Note 1 - Plan Description

The following description of Jupiter I, L.L.C. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on March 1, 1989 and most recently restated on July 1, 2018. The Plan is available to all employees age 18 years or older who have completed one month of service. The entry date for eligible participants is the first day of the month following obtaining eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Management of Jupiter I, L.L.C. (the "Company") administers the Plan. Principal Life Insurance Company (Principal Life); Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Principal Trust); and Principal Life Insurance Company, on behalf of Principal Global Investors Trust Company (Principal Global) (collectively, the "Custodians") serve as the Custodians, manage plan assets, and maintain the Plan's records. The Custodians offer plan participants a variety of investment options. Individual accounts are invested in the various investment options at the direction of the participants.

Note 2 - Plan Provisions and Summary of Significant Accounting Policies

Contributions

Participants may make before-tax contributions up to 100 percent of their annual eligible compensation, as limited by the Internal Revenue Service (IRS), which is adjusted annually by the secretary of the Treasury for inflation. This maximum percentage may be reduced by the plan administrator in certain circumstances. Eligible employees who have reached age 50 during the plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. There is an automatic elective deferral contribution of 2 percent, unless otherwise elected by each participant.

The Company will make a matching contribution of 50 percent of elective deferrals up to 3 percent of eligible compensation. Matching contributions are funded each pay period. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are nonforfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½.

The Company makes wage rate contributions equal to the fringe benefit amount determined in accordance with the prevailing rate schedule for each employee reduced by contributions made to other plans that count toward satisfying the fringe rate stated in the prevailing wage schedule.

Participants are eligible to defer on an after-tax basis through regular payroll deductions from 0 percent to 100 percent of eligible compensation as Roth 401(k) contributions. Provided requirements are met, withdrawals of contributions and any earnings are tax free to the participant. A participant's combined pretax and after-tax contributions cannot exceed the maximum annual amount allowed by law.

Certain participant contributions in 2016 and 2018 were paid after the time frame required by the Department of Labor. The Company remitted these contributions and related to lost earnings to the Plan in 2020.

Participants' Accounts

Each participant's account is credited or charged with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, plan earnings or losses, and plan expenses. Allocations are based upon plan earnings or losses and account balances, as defined by the plan document. The benefit to which a participant is entitled is the vested portion of the participant's account.

December 31, 2019 and 2018**Note 2 - Plan Provisions and Summary of Significant Accounting Policies
(Continued)*****Vesting***

Participants are 100 percent vested in their voluntary contributions, rollover contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 1	0%
1 or more	100%

A participant's account becomes 100 percent vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the plan year during which the participant entered the Plan) while an employee, retirement due to disability, or termination of the Plan.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances. Participants may have a maximum of two notes receivable outstanding at any given time. The notes are secured by the balances in the participants' accounts and bear interest at rates that range from 5.25 to 7.50 percent, which are commensurate with local prevailing rates determined quarterly by the plan administrator at note origination, and mature at various dates through September 2047. Notes have a maximum term of five years, unless such note is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 30 years from the date of the note origination. Principal and interest are paid ratably through payroll deductions. Participant notes receivable are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's note shall continue to be payable in accordance with the provisions of the participant's note or be due in full.

Benefit Payments

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump-sum payment in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the plan sponsor. The Plan allows in-plan Roth conversions. Furthermore, the Plan allows for terminated participant vested account balances of \$5,000 or less to be automatically distributed out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100 percent vested, the nonvested portion (forfeitures) of the participant's account shall be placed in a separate account. Forfeitures can be used to pay plan expenses and to reduce future company matching contributions. Forfeitures in the amount of \$20,416 were applied to reduce employer contributions during the year ended December 31, 2019. The balance of this account at December 31, 2019 and 2018 was \$90 and \$386, respectively, recorded in total investments at fair value on the statement of net assets available for benefits.

December 31, 2019 and 2018

**Note 2 - Plan Provisions and Summary of Significant Accounting Policies
(Continued)**

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policy utilizing information provided by the investment advisers, appoints the investment managers, and monitors the performance of the Plan's investment funds.

Pooled separate accounts and common collective trust funds are valued as a practical expedient at net asset value (NAV) of units held by the Plan at year end based on the quoted market prices of the securities underlying the investments.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

The valuation technique used to measure fair value of the unallocated insurance contract is determined by Principal Life Insurance Company based on the amounts participants would receive if they were to withdraw or transfer funds prior to their maturity, market rates and current crediting rates, and contractual agreements with Principal. The fair value of the unallocated insurance contract represents contract value, adjusted to reflect current market interest rates only, to the extent such market rates exceed crediting interest rates. Principal maintains the contributions in a general account that is credited with earnings and charged for withdrawals and administrative expenses.

Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 5, 2020, which is the date the financial statements were available to be issued.

Subsequent to year end, the Plan was amended in April of 2020 in accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) act to allow for additional loans to be taken in a 12-month period.

Note 3 - Assets Certified by the Custodians

Principal Life, Principal Trust, and Principal Global hold the Plan's investments assets and execute all investment transactions. The investment balances and related income and losses included in the accompanying financial statements and schedule of assets held at end of year are based solely on information certified by Principal Life; Principal Trust; and Principal Life, on behalf of Principal Global.

Notes to Financial Statements

December 31, 2019 and 2018

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2019

- (1) Investments measured at net asset value have not been classified in the fair value hierarchy. The amounts presented in this table are intended to permit reconciliation to total investments on the statement of net assets available for benefits.

There were no changes to the valuation techniques used during the period.

Reported Net Asset Value

As of December 31, 2019 and 2018, the Plan's investments included pooled separate accounts and common collective trust funds. The pooled separate accounts are recorded at the net asset value of the investments comprising the separate funds, the majority of which have observable Level 1 pricing inputs, which include publicly quoted prices and quoted prices for similar assets in active or nonactive markets (market approach). These funds are redeemable on a daily basis and have no unfunded commitments. Pooled separate accounts do not have publicly traded share prices. The valuation technique used to measure the fair value of the collective investment trust funds is valued at NAV of units of the investment contract. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2019:

	Unallocated Insurance Contract
Balance at January 1, 2019	\$ 13,489
Total gains or losses (realized/unrealized) included in earnings	72
Interest earned	29
Sales	(10,378)
Balance at December 31, 2019	\$ 3,212

December 31, 2019 and 2018**Note 5 - Corrective Distributions**

Benefits paid directly to participants and beneficiaries in 2019 include \$37,819 in payments made in July 2020 to return excess deferral contributions to participants, as required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are also included in the Plan's statement of net assets available for benefits at December 31, 2019 as corrective distributions payable.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100 percent vested, and the plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Party-in-interest Transactions

The Company provides administrative services to the Plan in accordance with the plan agreement and does not charge the Plan a fee for these services.

Certain plan investments are pooled separate accounts, common collective trusts, and an unallocated insurance contract, which are managed by Principal Life, Principal Trust, Principal Global, and their affiliates. Principal, Principal Trust, and Principal Global are the Custodians, as defined in the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for notes to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 8 - Income Taxes

Generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service dated August 8, 2014 indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 9 - Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 and 2018 to Form 5500:
