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Tarkett Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Tarkett Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan became effective December 31, 2000. It is a non-contributory defined benefit plan that provides retirement, death and disability benefits for (1) substantially all employees of (i) Tarkett Enterprises Inc., d/b/a Tarkett Delaware, (ii) Tarkett USA Inc., (iii) Domco Products Texas L.P., d/b/a Tarkett Texas, (iv) Tarkett Alabama Inc. and (v) U.S. resident employees of Tarkett Inc. (Canada) (hereafter the Company), who are not covered by a collective bargaining agreement, and (2) substantially all Tarkett Enterprises Inc., d/b/a Tarkett Delaware employees who were members of the (i) Graphic Communications International Union, Local #14, (ii) International Brotherhood of Teamsters, Local #445, or (iii) United Paperworkers International, Local #691. Effective January 1, 2018, as a result of certain Company reorganizations, Tarkett Enterprises Inc. became Tarkett Finance, Inc.

Effective December 31, 2005, the Company froze all benefits under the Plan and froze eligibility into the Plan. As a result, no participant has accrued credited service under the Plan after December 31, 2005.

Effective December 30, 2013, the Plan was amended and restated to include the provisions of the Duramax Hourly Pension Plan (Duramax Sub-Plan) and the Tandus Flooring, Inc. Pension Account Plan (Tandus Sub-Plan) as separate sub-plans to the Plan document.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, the Highway and Transportation Funding Act of 2014 (HTFA), the Moving Ahead for Progress in the 21st Century Act (MAP-21), the 2012 Pension Relief Act, the Worker, Retiree and Employer Recover Act of 2008, and the Preservation of Access to Care for Medicare Beneficiaries, Pension Relief Act of 2010, the Pension Protection Act of 2016 and the Bipartisan Budget Act of 2015. The Plan is administered by the Pension Administration Committee whose members are appointed by the Board of Directors of Tarkett Finance Inc. The Pension Administration Committee is responsible for oversight of the Plan and determines the Plan's investment offerings, monitors investment performance and reports to the Board of Directors of the Company.

Funding policy: The Company makes all contributions to the Plan. Contributions by participants are not permitted. The Plan met the ERISA minimum funding requirements for the years ended December 31, 2019 and 2018.

Payment of benefits: Participants may elect to receive pension benefits in the form of a single life annuity or joint and 50% or 75% survivor annuity. In addition, the Plan provides for optional minimum benefits under certain circumstances including a life annuity, contingent annuity, life annuity with guaranteed payment and single sum distribution. Special provisions apply in the event of death and termination of employment. The Plan provides a death benefit for the surviving spouse of a married participant and for the beneficiary of an unmarried participant equal to the accrued benefit of the deceased participant at the date of his death. If a participant's accrued benefit under the Plan has an actuarially equivalent present value of \$1,000 or less, the full amount of such benefit shall be payable in a lump-sum as soon as administratively feasible.

Salaried and non-bargaining unit employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the sum of 1% of their final average compensation (as defined in the Plan) after December 31, 2000 multiplied by their years of credited service plus their December 31, 2000 accrued benefit according to the prior applicable plan indexed with increases in average compensation. A participant's accrued benefit after December 31, 2005 is based on the credited service and final average compensation as of December 31, 2005. In calculating the accrued benefit of a participant who was transferred to Vails Gate Manufacturing LLC (a subsidiary of Tarkett Finance, Inc.), service and compensation earned shall and will continue to count as credited service under the Plan until December 31, 2005 or the date of the participant's separation from service, if earlier.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Effective December 31, 2000, benefits for active, retired or terminated employees who were participants in the Retirement Plan for Hourly Paid Employees of Tarkett Finance, Inc. and members of the International Brotherhood of Teamsters, Local #445, became "frozen participants" in the Plan. Frozen participants are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the number of years of credited service multiplied by an amount per year of service which is dependent upon the time of retirement and to which Local a participant belonged.

The Plan permits early retirement at ages 55 to 64. Early retirement pension benefits may commence either at retirement or upon the participant's normal retirement date. Benefits paid upon commencement of early retirement are reduced ratably based on the length of time between the participants' actual retirement date and normal retirement date. Frozen participants are 100% vested on their retirement date and eligible for deferred vested pension benefits, payable after their retirement date.

