Report on the Financial Statements

We have audited the accompanying financial statements of The Sanson Company Employee Stock Ownership Plan and Trust, which comprise the statement of net assets (deficit) available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets (deficit) available for benefits for the years ended December 31, 2019 and 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets (deficit) available for benefits of the Plan as of December 31, 2019 and 2018, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year for the year ended December 31, 2019 is presented for the purpose of additional analysis and are not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

1 Description of Plan

The following description of The Sanson Company Employee Stock Ownership Plan and Trust ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Sanson Company ("Company") established the Plan effective as of January 1, 2018 and operates, in relevant part, as a leveraged employee stock ownership plan ("ESOP"). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an outside Trustee.

On January 1, 2018, the Plan purchased 6,072 shares of the Company's common stock from an existing shareholder with a loan of \$9,900,000.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2019 and 2018, and for the year ended December 31, 2019 and 2018, present separately the assets and liabilities and changes therein pertaining to:

- a. the accounts of employees with rights in allocated common stock (allocated), and
- b. common stock not yet allocated to employees (unallocated).

Eligibility:

All employees of the Company age twenty and older and who are employed for six months are eligible to participate in the Plan except (i) Employees who are members of a collective bargaining unit that bargains with the Employer as to the terms and conditions of employment, including retirement benefits, (ii) Employees who are nonresident aliens with no U.S. source income, and (iii) Leased Employees, unless it is necessary for Leased Employees to participate.

Contributions:

The Company may make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Participants' Account:

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account, forfeitures of terminated participants' non-vested accounts, investment gains or losses, less any distributions from the participant's account. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

1 Description of Plan, Continued

Participants' Account, Continued:

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting:

All participants are vested over a six-year period with participants vesting 20% each year from years two through six.

Forfeitures:

Any portion of a participant's account that is forfeited shall be held by the Trustee until the participation date in the Plan year next following the Plan year in which the forfeiture occurs, at which time the value of such forfeited portion as of the most recent valuation date shall be used first to restore any previously forfeited amounts, and next to correct any allocations as provided in the Plan Document. Any remaining forfeited amounts of Employer contributions shall be allocated among participants entitled to an allocation of Employer contributions.

Payment of Benefits:

Upon termination of service by reason of retirement, death or total and permanent disability, a participant receives a lump sum amount equal to the value of his or her account. If the participant's balance is under \$10,000, they may receive a lump sum, and if a participant's balance is over \$10,000, it is paid out over five years.

Diversification:

A participant may elect, within the period beginning on the first day after the close of each Plan year in the Qualified Diversification Election Period and ending no later than 90 days after the date the value of the Employer Stock subject to the diversification election is provided to the participant, to direct the Trustee to establish a subaccount within his account in order to diversify a portion of his account ("Diversification Subaccount") and to direct the Trustee as to the investment of the diversification subaccount in assets other than Company stock. The amount of assets to be allocated to a qualified participant's diversification subaccount shall be designated by the participant, but shall not be in excess of the value of 25% of his Company stock subaccount. In the case of the last year of the qualified diversification election period, the preceding sentence shall be applied by substituting 50% for 25% wherever such percentage appears in the sentence. Any diversification subaccount established hereunder shall be credited and debited with the actual earnings, gains and losses of the investments held therein and shall not share in the allocation of the earnings, gains and losses of the balance of the trust assets.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

1 Description of Plan, Continued

Voting Rights:

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Put Option:

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are stated at fair value. The shares of the Company stock are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by an independent valuation specialist.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation / (depreciation) includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Company.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

2 Summary of Significant Accounting Policies, Continued

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Risks and Uncertainties:

The Plan's investment in the Company common stock has varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with the Company common stock, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Benefit Payments:

Benefits are recorded when paid.

