Independent Auditors' Report

The Participants and Plan Administrator
Smithfield Foods Salaried Pension Plan
Smithfield, Virginia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Smithfield Foods Salaried Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 5, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that The Bank of New York Mellon/BNY Mellon, N.A. holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2019 and 2018 that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

SMITHFIELD FOODS SALARIED PENSION PLAN

Notes to Financial Statements

December 31, 2019 and 2018

(1) Description of Plan

The following description of the Smithfield Foods Salaried Pension Plan (the Plan) provides general information only. Participants should refer to the Plan agreement for a more complete description of the Plan provisions.

General

The Plan was created effective January 1, 1994, as a result of a merger of the Smithfield Foods, Inc. Pension Plan, Smithfield Packing Company Pension Plan, Gwaltney of Smithfield Ltd. Pension Plan, Patrick Cudahy Incorporated Pension Plan and the Schluderberg Kurdle Company, Inc. Pension Plan. The Plan is a defined benefit plan covering substantially all salaried employees of Smithfield Foods, Inc. (Smithfield) and all affiliated employers who have adopted the Plan (collectively, the Company). Employees must have completed 1,000 hours of service and attained age 21 to participate in the Plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

During 2007, Premium Standard Farms, LLC (PSF) was acquired by Smithfield. Effective January 1, 2008, PSF adopted the Plan and certain employees are now covered by the Plan and were granted past vesting service. Effective December 31, 2009, John Morrell & Co. Salaried Employees Pension Plan merged with the Plan.

The Plan's investments are in the Smithfield Foods Master Trust (the Master Trust). The Master Trust was created to hold investment assets of the Plan as well as investment assets of several other Plans sponsored by Smithfield or its subsidiaries (collectively, the Participating Plans).

During 2019, the Company made a determination to provide alternative payment options, including lump sum payments, to terminated vested participants as of June 30, 2019. Aggregate payments of approximately \$37,000,000 were made during December of 2019 to those participants who elected the lump sum alternative distribution option.

Plan Administration

Overall responsibility for administering the Plan rests with Smithfield. The Smithfield Foods, Inc. Administrative Committee and Investment Committee (the Committees) are responsible for oversight of the Plan, determine the appropriateness of the Plan's investment holdings, monitor investment performance, and control and manage the operation and administration of the Plan. The Committees report directly to the audit committee of the Board of Directors.

SMITHFIELD FOODS SALARIED PENSION PLAN

Notes to Financial Statements

December 31, 2019 and 2018

(1) Description of Plan, Continued

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in the amount required under government regulations, plus amounts necessary to maintain at least an 80% funded status in order to avoid benefit restrictions under the Pension Protection Act. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2019 and 2018.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Generally, employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) based on the number of full years of service, except as otherwise provided, times the sum of (a) 0.8% of final average earnings and (b) 0.9% of final average earnings in excess of Social Security covered compensation. Refer to the Plan documents for minimum and maximum benefit provisions. The Plan permits early retirement at ages 55 to 64 with reduced benefits.

Former participants of John Morrell & Co. Salaried Employees Pension Plan with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the greater of (a) 1.8% of final average earnings times years of credited service (up to 25 years), adjusted for Social Security benefits, or (b) \$180 times years of credited service. The Plan permits early retirement at ages 55 to 64 with reduced benefits.

Death and Disability Benefits

The spouse of an active participant who dies with at least five years of service is eligible for a death benefit. The benefit is payable at early retirement as if the participant had survived to retirement and elected the joint and 50% survivor benefit.

A participant with ten years of service who has reached the age of forty-five and is totally and permanently disabled is eligible for a benefit equal to the normal retirement benefit based on service to termination.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committees determine the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Notes 4 and 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Smithfield Foods Master Trust

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

Net investment income (loss) from the Master Trust includes the Plan's share of interest, dividends, and net realized and unrealized appreciation (depreciation) of the fair value of the Master Trust's investments. Although the investment assets of the Participating Plans are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net investment income (loss) of the Master Trust to the Participating Plans. All interest, dividends, and net appreciation (depreciation) of the Master Trust are allocated in accordance with the Master Trust's investment asset pools.

(2) Summary of Significant Accounting Policies, Continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's administrative expenses are paid by either the Master Trust or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Certain expenses of maintaining the Plan were paid by the Company during 2019 and 2018.

Adopted Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-06, *Plan Accounting: Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 clarifies presentation requirements for a plan's interest in a master trust and requires more detailed disclosures of the plan's interest in the master trust. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018. The Plan has adopted ASU 2017-06 and it was applied retrospectively in the financial statements to all periods presented.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2020, the date the financial statements were available to be issued.

(3) Financial Information Certified by the Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon), the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements. The trustee has certified the following as complete and accurate:

- The investments at fair value at December 31, 2019 and 2018.

(4) Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(4) Fair Value Measurements, Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Plan's interest in the Master Trust: See Note 5 for valuation methodology.

As of December 31, 2019 and 2018, the Plan did not hold investments outside the Master Trust.

(5) Interest in Master Trust (Unaudited)

The Plan invests its plan assets in the Master Trust. The Master Trust was created to hold the investment assets of the Participating Plans. The assets of the Master Trust are held by BNY Mellon as of and for the years ended December 31, 2019 and 2018. The Plan's interest in the net assets of the Master Trust was approximately 39% and 37% at December 31, 2019 and 2018, respectively.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by BNY Mellon, the trustee of the Master Trust, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements.

(5) Interest in Master Trust (Unaudited), Continued

Following is a description of the valuation methodologies used for assets measured at fair value held by the Master Trust.