In response to the Federal Pension Protection Act of 2006 requirement that certain benefit restrictions be imposed on pension plans when plan assets are not at least equal to a certain minimum percentage of plan liabilities, restrictions were placed on certain optional forms of benefit payments. For Plan participants whose annuity starting date is on or after April 1, 2009, the benefit payable under certain optional forms of payment permitted to be currently distributed is limited to 50% of the participant's benefit or the value of the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) maximum guaranteed benefit. The optional forms of payment subject to the limit include lump sum distributions, social security level income, and make-up payments under the Plan's Retroactive Annuity Starting Date option. This restriction does not impact the total amount of benefit ultimately payable to participants, nor does it impact the amount of benefit currently payable to participants under the normal annuity form of payment or other optional annuity. For Plan participants who began receiving payments from the Plan prior to April 1, 2009, the amount or timing of benefit payments is not affected.

For participants of the Duramax Sub-Plan, retirement benefits are calculated using a service-based formula with multiple years of credited service by a unit of benefit, as defined. The normal form of retirement benefit for married participants is Joint and Survivor-Half which provides for a reduced monthly retirement benefit to the participant and, upon death, provides the participant's contingent annuitant a benefit equal to one-half of the participant's benefit for the remainder of the annuitant's lifetime. As defined by the Duramax Sub-Plan, for the Johnson Rubber and Johnson Plastics Divisions, other benefit forms are payments to the participants only and Joint and Survivor-Full, with the survivor receiving the same benefit payment as the participant. The participant may change or revoke his election of a benefit option as defined by the Duramax Sub-Plan.

For participants of the Tandus Sub-Plan, participants with five or more years of service are entitled to pension benefits on their normal retirement date (age 65). Participants are given credit toward vesting for prior service with the former owner of the Company. The amount of monthly retirement benefits to be provided for each participant who retires on his/her normal retirement date shall be equal to 1) the "cash balance account", which equals, as of any valuation date (i) the cash balance account as of the preceding valuation date plus (ii) a benefit credit for the valuation period ending on the valuation date plus (iii) an interest credit credited on the valuation date to the participant's cash balance account as of the preceding valuation date, divided by 2) the actuarial equivalent of \$1 per month of credited service payable as a straight-life annuity at normal retirement. The benefit credit for the valuation period will be calculated based on either the hourly employee benefit credit schedule or the salaried employee benefit schedule. Participants may elect to receive their benefit in a form of a lump-sum, a life annuity or a joint and survivor annuity. Death and disability benefits are also provided under the Tandus Sub-Plan.

Vesting: After completion of five years of service, participants are 100% vested and eligible for deferred vested pension benefits, payable after their normal retirement date. A participant who is terminated prior to completion of five years of service is not entitled to benefits.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Administration Committee determines the Plan's valuation policies utilizing information provided by the trustees. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Contributions from the Company are made to the Plan based upon actuarially determined amounts required to fund accrued pension costs and minimum funding requirements required by ERISA and the Plan instrument.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses consist of related accounting costs, investment management fees and other administrative fees and are paid for by the Plan.

Risks and uncertainties: Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits. The Plan's investments are comprised primarily of four common/collective trust funds each of which comprises greater than 10% of the Plan's investments. As such, this is considered to be a concentration of credit risk.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 29, 2020, the date the financial statements were available to be issued.

Tarkett Retirement Plan

Notes to Financial Statements

Note 3. Accumulated Plan Benefits and Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their highest five consecutive years of the last ten years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the Plan was frozen. Benefits payable under all circumstances – retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Participants who were active in the Retirement Plan for Hourly Paid Employees of Tarkett Finance, Inc. were part of the International Brotherhood of Teamsters; Local # 445 is now covered under a separate Teamsters' Union plan and accrues no further benefits under this Plan for service after December 31, 2000. Benefits for all remaining eligible frozen participants or their beneficiaries' benefits are based on their years of credited service to December 31, 2005.

The actuarial present value of accumulated Plan benefits is determined by an independent actuary and results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawals or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated Plan benefits as of January 1, 2019 and 2018 is as follows:

	2019	2018
Actuarial present value of accumulated Plan benefits		
Vested benefits:		
Participants currently receiving payments	\$ 49,445,239	\$ 49,826,257
Other participants	16,097,294	15,230,535
	65,542,533	65,056,792
Non-vested benefits	209,076	219,913
Actuarial present value of accumulated plan benefits as of January 1,	\$ 65,751,609	\$ 65,276,705

A reconciliation of the actuarial present value of accumulated Plan benefits as of January 1, 2018 to the actuarial present value of accumulated Plan benefits as of January 1, 2019 for the Plan follows:

Actuarial present value of accumulated Plan benefits as of January 1, 2018	\$ 65,276,705
Benefits accumulated and (gains) losses	(173,887)
Increase for interest due to decrease in discount period	3,732,163
Benefits paid	(5,674,029)
Change in actuarial assumptions	2,590,657
Actuarial present value of accumulated plan benefits as of January 1, 2019	\$ 65,751,609

The actuarial information included above is based on actuarial data as of January 1, 2019. There were no significant amendments or demographic differences between December 31, 2018 and January 1, 2019.

Tarkett Retirement Plan

Notes to Financial Statements

Note 3. Accumulated Plan Benefits and Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions underlying the actuarial computations as of January 1, 2019 are as follows:

- Investment return – 6.00%.
- Life expectancy of participants – RP2014 base mortality table separate for annuitant/non-annuitant tables projected backwards using MP2014 to 2006 and then forward using MP2018 generational projection scale. Blue collar mortality tables for hourly participants and no collar mortality tables for non-hourly participants.
- Retirement age – 0% retirement below age 55. 100% retirement at age 70. Projected retirement for ages 55 to 69 varies by sub-plan depending on experience of the individual sub-plan.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Note 4. Information Certified by U.S. Bank National Associates

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the years then ended, included in the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets at December 31.

	2019	2018
Investments, at fair value:		
Cash	\$ 1,106	\$ 1,031
Money market fund	199,479	197,830
Common/collective trust funds	61,665,010	54,327,098
	<u>\$ 61,865,595</u>	<u>\$ 54,525,959</u>

The trustee also certified to the completeness and accuracy of the following for the years ended December 31:

	2019	2018
Net appreciation (depreciation) in fair value of investments		
in fair value of investments	<u>\$ 12,817,837</u>	<u>\$ (2,933,094)</u>
Interest and dividend income	<u>\$ 7,015</u>	<u>\$ 4,559</u>

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Cash: Valued at the closing price reported on the active market on which the fund is traded, generally at \$1 per share.

Money market fund: Valued at fair value based on the quoted market price of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

Tarkett Retirement Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2019			
	Level 1	Level 2	Level 3	Total
Cash	\$ 1,106	-	-	\$ 1,106
Money market fund	199,479	-	-	199,479
Total assets in the fair value hierarchy	\$ 200,585	\$ -	\$ -	200,585
Investments measured at net asset value ^(a)				61,665,010
Investments at fair value				\$ 61,865,595

	2018			
	Level 1	Level 2	Level 3	Total
Cash	\$ 1,031	-	-	\$ 1,031
Money market fund	197,830	-	-	197,830
Total assets in the fair value hierarchy	\$ 198,861	\$ -	\$ -	198,861
Investments measured at net asset value ^(a)				54,327,098
Investments at fair value				\$ 54,525,959

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2019 and 2018, there were no transfers in or out of Levels 1, 2, or 3.

The following table sets forth additional disclosures of the Plan's investments whose fair values are estimated using net asset value per share (or its equivalent) as of December 31:

<u>Investments</u>	<u>Fair Value</u>		<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
	<u>2019</u>	<u>2018</u>			
Common/collective trust funds	\$ 61,665,010	\$ 54,327,098	None	Daily	None

Note 6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 25, 2017, stating that the Plan is qualified pursuant to the provisions of the Internal Revenue Code (IRC). The Plan is required to operate in conformity with the IRC to maintain its qualification. The Pension Administrative Committee believes that the Plan, as subsequently amended, is designed and being operated in compliance with the applicable requirements of IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2019 and 2018, the Plan administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 7. Plan Termination

The Company intends to continue the Plan indefinitely without interruption, but reserves the right to discontinue at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- i) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.

The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding plan termination.

- ii) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations (discussed below).
- iii) All other vested benefits (that is, vested benefits not insured by the PBGC).
- iv) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

That ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in a form other than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Notes to Financial Statements

Note 8. Parties-in-Interest Transactions

Certain Plan investments are invested in funds managed by U.S. Bank National Association, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trustees, its affiliates, and other parties-in-interest totaled \$444,003 and \$451,735 during the years ended December 31, 2019 and 2018, respectively. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 9. Subsequent Event

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has caused significant volatility within the Plan's investment portfolio. The extent to which the coronavirus impacts the performance of the Plan's investment portfolio will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and actions taken to contain the coronavirus or its impact, among others.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**RATIONALE FOR SIGNIFICANT ECONOMIC ASSUMPTIONS**