Allocations:

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are generally released from collateral and become allocated in the period in which debt service is actually paid.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 24, 2020, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements:

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). The new standard removes or modifies certain existing disclosure requirements and adds additional disclosure requirements related to fair value measurement. The Plan elected to early adopt ASU 2018-13 for the year ended December 31, 2019. The effect of the adoption is an overall reduction in disclosures related to fair value measurement.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

3 Investments

The Plan's investments, at December 31, 2019 and 2018, is presented in the following table:

	December 31 2019		December 31 2018	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	607.20	5,464.80	303.60	5,768.40
Price per share	\$ 1,261	\$ 1,261	\$ 1,240	\$ 1,240
Cost	\$ 990,000	\$ 8,910,000	\$ 495,000	\$ 9,405,000
Estimated fair value	\$ 765,679	\$ 6,891,113	\$ 376,464	\$ 7,152,816

4 Tax Status

Management has applied for a determination letter with the Internal Revenue Service. The Plan Administration believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2019, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

5 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

5 Fair Value Measurements, Continued

- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value.

Common Stock:

The fair value of the Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior year. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and fair value of Company assets and liabilities.

The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves the Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. These instruments are classified within Level 3 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3
Common Stock	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,656,792</u>
			<u>\$ 7,656,792</u>

Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3
Common Stock	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,529,280</u>
			<u>\$ 7,529,280</u>

There were no purchases or sales of level 3 investments in 2019 and purchases of \$9,900,000 in 2018.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

6 Party-in-Interest and Related Party Transactions

Certain professional fees for the administration, trustee, appraisal services and audit of the Plan were paid by the Company. Mark Mills of Mills, Potoczak & Company is the Trustee, as defined by the Plan and Zabarsky and Associates is the Recordkeeper/TPA of the Plan. Both of these qualify as parties-in-interest. In addition, The Sanson Company stock is held by the Plan and considered a related party to the Plan.

7 Loan Payable

In 2018, the Plan entered into a \$9,900,000 term loan agreement with an existing shareholder and the proceeds of the loan were used to purchase Company common stock from the shareholder's trust. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over twenty years. The loan bears interest at 5%. The annual principal and interest payment is \$759,475 each year for the next twenty years. The ending balance of the term loan was \$8,887,948 (2019) and \$9,178,498 (2018).

Report on the Financial Statements

We have audited the accompanying financial statements of The Sanson Company Employee Stock Ownership Plan and Trust, which comprise the statement of net assets (deficit) available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets (deficit) available for benefits for the years ended December 31, 2019 and 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets (deficit) available for benefits of the Plan as of December 31, 2019 and 2018, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year for the year ended December 31, 2019 is presented for the purpose of additional analysis and are not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

1 Description of Plan

The following description of The Sanson Company Employee Stock Ownership Plan and Trust ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Sanson Company ("Company") established the Plan effective as of January 1, 2018 and operates, in relevant part, as a leveraged employee stock ownership plan ("ESOP"). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an outside Trustee.

On January 1, 2018, the Plan purchased 6,072 shares of the Company's common stock from an existing shareholder with a loan of \$9,900,000.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2019 and 2018, and for the year ended December 31, 2019 and 2018, present separately the assets and liabilities and changes therein pertaining to:

- a. the accounts of employees with rights in allocated common stock (allocated), and
- b. common stock not yet allocated to employees (unallocated).

Eligibility:

All employees of the Company age twenty and older and who are employed for six months are eligible to participate in the Plan except (i) Employees who are members of a collective bargaining unit that bargains with the Employer as to the terms and conditions of employment, including retirement benefits, (ii) Employees who are nonresident aliens with no U.S. source income, and (iii) Leased Employees, unless it is necessary for Leased Employees to participate.

Contributions:

The Company may make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Participants' Account:

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account, forfeitures of terminated participants' non-vested accounts, investment gains or losses, less any distributions from the participant's account. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

1 Description of Plan, Continued

Participants' Account, Continued:

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting:

All participants are vested over a six-year period with participants vesting 20% each year from years two through six.

Forfeitures:

Any portion of a participant's account that is forfeited shall be held by the Trustee until the participation date in the Plan year next following the Plan year in which the forfeiture occurs, at which time the value of such forfeited portion as of the most recent valuation date shall be used first to restore any previously forfeited amounts, and next to correct any allocations as provided in the Plan Document. Any remaining forfeited amounts of Employer contributions shall be allocated among participants entitled to an allocation of Employer contributions.

