Lincoln Financial Group ("Lincoln", "Trustee") serves as the Trustee. The plan was last amended as of January 1, 2019.

Eligibility

All permanent, non-salaried employees who are included under the collective bargaining agreement (the "Agreement") and have completed one year of service are eligible to participate in the Plan. A year of service requires at least 1,000 hours of service during any Plan year on the basis of actual hours for which an employee is paid or entitled to payment. Leased employees are not allowed to participate in the Plan. Entry dates are on the first day of the month coinciding with or following the date an employee completes the eligibility requirement.

Contributions

The Plan provides for pre-tax employee contributions up to 100% of eligible compensation, as defined in the Plan agreement, not to exceed the maximum amount allowable under the Internal Revenue Code ("IRC"). The Plan provides for a matching contribution of 50% of the participant's contribution into the Plan up to 6% of the participant's gross wages.

Investment Options

A participant may direct investment of their funds which have been contributed through salary deferral into one of the investment options or a combination of them. Company contributions are allocated in the same proportion as participant contributions.

Investment options available include various mutual funds and an investment contract with the Trustee.

Participant Accounts

Each participant's account is credited with the participant's contributions, the participant's allocable share of investment earnings or losses from the Plan, and an allocation of the Company's contributions. Allocations of investment earnings or losses are based on the ratio of each participant's account balance to the total Plan account balances for all participants for those investments.

Forfeitures

Forfeitures may be used to reduce future employer contributions. At December 31, 2019 and 2018, there were no unused forfeited non-vested accounts. For the year ended December 31, 2019, \$6,052 of forfeitures were used to reduce employer contributions.

Vesting

Participants are immediately vested in their salary deferral and voluntary contributions plus or minus any earnings or losses thereon. Participants vest in Company contributions at the rate of 20% per year of service, beginning after the second year, until fully vested after six years in the Plan.

All participants become fully vested upon retirement, death, permanent and total disability, or termination of the Plan.

Plan Termination

The Company has not expressed any intent to terminate the Plan. Under the Agreement, the Company must maintain the Plan for the term of the Agreement. The previous agreement was effective until November 30, 2018 and the new agreement is effective beginning December 1, 2018. Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue contributions and to terminate the Plan at any time, subject to provisions of ERISA, by action of its Advisory board. If the Plan is terminated, each participant would become 100% vested in the Plan Sponsor contributions.

Withdrawals and Benefit Payments

Participants or their designated beneficiary receive 100% of their individual account balance upon retirement, death, or disability.

Participants who have not separated from service may withdraw all or part of their voluntary contributions and earnings thereon in the event of a defined hardship.

Distributions are made in cash in the form of a lump-sum payment if the vested balance is less than \$5,000. For accounts over \$5,000, cash payments may be in the form of lump-sum or installment payments.

Notes Receivable from Participants

Participants may have a maximum of one loan outstanding at a time. Participants may borrow a minimum of \$1,000 and a maximum of the lesser of \$50,000 or 50% of the vested interest in the participant's account. The non-residential loan maximum payment period is five years, and the residential loan maximum payment period is 15 years. Loans are repaid via payroll deductions. Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their principal plus any accrued, unpaid interest. Deemed loans are reclassified as distributions based upon the terms of the Plan agreement. The loans are secured by the balance in the participant's account and bear interest equal to the quarterly prime interest rate adjusted by 1%. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Optimus Industries Collective Bargaining Unit Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the Lincoln Financial Group Stable Value Account, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note D for further discussion of investment fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

Distributions Paid to Participants

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan Administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations and Disclosure under ERISA. Accordingly, Lincoln Financial Group has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments at fair value and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2019 and 2018;
- Net investment income and interest on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2019; and
- The supplemental schedule H, line 4i - schedule of assets (held at end of year).

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D - FAIR VALUE MEASUREMENTS

The framework used for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2019 and 2018. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at fair value based on published market prices as of the close of business on the last business day of the Plan year, which represents the net asset value ("NAV") of shares held by the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total net assets at fair value				<u>\$ 3,802,157</u>

There were no transfers between levels of assets during the years ended December 31, 2019 and 2018.

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive investment contract (the "GIC") with Lincoln Financial Group. The GIC gives the right to earn the rates of interest that were periodically declared and guaranteed on amounts deposited in the GIC. Lincoln maintains the contributions to the GIC in a collective trust fund, which is credited daily with interest calculated on the amounts a participant has outstanding in their account. Current interest rates are calculated periodically but will never be less than the lifetime minimum guaranteed interest rate. Withdrawals for participant benefits are permitted as specified in the contract and are not subject to any market value adjustment.

Investments in the accompanying statements of net assets available for benefits include fully benefit-responsive investment contracts recognized at contract value. Contract value represents net contributions plus crediting interest, less funds used to pay terminated participants. Crediting interest rates are based on an external index and are adjusted to market quarterly. The contract does not specify any events which would limit the ability of the Plan to transact at contract value with the issuer, or any events which would allow the issuer to terminate the contract and settle for an amount different from contract value. The crediting interest rate is based on a formula agreed upon with the issuer and is guaranteed for five contract years. The Plan entered into a fixed annuity contract with Lincoln Financial Group with a guaranteed interest rate of 1.0%.

The investment contract with Lincoln Financial Group was included in the Investments, at fair value line item of the statements of net assets available for plan benefits and disclosed at NAV in the fair value table in Note D in the December 31, 2018 financial statements.

NOTE F - FEDERAL INCOME TAX STATUS

The Company adopted a master prototype plan in November 2009. This master prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014. The Plan administrator believes that the master prototype plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt for the years ended December 31, 2019 and 2018. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

NOTE G – RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee and Record-keeper. Therefore, these transactions qualify as party-in-interest transactions. The transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC. The Plan has notes receivable from certain of its participants. These transactions also qualify as party-in-interest transactions, as defined by ERISA. Additionally, the Company provides certain administrative services at no cost to the plan.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 9, 2020, the date the financial statements were available to be issued. In December 2019, an outbreak of coronavirus ("COVID-19") occurred globally causing significant fluctuations in financial markets. In March 2020, the World Health Organization declared the outbreak of COVID-19 as a pandemic, which continues to spread throughout the United States. The spread of COVID-19 has caused significant volatility in U.S. and international markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on the U.S and international economies, and as such, the Plan is unable to determine if it will have a material impact to its operations or performance.
