DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Dawson Resources 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General - The Plan was established on January 1, 2007 and is a defined contribution Plan covering all employees of DeCapua Enterprises d.b.a Dawson Resources (the Company) who are age 21 or older and have completed one year of service or 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute up to 100% of their annual compensation provided, however, that such contribution does not exceed the Internal Revenue Service (IRS) prescribed limitations. The Plan allows participants who have attained age 50 by the end of the Plan year to make catch-up contributions in accordance with Internal Revenue Code (IRC) Section 414(v). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may decide to make matching and profit sharing contributions, solely at the Company's discretion. There were no profit sharing or matching contributions made for the year ended December 31, 2019.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the remainder of an employee's account is based on the employee's years of service. A participant is 100% vested after six years of credited service. Upon retirement, death or disability, participants become 100% vested in their accounts.

Forfeitures - Forfeitures of terminated participants' nonvested accounts can be used to offset current-year Plan expenses or to reduce employer contributions. At December 31, 2019 and 2018, forfeited nonvested accounts totaled approximately \$12,000. No forfeitures were used to offset current-year Plan expenses or to reduce employer contributions during 2019.

Payment of Benefits - On termination of service, disability, retirement or death, a participant may elect to receive a lump-sum distribution equal to the value of his or her vested interest in the account.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan sponsor in preparation of the accompanying financial statements follows:

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment adviser, custodian and insurance company. See Note 4 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit distributions are recorded when paid.

Administrative Expenses - Administrative expenses of the Plan, including trustee, service provider and audit fees, are paid for by the Plan or the Plan sponsor.

NOTE 3 - CERTIFICATION

The Plan administrator has received certification from Nationwide Financial Services, Inc. (Nationwide), the trustee of the Plan's assets, as to the completeness and accuracy of the investments and related investment income. Such information includes the composition and current value of the investments reported in the statements of net assets available for benefits and the related investment income reported in the statement of changes in net assets available for benefits.

NOTE 4 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 4 - FAIR VALUE MEASUREMENT (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The fair value of these assets are measured using Level 1 inputs.

Money Market Fund: Valued at cost, which approximates fair value. The fair value of these assets are measured using Level 1 inputs.

The method described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become fully vested in their accounts.

NOTE 6 - TAX STATUS

The Plan adopted a form of a prototype plan sponsored by Trinity Pension Consultants, Inc. The prototype plan received an opinion letter dated January 22, 2018 from the IRS, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC.

DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

NOTE 6 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to examinations for years prior to 2016.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Nationwide. Nationwide is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan. These transactions qualify as party-in-interest transactions.

NOTE 8 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - FORM 5500 RECONCILIATION

The following is a reconciliation of net assets available for benefits and of changes in net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	<u>2019</u>	<u>2018</u>

NOTE 10 - SUBSEQUENT EVENTS

Subsequent events are defined as events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are issued or are available to be issued. Management has evaluated subsequent events through October 9, 2020, the date that the financial statements were issued and determined that there have been no events that have occurred that would require adjustments to the disclosures in the financial statements except for the matter described in the following paragraph.

The coronavirus pandemic could materially and adversely affect the Plan, its operations and its performance. Government-imposed quarantines have caused volatile market performance of the investments. Additionally, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law, which provides both plan sponsor and participant relief. On August 12, 2020, the Plan was amended to allow participants to take COVID-19-related distributions up to \$100,000. Management of the Plan is unable to accurately predict how the coronavirus will affect the results of Plan operations because of the severity and duration of the pandemic are uncertain. However, while it is premature to accurately predict the ultimate impact of these developments, Plan management expects the Plan's results for the year ended December 31, 2020 to be materially impacted.