Common collective trusts: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Limited partnerships: The fair values of the investments in limited partnerships are estimated using the NAV of the Master Trust's ownership interest in partners' capital. For the majority of the limited partnerships, redemptions are not permitted, except those received through distributions, at such time as determined by the partnerships, which are expected through various fund terminations through December 31, 2031.

Registered investment companies: Valued at the daily closing price as reported by the registered investment company. Registered investment companies held by the Master Trust are open end mutual funds that are registered with the Securities and Exchange Commission. These investments are required to publish their daily NAV and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Corporate debt and U.S. government and agency securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings, recently executed transactions, market price quotations (where observable), bond spreads or credit default swap spreads.

Cash equivalents: Valued at the closing price reported on the active market on which the individual securities are traded.

Preferred stock: Represents investments in preferred stock valued at fair value using recent activity for similar instruments.

- (cc) This fund invests in portfolios of private equity partnerships and underlying portfolio companies across leveraged buyout, credit, distressed, growth capital, real asset, and venture capital strategies.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(6) Investment Contract with Insurance Company

The Plan had a fully benefit-responsive group annuity contract with John Hancock Life Insurance Company (John Hancock). The fund balance was disbursed in full during February 2018. John Hancock maintained the contributions in a general account. The account was credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The balance in the general account was guaranteed to never be less than the aggregate contributions made to the account less all expenses, taxes and benefits withdrawn.

(7) Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Participant benefits are based on a set dollar amount multiplied by years of benefit service, as defined in the Plan document.

The actuarial present value of accumulated Plan benefits is determined by the Plan's independent actuary, Mercer Human Resource Consulting, and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions underlying the valuations as of January 1, 2019 and 2018 were as follows:

Rate of return	6.50%
Discount rate	4.47%
Mortality:	
Healthy Participants:

(7) Actuarial Present Value of Accumulated Plan Benefits, Continued

The actuarial present value of accumulated Plan benefits is as follows as of January 1:

	2019	2018
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Active participants	\$ 241,565,690	\$ 224,267,169
Inactive participants with deferred benefits	71,744,583	62,184,379
Inactive participants receiving benefits	216,020,501	204,340,696
	529,330,774	490,792,244
Nonvested benefits	14,678,493	13,918,518
Total actuarial present value of accumulated plan benefits	\$ 544,009,267	\$ 504,710,762

The change in the actuarial present value of accumulated Plan benefits is as follows for the years ended January 1:

	2019	2018
Actuarial present value of accumulated plan benefits at beginning of year	\$ 504,710,762	\$ 440,293,496
Increase (decrease) during the year attributable to:		
Benefits accumulated and losses	32,796,975	27,456,498
Increase for interest due to decrease in discount period	31,985,732	29,976,525
Benefits paid	(23,303,226)	(22,259,864)
Change in actuarial assumptions	(2,180,976)	29,244,107
Net increase	39,298,505	64,417,266
Actuarial present value of accumulated plan benefits at end of year	\$ 544,009,267	\$ 504,710,762

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2019 and 2018. Had the valuations been performed as of December 31, there would be no material differences.

(8) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

(9) Tax Status

The Internal Revenue Service has determined and informed Smithfield by a letter dated December 5, 2017, that the Plan and related trust are designed in accordance with applicable requirements of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(10) Related Party and Party-In-Interest Transactions

The Plan invests in the Master Trust, which is managed by Smithfield. The Master Trust invests in a money market fund managed by the trustee and common stock of the trustee.

The Master Trust pays fees to various parties-in-interest on behalf of the Participating Plans. Fees paid to parties-in-interest for 2019 and 2018 were as follows:

	2019	2018
Investment management	\$7,640,266	\$ 6,605,067
Consulting	47,290	41,074
	<u>\$7,687,556</u>	<u>\$ 6,646,141</u>

(11) Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(12) Subsequent Event

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the COVID-19 outbreak). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the values of the Plan's investments have and will fluctuate in response to the changing market conditions, and the amount of losses, if any, that will be recognized in subsequent periods cannot be determined. The value of the Plan's investments has a direct impact on its funded status. As a result of such declines in market value and possible changes to the actuarial assumptions used in determining the present value of accumulated plan benefits, the Company may need to make greater cash contributions to fund the Plan. Based on the Plan's funded percentage, there may be certain benefit limitations imposed. However, the actual impact, if any, on future required contributions, Plan liquidity, and benefit limitations cannot be determined at this time.

• Social Security wage base	3.00% per year Rationale: This assumption is based on inflation plus estimated real wage increases in the U.S. economy (75 bps).	
• Inflation	2.25% per year Rationale: This assumption is based on the long-term expectations for inflation published in Mercer Investment Consulting's Capital Market Outlook (2.20%) rounded up to the nearest 25 basis points.	
• Expected investment return	6.50% per year for year 2019, 6.50% per year for year 2018 and 7.00% per year for year 2017 Rationale: The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Market Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for expenses assumed to be paid from plan assets.	
• Expenses	\$0 added to current year normal cost Rationale: Administration expenses are not paid from plan assets.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** Historically, the plan has insurance products through John Hancock for certain legacy participants of previous John Morrell Salaried locations; however, these contracts were terminated February 9, 2018.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

¹ Disability terminations are taken into account in the retirement rates after age 64.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated December 31, 2018, are included in this valuation:

- Most recent plan amendments included:** All amendments through December 31, 2019 have been reflected in this valuation.
- Plan amendments excluded:** None
- Late retirement increases:**
 - Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-

and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2018 to 2019.
