Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Dayton Freight Lines, Inc. Employee 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General: The Plan is a defined contribution 401(k) profit sharing plan, which covers substantially all employees of Dayton Freight Lines, Inc. (the Company, the Employer or Plan Sponsor) who have been employed at least three months. Prior to July 1, 2017, Casual Employees were eligible upon one year of employment and earning 1,000 hours of service during the year. Effective July 1, 2017, Casual Employees are now eligible after three months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 50% of their pre-tax annual compensation. Eligible employees are automatically enrolled in the Plan at a minimum of 4% of compensation for new employees and all participating employees will be automatically escalated 1% annually until 6% total deferral election is reached. The Company's matching contributions to the Plan are at its discretion in an amount equal to a percentage of the eligible contributions by each eligible participant during the contribution period. Contributions may be subject to certain limitations under the Internal Revenue Code.

Rollovers: The Plan accepts rollovers from a qualified retirement plan of a prior employer with approval from the Company.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, allocations of the Company's discretionary matching contributions and actual earnings and charged with withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and actual earnings thereon. The Company's matching contributions and actual earnings thereon vest at a rate of 20% per year beginning with the second year and participants are fully vested after six years.

Payment of benefits: Upon retirement, termination of service, times of hardship, or disability, a participant may receive a single lump-sum payment equal to the value of the participant's vested interest in his or her account.

Basis of accounting: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America in accordance with the Financial Accounting Standards Board Accounting Standards Codification.

Note 2. Summary of Significant Accounting Policies

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual amounts could differ from those estimates.

Contributions: Participant contributions are recognized when earned. Employer matching contributions are recognized annually in the period in which they were earned by the participant.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividends and interest income.

Note 2. Summary of Significant Accounting Policies (Continued)

Forfeited accounts: Forfeited, nonvested accounts totaled \$59,875 and \$81,695 at December 31, 2019 and 2018, respectively. The amount used to offset Employer contributions and administrative expenses of the Plan in 2019 totaled \$66,994.

Plan expenses: Substantially all of the Plan's administrative expenses are paid by the Plan Sponsor.

Payments of benefits: Benefits are recorded when paid.

Note 3. Information Certified by the Plan's Trustee

The investment information included throughout the Plan's financial statements and supplemental schedule as of December 31, 2019 and 2018, and for the year ended December 31, 2019, was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustees related to these investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.108-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the Plan's investments.

Fidelity Management Trust Company also certified to the completeness and accuracy of \$26,263,068 of net appreciation in fair value of investments and \$1,023,596 of dividends and interest related to investments for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Dayton Freight Lines, Inc. Employee 401(k) Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds and money market funds: Values derived from quoted market prices in active markets.

Common/collective trusts: Valued based on the net asset value (NAV) of units of the common/collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2019 and 2018, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

	2019

Note 4. Fair Value Measurements (Continued)

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is only applicable to the Plan.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested and the net assets will be distributed to the participants and beneficiaries in proportion to their account balances.

Note 6. Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator evaluated the Plan's tax positions and concluded that there were no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2016.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Related Parties

Certain Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Revenue credits received from the trustee during the year totaled \$7,421 which were used to offset administrative fees paid by the Plan of \$320,469 for the year ended December 31, 2019.

Note 9. Subsequent Event

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Company operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over 70½ can be omitted for 2020.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan's investments and Plan Sponsor. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including expected losses on investments.

Subsequent events have been evaluated through October 7, 2020, the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds and money market funds: Values derived from quoted market prices in active markets.

Common/collective trusts: Valued based on the net asset value (NAV) of units of the common/collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2019 and 2018, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

Note 4. Fair Value Measurements (Continued)

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is only applicable to the Plan.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested and the net assets will be distributed to the participants and beneficiaries in proportion to their account balances.

Note 6. Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator evaluated the Plan's tax positions and concluded that there were no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2016.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Related Parties

Certain Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Revenue credits received from the trustee during the year totaled \$7,421 which were used to offset administrative fees paid by the Plan of \$320,469 for the year ended December 31, 2019.

Note 9. Subsequent Event

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Company operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over 70½ can be omitted for 2020.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan's investments and Plan Sponsor. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including expected losses on investments.

Subsequent events have been evaluated through October 7, 2020, the date the financial statements were available to be issued.