- **Discount rate for funding** – The funding discount rate is prescribed by the IRS and based on the plan sponsor's election.
- **Expected investment return for funding** – The expected rate of return on plan assets is based on the simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset mix, net of an adjustment of 12 bps for expenses assumed to be paid from plan assets.
- **Administrative expense** – Assumption set equal to the average of the prior three year's actual administrative expenses, rounded to the nearest \$10,000. This avoids volatile administrative projects year over year causing significant changes to our administrative expense assumption.
- **Interest crediting rate** – The cash balance interest crediting rate is prescribed in the former Tandus Flooring, Inc. Pension Account Plan provisions as summarized below.
- **Interest rate for ASC 960** – The interest rate for ASC 960 is based on the long-term rate of return on plan assets. The expected long-term rate of return on plan assets was selected by the plan sponsor. We test the reasonableness of the chosen rate using the simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix, net of an adjustment of 12 basis points for investment expenses assumed to be paid from plan assets.

RATIONALE FOR SIGNIFICANT DEMOGRAPHIC ASSUMPTIONS

- **Funding Mortality** – The funding mortality is prescribed by the IRS and based on the plan sponsor's election.
- **Mortality for ASC 960** – Mortality is assumed to follow the RP-2014 mortality rates projected backwards to 2006 using the MP2014 projection scale and forward using MP2018 generational projection scale. The base mortality table was published in 2014 by the Society of Actuaries. The plan's relatively small size would not support a credible mortality study. The plan sponsor is not aware of factors which would cause the expected mortality for their plan participants to differ substantially from that of the general population of pension plan participants; accordingly, the most recently published table was selected. The blue collar mortality rates were selected for the hourly participants and no-collar mortality rates were selected for the non-hourly participants because the plan's participants are a mix of salaried and hourly employees. Future mortality improvement is assumed to follow Scale MP2018, which is the most recently published mortality improvement scale by the Society of Actuaries.
- **Retirement incidence, withdrawal incidence, disability incidence, deferred vested benefit commencement date, form of payment and spouse age difference assumptions** – Assumptions were developed in 2017 based on an experience analysis covering the period January 1, 2012 to December 31, 2016. For Tandus, 100% of participants are assumed to elect a lump sum of their cash balance account, based on experience that shows very few participants elect the actuarially equivalent annuity options

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**ACTUARIAL METHODS FOR FUNDING****Asset methods**

The asset valuation method is an annual average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**RATIONALE FOR SIGNIFICANT ECONOMIC ASSUMPTIONS**

- **Discount rate for funding** – The funding discount rate is prescribed by the IRS and based on the plan sponsor's election.
- **Expected investment return for funding** – The expected rate of return on plan assets is based on the simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset mix, net of an adjustment of 12 bps for expenses assumed to be paid from plan assets.
- **Administrative expense** – Assumption set equal to the average of the prior three year's actual administrative expenses, rounded to the nearest \$10,000. This avoids volatile administrative projects year over year causing significant changes to our administrative expense assumption.
- **Interest crediting rate** – The cash balance interest crediting rate is prescribed in the former Tandus Flooring, Inc. Pension Account Plan provisions as summarized below.
- **Interest rate for ASC 960** – The interest rate for ASC 960 is based on the long-term rate of return on plan assets. The expected long-term rate of return on plan assets was selected by the plan sponsor. We test the reasonableness of the chosen rate using the simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix, net of an adjustment of 12 basis points for investment expenses assumed to be paid from plan assets.

RATIONALE FOR SIGNIFICANT DEMOGRAPHIC ASSUMPTIONS

- **Funding Mortality** – The funding mortality is prescribed by the IRS and based on the plan sponsor's election.
- **Mortality for ASC 960** – Mortality is assumed to follow the RP-2014 mortality rates projected backwards to 2006 using the MP2014 projection scale and forward using MP2018 generational projection scale. The base mortality table was published in 2014 by the Society of Actuaries. The plan's relatively small size would not support a credible mortality study. The plan sponsor is not aware of factors which would cause the expected mortality for their plan participants to differ substantially from that of the general population of pension plan participants; accordingly, the most recently published table was selected. The blue collar mortality rates were selected for the hourly participants and no-collar mortality rates were selected for the non-hourly participants because the plan's participants are a mix of salaried and hourly employees. Future mortality improvement is assumed to follow Scale MP2018, which is the most recently published mortality improvement scale by the Society of Actuaries.
- **Retirement incidence, withdrawal incidence, disability incidence, deferred vested benefit commencement date, form of payment and spouse age difference assumptions** – Assumptions were developed in 2017 based on an experience analysis covering the period January 1, 2012 to December 31, 2016. For Tandus, 100% of participants are assumed to elect a lump sum of their cash balance account, based on experience that shows very few participants elect the actuarially equivalent annuity options

