**VIRGINIA UNION UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2019**

Note 1. Plan Description

The following description of the Virginia Union University Defined Contribution Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Virginia Union University (the “University”) normally working more than 20 hours per week. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was restated effective January 1, 2019, to remove the exclusion of non-resident aliens, redefine the eligibility for employer contributions from 1 year of service to 12 months of service, and add the option for distribution payments in installments.

Contributions

Each year, participants may contribute a portion of their compensation as a pre-tax deferral as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The University contributes 4.5% of the employee’s compensation provided the employee contributes at least 3.5%, is 21 years of age, and has completed 12 months of service. Contributions are subject to certain limitations.

Participant accounts

Each participant’s account is credited with the participant’s contribution, the University’s contribution, and an allocation of earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions and the University portion of their account plus earnings thereon.

Payments of benefits

On termination of service due to death, disability, retirement, or other reasons, a participant with a vested account balance exceeding \$5,000 may elect to receive a lump-sum distribution, installments, annuity payments, or any other form of distribution permitted by Principal Trust Company and TIAA equal to the value of the participant’s vested interest in his or her account. Vested account balances between \$1,000 and \$5,000, will be distributed in a lump-sum payment. Absent a distribution election from a participant or beneficiary, vested account balances less than \$1,000 will be distributed as an automatic rollover payable to an individual retirement plan as directed by the Plan Administrator.

(Continued)

**VIRGINIA UNION UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2019**

Note 1. Plan Description (Continued)

Notes from participants

Participants may borrow from their account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested balance. Note terms range from 1 to 5 years, unless the note is for purchase of a primary residence, in which case the term may exceed 5 years. The notes are secured by the balance in the participant's account and bear interest at market rates. Interest rate on notes were 5.25% to 7.50% at December 31, 2019. Principal and interest are paid ratably through payroll deductions.

Note 2. Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of investments and income recognition

The Plan's investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Significant Accounting Policies (Continued)

Valuation of investments and income recognition (Continued)

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes from participants

Notes from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Benefit payments

Benefit payments are recorded when paid.

Administrative expenses

Substantially all Plan fees and administrative expenses are paid by the Plan and are netted with investment income.

Note 3. Fair Value Measurements

The Plan's mutual funds, pooled separate account, and non benefit-responsive traditional annuity investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Fair Value Measurements (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Note 4. Non Benefit-Responsive Investment Contracts

TIAA Traditional Annuity

Participants may choose to invest in a TIAA Traditional Annuity account that is not a fully benefit-responsive traditional investment contract. This contract pays a guaranteed rate of interest plus additional amounts that are not guaranteed but may be established on a year-by-year basis. These additional amounts, when declared, remain in effect through the end of the “declaration year,” which begins each March 1. Contributions to a participant’s account provide a guaranteed amount of lifetime annuity income. The guaranteed minimum interest rate is generally 3.00%. The interest rates ranged from 3.00% to 4.00% for the year ended December 31, 2019 and was 4.00% for the year ended December 31, 2018.

Note 5. Fully Benefit-Responsive Investment Contracts

TIAA Traditional Annuity

Participants may also invest in a TIAA Traditional Annuity account that is a fully benefit-responsive traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. This contract maintains the participants’ contributions plus a specified rate of interest and is guaranteed by TIAA’s claims paying ability. Contributions to a participant’s account provide a guaranteed amount of lifetime annuity income.

Note 5. Fully Benefit-Responsive Investment Contracts (Continued)

TIAA Traditional Annuity (Continued)

The guaranteed minimum interest rate is generally 3.00%. The expected rate of return in the fully benefit-responsive Traditional Annuity account ranged from 3.00% to 3.25% for the year ended December 31, 2019 and was 3.25% for the year ended December 31, 2018. The actual average yield earned by the Plan was 3.16% and 3.06% for the years ended December 31, 2019 and 2018, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Principal Fixed Income Guaranteed Option

Participants may choose to invest in the Principal Fixed Income Guaranteed Option issued by the Principal Life Insurance Company. This investment meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. This investment is a single group annuity contract with a fixed rate of interest which is reset on a semiannual basis. The fixed rate will never be less than 1.00% or greater than 3.00%. The value of this investment is stated at contract value in the financial statements.

The average yield earned by the Plan is the yield earned on the group annuity contract. The guaranteed minimum interest rate ranged from 1.10% to 1.25% for the year ending December 31, 2019 and ranged from 1.10% to 1.15% for the year ending December 31, 2018. The actual average yield earned by the Plan was 1.13% and 1.25% for the years ending December 31, 2019 and 2018, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The following represents the total contract value of this investment contract held by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a semi-annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

Note 5. Fully Benefit-Responsive Contracts (Continued)

The following represents the total contract value of these traditional investment contracts held by the Plan.

	<u>2019</u>	<u>2018</u>
TIAA traditional annuity	\$ 266,502	\$ 262,342
Principal fixed income guaranteed option	<u>107,773</u>	<u>97,909</u>
	<u>\$ 374,275</u>	<u>\$ 360,251</u>

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the *Internal Revenue Code* or the failure of the trust to be tax-exempt under Section 501(a) of the *Internal Revenue Code*
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Other Plan Sponsor events that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

Note 5. Fully Benefit-Responsive Contracts (Continued)

When a participant's account in the non benefit-responsive and fully benefit-responsive TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. This annuitization is accounted for as an annuity settlement option, a type of distribution from the Plan used to purchase individual annuity contracts. The subsequent stream of annuity payments from the individual contract occurs outside of the Plan and does not represent an obligation of the Plan.

TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract.

Note 6. Related-Party Transactions

Certain administrative functions are performed by officers or employees of the University. These employees are also Plan participants. No such officer or employee receives compensation from the Plan.

Plan participants may choose to invest in funds held by TIAA, CREF, and Principal Trust Company. Investments in funds issued and managed by TIAA, CREF, and Principal Trust Company are considered related-party transactions. Fees paid to Principal Trust Company by the Plan for investment management and custodial services amounted to \$6,834 for the year ended December 31, 2019. Fees paid to TIAA by the Plan for the year ended December 31, 2019 were netted with investment income as discussed in Note 2.

Note 7. Plan Termination

Although they have not expressed any intent to do so, the University has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

The Plan was restated to a volume submitter plan sponsored by Alliant Insurance Services, Inc. effective January 1, 2019. The Plan is designed in accordance with applicable sections of the *Internal Revenue Code (IRC)*. The Plan Sponsor and Administrator believe that the Plan is currently being operated in compliance with the applicable requirements of the *IRC*.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 10. Contingency

Participants of the Plan may obtain loans directly from TIAA. These loans are securitized by the individual participant's account. As of December 31, 2019 and 2018, Plan loans were \$204,774 and \$204,354 respectively.

Note 11. Subsequent Events

Subsequent events have been evaluated through October 7, 2020, the date the financial statements were available to be issued.

In December 2019, a novel strain of coronavirus (COVID-19) was reported and the full impact of the outbreak continues to evolve as of the date of this report. The World Health Organization declared the outbreak a "Public Health Emergency of International Concern" on January 30, 2020. The Plan sponsor's operations have been affected by closures and stay at home orders issued in March and April 2020 by government officials in response to the COVID-19 outbreak. The extent of the impact of COVID-19 on the Plan sponsor's operations will depend on the duration and spread of the outbreak, which is uncertain and cannot be predicted. The extent to which COVID-19 may impact plan activity cannot be reasonably estimated at this time.
