BearCom Wireless Worldwide 401(K) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the BearCom Wireless Worldwide 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined contribution plan established by BearCom Operating L.L.C. (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company.

The Plan was established on January 1, 1992. All employees of the Company are eligible to participate provided they are at least 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the Plan Committee, which is appointed by the board of directors of the Company. The Plan's trustee, Fidelity Management Trust Company, is responsible for the custody and management of the Plan's assets.

Contributions

Each year, participants may contribute up to 50% of pretax annual compensation as defined in the Plan, subject to the dollar limitation under §402(g) of the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also designate some of their contributions as after tax contributions to a Roth 401(k) option. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make matching and non-elective contributions to the Plan each year to be determined annually at the discretion of the Board of Directors. For the time period of January 1, 2014 through June 30, 2015, the matching contribution did not exceed 10% of the first 5% of the participant compensation contributed as pre-tax contributions. Effective July 1, 2015, the matching contribution, if any, will not exceed 25% of the first 5% of the participant compensation contributed as pre-tax contributions.

Effective April 1, 2020, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants will have their deferral rate set at 3 percent of eligible compensation.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching and non-elective contributions, as well as the participant's share of investment income, appreciation (depreciation) and any related administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of vesting service, subject to the following vesting schedule:

Years of Credited Service	Percentage Vested
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of one thousand dollars ($1,000) up to a maximum equal to the lesser of fifty thousand dollars ($50,000) or fifty percent (50%) of their account balance. The loans are secured by the balance in the participant's account and bear interest. Principal and interest are paid ratably through payroll deductions.

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, for or on behalf of the participant, to any one or more of the investment funds determined at the discretion of the Plan committee and in such multiples as the participant prescribes. A participant may change their investment direction with respect to future contributions or redirect the investment of their account balances.

Payment of Benefits

Upon retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $16,530 and $8,881, respectively. These accounts will be used to reduce future Company contributions and to pay Plan expenses. There were $10,110 and $1,459 forfeitures used to offset employer contributions and/or administrative expenses for the years ended December 31, 2019 and 2018, respectively.

Note 2. Summary of Significant Accounting Policies

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and Plan management deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative expenses of the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board issued *Accounting Standards Update* (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurements.* The ASU modifies the disclosure requirements on fair value measurements in Accounting Standards Codification Topic 820. The ASU is effective for all reporting periods beginning after December 15, 2019, with early adoption permitted. An entity may elect to early adopt any removed or modified disclosures upon issuance of this Update and delay the adoption of the additional disclosures until the effective date. The Company has elected to early adopt this ASU; however, it did not have a material effect on the Plan's financial statements.

Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, investment income, and interest income on notes receivable from participants for the years ended December 31, 2019 and 2018, was obtained or derived from information provided to Plan management and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	2019	2018
Level 1:		
Mutual funds	$ 32,479,957	$ 23,788,602
Investments at fair value	$ 32,479,957	$ 23,788,602

Note 5. Rollover Contributions

The Company occasionally acquires businesses across the country as part of their efforts to expand their brand across the nation. Effective as of the dates of those acquisitions, acquired BearCom employees who meet the age requirements set forth in the Plan documents are given the option to have any previously established retirement account balances rolled into the Plan. Additionally, any new employees of the Company not hired through acquisition of a third party business but who meet the age requirements of the Plan are given the option to have any previously established retirement account balances rolled into the Plan.

Related to these circumstances, an aggregate of $3,305,261 and $1,823,081 were rolled into the Plan during the years ended December 31, 2019 and 2018, respectively, and is included in rollovers on the statements of changes in net assets available for benefits.

Note 6. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds provided through Fidelity Management Trust Company. Fidelity Management Trust Company is the record keeper and trustee for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become one hundred percent (100%) vested in their Company contributions.

Note 8. Tax Status

Effective April 11, 2017, the Plan adopted a nonstandardized prototype defined contribution profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Subsequent Events

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through October 7, 2020, the date the financial statements were available to be issued.

Effective May 15, 2020, the Company suspended all employer matching contributions at the discretion of the Board of Directors.

COVID-19

On March 11, 2020, the World Health Organization declared Coronavirus (COVID-19) a pandemic. The extent of the operational and financial impact the COVID-19 pandemic may have on the Plan Sponsor has yet to be determined and is dependent on its duration and spread, any related operational restrictions and the overall economy. The Plan Sponsor is unable to accurately predict how COVID-19 will affect the results of its operations or the Plan because the virus's severity and the duration of the pandemic are uncertain. Potential impacts include, but are not limited to, additional costs for responding to COVID-19, potential shortages of personnel, delays, loss of, or reduction to revenue and overall market decline. Management believes the Plan Sponsor is taking appropriate actions to respond to the pandemic; however, the full impact is unknown and cannot be reasonably estimated at the date the financial statements were available for issuance.

CARES Act

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for certain distributions and loan repayments, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Certain features within these acts were assessed and have been adopted. The Plan adopted the distribution provision of the CARES Act that was signed into law on March 27, 2020. A CARES Act distribution allows the Plan's participants to take a COVID-19 related distribution up to $100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. In addition, the Plan adopted the temporary loan repayment deferral provision of the CARES Act. The deferral provision adopted by the Plan allows qualified Plan participants who have Plan loan repayments to defer such repayments until December 31, 2020. The CARES Act Distributions and Deferments were adopted by the plan subsequent to December 31, 2019.