Payment of Benefits:

Upon termination of service by reason of retirement, death or total and permanent disability, a participant receives a lump sum amount equal to the value of his or her account. If the participant's balance is under \$10,000, they may receive a lump sum, and if a participant's balance is over \$10,000, it is paid out over five years.

Diversification:

A participant may elect, within the period beginning on the first day after the close of each Plan year in the Qualified Diversification Election Period and ending no later than 90 days after the date the value of the Employer Stock subject to the diversification election is provided to the participant, to direct the Trustee to establish a subaccount within his account in order to diversify a portion of his account ("Diversification Subaccount") and to direct the Trustee as to the investment of the diversification subaccount in assets other than Company stock. The amount of assets to be allocated to a qualified participant's diversification subaccount shall be designated by the participant, but shall not be in excess of the value of 25% of his Company stock subaccount. In the case of the last year of the qualified diversification election period, the preceding sentence shall be applied by substituting 50% for 25% wherever such percentage appears in the sentence. Any diversification subaccount established hereunder shall be credited and debited with the actual earnings, gains and losses of the investments held therein and shall not share in the allocation of the earnings, gains and losses of the balance of the trust assets.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

1 Description of Plan, Continued

Voting Rights:

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Put Option:

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are stated at fair value. The shares of the Company stock are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by an independent valuation specialist.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation / (depreciation) includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Company.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

2 Summary of Significant Accounting Policies, Continued

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Risks and Uncertainties:

The Plan's investment in the Company common stock has varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with the Company common stock, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Benefit Payments:

Benefits are recorded when paid.

Allocations:

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are generally released from collateral and become allocated in the period in which debt service is actually paid.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 24, 2020, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements:

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). The new standard removes or modifies certain existing disclosure requirements and adds additional disclosure requirements related to fair value measurement. The Plan elected to early adopt ASU 2018-13 for the year ended December 31, 2019. The effect of the adoption is an overall reduction in disclosures related to fair value measurement.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

3 Investments

The Plan's investments, at December 31, 2019 and 2018, is presented in the following table:

	December 31 2019		December 31 2018	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	607.20	5,464.80	303.60	5,768.40
Price per share	\$ 1,261	\$ 1,261	\$ 1,240	\$ 1,240
Cost	\$ 990,000	\$ 8,910,000	\$ 495,000	\$ 9,405,000
Estimated fair value	\$ 765,679	\$ 6,891,113	\$ 376,464	\$ 7,152,816

4 Tax Status

Management has applied for a determination letter with the Internal Revenue Service. The Plan Administration believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2019, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

5 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

5 Fair Value Measurements, Continued

- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value.

Common Stock:

The fair value of the Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior year. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and fair value of Company assets and liabilities.

The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves the Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. These instruments are classified within Level 3 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Common Stock	\$ -	\$ -	\$ 7,656,792	\$ 7,656,792

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Common Stock	\$ -	\$ -	\$ 7,529,280	\$ 7,529,280

There were no purchases or sales of level 3 investments in 2019 and purchases of \$9,900,000 in 2018.

NOTES TO FINANCIAL STATEMENTS

The Sanson Company Employee Stock Ownership Plan and Trust

6 Party-in-Interest and Related Party Transactions

Certain professional fees for the administration, trustee, appraisal services and audit of the Plan were paid by the Company. Mark Mills of Mills, Potoczak & Company is the Trustee, as defined by the Plan and Zabarsky and Associates is the Recordkeeper/TPA of the Plan. Both of these qualify as parties-in-interest. In addition, The Sanson Company stock is held by the Plan and considered a related party to the Plan.

7 Loan Payable

In 2018, the Plan entered into a \$9,900,000 term loan agreement with an existing shareholder and the proceeds of the loan were used to purchase Company common stock from the shareholder's trust. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over twenty years. The loan bears interest at 5%. The annual principal and interest payment is \$759,475 each year for the next twenty years. The ending balance of the term loan was \$8,887,948 (2019) and \$9,178,498 (2018).