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**ACTUARIAL METHODS FOR FUNDING****Asset methods**

The asset valuation method is an annual average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V – Summary of Plan Provisions**SUMMARY OF MAJOR PLAN PROVISIONS – TARKETT RETIREMENT PLAN**

Effective date and plan year	Original plan: January 1, 2002 (with some provisions having earlier effective dates to comply with applicable law) Most recent amendment: December 20, 2013

SUMMARY OF MAJOR PLAN PROVISIONS – FORMER TANDUS FLOORING, INC. PENSION ACCOUNT PLAN

Effective date and plan year	Original plan: February 6, 1997 Most recent amendment: December 23, 2013
Plan Year	January 1st to December 31st
Status of the plan	All retirement benefits are frozen as of April 30, 2002. As of April 30, 2002, no new participants are permitted. The plan was merged into the Tarkett Retirement Plan effective December 30, 2013.
Significant events that occurred during the year	None

DEFINITIONS

• Eligibility	An employee can enter the plan once they have attained the later of age 20 ½ and the completion of six month of service. The plan was frozen as of April 30, 2002.
• Credited Service	All years and months of employment with Tandus, Flooring, Inc. from date of hire to the earliest of retirement, termination of employment, or death. The plan was frozen effective April 30, 2002 and no additional benefits accrued after this date.
• Vesting Schedule	Any participants credited with an hour of service on or after January 1, 2008 are fully vested after accumulating three years of vesting service. Any participants not credited with an hour of service on or after January 1, 2008 are fully vested after accumulating five years of vesting service.

Schedule SB, Part V – Summary of Plan Provisions

A participant becomes 100% vested regardless of service level at the attainment of his Normal Retirement Date or the date he becomes eligible for a disability retirement.

Effective October 1, 2004, Monterey employees terminated as a result of the closing of all operations will be 100% vested regardless of vesting schedule.

- Compensation

Wages as defined in Code Section 3401(a), paid for such Earnings Computation Period for services as an Employee that would be used for purposes of income tax withholding at the source, determined without regard to any rules that limit compensation included in wages based on the nature or location of the employment or services performed, but excluding reimbursements or other expense allowances, fringe benefits, moving expenses, deferred compensation, and welfare payments.

Notwithstanding the foregoing, Earnings shall not include the following:

- (1) the value of any qualified or non-qualified stock option granted to the Participant by his Employer to the extent such value is includible in the Participant's taxable income.
- (2) any other cash remuneration attributable to the sale, exchange or other disposition of stock, and any cash remuneration under any phantom or shadow stock plan or similar arrangement which bases benefits primarily on stock appreciation or per share earnings or performance.

In addition to the foregoing, Earnings include any amount that would have been included in the foregoing description, but for the Participant's election to defer payment of such amount under Code Section 125, 132(f), 402(e)(3), 402(h)(1)(B), 403(b), or 457(b) and certain contributions described in Code Section 414(h)(2) that are picked up by the employing unit and treated as employer contributions.

In no event, however, shall the Earnings of a Participant taken into account under the Plan for any 12-consecutive Valuation Periods (the "limitation period") exceed \$200,000 (subject to adjustment annually as provided in Code Section 401(a)(17)(B); provided, however, that the dollar increase in effect on January 1 of any calendar year, if any, is effective for limitation periods beginning in such calendar year).

- Accrued benefit

The amount of monthly retirement benefits to be provided for each

Schedule SB, Part V – Summary of Plan Provisions

Participant who retires on his Normal Retirement Date shall be equal to the amount of the Participant's Cash Balance Account as of the preceding Valuation Date, divided by the Actuarial Equivalent of \$1.00 per month payable as a straight life annuity at Normal Retirement.

NORMAL RETIREMENT

- Eligibility First day of the month coinciding with or next following the later of the date a Participant reaches age 65.

- Benefit
 - I. Cash Balance Account

The amount of monthly retirement benefits to be provided for each Participant who retires on his Normal Retirement Date shall be equal to A divided by B, where A is the Cash Balance Account and equals as of any Valuation Date (i) the Cash Balance Account as of the preceding Valuation Date, plus (ii) a Benefit Credit for the Valuation Period ending on the Valuation Date, plus (iii) an Interest Credit credited on the Valuation Date to the Participant's Cash Balance Account as of the preceding Valuation Date, and B equals the Actuarial Equivalent of \$1.00 per month payable as a straight life annuity at Normal Retirement.

