Note 1 - Plan Description

The following description of Marion General Hospital, Inc. Retirement Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined contribution plan that covers Marion General Hospital, Inc.'s (the "Hospital") employees who meet certain requirements as to length of service and number of hours of service and provides for retirement, death, and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013, the Plan was restated. An amendment to the Plan was approved in December 2014, which amended the Plan effective January 1, 2015 so that no new nonunion employees may enter the Plan and no further contributions will be made to nonunion employees. All nonunion employees are 100 percent vested in their account balances as of December 31, 2014.

Effective December 31, 2018, the Plan was frozen to new union participants and contributions.

Effective December 31, 2019, the Plan merged with another plan sponsored by OhioHealth Corporation, the parent organization and sole voting member of the Hospital. Accordingly, all assets were transferred into the new plan.

Contributions

Prior to December 31, 2018, the Plan provided for employer contributions for union employees based on a percentage of each participant's annual compensation subject to limitations established by the Internal Revenue Code. Union employees were eligible for participation upon completion of one year of service. Entry dates into the Plan were January 1 and July 1 of each year. The Hospital made contributions to the Plan on behalf of each employee who was a participant on the last day of the plan year and had completed the required number of hours of service. The required number of hours of service to be completed was 832. If the requirement for service hours was met, the employer contribution was 5 percent of a participant's annual compensation.

Participant Accounts

Each participant's account was credited with allocations of the Hospital's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations were based on participants' compensation or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Effective December 31, 2018, all participants are 100 percent vested. Prior to December 31, 2018, vesting in the Hospital's contribution portion of its accounts, plus actual earnings thereon, was based on years of service. Upon completion of five years of service, a participant was 100 percent vested in his or her account balance; otherwise, participants were 0 percent vested.

Payment of Benefits

Distributions are payable upon retirement, death, disability, or termination of employment. Distributions are available in the form of a lump-sum amount equal to the vested balance of a participant's account or various annuities over a 10-year period. Distributions in the form of a life annuity are also available. If the value of a participant's account is less than \$5,000 at the time of distribution, the amount will be paid in a single lump sum.

December 31, 2019 and 2018

Note 1 - Plan Description (Continued)

Forfeitures

If a participant was not fully vested on his or her termination date, the nonvested amount of the account was forfeited. Forfeitures are used to reduce hospital contributions. At December 31, 2019 and 2018, there were no forfeited balances.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is a service provider of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Participant Notes Receivable

Effective July 1, 2007, no new loans were allowed under the plan document. Prior to July 1, 2007, under certain conditions, participants could borrow funds from the Plan at market rates of interest. The maximum loan balance was a formula based upon the participant's nonforfeitable account balance. No plan loan may exceed the lesser of \$50,000 or 50 percent of a participant's nonforfeitable account balance.

Termination

The Hospital has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value and valued based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 4 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid out of the Plan and include audit fees, investment fees, trustee fees, and recordkeeping fees.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

December 31, 2019 and 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including August 12, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") held the Plan's investments and participant notes receivable and executed all related transactions during the period under audit. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of reportable transactions are based solely on information certified by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan measures its investments, which consist entirely of mutual funds, at fair value on a recurring basis. The fair value of mutual funds is based primarily on Level 1 inputs, as described above. Assets measured at fair value on a recurring basis at December 31, 2019 and 2018 totaled \$0 and \$21,260,546, respectively.

December 31, 2019 and 2018

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