II. Benefit Credit Schedules

A. Salaried Employee of the Employer

The amount of the Benefit Credit for each Participant who is a Salaried Employee of the Employer for the Valuation Period shall be equal to the product of his Compensation and his Excess Compensation for the Valuation Period then ended multiplied by the applicable percentages from the following schedule based on his Period of Service¹ or his attained age¹ (whichever yields the largest Benefit Credit) on the last day of the Valuation Period:

Period of Service ¹	Attained Years of Age ¹	Compensation	Applicable Percentage of Excess Compensation ²
Less than 10 years	Less than 50	2.5%	2.0%
10 – 14	50 – 54	3.0%	2.5%
15 – 19	55 – 59	4.0%	2.5%
20 – 24	60 – 64	5.0%	3.0%
25 or more years	65 or more	6.0%	4.0%

Schedule SB, Part V – Summary of Plan Provisions

¹ Plan was frozen effective April 30, 2002. No additional benefits are accrued after this date.

² Excess Compensation equals compensation in excess of one-third of the Taxable Wage Base.

B. Hourly Employee of the Employer

Assignment to Benefit Category. Each participant who is an Hourly Employee of the Employer shall be assigned to a Benefit Category shown in the following table based on his Compensation Amount at the time of his commencement of participation in the Plan:

<u>Compensation Amount</u>	<u>Benefit Category</u>
Less than \$16,500	1
\$16,500 to \$19,499	2
\$19,500 to \$22,499	3
\$22,500 to \$25,499	4
\$25,500 to \$28,499	5
More than \$28,500	6

Benefit Credits. The amount of the Benefit Credit for each Participant who is an Hourly Employee for the Employer shall be determined from the following schedule based on the Participant's Benefit Category and Period of Service¹ on the last day of the Valuation Period

Period of Service¹	Benefit Category(monthly)					
	1	2	3	4	5	6
Less than 5 yrs	\$25.00	\$30.00	\$35.00	\$40.00	\$45.00	\$50.00
5 – 9	\$31.25	\$37.50	\$43.75	\$50.00	\$56.25	\$62.50
10 – 14	\$37.25	\$45.00	\$52.50	\$60.00	\$67.50	\$75.00
15 – 19	\$50.00	\$60.00	\$70.00	\$80.00	\$90.00	\$100.00
20 – 24	\$62.50	\$75.00	\$87.50	\$100.00	\$112.50	\$125.00
25 or more yrs	\$75.00	\$90.00	\$105.00	\$120.00	\$135.00	\$150.00

¹ Plan was frozen effective April 30, 2002. No additional benefits are accrued after this date.

Benefit Credits shall continue to be credited to a Participant's Cash Balance Account as provided in this paragraph B until the earlier of (a) the date the Participant is no longer actively employed or (b) the Participant's Annuity Starting Date.

III. Interest Credit

The amount determined by multiplying the Participant's Cash Balance Account as of the beginning of the Valuation Period then ended by a percentage rate which, when compounded on each Valuation Date within the current Plan Year, shall equal an effective annual rate equal to the Interest Credit Rate for the Plan year. Interest Credits shall continue to be credited to a

Schedule SB, Part V – Summary of Plan Provisions

Participant's Annuity Starting Date.

Interest Credit Rate for a Plan Year means the Average Yield on one year United States Treasury Bills for the calendar year immediately preceding such Plan Year, as reported in the Federal Reserve Statistical Release (G.13) of the Board of Governors of the Federal Reserve System on the first business day after the close of such calendar year.

The Interest Credit Rate for a Plan Year, however, shall not be less than five percent per annum or more than twelve percent per annum.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, on a merged plan basis are included in this valuation.

- **Most recent plan amendments included:** Duramax Hourly Pension Plan and Tandus Flooring, Inc. Pension Account Plan merged into the Tarkett Retirement Plan effective December 30, 2013 which was reflected in the December 20, 2013 amendment.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The actuarially increased normal retirement benefit is valued as a minimum benefit for any participant over normal retirement age.

Schedule SB, Part V – Summary of Plan Provisions

- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued with the application of an actuarial increase due to delayed receipt as of the valuation date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

PLAN PROVISIONS SPECIFIC TO FUNDING**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 32 — Schedule of Amortization Bases

Note that the chart above excludes 25 participants who are still active employees within the controlled group but have transferred out of locations with ongoing benefit accruals.

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Effective date and plan year	Original plan: February 6, 1997 Most recent amendment: December 23, 2013
Plan Year	January 1st to December 31st
Status of the plan	All retirement benefits are frozen as of April 30, 2002. As of April 30, 2002, no new participants are permitted. The plan was merged into the Tarkett Retirement Plan effective December 30, 2013.
Significant events that occurred during the year	None

DEFINITIONS

• Eligibility	An employee can enter the plan once they have attained the later of age 20 ½ and the completion of six month of service. The plan was frozen as of April 30, 2002.
• Credited Service	All years and months of employment with Tandus, Flooring, Inc. from date of hire to the earliest of retirement, termination of employment, or death. The plan was frozen effective April 30, 2002 and no additional benefits accrued after this date.
• Vesting Schedule	Any participants credited with an hour of service on or after January 1, 2008 are fully vested after accumulating three years of vesting service. Any participants not credited with an hour of service on or after January 1, 2008 are fully vested after accumulating five years of vesting service.

Schedule SB, Part V – Summary of Plan Provisions

A participant becomes 100% vested regardless of service level at the attainment of his Normal Retirement Date or the date he becomes eligible for a disability retirement.

Effective October 1, 2004, Monterey employees terminated as a result of the closing of all operations will be 100% vested regardless of vesting schedule.

- Compensation

Wages as defined in Code Section 3401(a), paid for such Earnings Computation Period for services as an Employee that would be used for purposes of income tax withholding at the source, determined without regard to any rules that limit compensation included in wages based on the nature or location of the employment or services performed, but excluding reimbursements or other expense allowances, fringe benefits, moving expenses, deferred compensation, and welfare payments.

Notwithstanding the foregoing, Earnings shall not include the following:

- (1) the value of any qualified or non-qualified stock option granted to the Participant by his Employer to the extent such value is includible in the Participant's taxable income.
- (2) any other cash remuneration attributable to the sale, exchange or other disposition of stock, and any cash remuneration under any phantom or shadow stock plan or similar arrangement which bases benefits primarily on stock appreciation or per share earnings or performance.

In addition to the foregoing, Earnings include any amount that would have been included in the foregoing description, but for the Participant's election to defer payment of such amount under Code Section 125, 132(f), 402(e)(3), 402(h)(1)(B), 403(b), or 457(b) and certain contributions described in Code Section 414(h)(2) that are picked up by the employing unit and treated as employer contributions.

In no event, however, shall the Earnings of a Participant taken into account under the Plan for any 12-consecutive Valuation Periods (the "limitation period") exceed \$200,000 (subject to adjustment annually as provided in Code Section 401(a)(17)(B); provided, however, that the dollar increase in effect on January 1 of any calendar year, if any, is effective for limitation periods beginning in such calendar year).

- Accrued benefit

The amount of monthly retirement benefits to be provided for each

Schedule SB, Part V – Summary of Plan Provisions

Participant who retires on his Normal Retirement Date shall be equal to the amount of the Participant's Cash Balance Account as of the preceding Valuation Date, divided by the Actuarial Equivalent of \$1.00 per month payable as a straight life annuity at Normal Retirement.

NORMAL RETIREMENT

- **Eligibility** First day of the month coinciding with or next following the later of the date a Participant reaches age 65.

- **Benefit**

I. Cash Balance Account

The amount of monthly retirement benefits to be provided for each Participant who retires on his Normal Retirement Date shall be equal to A divided by B, where A is the Cash Balance Account and equals as of any Valuation Date (i) the Cash Balance Account as of the preceding Valuation Date, plus (ii) a Benefit Credit for the Valuation Period ending on the Valuation Date, plus (iii) an Interest Credit credited on the Valuation Date to the Participant's Cash Balance Account as of the preceding Valuation Date, and B equals the Actuarial Equivalent of \$1.00 per month payable as a straight life annuity at Normal Retirement.

II. Benefit Credit Schedules**A. Salaried Employee of the Employer**

The amount of the Benefit Credit for each Participant who is a Salaried Employee of the Employer for the Valuation Period shall be equal to the product of his Compensation and his Excess Compensation for the Valuation Period then ended multiplied by the applicable percentages from the following schedule based on his Period of Service¹ or his attained age¹ (whichever yields the largest Benefit Credit) on the last day of the Valuation Period:

Period of Service¹	Attained Years of Age¹	Compensation	Applicable Percentage of Excess Compensation²
Less than 10 years	Less than 50	2.5%	2.0%
10 – 14	50 – 54	3.0%	2.5%
15 – 19	55 – 59	4.0%	2.5%
20 – 24	60 – 64	5.0%	3.0%
25 or more years	65 or more	6.0%	4.0%

Schedule SB, Part V – Summary of Plan Provisions

¹ Plan was frozen effective April 30, 2002. No additional benefits are accrued after this date.

² Excess Compensation equals compensation in excess of one-third of the Taxable Wage Base.

B. Hourly Employee of the Employer

Assignment to Benefit Category. Each participant who is an Hourly Employee of the Employer shall be assigned to a Benefit Category shown in the following table based on his Compensation Amount at the time of his commencement of participation in the Plan:

<u>Compensation Amount</u>	<u>Benefit Category</u>
Less than \$16,500	1
\$16,500 to \$19,499	2
\$19,500 to \$22,499	3
\$22,500 to \$25,499	4
\$25,500 to \$28,499	5
More than \$28,500	6

Benefit Credits. The amount of the Benefit Credit for each Participant who is an Hourly Employee for the Employer shall be determined from the following schedule based on the Participant's Benefit Category and Period of Service¹ on the last day of the Valuation Period

Period of Service¹	Benefit Category(monthly)					
	1	2	3	4	5	6
Less than 5 yrs	\$25.00	\$30.00	\$35.00	\$40.00	\$45.00	\$50.00

10 – 14	\$37.25	\$45.00	\$52.50	\$60.00	\$67.50	\$75.00
15 – 19	\$50.00	\$60.00	\$70.00	\$80.00	\$90.00	\$100.00
20 – 24	\$62.50	\$75.00	\$87.50	\$100.00	\$112.50	\$125.00
25 or more yrs	\$75.00	\$90.00	\$105.00	\$120.00	\$135.00	\$150.00

¹ Plan was frozen effective April 30, 2002. No additional benefits are accrued after this date.

Benefit Credits shall continue to be credited to a Participant's Cash Balance Account as provided in this paragraph B until the earlier of (a) the date the Participant is no longer actively employed or (b) the Participant's Annuity Starting Date.

III. Interest Credit

The amount determined by multiplying the Participant's Cash Balance Account as of the beginning of the Valuation Period then ended by a percentage rate which, when compounded on each Valuation Date within the current Plan Year, shall equal an effective annual rate equal to the Interest Credit Rate for the Plan year. Interest Credits shall continue to be credited to a

Schedule SB, Part V – Summary of Plan Provisions

Participant's Annuity Starting Date.

Interest Credit Rate for a Plan Year means the Average Yield on one year United States Treasury Bills for the calendar year immediately preceding such Plan Year, as reported in the Federal Reserve Statistical Release (G.13) of the Board of Governors of the Federal Reserve System on the first business day after the close of such calendar year.

The Interest Credit Rate for a Plan Year, however, shall not be less than five percent per annum or more than twelve percent per annum.

EARLY RETIREMENT

- Eligibility The plan does not provide for an Early Retirement Benefit.

PRE-RETIREMENT DEATH

- Eligibility The spouse of a married participant is eligible if the participant dies after satisfying the eligibility requirements for vested benefits.
- Benefit Actuarial equivalent of the Participant's Accrued Benefit.

FORM OF BENEFITS

- Automatic form for unmarried participants Unless otherwise elected, any benefit payable under the plan shall be paid on a straight-life basis.
- Automatic form for married participants Unless otherwise elected, any benefit payable under the plan shall be paid on a 50% joint and contingent annuitant annuity basis.
- Optional forms All employees commencing benefits may elect to have his lifetime benefit payable on an actuarially equivalent to:
 - 50%, 66 2/3%, 75% or 100% joint and contingent annuity
 - 5-year, 10-year or 15-year certain and life annuity
 - 5-year, 10-year or 15-year term certain annuity

Single sum payment

MISCELLANEOUS

- Maximum benefits Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2019, the limit is \$225,000

Benefits included or excluded

Unless noted below, all benefits provided by the plan, on a merged plan basis are included in this valuation.

- **Most recent plan amendments included:** Duramax Hourly Pension Plan and Tandus Flooring, Inc. Pension Account Plan merged into the Tarkett Retirement Plan effective December 30, 2013 which was reflected in the December 20, 2013 amendment.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The actuarially increased normal retirement benefit is valued as a minimum benefit for any participant over normal retirement age.

Schedule SB, Part V – Summary of Plan Provisions

- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued with the application of an actuarial increase due to delayed receipt as of the valuation date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

PLAN PROVISIONS SPECIFIC TO FUNDING**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 32 — Schedule of Amortization Bases

Note that the chart above excludes 25 participants who are still active employees within the controlled group but have transferred out of locations with ongoing benefit accruals.

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.
